#	ARTICLE	IF	CITATIONS
1	Cholesterol absorption blocker ezetimibe prevents muscle wasting in severe dysferlin-deficient and mdx mice. <i>Journal of Cachexia, Sarcopenia and Muscle</i> , 2022, 13, 544-560.	2.9	15
2	Pleiotropic activation of endothelial function by angiotensin II receptor blockers is crucial to their protective anti-vascular remodeling effects. <i>Scientific Reports</i> , 2022, 12, .	1.6	7
3	Effects of Low-Load/High-Repetition Resistance Training on Exercise Capacity, Health Status, and Limb Muscle Adaptation in Patients With Severe COPD. <i>Chest</i> , 2021, 159, 1821-1832.	0.4	20
4	Neutrophils and IL-1 β Regulate Surfactant Homeostasis during Cigarette Smoking. <i>Journal of Immunology</i> , 2021, 206, 1923-1931.	0.4	6
5	Blood pressure-independent inhibition of Marfan aortic root widening by the angiotensin II receptor blocker valsartan. <i>Physiological Reports</i> , 2021, 9, e14877.	0.7	4
6	Effect of Dysferlin Deficiency on Atherosclerosis and Plasma Lipoprotein Composition Under Normal and Hyperlipidemic Conditions. <i>Frontiers in Physiology</i> , 2021, 12, 675322.	1.3	5
7	Revisiting the role of pulmonary surfactant in chronic inflammatory lung diseases and environmental exposure. <i>European Respiratory Review</i> , 2021, 30, 210077.	3.0	22
8	Critical importance of dietary methionine and choline in the maintenance of lung homeostasis during normal and cigarette smoke exposure conditions. <i>American Journal of Physiology - Lung Cellular and Molecular Physiology</i> , 2020, 319, L391-L402.	1.3	4
9	Angiotensin II receptor blocker losartan exacerbates muscle damage and exhibits weak blood pressure-lowering activity in a dysferlin-null model of Limb-Girdle muscular dystrophy type 2B. <i>PLoS ONE</i> , 2019, 14, e0220903.	1.1	10
10	Sildenafil Prevents Marfan-Associated Emphysema and Early Pulmonary Artery Dilation in Mice. <i>American Journal of Pathology</i> , 2019, 189, 1536-1546.	1.9	10
11	Pharmacological activation of liver X receptor during cigarette smoke exposure adversely affects alveolar macrophages and pulmonary surfactant homeostasis. <i>American Journal of Physiology - Lung Cellular and Molecular Physiology</i> , 2019, 316, L669-L678.	1.3	12
12	Inhibition of Marfan-associated Aortic Root Dilation by Angiotensin II Receptor Blockers May Be Independent of Blood Pressure Lowering. <i>FASEB Journal</i> , 2019, 33, 679.6.	0.2	0
13	Increased nonHDL cholesterol levels cause muscle wasting and ambulatory dysfunction in the mouse model of LGMD2B. <i>Journal of Lipid Research</i> , 2018, 59, 261-272.	2.0	24
14	Inhibition of Marfan Syndrome Aortic Root Dilation by Losartan. <i>American Journal of Pathology</i> , 2018, 188, 574-585.	1.9	50
15	Increased plasma lipid levels exacerbate muscle pathology in the mdx mouse model of Duchenne muscular dystrophy. <i>Skeletal Muscle</i> , 2017, 7, 19.	1.9	42
16	Recombinant human β -defensin 2 delivery improves smoking-associated lung neutrophilia and bacterial exacerbation. <i>American Journal of Physiology - Lung Cellular and Molecular Physiology</i> , 0, , .	1.3	3
