#	ARTICLE	IF	CITATIONS
1	Estimating the sample mean and standard deviation from commonly reported quantiles in meta-analysis. <i>Statistical Methods in Medical Research</i> , 2020, 29, 2520-2537.	1.5	366
2	Gender differences in depression and anxiety across the adult lifespan: the role of psychosocial mediators. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2008, 43, 983-998.	3.1	285
3	The psychosocial quality of work determines whether employment has benefits for mental health: results from a longitudinal national household panel survey. <i>Occupational and Environmental Medicine</i> , 2011, 68, 806-812.	2.8	247
4	Accuracy of the PHQ-2 Alone and in Combination With the PHQ-9 for Screening to Detect Major Depression. <i>JAMA - Journal of the American Medical Association</i> , 2020, 323, 2290.	7.4	242
5	Validity of the mental health component scale of the 12-item Short-Form Health Survey (MCS-12) as measure of common mental disorders in the general population. <i>Psychiatry Research</i> , 2007, 152, 63-71.	3.3	241
6	The Prevalence of Mild Cognitive Impairment in Diverse Geographical and Ethnocultural Regions: The COSMIC Collaboration. <i>PLoS ONE</i> , 2015, 10, e0142388.	2.5	225
7	Financial hardship, socio-economic position and depression: Results from the PATH Through Life Survey. <i>Social Science and Medicine</i> , 2009, 69, 229-237.	3.8	223
8	A Population-Based Study of Attention Deficit/Hyperactivity Disorder Symptoms and Associated Impairment in Middle-Aged Adults. <i>PLoS ONE</i> , 2012, 7, e31500.	2.5	201
9	Mental health problems among single and partnered mothers. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2007, 42, 6-13.	3.1	195
10	Cohort Profile: The PATH through life project. <i>International Journal of Epidemiology</i> , 2012, 41, 951-960.	1.9	195
11	Western diet is associated with a smaller hippocampus: a longitudinal investigation. <i>BMC Medicine</i> , 2015, 13, 215.	5.5	188
12	The validity of the SF-36 in an Australian National Household Survey: demonstrating the applicability of the Household Income and Labour Dynamics in Australia (HILDA) Survey to examination of health inequalities. <i>BMC Public Health</i> , 2004, 4, 44.	2.9	185
13	The association between mental disorders and suicide: A systematic review and meta-analysis of record linkage studies. <i>Journal of Affective Disorders</i> , 2019, 259, 302-313.	4.1	176
14	Equivalency of the diagnostic accuracy of the PHQ-8 and PHQ-9: a systematic review and individual participant data meta-analysis. <i>Psychological Medicine</i> , 2020, 50, 1368-1380.	4.5	175
15	Retirement and mental health: Analysis of the Australian national survey of mental health and well-being. <i>Social Science and Medicine</i> , 2006, 62, 1179-1191.	3.8	173
16	Memory complaints in a community sample aged 60-64 years: associations with cognitive functioning, psychiatric symptoms, medical conditions, APOE genotype, hippocampus and amygdala volumes, and white-matter hyperintensities. <i>Psychological Medicine</i> , 2004, 34, 1495-1506.	4.5	172
17	Mental health affects future employment as job loss affects mental health: findings from a longitudinal population study. <i>BMC Psychiatry</i> , 2013, 13, 144.	2.6	163
18	APOE genotype and cognitive functioning in a large age-stratified population sample.. <i>Neuropsychology</i> , 2007, 21, 1-8.	1.3	143

#	ARTICLE	IF	CITATIONS
19	The Role of Perceived Control in Explaining Depressive Symptoms Associated With Driving Cessation in a Longitudinal Study. <i>Gerontologist, The</i> , 2007, 47, 215-223.	3.9	135
20	A population survey found an association between self-reports of traumatic brain injury and increased psychiatric symptoms. <i>Journal of Clinical Epidemiology</i> , 2004, 57, 1202-1209.	5.0	132
21	The lesser evil: Bad jobs or unemployment? A survey of mid-aged Australians. <i>Social Science and Medicine</i> , 2006, 63, 575-586.	3.8	126
22	Poor mental health influences risk and duration of unemployment: a prospective study. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2012, 47, 1013-1021.	3.1	126
23	Does reverse causality explain the relationship between diet and depression?. <i>Journal of Affective Disorders</i> , 2015, 175, 248-250.	4.1	125
24	Does methamphetamine use increase violent behaviour? Evidence from a prospective longitudinal study. <i>Addiction</i> , 2014, 109, 798-806.	3.3	121
25	Age-related cognitive decline and associations with sex, education and apolipoprotein E genotype across ethnocultural groups and geographic regions: a collaborative cohort study. <i>PLoS Medicine</i> , 2017, 14, e1002261.	8.4	120
26	Dietary Patterns and Depressive Symptoms over Time: Examining the Relationships with Socioeconomic Position, Health Behaviours and Cardiovascular Risk. <i>PLoS ONE</i> , 2014, 9, e87657.	2.5	118
27	Relationship quality and levels of depression and anxiety in a large population-based survey. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2013, 48, 417-425.	3.1	113
28	How financial hardship is associated with the onset of mental health problems over time. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2015, 50, 909-918.	3.1	109
29	Is poor mental health a risk factor for retirement? Findings from a longitudinal population survey. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2012, 47, 735-744.	3.1	104
30	The role of social support in protecting mental health when employed and unemployed: A longitudinal fixed-effects analysis using 12 annual waves of the HILDA cohort. <i>Social Science and Medicine</i> , 2016, 153, 20-26.	3.8	93
31	Workplace bullying and the association with suicidal ideation/thoughts and behaviour: a systematic review. <i>Occupational and Environmental Medicine</i> , 2017, 74, 72-79.	2.8	93
32	The association between financial hardship and amygdala and hippocampal volumes: results from the PATH through life project. <i>Social Cognitive and Affective Neuroscience</i> , 2012, 7, 548-556.	3.0	83
33	The global financial crisis and psychological health in a sample of Australian older adults: A longitudinal study. <i>Social Science and Medicine</i> , 2011, 73, 1105-1112.	3.8	81
34	Validation of four measures of mental health against depression and generalized anxiety in a community based sample. <i>Psychiatry Research</i> , 2015, 225, 291-298.	3.3	79
35	Mental health and the timing of Men's retirement. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2006, 41, 515-522.	3.1	76
36	Factors distinguishing suicide attempters from suicide ideators in a community sample: social issues and physical health problems. <i>Psychological Medicine</i> , 2006, 36, 1235-1245.	4.5	74

#	ARTICLE	IF	CITATIONS
37	Common mental disorders, unemployment and psychosocial job quality: is a poor job better than no job at all?. <i>Psychological Medicine</i> , 2013, 43, 1763-1772.	4.5	73
38	The role of hardship in the association between socio-economic position and depression. <i>Australian and New Zealand Journal of Psychiatry</i> , 2012, 46, 364-373.	2.3	71
39	Concordance in the mental health of spouses: analysis of a large national household panel survey. <i>Psychological Medicine</i> , 2006, 36, 685.	4.5	68
40	The role of financial hardship, mastery and social support in the association between employment status and depression: results from an Australian longitudinal cohort study. <i>BMJ Open</i> , 2016, 6, e009834.	1.9	67
41	The Accuracy of the Patient Health Questionnaire-9 Algorithm for Screening to Detect Major Depression: An Individual Participant Data Meta-Analysis. <i>Psychotherapy and Psychosomatics</i> , 2020, 89, 25-37.	8.8	67
42	The Symbol Digit Modalities Test: Normative Data from a Large Nationally Representative Sample of Australians. <i>Archives of Clinical Neuropsychology</i> , 2014, 29, 767-775.	0.5	66
43	Test-retest reliability of a new form of the auditory verbal learning test (AVLT). <i>Archives of Clinical Neuropsychology</i> , 1994, 9, 303-316.	0.5	65
44	Cohort profile: The Dynamic Analyses to Optimize Ageing (DYNOPTA) project. <i>International Journal of Epidemiology</i> , 2010, 39, 44-51.	1.9	62
45	The effect of early onset common mental disorders on educational attainment in Australia. <i>Psychiatry Research</i> , 2012, 199, 51-57.	3.3	61
46	Is the prevalence of mental illness increasing in Australia? Evidence from national health surveys and administrative data, 2001â€“2014. <i>Medical Journal of Australia</i> , 2017, 206, 490-493.	1.7	60
47	Effect of lockdown on mental health in Australia: evidence from a natural experiment analysing a longitudinal probability sample survey. <i>Lancet Public Health</i> , The, 2022, 7, e427-e436.	10.0	60
48	Shift work and mental health: a systematic review and meta-analysis. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 763-793.	2.3	59
49	COSMIC (Cohort Studies of Memory in an International Consortium): An international consortium to identify risk and protective factors and biomarkers of cognitive ageing and dementia in diverse ethnic and sociocultural groups. <i>BMC Neurology</i> , 2013, 13, 165.	1.8	58
50	What are older adults seeking? Factors encouraging or discouraging retirement village living. <i>Australasian Journal on Ageing</i> , 2013, 32, 163-170.	0.9	57
51	Probability of major depression diagnostic classification using semi-structured versus fully structured diagnostic interviews. <i>British Journal of Psychiatry</i> , 2018, 212, 377-385.	2.8	53
52	Mental health problems and marital disruption: is it the combination of husbands and wivesâ€™ mental health problems that predicts later divorce?. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2008, 43, 758-763.	3.1	49
53	Personal factors influence use of cervical cancer screening services: epidemiological survey and linked administrative data address the limitations of previous research. <i>BMC Health Services Research</i> , 2012, 12, 34.	2.2	49
54	The limitations of employment as a tool for social inclusion. <i>BMC Public Health</i> , 2010, 10, 621.	2.9	44

#	ARTICLE	IF	CITATIONS
55	Factors that Explain the Poorer Mental Health of Caregivers: Results from a Community Survey of Older Australians. Australian and New Zealand Journal of Psychiatry, 2010, 44, 616-624.	2.3	44
56	Factors associated with the timing and onset of cannabis use and cannabis use disorder: Results from the 2007 Australian National Survey of Mental Health and Wellbeing. Drug and Alcohol Review, 2014, 33, 555-564.	2.1	44
57	Longitudinal associations between rumination and depressive symptoms in a probability sample of adults. Journal of Affective Disorders, 2020, 260, 680-686.	4.1	44
58	Lone mothers' experience of physical and sexual violence: association with psychiatric disorders. British Journal of Psychiatry, 2004, 184, 21-27.	2.8	42
59	A systematic review on the effect of work-related stressors on mental health of young workers. International Archives of Occupational and Environmental Health, 2020, 93, 611-622.	2.3	42
60	Measuring Physical and Mental Health using the SF-12: Implications for Community Surveys of Mental Health. Australian and New Zealand Journal of Psychiatry, 2006, 40, 797-803.	2.3	41
61	Psychosocial job adversity and health in Australia: analysis of data from the HILDA Survey. Australian and New Zealand Journal of Public Health, 2011, 35, 564-571.	1.8	41
62	Multiple imputation was an efficient method for harmonizing the Mini-Mental State Examination with missing item-level data. Journal of Clinical Epidemiology, 2011, 64, 787-793.	5.0	40
63	The effect of health behavior change on self-rated health across the adult life course: A longitudinal cohort study. Preventive Medicine, 2014, 58, 75-80.	3.4	39
64	Sickness Absence and Psychosocial Job Quality: An Analysis From a Longitudinal Survey of Working Australians, 2005-2012. American Journal of Epidemiology, 2015, 181, 781-788.	3.4	39
65	Online Recruitment: Feasibility, Cost, and Representativeness in a Study of Postpartum Women. Journal of Medical Internet Research, 2017, 19, e61.	4.3	39
66	Cognitive development over 8 years in midlife and its association with cardiovascular risk factors.. Neuropsychology, 2014, 28, 653-665.	1.3	36
67	Longitudinal cohort study describing persistent frequent attenders in Australian primary healthcare. BMJ Open, 2015, 5, e008975.	1.9	35
68	Longitudinal change in spousal similarities in mental health: Between-couple and within-couple perspectives.. Psychology and Aging, 2013, 28, 540-554.	1.6	33
69	The impact of suicidality on health-related quality of life: A latent growth curve analysis of community-based data. Journal of Affective Disorders, 2016, 203, 14-21.	4.1	32
70	An examination of the long-term impact of job strain on mental health and wellbeing over a 12-year period. Social Psychiatry and Psychiatric Epidemiology, 2016, 51, 725-733.	3.1	32
71	Health or harm? A cohort study of the importance of job quality in extended workforce participation by older adults. BMC Public Health, 2016, 16, 885.	2.9	30
72	Prevalence of Self-Management Versus Formal Service Use for Common Mental Disorders in Australia: Findings from the 2007 National Survey of Mental Health and Wellbeing. Australian and New Zealand Journal of Psychiatry, 2010, 44, 823-830.	2.3	29

#	ARTICLE	IF	CITATIONS
73	Examining the SF-36 in an older population: analysis of data and presentation of Australian adult reference scores from the Dynamic Analyses to Optimise Ageing (DYNOPTA) project. <i>Quality of Life Research</i> , 2011, 20, 1227-1236.	3.1	29
74	Financial hardship, mastery and social support: Explaining poor mental health amongst the inadequately employed using data from the HILDA survey. <i>SSM - Population Health</i> , 2016, 2, 407-415.	2.7	27
75	The prevalence of mental disorders among income support recipients: An important issue for welfare reform. <i>Australian and New Zealand Journal of Public Health</i> , 2003, 27, 441-448.	1.8	26
76	Measuring gambling participation. <i>Addiction</i> , 2009, 104, 1065-1069.	3.3	26
77	Does disability status modify the association between psychosocial job quality and mental health? A longitudinal fixed-effects analysis. <i>Social Science and Medicine</i> , 2015, 144, 104-111.	3.8	26
78	Trends in the Prevalence of Psychological Distress Over Time: Comparing Results From Longitudinal and Repeated Cross-Sectional Surveys. <i>Frontiers in Psychiatry</i> , 2020, 11, 595696.	2.6	26
79	Patterns of Welfare Attitudes in the Australian Population. <i>PLoS ONE</i> , 2015, 10, e0142792.	2.5	26
80	Between- and Within-Individual Effects of Visual Contrast Sensitivity on Perceptual Matching, Processing Speed, and Associative Memory in Older Adults. <i>Gerontology</i> , 2006, 52, 124-130.	2.8	25
81	Social disadvantage and individual vulnerability: A longitudinal investigation of welfare receipt and mental health in Australia. <i>Australian and New Zealand Journal of Psychiatry</i> , 2013, 47, 654-666.	2.3	25
82	Temporal effects of separation on suicidal thoughts and behaviours. <i>Social Science and Medicine</i> , 2014, 111, 58-63.	3.8	25
83	Psychosocial job quality in a national sample of working Australians: A comparison of persons working with versus without disability. <i>SSM - Population Health</i> , 2016, 2, 175-181.	2.7	25
84	Incidence of self-reported brain injury and the relationship with substance abuse: findings from a longitudinal community survey. <i>BMC Public Health</i> , 2010, 10, 171.	2.9	24
85	Socioeconomic differences in antidepressant use in the PATH through life study: Evidence of health inequalities, prescribing bias, or an effective social safety net?. <i>Journal of Affective Disorders</i> , 2013, 149, 75-83.	4.1	24
86	Stability and change in level of probable depression and depressive symptoms in a sample of middle and older-aged adults. <i>International Psychogeriatrics</i> , 2013, 25, 303-309.	1.0	24
87	Mental health selection and income support dynamics: multiple spell discrete-time survival analyses of welfare receipt. <i>Journal of Epidemiology and Community Health</i> , 2014, 68, 349-355.	3.7	24
88	Role of Physical Activity in the Relationship Between Mastery and Functional Health. <i>Gerontologist</i> , 2015, 55, 120-131.	3.9	24
89	Early Onset of Distress Disorders and High-School Dropout: Prospective Evidence From a National Cohort of Australian Adolescents. <i>American Journal of Epidemiology</i> , 2018, 187, 1192-1198.	3.4	24
90	Deriving prevalence estimates of depressive symptoms throughout middle and old age in those living in the community. <i>International Psychogeriatrics</i> , 2012, 24, 503-511.	1.0	23
