#	ARTICLE	IF	CITATIONS
1	Dairy products and bone health. <i>Aging Clinical and Experimental Research</i> , 2022, 34, 9-24.	1.4	29
2	Reference microarchitectural values measured by HR-pQCT in a Franco-Swiss cohort of young adult women. <i>Osteoporosis International</i> , 2022, 33, 703-709.	1.3	0
3	Patient preferences for lifestyle behaviours in osteoporotic fracture prevention: a cross-European discrete choice experiment. <i>Osteoporosis International</i> , 2022, , 1.	1.3	0
4	The global approach to rehabilitation following an osteoporotic fragility fracture: A review of the rehabilitation working group of the International Osteoporosis Foundation (IOF) committee of scientific advisors. <i>Osteoporosis International</i> , 2022, 33, 527-540.	1.3	23
5	Acquisition of peak bone mass. <i>Best Practice and Research in Clinical Endocrinology and Metabolism</i> , 2022, 36, 101616.	2.2	21
6	Attributes and definitions of locomotor capacity in older people: a World Health Organisation (WHO) locomotor capacity working group meeting report. <i>Aging Clinical and Experimental Research</i> , 2022, 34, 481-483.	1.4	14
7	Management of patients at very high risk of osteoporotic fractures through sequential treatments. <i>Aging Clinical and Experimental Research</i> , 2022, 34, 695-714.	1.4	33
8	Associations of Calcium Intake and Calcium from Various Sources with Blood Lipids in a Population of Older Women and Men with High Calcium Intake. <i>Nutrients</i> , 2022, 14, 1314.	1.7	6
9	Multidimensional prognostic index and the risk of fractures: an 8-year longitudinal cohort study in the Osteoarthritis Initiative. <i>Archives of Osteoporosis</i> , 2022, 17, 5.	1.0	2
10	Interdisciplinary management of FGF23-related phosphate wasting syndromes: a Consensus Statement on the evaluation, diagnosis and care of patients with X-linked hypophosphataemia. <i>Nature Reviews Endocrinology</i> , 2022, 18, 366-384.	4.3	42
11	Update on the ESCEO recommendation for the conduct of clinical trials for drugs aiming at the treatment of sarcopenia in older adults. <i>Aging Clinical and Experimental Research</i> , 2021, 33, 3-17.	1.4	46
12	DO-HEALTH: Vitamin D3 - Omega-3 - Home exercise - Healthy aging and longevity trial - Design of a multinational clinical trial on healthy aging among European seniors. <i>Contemporary Clinical Trials</i> , 2021, 100, 106124.	0.8	28
13	Vitamin D supplementation: upper limit for safety revisited?. <i>Aging Clinical and Experimental Research</i> , 2021, 33, 19-24.	1.4	62
14	In memory of Harry K Genant. <i>Osteoporosis International</i> , 2021, 32, 607-608.	1.3	0
15	Hormonal regulation of biomineralization. <i>Nature Reviews Endocrinology</i> , 2021, 17, 261-275.	4.3	50
16	How can the orthopedic surgeon ensure optimal vitamin D status in patients operated for an osteoporotic fracture?. <i>Osteoporosis International</i> , 2021, 32, 1921-1935.	1.3	6
17	Osteoporosis management in hematologic stem cell transplant recipients: Executive summary. <i>Journal of Bone Oncology</i> , 2021, 28, 100361.	1.0	14
18	Nutritional intake and bone health. <i>Lancet Diabetes and Endocrinology</i> , the, 2021, 9, 606-621.	5.5	98

#	ARTICLE	IF	CITATIONS
19	Algorithm for the management of patients at low, high and very high risk of osteoporotic fractures. Osteoporosis International, 2020, 31, 1-12.	1.3	220
20	Impact of whole dairy matrix on musculoskeletal health and agingâ€“current knowledge and research gaps. Osteoporosis International, 2020, 31, 601-615.	1.3	46
21	Outcome Priorities for Older Persons With Sarcopenia. Journal of the American Medical Directors Association, 2020, 21, 267-271.e2.	1.2	13
22	Relationship between bone mineral content and bone turnover markers, sex hormones and calciotropic hormones in pre- and early pubertal children. Osteoporosis International, 2020, 31, 335-349.	1.3	3
23	Nutritional strategies for maintaining muscle mass and strength from middle age to later life: A narrative review. Maturitas, 2020, 132, 57-64.	1.0	69
24	A discrete-choice experiment to assess patientsâ€™ preferences for osteoarthritis treatment: An ESCEO working group. Seminars in Arthritis and Rheumatism, 2020, 50, 859-866.	1.6	7
25	Associations between age-related changes in bone microstructure and strength and dietary acid load in a cohort of community-dwelling, healthy men and postmenopausal women. American Journal of Clinical Nutrition, 2020, 112, 1120-1131.	2.2	9
26	Nutrition and bone disease. , 2020, , 523-533.		0
27	Assessment of Cardiovascular Safety of Anti-Osteoporosis Drugs. Drugs, 2020, 80, 1537-1552.	4.9	40
28	FRAX and ethnicity. Osteoporosis International, 2020, 31, 2063-2067.	1.3	12
29	Effect of Vitamin D Supplementation, Omega-3 Fatty Acid Supplementation, or a Strength-Training Exercise Program on Clinical Outcomes in Older Adults. JAMA - Journal of the American Medical Association, 2020, 324, 1855.	3.8	180
30	Are Probiotics the New Calcium and Vitamin D for Bone Health?. Current Osteoporosis Reports, 2020, 18, 273-284.	1.5	50
31	Determinants of Peak Bone Mass Acquisition. Contemporary Endocrinology, 2020, , 115-137.	0.3	2
32	Fracture Risk Following an Atypical Femoral Fracture. Journal of Bone and Mineral Research, 2020, 37, 87-94.	3.1	8
33	East meets West: current practices and policies in the management of musculoskeletal aging. Aging Clinical and Experimental Research, 2019, 31, 1351-1373.	1.4	32
34	Determinants, consequences and potential solutions to poor adherence to anti-osteoporosis treatment: results of an expert group meeting organized by the European Society for Clinical and Economic Aspects of Osteoporosis, Osteoarthritis and Musculoskeletal Diseases (ESCEO) and the International Osteoporosis Foundation (IOF). Osteoporosis International, 2019, 30, 2155-2165.	1.3	69
35	Gut microbiota and osteoarthritis management: An expert consensus of the European society for clinical and economic aspects of osteoporosis, osteoarthritis and musculoskeletal diseases (ESCEO). Ageing Research Reviews, 2019, 55, 100946.	5.0	103
36	Algorithm for the Use of Biochemical Markers of Bone Turnover in the Diagnosis, Assessment and Follow-Up of Treatment for Osteoporosis. Advances in Therapy, 2019, 36, 2811-2824.	1.3	60

#	ARTICLE	IF	CITATIONS
37	Nutritional influence on bone: role of gut microbiota. <i>Aging Clinical and Experimental Research</i> , 2019, 31, 743-751.	1.4	43
38	Bone health in childhood cancer: review of the literature and recommendations for the management of bone health in childhood cancer survivors. <i>Annals of Oncology</i> , 2019, 30, 908-920.	0.6	47
39	Safety of Paracetamol in Osteoarthritis: What Does the Literature Say?. <i>Drugs and Aging</i> , 2019, 36, 7-14.	1.3	59
40	Safety of Symptomatic Slow-Acting Drugs for Osteoarthritis: Outcomes of a Systematic Review and Meta-Analysis. <i>Drugs and Aging</i> , 2019, 36, 65-99.	1.3	70
41	Focal and Osteosclerotic Bone Diseases. <i>Calcified Tissue International</i> , 2019, 104, 481-482.	1.5	0
42	Is There Enough Evidence for Osteosarcopenic Obesity as a Distinct Entity? A Critical Literature Review. <i>Calcified Tissue International</i> , 2019, 105, 109-124.	1.5	51
43	An updated algorithm recommendation for the management of knee osteoarthritis from the European Society for Clinical and Economic Aspects of Osteoporosis, Osteoarthritis and Musculoskeletal Diseases (ESCEO). <i>Seminars in Arthritis and Rheumatism</i> , 2019, 49, 337-350.	1.6	392
44	Higher rates of osteoporosis treatment initiation and persistence in patients with newly diagnosed vertebral fracture when introduced in inpatients than later in outpatients. <i>Osteoporosis International</i> , 2019, 30, 1353-1362.	1.3	7
45	Assessment of Muscle Function and Physical Performance in Daily Clinical Practice. <i>Calcified Tissue International</i> , 2019, 105, 1-14.	1.5	295
46	Executive summary of the European guidance for the diagnosis and management of osteoporosis in postmenopausal women. <i>Calcified Tissue International</i> , 2019, 104, 235-238.	1.5	105
47	Standards of care for hypoparathyroidism in adults: a Canadian and International Consensus. <i>European Journal of Endocrinology</i> , 2019, 180, P1-P22.	1.9	81
48	Executive summary of European guidance for the diagnosis and management of osteoporosis in postmenopausal women. <i>Aging Clinical and Experimental Research</i> , 2019, 31, 15-17.	1.4	40
49	Hypercalcemia: Other Causes than Primary Hyperparathyroidism. , 2019, , 160-167.		0
50	Osteoporosis: Treatment Gaps and Health Economics. , 2019, , 288-295.		7
51	Recommendations for the conduct of economic evaluations in osteoporosis: outcomes of an experts' consensus meeting organized by the European Society for Clinical and Economic Aspects of Osteoporosis, Osteoarthritis and Musculoskeletal Diseases (ESCEO) and the US branch of the International Osteoporosis Foundation. <i>Osteoporosis International</i> . 2019. 30. 45-57.	1.3	67
52	Sarcopenia: revised European consensus on definition and diagnosis. <i>Age and Ageing</i> , 2019, 48, 16-31.	0.7	6,824
53	European guidance for the diagnosis and management of osteoporosis in postmenopausal women. <i>Osteoporosis International</i> , 2019, 30, 3-44.	1.3	1,020
54	Diet, Microbiota, and Bone Health. , 2019, , 143-168.		2

#	ARTICLE	IF	CITATIONS
55	Cortical and trabecular bone microarchitecture as an independent predictor of incident fracture risk in older women and men in the Bone Microarchitecture International Consortium (BoMIC): a prospective study. <i>Lancet Diabetes and Endocrinology</i> , 2019, 7, 34-43.	5.5	244
56	Prevention of Osteoporosis and Fragility Fractures. , 2019, , 31-42.		0
57	Microbiota and Bone Health: The Gut-Musculoskeletal Axis. <i>Calcified Tissue International</i> , 2018, 102, 385-386.	1.5	8
58	Quality of life assessment in musculo-skeletal health. <i>Aging Clinical and Experimental Research</i> , 2018, 30, 413-418.	1.4	144
59	Interaction between LRP5 and periostin gene polymorphisms on serum periostin levels and cortical bone microstructure. <i>Osteoporosis International</i> , 2018, 29, 339-346.	1.3	20
60	Evaluation of Radius Microstructure and Areal Bone Mineral Density Improves Fracture Prediction in Postmenopausal Women. <i>Journal of Bone and Mineral Research</i> , 2018, 33, 328-337.	3.1	81
61	Pro-inflammatory dietary pattern is associated with fractures in women: an eight-year longitudinal cohort study. <i>Osteoporosis International</i> , 2018, 29, 143-151.	1.3	28
62	Effects of Fermented Milk Products on Bone. <i>Calcified Tissue International</i> , 2018, 102, 489-500.	1.5	57
63	Inappropriate claims from non-equivalent medications in osteoarthritis: a position paper endorsed by the European Society for Clinical and Economic Aspects of Osteoporosis, Osteoarthritis and Musculoskeletal Diseases (ESCEO). <i>Aging Clinical and Experimental Research</i> , 2018, 30, 111-117.	1.4	56
64	Postmenopausal osteoporosis: Assessment and management. <i>Best Practice and Research in Clinical Endocrinology and Metabolism</i> , 2018, 32, 739-757.	2.2	64
65	Bone management in hematologic stem cell transplant recipients. <i>Osteoporosis International</i> , 2018, 29, 2597-2610.	1.3	39
66	ACTIVEExtend: 24 Months of Alendronate After 18 Months of Abaloparatide or Placebo for Postmenopausal Osteoporosis. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2018, 103, 2949-2957.	1.8	131
67	Phosphate wasting disorders in adults. <i>Osteoporosis International</i> , 2018, 29, 2369-2387.	1.3	32
68	Fermented dairy products consumption is associated with attenuated cortical bone loss independently of total calcium, protein, and energy intakes in healthy postmenopausal women. <i>Osteoporosis International</i> , 2018, 29, 1771-1782.	1.3	46
69	Benefits and safety of dietary protein for bone health – an expert consensus paper endorsed by the European Society for Clinical and Economical Aspects of Osteoporosis, Osteoarthritis, and Musculoskeletal Diseases and by the International Osteoporosis Foundation. <i>Osteoporosis International</i> , 2018, 29, 1933-1948.	1.3	98
70	MANAGEMENT OF ENDOCRINE DISEASE: Therapeutics of vitamin D. <i>European Journal of Endocrinology</i> , 2018, 179, R239-R259.	1.9	53
71	Review of the guideline of the American College of Physicians on the treatment of osteoporosis. <i>Osteoporosis International</i> , 2018, 29, 1505-1510.	1.3	26
72	English translation and validation of the SarQoL^{Â®}, a quality of life questionnaire specific for sarcopenia. <i>Age and Ageing</i> , 2017, 46, 271-276.	0.7	40

#	ARTICLE	IF	CITATIONS
73	Prepubertal Impact of Protein Intake and Physical Activity on Weight Bearing Peak Bone Mass and Strength in Males. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2017, 102, jc.2016-2449.	1.8	9
74	International Osteoporosis Foundation and European Calcified Tissue Society Working Group. Recommendations for the screening of adherence to oral bisphosphonates. <i>Osteoporosis International</i> , 2017, 28, 767-774.	1.3	113
75	Peripheral skeleton bone strength is positively correlated with total and dairy protein intakes in healthy postmenopausal women. <i>American Journal of Clinical Nutrition</i> , 2017, 105, 513-525.	2.2	107
76	Nutrition and physical activity in the prevention and treatment of sarcopenia: systematic review. <i>Osteoporosis International</i> , 2017, 28, 1817-1833.	1.3	381
77	Mind the (treatment) gap: a global perspective on current and future strategies for prevention of fragility fractures. <i>Osteoporosis International</i> , 2017, 28, 1507-1529.	1.3	160
78	Patients'™ preferences for anti-osteoporosis drug treatment: a cross-European discrete choice experiment. <i>Rheumatology</i> , 2017, 56, 1167-1176.	0.9	26
79	Identification and management of patients at increased risk of osteoporotic fracture: outcomes of an ESCEO expert consensus meeting. <i>Osteoporosis International</i> , 2017, 28, 2023-2034.	1.3	126
80	Validation of the SarQoL® , a specific health-related quality of life questionnaire for Sarcopenia. <i>Journal of Cachexia, Sarcopenia and Muscle</i> , 2017, 8, 238-244.	2.9	166
81	Vitamin D supplementation in the prevention and management of major chronic diseases not related to mineral homeostasis in adults: research for evidence and a scientific statement from the European society for clinical and economic aspects of osteoporosis and osteoarthritis (ESCEO). <i>Endocrine</i> , 2017, 56, 245-261.	1.1	52
82	Vitamin D status correction in Saudi Arabia: an experts'™ consensus under the auspices of the European Society for Clinical and Economic Aspects of Osteoporosis, Osteoarthritis, and Musculoskeletal Diseases (ESCEO). <i>Archives of Osteoporosis</i> , 2017, 12, 1.	1.0	72
83	Strontium ranelate stimulates trabecular bone formation in a rat tibial bone defect healing process. <i>Osteoporosis International</i> , 2017, 28, 3475-3487.	1.3	20
84	Global dietary calcium intake among adults: a systematic review. <i>Osteoporosis International</i> , 2017, 28, 3315-3324.	1.3	249
85	Towards a better management of glucocorticoid-induced osteoporosis?. <i>Nature Reviews Rheumatology</i> , 2017, 13, 635-636.	3.5	5
86	Reply to D Xie and Z Sheng. <i>American Journal of Clinical Nutrition</i> , 2017, 106, 322-323.	2.2	0
87	Serum Levels of a Cathepsin-K Generated Periostin Fragment Predict Incident Low-Trauma Fractures in Postmenopausal Women Independently of BMD and FRAX. <i>Journal of Bone and Mineral Research</i> , 2017, 32, 2232-2238.	3.1	21
88	The role of calcium supplementation in healthy musculoskeletal ageing. <i>Osteoporosis International</i> , 2017, 28, 447-462.	1.3	130
89	CAPTURE THE FRACTURE: INTEGRATED CARE PREVENTS THE DECREASE IN INTRINSIC CAPACITY IN ELDERLY SUBJECTS. <i>Innovation in Aging</i> , 2017, 1, 692-692.	0.0	2
90	Yogurt Consumption and Impact on Bone Health. , 2017, , 507-524.		1

#	ARTICLE	IF	CITATIONS
91	IMPACT OF DIABETES ON THE PREVALENCE OF MALNUTRITION AND SARCOPENIA IN AGED HOSPITALIZED PATIENTS. <i>Innovation in Aging</i> , 2017, 1, 149-150.	0.0	0
92	The prevention of fragility fractures in patients with non-metastatic prostate cancer: a position statement by the international osteoporosis foundation. <i>Oncotarget</i> , 2017, 8, 75646-75663.	0.8	53
93	Low Lean Mass Predicts Incident Fractures Independently From FRAX: a Prospective Cohort Study of Recent Retirees. <i>Journal of Bone and Mineral Research</i> , 2016, 31, 2048-2056.	3.1	80
94	A comprehensive fracture prevention strategy in older adults: the European Union Geriatric Medicine Society (EUGMS) statement. <i>Aging Clinical and Experimental Research</i> , 2016, 28, 797-803.	1.4	75
95	Influence of a fermented protein-fortified dairy product on serum insulin-like growth factor-I in women with anorexia nervosa: A randomized controlled trial. <i>Clinical Nutrition</i> , 2016, 35, 1032-1038.	2.3	11
96	Assessment of muscle mass, muscle strength and physical performance in clinical practice: An international survey. <i>European Geriatric Medicine</i> , 2016, 7, 243-246.	1.2	90
97	A comprehensive fracture prevention strategy in older adults: The European union geriatric medicine society (EUGMS) statement. <i>European Geriatric Medicine</i> , 2016, 7, 519-525.	1.2	12
98	Sarcopenia in daily practice: assessment and management. <i>BMC Geriatrics</i> , 2016, 16, 170.	1.1	468
99	Selective protein depletion impairs bone growth and causes liver fatty infiltration in female rats: prevention by <i>Spirulina alga</i> . <i>Osteoporosis International</i> , 2016, 27, 3365-3376.	1.3	8
100	Unmet needs and current and future approaches for osteoporotic patients at high risk of hip fracture. <i>Archives of Osteoporosis</i> , 2016, 11, 37.	1.0	50
101	A comprehensive fracture prevention strategy in older adults: The European Union Geriatric Medicine Society (EUGMS) statement. <i>Journal of Nutrition, Health and Aging</i> , 2016, 20, 647-652.	1.5	65
102	Balancing benefits and risks of glucocorticoids in rheumatic diseases and other inflammatory joint disorders: new insights from emerging data. An expert consensus paper from the European Society for Clinical and Economic Aspects of Osteoporosis and Osteoarthritis (ESCEO). <i>Aging Clinical and Experimental Research</i> , 2016, 28, 1-16.	1.4	22
103	Occupation-dependent loading increases bone strength in men. <i>Osteoporosis International</i> , 2016, 27, 1169-1179.	1.3	6
104	Diacerein: Benefits, Risks and Place in the Management of Osteoarthritis. An Opinion-Based Report from the ESCEO. <i>Drugs and Aging</i> , 2016, 33, 75-85.	1.3	116
105	Continuous treatment with odanacatib for up to 8 years in postmenopausal women with low bone mineral density: a phase 2 study. <i>Osteoporosis International</i> , 2016, 27, 2099-2107.	1.3	32
106	Recommendations for the conduct of clinical trials for drugs to treat or prevent sarcopenia. <i>Aging Clinical and Experimental Research</i> , 2016, 28, 47-58.	1.4	91
107	Effects of Dairy Products Consumption on Health: Benefits and Beliefs – A Commentary from the Belgian Bone Club and the European Society for Clinical and Economic Aspects of Osteoporosis, Osteoarthritis and Musculoskeletal Diseases. <i>Calcified Tissue International</i> , 2016, 98, 1-17.	1.5	210
108	Additive Genetic Effects on Circulating Periostin Contribute to the Heritability of Bone Microstructure. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2015, 100, E1014-E1021.	1.8	27

#	ARTICLE	IF	CITATIONS
109	Life-course approach to nutrition. <i>Osteoporosis International</i> , 2015, 26, 2723-2742.	1.3	51
110	Nutrition and Sarcopenia. <i>Journal of Clinical Densitometry</i> , 2015, 18, 483-487.	0.5	16
111	The clinical use of vitamin D metabolites and their potential developments: a position statement from the European Society for Clinical and Economic Aspects of Osteoporosis and Osteoarthritis (ESCEO) and the International Osteoporosis Foundation (IOF). <i>Endocrine</i> , 2015, 50, 12-26.	1.1	53
112	Comments on the discordant recommendations for the use of symptomatic slow-acting drugs in knee osteoarthritis. <i>Current Medical Research and Opinion</i> , 2015, 31, 1041-1045.	0.9	22
113	Comparative performance of current definitions of sarcopenia against the prospective incidence of falls among community-dwelling seniors age 65 and older. <i>Osteoporosis International</i> , 2015, 26, 2793-2802.	1.3	207
114	Nasal salmon calcitonin blunts bone microstructure alterations in healthy postmenopausal women. <i>Osteoporosis International</i> , 2015, 26, 383-393.	1.3	13
115	Treatment with denosumab reduces secondary fracture risk in women with postmenopausal osteoporosis. <i>Climacteric</i> , 2015, 18, 805-812.	1.1	19
116	The position of strontium ranelate in today's management of osteoporosis. <i>Osteoporosis International</i> , 2015, 26, 1667-1671.	1.3	81
117	Prior ankle fractures in postmenopausal women are associated with low areal bone mineral density and bone microstructure alterations. <i>Osteoporosis International</i> , 2015, 26, 2147-2155.	1.3	40
118	Development of a self-administrated quality of life questionnaire for sarcopenia in elderly subjects: the SarQoL. <i>Age and Ageing</i> , 2015, 44, 960-966.	0.7	89
119	Glucocorticoid-induced osteoporosis: who to treat with what agent?. <i>Nature Reviews Rheumatology</i> , 2015, 11, 98-109.	3.5	129
120	Effects of vitamin D in the elderly population: current status and perspectives. <i>Archives of Public Health</i> , 2014, 72, 32.	1.0	56
121	Nutrition and Bone Health in Women after the Menopause. <i>Women's Health</i> , 2014, 10, 599-608.	0.7	58
122	Systemic Treatment with Strontium Ranelate Accelerates the Filling of a Bone Defect and Improves the Material Level Properties of the Healing Bone. <i>BioMed Research International</i> , 2014, 2014, 1-10.	0.9	23
123	A Low Protein Diet Alters Bone Material Level Properties and the Response to In Vitro Repeated Mechanical Loading. <i>BioMed Research International</i> , 2014, 2014, 1-6.	0.9	2
124	Dairy products, yogurts, and bone health. <i>American Journal of Clinical Nutrition</i> , 2014, 99, 1256S-1262S.	2.2	168
125	Nutritional aspects of bone health. <i>Best Practice and Research in Clinical Endocrinology and Metabolism</i> , 2014, 28, 795-808.	2.2	76
126	Nutrition and bone health: turning knowledge and beliefs into healthy behaviour. <i>Current Medical Research and Opinion</i> , 2014, 30, 131-141.	0.9	30
