

Kathryn Paige Harden

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/3141215/kathryn-paige-harden-publications-by-year.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

154
papers

5,257

#	Paper	IF	Citations
154	Genome-wide Association Meta-analysis of Childhood and Adolescent Internalizing Symptoms.. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2022 ,	7.2	2
153	Building Causal Knowledge in Behavior Genetics.. <i>Behavioral and Brain Sciences</i> , 2022 , 1-76	0.9	0
152	Within-sibship genome-wide association analyses decrease bias in estimates of direct genetic effects.. <i>Nature Genetics</i> , 2022 , 54, 581-592	36.3	6
151	Genetic associations with learning over 100 days of practice.. <i>Npj Science of Learning</i> , 2022 , 7, 7	6	1
150	Weak and uneven associations of home, neighborhood, and school environments with stress hormone output across multiple timescales. <i>Molecular Psychiatry</i> , 2021 , 26, 4823-4838	15.1	3
149	Genomic analysis of diet composition finds novel loci and associations with health and lifestyle. <i>Molecular Psychiatry</i> , 2021 , 26, 2056-2069	15.1	25
148	Socioeconomic Disadvantage and the Pace of Biological Aging in Children. <i>Pediatrics</i> , 2021 , 147,	7.4	15
147	Item-Level Genome-Wide Association Study of the Alcohol Use Disorders Identification Test in Three Population-Based Cohorts. <i>American Journal of Psychiatry</i> , 2021 , appiajp202020091390	11.9	7
146	Resource profile and user guide of the Polygenic Index Repository. <i>Nature Human Behaviour</i> , 2021 ,	12.8	5
145	Error-signaling in the developing brain. <i>NeuroImage</i> , 2021 , 227, 117621	7.9	2
144	"Reports of My Death Were Greatly Exaggerated": Behavior Genetics in the Postgenomic Era. <i>Annual Review of Psychology</i> , 2021 , 72, 37-60	26.1	18
143	Adolescent Big Five personality and pubertal development: Pubertal hormone concentrations and self-reported pubertal status. <i>Developmental Psychology</i> , 2021 , 57, 60-72	3.7	3
142	Investigating the genetic architecture of noncognitive skills using GWAS-by-subtraction. <i>Nature Genetics</i> , 2021 , 53, 35-44	36.3	28
141	Why Has Personality Psychology Played an Outsized Role in the Credibility Revolution? 2021 , 2,		3
140	Multivariate analysis of 1.5 million people identifies genetic associations with traits related to self-regulation and addiction. <i>Nature Neuroscience</i> , 2021 , 24, 1367-1376	25.5	10
139	The relationship between executive function, processing speed, and attention-deficit hyperactivity disorder in middle childhood. <i>Developmental Science</i> , 2021 , e13168	4.5	1
138	Using genetics for social science. <i>Nature Human Behaviour</i> , 2020 , 4, 567-576	12.8	33

137	Genetic and environmental influences on human height from infancy through adulthood at different levels of parental education. <i>Scientific Reports</i> , 2020 , 10, 7974	4.9	6
136	Genetic associations with mathematics tracking and persistence in secondary school. <i>Npj Science of Learning</i> , 2020 , 5, 1	6	24
135	Functional Connectivity Fingerprints at Rest Are Similar across Youths and Adults and Vary with Genetic Similarity. <i>iScience</i> , 2020 , 23, 100801	6.1	13
134	Polygenic Scores in Developmental Psychology: Invite Genetics In, Leave Biodeterminism Behind. <i>Annual Review of Developmental Psychology</i> , 2020 , 2, 389-411	7.5	5
133	Genetic Associations Between Executive Functions and a General Factor of Psychopathology. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2020 , 59, 749-758	7.2	20
132	Developmental transformations in the structure of executive functions. <i>Journal of Experimental Child Psychology</i> , 2020 , 189, 104681	2.3	17
131	Genetic overlap between executive functions and BMI in childhood. <i>American Journal of Clinical Nutrition</i> , 2019 , 110, 814-822	7	6
130	Testing Cold and Hot Cognitive Control as Moderators of a Network of Comorbid Psychopathology Symptoms in Adolescence. <i>Clinical Psychological Science</i> , 2019 , 7, 701-718	6	4
129	Genetic and Environmental Influences on Achievement Goal Orientations Shift with Age. <i>European Journal of Personality</i> , 2019 , 33, 317-336	5.1	3
128	Genetic and Environmental Links between : General Factors of Psychopathology and Cognitive Ability in Early Childhood. <i>Clinical Psychological Science</i> , 2019 , 7, 430-444	6	10
127	Genomic structural equation modelling provides insights into the multivariate genetic architecture of complex traits. <i>Nature Human Behaviour</i> , 2019 , 3, 513-525	12.8	209
126	How should we understand the absence of sex differences in the genetic and environmental origins of antisocial behavior?. <i>Psychological Medicine</i> , 2019 , 49, 1600-1607	6.9	4
125	Parental Education and Genetics of BMI from Infancy to Old Age: A Pooled Analysis of 29 Twin Cohorts. <i>Obesity</i> , 2019 , 27, 855-865	8	11
124	Accounting for the shared environment in cognitive abilities and academic achievement with measured socioecological contexts. <i>Developmental Science</i> , 2019 , 22, e12699	4.5	21
123	Genetic and Environmental Associations Between Child Personality and Parenting. <i>Social Psychological and Personality Science</i> , 2019 , 10, 711-721	4.3	14
122	Kids becoming less alike: A behavioral genetic analysis of developmental increases in personality variance from childhood to adolescence. <i>Journal of Personality and Social Psychology</i> , 2019 , 117, 635-658	6.5	12
121	"Same but different": Associations between multiple aspects of self-regulation, cognition, and academic abilities. <i>Journal of Personality and Social Psychology</i> , 2019 , 117, 1164-1188	6.5	43
120	Phenotypic Annotation: Using Polygenic Scores to Translate Discoveries From Genome-Wide Association Studies From the Top Down. <i>Current Directions in Psychological Science</i> , 2019 , 28, 82-90	6.5	31

119	The neural architecture of executive functions is established by middle childhood. <i>NeuroImage</i> , 2019 , 185, 479-489	7.9	22
118	Genetic risk for schizophrenia is associated with substance use in emerging adulthood: an event-level polygenic prediction model. <i>Psychological Medicine</i> , 2019 , 49, 2027-2035	6.9	8
117	Genetic and environmental influences on pubertal hormones in human hair across development. <i>Psychoneuroendocrinology</i> , 2018 , 90, 76-84	5	12
116	Hair and Salivary Testosterone, Hair Cortisol, and Externalizing Behaviors in Adolescents. <i>Psychological Science</i> , 2018 , 29, 688-699	7.9	37
115	Twin models of environmental and genetic influences on pubertal development, salivary testosterone, and estradiol in adolescence. <i>Clinical Endocrinology</i> , 2018 , 88, 243-250	3.4	7
114	Using nature to understand nurture. <i>Science</i> , 2018 , 359, 386-387	33.3	32
113	Personality risk for antisocial behavior: Testing the intersections between callous-unemotional traits, sensation seeking, and impulse control in adolescence. <i>Development and Psychopathology</i> , 2018 , 30, 267-282	4.3	12
112	Callous-Unemotional Traits Moderate Genetic and Environmental Influences on Rule-Breaking and Aggression: Evidence for Gene \times Trait Interaction. <i>Clinical Psychological Science</i> , 2018 , 6, 123-133	6	6
111	GABRA2, alcohol, and illicit drug use: An event-level model of genetic risk for polysubstance use. <i>Journal of Abnormal Psychology</i> , 2018 , 127, 190-201	7	8
110	Genetic and environmental influences on internalizing psychopathology across age and pubertal development. <i>Developmental Psychology</i> , 2018 , 54, 1928-1939	3.7	6
109	Developmental differences in reward sensitivity and sensation seeking in adolescence: Testing sex-specific associations with gonadal hormones and pubertal development. <i>Journal of Personality and Social Psychology</i> , 2018 , 115, 161-178	6.5	27
108	Number of Sexual Partners and Relationship Status Are Associated With Unprotected Sex Across Emerging Adulthood. <i>Archives of Sexual Behavior</i> , 2017 , 46, 419-432	3.5	40
107	Beyond dual systems: A genetically-informed, latent factor model of behavioral and self-report measures related to adolescent risk-taking. <i>Developmental Cognitive Neuroscience</i> , 2017 , 25, 221-234	5.5	35
106	Children's head motion during fMRI tasks is heritable and stable over time. <i>Developmental Cognitive Neuroscience</i> , 2017 , 25, 58-68	5.5	46
105	Consistency and inconsistency among romantic partners over time. <i>Journal of Personality and Social Psychology</i> , 2017 , 112, 838-859	6.5	12
104	Mothers' Early Depressive Symptoms and Preschoolers' Behavioral Problems: The Moderating Role of Genetic Influences. <i>Child Psychiatry and Human Development</i> , 2017 , 48, 434-443	3.3	5
103	Education in Twins and Their Parents Across Birth Cohorts Over 100 years: An Individual-Level Pooled Analysis of 42-Twin Cohorts. <i>Twin Research and Human Genetics</i> , 2017 , 20, 395-405	2.2	6
102	Developmentally Specific Associations Between CNR1 Genotype and Cannabis Use Across Emerging Adulthood. <i>Journal of Studies on Alcohol and Drugs</i> , 2017 , 78, 686-695	1.9	5

101	Sensation seeking and impulsive traits as personality endophenotypes for antisocial behavior: Evidence from two independent samples. <i>Personality and Individual Differences</i> , 2017 , 105, 30-39	3.3	40
100	Becoming a sexual being: The 'elephant in the room' of adolescent brain development. <i>Developmental Cognitive Neuroscience</i> , 2017 , 25, 209-220	5.5	31
99	Multivariate analysis of genetic and environmental influences on parenting in adolescence. <i>Journal of Family Psychology</i> , 2017 , 31, 532-541	2.7	7
98	Peer Group Similarity in Perceptions of Pubertal Timing. <i>Journal of Youth and Adolescence</i> , 2016 , 45, 1696-710	4.3	6
97	Puberty, Socioeconomic Status, and Depression in Girls: Evidence for Gene x Environment Interactions. <i>Clinical Psychological Science</i> , 2016 , 4, 3-16	6	9
96	Strong genetic overlap between executive functions and intelligence. <i>Journal of Experimental Psychology: General</i> , 2016 , 145, 1141-59	4.7	53
95	Multivariate Behavioral Genetic Analysis of Parenting in Early Childhood. <i>Parenting</i> , 2016 , 16, 257-283	1.3	4
94	Genetic and environmental influences on height from infancy to early adulthood: An individual-based pooled analysis of 45 twin cohorts. <i>Scientific Reports</i> , 2016 , 6, 28496	4.9	80
93	Genetically-mediated associations between measures of childhood character and academic achievement. <i>Journal of Personality and Social Psychology</i> , 2016 , 111, 790-815	6.5	79
92	The Development of Impulse Control and Sensation-Seeking in Adolescence: Independent or Interdependent Processes?. <i>Journal of Research on Adolescence</i> , 2016 , 26, 37-44	3.2	66
91	Sensation seeking, peer deviance, and genetic influences on adolescent delinquency: Evidence for person-environment correlation and interaction. <i>Journal of Abnormal Psychology</i> , 2016 , 125, 679-91	7	23
90	A Twin Study of Objective and Subjective Pubertal Timing and Peer Influence on Risk-Taking. <i>Journal of Research on Adolescence</i> , 2016 , 26, 45-59	3.2	9
89	Alcohol-related genes show an enrichment of associations with a persistent externalizing factor. <i>Journal of Abnormal Psychology</i> , 2016 , 125, 933-945	7	5
88	The importance of sexual and romantic development in understanding the developmental neuroscience of adolescence. <i>Developmental Cognitive Neuroscience</i> , 2016 , 17, 145-7	5.5	19
87	Diurnal coupling between testosterone and cortisol from adolescence to older adulthood. <i>Psychoneuroendocrinology</i> , 2016 , 73, 79-90	5	27
86	Genetic and environmental effects on body mass index from infancy to the onset of adulthood: an individual-based pooled analysis of 45 twin cohorts participating in the Collaborative project of Development of Anthropometrical measures in Twins (CODATwins) study. <i>American Journal of Clinical Nutrition</i> , 2016 , 104, 371-9	7	125
85	Genes Unite Executive Functions in Childhood. <i>Psychological Science</i> , 2015 , 26, 1151-63	7.9	73
84	Estradiol and cortisol interactions in youth externalizing psychopathology. <i>Psychoneuroendocrinology</i> , 2015 , 55, 146-53	5	26

83	Genotype \times cohort interaction on completed fertility and age at first birth. <i>Behavior Genetics</i> , 2015 , 45, 71-83	3.2	16
82	Nonparametric Estimates of Gene \times Environment Interaction Using Local Structural Equation Modeling. <i>Behavior Genetics</i> , 2015 , 45, 581-96	3.2	26
81	Person \times Environment Interactions on Adolescent Delinquency: Sensation Seeking, Peer Deviance and Parental Monitoring. <i>Personality and Individual Differences</i> , 2015 , 76, 129-134	3.3	43
80	Sex differences in the developmental trajectories of impulse control and sensation-seeking from early adolescence to early adulthood. <i>Journal of Youth and Adolescence</i> , 2015 , 44, 1-17	4.5	152
79	Zygosity Differences in Height and Body Mass Index of Twins From Infancy to Old Age: A Study of the CODATwins Project. <i>Twin Research and Human Genetics</i> , 2015 , 18, 557-70	2.2	20
78	The CODATwins Project: The Cohort Description of Collaborative Project of Development of Anthropometrical Measures in Twins to Study Macro-Environmental Variation in Genetic and Environmental Effects on Anthropometric Traits. <i>Twin Research and Human Genetics</i> , 2015 , 18, 348-60	2.2	48
77	Trajectories of binge drinking and personality change across emerging adulthood. <i>Psychology of Addictive Behaviors</i> , 2015 , 29, 978-91	3.4	34
76	Interactions between DRD4 and developmentally specific environments in alcohol-dependence symptoms. <i>Journal of Abnormal Psychology</i> , 2015 , 124, 1043-9	7	3
75	Biological Risk for the Development of Problem Behavior in Adolescence: Integrating Insights from Behavioral Genetics and Neuroscience. <i>Child Development Perspectives</i> , 2015 , 9, 211-216	5.5	11
74	Developmental changes in genetic and environmental influences on rule-breaking and aggression: age and pubertal development. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2015 , 56, 1370-9	7.9	20
73	From specialist to generalist: Developmental transformations in the genetic structure of early child abilities. <i>Developmental Psychobiology</i> , 2015 , 57, 566-83	3	14
72	Childhood Sexual Abuse and Impulsive Personality Traits: Mixed Evidence for Moderation by Genotype. <i>Journal of Research in Personality</i> , 2015 , 55, 30-40	2.8	2
71	A behavioral genetic analysis of callous-unemotional traits and Big Five personality in adolescence. <i>Journal of Abnormal Psychology</i> , 2015 , 124, 982-993	7	20
70	Gene \times Environment interactions in early externalizing behaviors: parental emotional support and socioeconomic context as moderators of genetic influences?. <i>Behavior Genetics</i> , 2014 , 44, 468-86	3.2	10
69	Pubertal timing and adolescent sexual behavior in girls. <i>Developmental Psychology</i> , 2014 , 50, 1734-45	3.7	25
68	Personality \times hormone interactions in adolescent externalizing psychopathology. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2014 , 5, 235-46	4.1	44
67	Academic achievement as a moderator of genetic influences on alcohol use in adolescence. <i>Developmental Psychology</i> , 2014 , 50, 1170-8	3.7	9
66	Early adverse environments and genetic influences on age at first sex: evidence for gene \times environment interaction. <i>Developmental Psychology</i> , 2014 , 50, 1532-42	3.7	7

65	Child characteristics and parental educational expectations: evidence for transmission with transaction. <i>Developmental Psychology</i> , 2014 , 50, 2614-32	3.7	31
64	Sleep duration and depressive symptoms: a gene-environment interaction. <i>Sleep</i> , 2014 , 37, 351-8	1.1	54
63	Pubertal Development and Peer Influence on Risky Decision Making. <i>Journal of Early Adolescence</i> , 2014 , 34, 339-359	1.9	12
62	Genetic influences on adolescent sexual behavior: Why genes matter for environmentally oriented researchers. <i>Psychological Bulletin</i> , 2014 , 140, 434-65	19.1	53
61	Descriptive review: hormonal influences on risk for eating disorder symptoms during puberty and adolescence. <i>International Journal of Eating Disorders</i> , 2014 , 47, 718-26	6.3	15
60	Genetic and environmental influences on testosterone in adolescents: evidence for sex differences. <i>Developmental Psychobiology</i> , 2014 , 56, 1278-89	3	16
59	Marriage, Divorce, and Alcohol Use in Young Adulthood: A Longitudinal Sibling-Comparison Study. <i>Emerging Adulthood</i> , 2014 , 2, 138-149	1.2	11
58	A Sex-Positive Framework for Research on Adolescent Sexuality. <i>Perspectives on Psychological Science</i> , 2014 , 9, 455-69	9.8	132
57	Hormones: empirical contribution. Cortisol reactivity and recovery in the context of adolescent personality disorder. <i>Journal of Personality Disorders</i> , 2014 , 28, 25-39	2.6	10
56	Genetic and Environmental Influences on Cognition Across Development and Context. <i>Current Directions in Psychological Science</i> , 2013 , 22, 349-355	6.5	148
55	The Texas Twin Project. <i>Twin Research and Human Genetics</i> , 2013 , 16, 385-90	2.2	50
54	Differential changes in impulsivity and sensation seeking and the escalation of substance use from adolescence to early adulthood. <i>Development and Psychopathology</i> , 2013 , 25, 223-39	4.3	169
53	Gene-by-preschool interaction on the development of early externalizing problems. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2013 , 54, 77-85	7.9	14
52	Depression and adolescent sexual activity in romantic and nonromantic relational contexts: a genetically-informative sibling comparison. <i>Journal of Abnormal Psychology</i> , 2013 , 122, 51-63	7	33
51	Behind the wheel and on the map: Genetic and environmental associations between drunk driving and other externalizing behaviors. <i>Journal of Abnormal Psychology</i> , 2013 , 122, 1166-78	7	3
50	Positive Attentional Bias, Attachment Style, and Susceptibility to Peer Influence. <i>Journal of Research on Adolescence</i> , 2013 , 23, 605-613	3.2	7
49	A twin study of genetic influences on diurnal preference and risk for alcohol use outcomes. <i>Journal of Clinical Sleep Medicine</i> , 2013 , 9, 1333-9	3.1	31
48	Early childhood cognitive development and parental cognitive stimulation: evidence for reciprocal gene-environment transactions. <i>Developmental Science</i> , 2012 , 15, 250-9	4.5	56

47	Intellectual interest mediates gene \times socioeconomic status interaction on adolescent academic achievement. <i>Child Development</i> , 2012 , 83, 743-57	4.9	46
46	Gene-environment interplay in the association between pubertal timing and delinquency in adolescent girls. <i>Journal of Abnormal Psychology</i> , 2012 , 121, 73-87	7	76
45	Peer relationships and depressive symptomatology in boys at puberty. <i>Developmental Psychology</i> , 2012 , 48, 429-35	3.7	38
44	Learning Motivation Mediates Gene-by-Socioeconomic Status Interaction on Mathematics Achievement in Early Childhood. <i>Learning and Individual Differences</i> , 2012 , 22, 37-45	3.1	26
43	Psychopathology and thought suppression: a quantitative review. <i>Clinical Psychology Review</i> , 2012 , 32, 189-201	10.8	78
42	Genetically influenced change in sensation seeking drives the rise of delinquent behavior during adolescence. <i>Developmental Science</i> , 2012 , 15, 150-63	4.5	74
41	True love waits? A sibling-comparison study of age at first sexual intercourse and romantic relationships in young adulthood. <i>Psychological Science</i> , 2012 , 23, 1324-36	7.9	30
40	Environmental and genetic pathways between early pubertal timing and dieting in adolescence: distinguishing between objective and subjective timing. <i>Psychological Medicine</i> , 2012 , 42, 183-93	6.9	20
39	Offspring ADHD as a risk factor for parental marital problems: controls for genetic and environmental confounds. <i>Twin Research and Human Genetics</i> , 2012 , 15, 700-13	2.2	25
38	Sleep duration and body mass index in twins: a gene-environment interaction. <i>Sleep</i> , 2012 , 35, 597-603	1.1	46
37	Why don't smart teens have sex? A behavioral genetic approach. <i>Child Development</i> , 2011 , 82, 1327-44	4.9	7
36	Adolescent sexual activity and the development of delinquent behavior: the role of relationship context. <i>Journal of Youth and Adolescence</i> , 2011 , 40, 825-38	4.5	19
35	Emergence of a Gene \times socioeconomic status interaction on infant mental ability between 10 months and 2 years. <i>Psychological Science</i> , 2011 , 22, 125-33	7.9	120
34	Parental depression and offspring psychopathology: a children of twins study. <i>Psychological Medicine</i> , 2011 , 41, 1385-95	6.9	67
33	Individual differences in the development of sensation seeking and impulsivity during adolescence: further evidence for a dual systems model. <i>Developmental Psychology</i> , 2011 , 47, 739-46	3.7	207
32	Does religious involvement protect against early drinking? A behavior genetic approach. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2010 , 51, 763-71	7.9	25
31	Development's tortoise and hare: pubertal timing, pubertal tempo, and depressive symptoms in boys and girls. <i>Developmental Psychology</i> , 2010 , 46, 1341-53	3.7	156
30	The effect of assumptions about parental assortative mating and genotype-income correlation on estimates of genotype-environment interaction in the National Merit Twin Study. <i>Behavior Genetics</i> , 2009 , 39, 165-9	3.2	19

29	Combining nonlinear biometric and psychometric models of cognitive abilities. <i>Behavior Genetics</i> , 2009 , 39, 461-71	3.2	12
28	Associations between father absence and age of first sexual intercourse. <i>Child Development</i> , 2009 , 80, 1463-80	4.9	115
27	Population density and youth antisocial behavior. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2009 , 50, 999-1008	7.9	18
26	Smoking during pregnancy and offspring externalizing problems: an exploration of genetic and environmental confounds. <i>Development and Psychopathology</i> , 2008 , 20, 139-64	4.3	220
25	Searching for an environmental effect of parental alcoholism on offspring alcohol use disorder: a genetically informed study of children of alcoholics. <i>Journal of Abnormal Psychology</i> , 2008 , 117, 534-51	7	45
24	Rethinking Timing of First Sex and Delinquency. <i>Journal of Youth and Adolescence</i> , 2008 , 37, 373-385	4.5	87
23	Alcohol use in adolescent twins and affiliation with substance using peers. <i>Journal of Abnormal Child Psychology</i> , 2008 , 36, 81-94	4	30
22	Gene-environment correlation and interaction in peer effects on adolescent alcohol and tobacco use. <i>Behavior Genetics</i> , 2008 , 38, 339-47	3.2	142
21	Marital conflict and conduct problems in Children of Twins. <i>Child Development</i> , 2007 , 78, 1-18	4.9	64
20	A Genetically Informed Study of the Intergenerational Transmission of Marital Instability. <i>Journal of Marriage and Family</i> , 2007 , 69, 793-809	4.5	35
19	Genotype by environment interaction in adolescents' cognitive aptitude. <i>Behavior Genetics</i> , 2007 , 37, 273-83	3.2	155
18	Intergenerational transmission of childhood conduct problems: a Children of Twins Study. <i>Archives of General Psychiatry</i> , 2007 , 64, 820-9		69
17	A behavior genetic investigation of adolescent motherhood and offspring mental health problems. <i>Journal of Abnormal Psychology</i> , 2007 , 116, 667-83	7	61
16	A Behavioral Genetic Perspective on Non-Cognitive Factors and Academic Achievement		134-158 5
15	Behavior Genetic Research Methods		159-187 58
14	Genetic risk for schizophrenia influences substance use in emerging adulthood: An event-level polygenic prediction model		1
13	Investigating the Genetic Architecture of Non-Cognitive Skills Using GWAS-by-Subtraction		6
12	Analysis of socioeconomic disadvantage and pace of aging measured in saliva DNA methylation of children and adolescents		2

11	Genome-wide association meta-analysis of childhood and adolescent internalising symptoms	3
10	Multivariate GWAS elucidates the genetic architecture of alcohol consumption and misuse, corrects biases, and reveals novel associations with disease	1
9	Multivariate genomic analysis of 1.5 million people identifies genes related to addiction, antisocial behavior, and health	6
8	Genomic SEM Provides Insights into the Multivariate Genetic Architecture of Complex Traits	23
7	Genomic analysis of diet composition finds novel loci and associations with health and lifestyle	6
6	Genetic Associations with Mathematics Tracking and Persistence in Secondary School	6
5	Multivariate GWAS of psychiatric disorders and their cardinal symptoms reveal two dimensions of cross-cutting genetic liabilities	15
4	Weak and uneven associations of home, neighborhood and school environments with stress hormone output across multiple time scales	2
3	Changing environments reveal innovative genetic variation in children's cortisol responses	2
2	Within-sibship GWAS improve estimates of direct genetic effects	14
