#	ARTICLE	IF	CITATIONS
1	Complement component 3 and its activation splitâ€products in saliva associate with periodontitis. <i>Journal of Periodontology</i> , 2022, 93, 1294-1301.	3.4	4
2	Cardiovascular Diseases and Periodontitis. <i>Advances in Experimental Medicine and Biology</i> , 2022, , 261-280.	1.6	13
3	Complement split product C3c in saliva as biomarker for periodontitis and response to periodontal treatment. <i>Journal of Periodontal Research</i> , 2021, 56, 27-33.	2.7	22
4	The impact of oral diseases in cirrhosis on complications and mortality. <i>JGH Open</i> , 2021, 5, 294-300.	1.6	5
5	Circulating antibodies against leukotoxin A as marker of periodontitis grades B and C and oral infection with <i>Aggregatibacter actinomycetemcomitans</i> . <i>Journal of Periodontology</i> , 2021, , .	3.4	4
6	Periodontitis increases risk of viable bacteria in freshly drawn blood donations. <i>Blood Transfusion</i> , 2021, 19, 376-383.	0.4	2
7	Salivary concentrations of macrophage activation-related chemokines are influenced by non-surgical periodontal treatment: a 12-week follow-up study. <i>Journal of Oral Microbiology</i> , 2020, 12, 1694383.	2.7	10
8	Transition analysis applied to third molar development in a Danish population. <i>Forensic Science International</i> , 2020, 308, 110145.	2.2	6
9	<i>Porphyromonas gingivalis</i> in saliva associates with chronic and aggressive periodontitis. <i>Journal of Oral Microbiology</i> , 2019, 11, 1653123.	2.7	42
10	Lewis and ABO blood group-phenotypes in periodontitis, cardiovascular disease, obesity and stroke. <i>Scientific Reports</i> , 2019, 9, 6283.	3.3	6
11	Influence of periodontal treatment on subgingival and salivary microbiotas. <i>Journal of Periodontology</i> , 2018, 89, 531-539.	3.4	71
12	Oral erythroplakiaâ€What is it?. <i>Oral Diseases</i> , 2018, 24, 138-143.	3.0	26
13	Periodontitis in patients with cirrhosis: a cross-sectional study. <i>BMC Oral Health</i> , 2018, 18, 22.	2.3	25
14	The growing problem of antimicrobial resistance. <i>Oral Diseases</i> , 2018, 24, 291-295.	3.0	17
15	Severe periodontitis and higher cirrhosis mortality. <i>United European Gastroenterology Journal</i> , 2018, 6, 73-80.	3.8	11
16	Impact of Oral Hygiene Discontinuation on Supragingival and Salivary Microbiomes. <i>JDR Clinical and Translational Research</i> , 2018, 3, 57-64.	1.9	33
17	Third molar development in a contemporary Danish 13â€25 year old population. <i>Forensic Science International</i> , 2018, 289, 12-17.	2.2	15
18	Nonâ€plaqueâ€induced gingival diseases. <i>Journal of Periodontology</i> , 2018, 89, S28-S45.	3.4	59

#	ARTICLE	IF	CITATIONS
19	Periodontal health and gingival diseases and conditions on an intact and a reduced periodontium: Consensus report of workgroup 1 of the 2017 World Workshop on the Classification of Periodontal and Peri-Implant Diseases and Conditions. <i>Journal of Periodontology</i> , 2018, 89, S74-S84.	3.4	469
20	Unique subgingival microbiota associated with periodontitis in cirrhosis patients. <i>Scientific Reports</i> , 2018, 8, 10718.	3.3	27
21	Non-plaque-induced gingival diseases. <i>Journal of Clinical Periodontology</i> , 2018, 45, S28-S43.	4.9	40
22	Periodontal health and gingival diseases and conditions on an intact and a reduced periodontium: Consensus report of workgroup 1 of the 2017 World Workshop on the Classification of Periodontal and Peri-Implant Diseases and Conditions. <i>Journal of Clinical Periodontology</i> , 2018, 45, S68-S77.	4.9	312
23	<i>Porphyrromonas gingivalis</i> -induced production of reactive oxygen species, tumor necrosis factor- $\alpha$ , interleukin-6, CXCL8 and CCL2 by neutrophils from localized aggressive periodontitis and healthy donors: modulating actions of red blood cells and resolvin E1. <i>Journal of Periodontal Research</i> , 2017, 52, 246-254.	2.7	33
24	Blockade of RAGE in Zucker obese rats with experimental periodontitis. <i>Journal of Periodontal Research</i> , 2017, 52, 97-106.	2.7	9
25	Impact of Periodontitis Case Criteria: A Cross-Sectional Study of Lifestyle. <i>Journal of Periodontology</i> , 2017, 88, 602-609.	3.4	18
26	Salivary microbiota in individuals with different levels of caries experience. <i>Journal of Oral Microbiology</i> , 2017, 9, 1270614.	2.7	42
27	Ligature-associated bacterial profiles are linked to type 2 diabetes mellitus in a rat model and influenced by antibody treatment against TNF- $\alpha$ or RAGE. <i>Clinical and Experimental Dental Research</i> , 2017, 3, 25-31.	1.9	6
28	Immunoglobulin G antibodies against <i>Porphyrromonas gingivalis</i> or <i>Aggregatibacter actinomycetemcomitans</i> in cardiovascular disease and periodontitis. <i>Journal of Oral Microbiology</i> , 2017, 9, 1374154.	2.7	28
29	Metagenomic and metatranscriptomic analysis of saliva reveals disease-associated microbiota in patients with periodontitis and dental caries. <i>Npj Biofilms and Microbiomes</i> , 2017, 3, 23.	6.4	109
30	Comorbidity of periodontal disease: two sides of the same coin? An introduction for the clinician. <i>Journal of Oral Microbiology</i> , 2017, 9, 1332710.	2.7	127
31	<i>In vitro</i> complement activation, adherence to red blood cells and induction of mononuclear cell cytokine production by four strains of <i>Aggregatibacter actinomycetemcomitans</i> with different fimbriation and expression of leukotoxin. <i>Journal of Periodontal Research</i> , 2017, 52, 485-496.	2.7	4
32	Salivary cytokine levels in early gingival inflammation. <i>Journal of Oral Microbiology</i> , 2017, 9, 1364101.	2.7	38
33	Cholesterol crystals enhance TLR2- and TLR4-mediated pro-inflammatory cytokine responses of monocytes to the proatherogenic oral bacterium <i>Porphyrromonas gingivalis</i> . <i>PLoS ONE</i> , 2017, 12, e0172773.	2.5	23
34	Microbial profile comparisons of saliva, pooled and site-specific subgingival samples in periodontitis patients. <i>PLoS ONE</i> , 2017, 12, e0182992.	2.5	72
35	Presence and consequence of tooth periapical radiolucency in patients with cirrhosis. <i>Hepatic Medicine: Evidence and Research</i> , 2016, Volume 8, 97-103.	2.5	29
36	<i>Pseudomonas aeruginosa</i> Microcolonies in Coronary Thrombi from Patients with ST-Segment Elevation Myocardial Infarction. <i>PLoS ONE</i> , 2016, 11, e0168771.	2.5	11

#	ARTICLE	IF	CITATIONS
37	Comparative analysis of bacterial profiles in unstimulated and stimulated saliva samples. Journal of Oral Microbiology, 2016, 8, 30112.	2.7	49
38	Influence of complement on neutrophil extracellular trap release induced by bacteria. Journal of Periodontal Research, 2016, 51, 70-76.	2.7	62
39	Salivary bacterial fingerprints of established oral disease revealed by the Human Oral Microbe Identification using Next Generation Sequencing (HOMI<i>NGS</i>) technique. Journal of Oral Microbiology, 2016, 8, 30170.	2.7	63
40	Oral leukoplakiaâ€”to treat or not to treat. Oral Diseases, 2016, 22, 494-497.	3.0	49
41	Relation of Periodontitis to Risk of Cardiovascular and All-Cause Mortality (from a Danish Tj ETQq1 1 0.784314 rgBT/Overlock 10 Tf 50	1.6	86
42	Detection of Undiagnosed Diabetes in the Dental Setting. Current Oral Health Reports, 2016, 3, 1-6.	1.6	4
43	Bacterial composition in whole saliva from patients with severe hyposalivation â€” a caseâ€”control study. Oral Diseases, 2016, 22, 330-337.	3.0	29
44	Identification of Individuals With Undiagnosed Diabetes and Preâ€”Diabetes in a Danish Cohort Attending Dental Treatment. Journal of Periodontology, 2016, 87, 395-402.	3.4	50
45	Linkage Between Periodontal Disease and Diabetes Mellitus. , 2016, , 35-44.		2
46	Linkage Between Periodontal Disease and Rheumatoid Arthritis. , 2016, , 45-51.		2
47	Temporal Stability of the Salivary Microbiota in Oral Health. PLoS ONE, 2016, 11, e0147472.	2.5	104
48	Metaproteomics of saliva identifies human protein markers specific for individuals with periodontitis and dental caries compared to orally healthy controls. PeerJ, 2016, 4, e2433.	2.0	56
49	Effects of <sc>TNF</sc>â€”i&pm> blocking on experimental periodontitis and type 2 diabetes in obese diabetic <sc>Z</sc>ucker rats. Journal of Clinical Periodontology, 2015, 42, 807-816.	4.9	27
50	Viable Bacteria Associated with Red Blood Cells and Plasma in Freshly Drawn Blood Donations. PLoS ONE, 2015, 10, e0120826.	2.5	100
51	Differentiation of salivary bacterial profiles of subjects with periodontitis and dental caries. Journal of Oral Microbiology, 2015, 7, 27429.	2.7	32
52	The complement system and its role in the pathogenesis of periodontitis: current concepts. Journal of Periodontal Research, 2015, 50, 283-293.	2.7	42
53	Absence of Bacteria on Coronary Angioplasty Balloons from Unselected Patients: Results with Use of a High Sensitivity Polymerase Chain Reaction Assay. PLoS ONE, 2015, 10, e0145657.	2.5	3
54	Smoking and Drinking as Risk Indicators for Tooth Loss in Middle-Aged Danes. Journal of Aging and Health, 2014, 26, 54-71.	1.7	33

#	ARTICLE	IF	CITATIONS
55	Bacterial profiles of saliva in relation to diet, lifestyle factors, and socioeconomic status. <i>Journal of Oral Microbiology</i> , 2014, 6, 23609.	2.7	114
56	Differences in bacterial saliva profile between periodontitis patients and a control cohort. <i>Journal of Clinical Periodontology</i> , 2014, 41, 104-112.	4.9	89
57	Altered Bacterial Profiles in Saliva from Adults with Caries Lesions: A Case-Cohort Study. <i>Caries Research</i> , 2014, 48, 368-375.	2.0	63
58	A matrix of cholesterol crystals, but not cholesterol alone, primes human monocytes/macrophages for excessive endotoxin-induced production of tumor necrosis factor-alpha. Role in atherosclerotic inflammation?. <i>Discovery Medicine</i> , 2014, 17, 309-12.	0.5	3
59	Bone-implant contact after maxillary sinus floor augmentation with <i>B</i> and <i>O</i> and autogenous bone in different ratios in mini pigs. <i>Clinical Oral Implants Research</i> , 2013, 24, 635-644.	4.5	42
60	Findings from the oral health study of the Danish Health Examination Survey 2007-2008. <i>Acta Odontologica Scandinavica</i> , 2013, 71, 1560-1569.	1.6	50
61	Does a causal relation between cardiovascular disease and periodontitis exist?. <i>Microbes and Infection</i> , 2012, 14, 411-418.	1.9	37
62	Maxillary sinus floor augmentation with Bio-Oss or Bio-Oss mixed with autogenous bone as graft in animals: a systematic review. <i>International Journal of Oral and Maxillofacial Surgery</i> , 2012, 41, 114-120.	1.5	54
63	Maxillary sinus floor augmentation with Bio-Oss or Bio-Oss mixed with autogenous bone as graft: a systematic review. <i>Clinical Oral Implants Research</i> , 2012, 23, 263-273.	4.5	134
64	Volumetric changes of the graft after maxillary sinus floor augmentation with Bio-Oss and autogenous bone in different ratios: a radiographic study in minipigs. <i>Clinical Oral Implants Research</i> , 2012, 23, 902-910.	4.5	88
65	Reimplantation of cultivated human bone cells from the posterior maxilla for sinus floor augmentation. Histological results from a randomized controlled clinical trial. <i>Clinical Oral Implants Research</i> , 2012, 23, 1031-1037.	4.5	14
66	The Atherogenic Bacterium <i>Porphyromonas gingivalis</i> Evades Circulating Phagocytes by Adhering to Erythrocytes. <i>Infection and Immunity</i> , 2011, 79, 1559-1565.	2.2	41
67	LPS from <i>Porphyromonas gingivalis</i> increases the sensitivity of contractile response mediated by endothelin-B (ETB) receptors in cultured endothelium-intact rat coronary arteries. <i>Vascular Pharmacology</i> , 2010, 53, 250-257.	2.1	9
68	PLENARY ABSTRACT: The malignant potential of oral lichen planus. <i>Oral Diseases</i> , 2010, 16, 509-510.	3.0	6
69	In Vitro Cytokine Responses to Periodontal Pathogens: Generalized Aggressive Periodontitis is Associated with Increased IL-6 Response to <i>Porphyromonas gingivalis</i> . <i>Scandinavian Journal of Immunology</i> , 2010, 71, 440-446.	2.7	13
70	Can we prevent malignancy by treating premalignant lesions?. <i>Oral Oncology</i> , 2009, 45, 549-550.	1.5	32
71	Decreased Interleukin-2 Responses to <i>Fusobacterium nucleatum</i> and <i>Porphyromonas gingivalis</i> in Generalized Aggressive Periodontitis. <i>Journal of Periodontology</i> , 2009, 80, 800-807.	3.4	15
72	The Relationship Between Body Mass Index and Periodontitis in the Copenhagen City Heart Study. <i>Journal of Periodontology</i> , 2009, 80, 1246-1253.	3.4	75

#	ARTICLE	IF	CITATIONS
73	Aggressive Periodontitis and Chronic Arthritis: Blood Mononuclear Cell Gene Expression and Plasma Protein Levels of Cytokines and Cytokine Inhibitors. <i>Journal of Periodontology</i> , 2009, 80, 282-289.	3.4	23
74	Amount and type of alcohol and periodontitis in the Copenhagen City Heart Study. <i>Journal of Clinical Periodontology</i> , 2008, 35, 1032-1039.	4.9	37
75	Blood Cell Gene Expression Profiling in Subjects With Aggressive Periodontitis and Chronic Arthritis. <i>Journal of Periodontology</i> , 2008, 79, 477-485.	3.4	36
76	Renal Alterations in Prediabetic Rats With Periodontitis. <i>Journal of Periodontology</i> , 2008, 79, 684-690.	3.4	21
77	Involvement of Interleukin-1 Genotypes in the Association of Coronary Heart Disease With Periodontitis. <i>Journal of Periodontology</i> , 2008, 79, 2322-2330.	3.4	34
78	Periodontitis Is Associated With Aggravation of Prediabetes in Zucker Fatty Rats. <i>Journal of Periodontology</i> , 2007, 78, 559-565.	3.4	57
79	Polymorphisms Within the IL-1 Gene Cluster: Effects on Cytokine Profiles in Peripheral Blood and Whole Blood Cell Cultures of Patients With Aggressive Periodontitis, Juvenile Idiopathic Arthritis, and Rheumatoid Arthritis. <i>Journal of Periodontology</i> , 2007, 78, 475-492.	3.4	62
80	Relationship Between Periodontitis and Diabetes: Lessons From Rodent Studies. <i>Journal of Periodontology</i> , 2007, 78, 1264-1275.	3.4	62
81	Oral premalignant lesions: is a biopsy reliable?. <i>Journal of Oral Pathology and Medicine</i> , 2007, 36, 262-266.	2.7	143
82	Periodontal and Hematological Characteristics Associated With Aggressive Periodontitis, Juvenile Idiopathic Arthritis, and Rheumatoid Arthritis. <i>Journal of Periodontology</i> , 2006, 77, 280-288.	3.4	106
83	Periodontal Disease and Coronary Heart Disease. <i>Journal of Periodontology</i> , 2006, 77, 1547-1554.	3.4	68
84	Periodontitis Deteriorates Metabolic Control in Type 2 Diabetic Goto-Kakizaki Rats. <i>Journal of Periodontology</i> , 2006, 77, 350-356.	3.4	41
85	Is pre-term labour associated with periodontitis in a Danish maternity ward?. <i>Journal of Clinical Periodontology</i> , 2006, 33, 177-183.	4.9	41
86	Incidence of bacteremia after chewing, tooth brushing and scaling in individuals with periodontal inflammation. <i>Journal of Clinical Periodontology</i> , 2006, 33, 401-407.	4.9	579
87	Increased plasma levels of IL-6 in bacteremic periodontitis patients after scaling. <i>Journal of Clinical Periodontology</i> , 2006, 33, 724-729.	4.9	66
88	Long-term treatment outcome of oral premalignant lesions. <i>Oral Oncology</i> , 2006, 42, 461-474.	1.5	372
89	The effect of spironolactone on experimental periodontitis in rats. <i>Journal of Periodontal Research</i> , 2005, 40, 212-217.	2.7	18
90	Identification of Periodontal Pathogens in Atherosclerotic Vessels. <i>Journal of Periodontology</i> , 2005, 76, 731-736.	3.4	142

#	ARTICLE	IF	CITATIONS
91	Cytokine Profiles in Peripheral Blood and Whole Blood Cell Cultures Associated With Aggressive Periodontitis, Juvenile Idiopathic Arthritis, and Rheumatoid Arthritis. <i>Journal of Periodontology</i> , 2005, 76, 2276-2285.	3.4	84
92	Influence of the matrix metalloproteinase inhibitor batimastat (BB-94) on periodontal bone destruction in Sprague-Dawley rats. <i>Journal of Periodontal Research</i> , 2004, 39, 269-274.	2.7	10
93	Anorganic porous bovine-derived bone mineral (Bio-Oss®) and ePTFE membrane in the treatment of peri-implantitis in cynomolgus monkeys. <i>Clinical Oral Implants Research</i> , 2003, 14, 535-547.	4.5	47
94	Implant surface preparation in the surgical treatment of experimental peri-implantitis with autogenous bone graft and ePTFE membrane in cynomolgus monkeys. <i>Clinical Oral Implants Research</i> , 2003, 14, 412-422.	4.5	95
95	Autogenous bone graft and ePTFE membrane in the treatment of peri-implantitis. I. Clinical and radiographic observations in cynomolgus monkeys. <i>Clinical Oral Implants Research</i> , 2003, 14, 391-403.	4.5	44
96	The influence of diet consistence, drinking water and bedding on periodontal disease in Sprague-Dawley rats. <i>Journal of Periodontal Research</i> , 2003, 38, 543-550.	2.7	44
97	Oral infections and systemic diseases. <i>Dental Clinics of North America</i> , 2003, 47, 575-598.	1.8	52
98	Oral Lichen Planus and Malignant Transformation: Is a Recall of Patients Justified?. <i>Critical Reviews in Oral Biology and Medicine</i> , 2002, 13, 390-396.	4.4	136
99	Probing around implants and teeth with healthy or inflamed peri-implant mucosa/gingiva. <i>Clinical Oral Implants Research</i> , 2002, 13, 113-126.	4.5	128
100	Treatment of periodontal disease in the immunodeficient patient. <i>Periodontology 2000</i> , 2002, 28, 190-205.	13.4	19
101	Oral findings in patients with primary Sjögren's syndrome and oral lichen planus - a preliminary study on the effects of bovine colostrum-containing oral hygiene products. <i>Clinical Oral Investigations</i> , 2002, 6, 11-20.	3.0	19
102	Immunohistochemical analysis of epidermal growth factor receptor in cyclosporin A-induced gingival overgrowth. <i>Acta Odontologica Scandinavica</i> , 2001, 59, 367-371.	1.6	14
103	Comparison of ready-to-use EMDOGAIN® -gel and EMDOGAIN® in patients with chronic adult periodontitis. <i>Journal of Clinical Periodontology</i> , 2001, 28, 923-929.	4.9	47
104	A clinical index for evaluating and monitoring dental erosion. <i>Community Dentistry and Oral Epidemiology</i> , 2000, 28, 211-217.	1.9	32
105	Expression of VLA-integrins and their related basement membrane ligands in gingiva from patients of various periodontitis categories. <i>Journal of Clinical Periodontology</i> , 1999, 26, 217-224.	4.9	17
106	Non-Plaque-Induced Gingival Lesions. , 1999, 4, 20-29.		69
107	Dissolution of type I collagen fibrils by gingival fibroblasts isolated from patients of various periodontitis categories. <i>Journal of Periodontal Research</i> , 1998, 33, 280-291.	2.7	20
108	Dissolution of type I collagen fibrils by gingival fibroblasts isolated from patients of various periodontitis categories. <i>Journal of Periodontal Research</i> , 1998, 33, 280-291.	2.7	4

#	ARTICLE	IF	CITATIONS
109	Human papillomavirus in oral premalignant lesions. <i>European Journal of Cancer Part B, Oral Oncology</i> , 1996, 32, 264-270.	0.9	66
110	Microbiology of ligature-induced marginal inflammation around osseointegrated implants and 190-200.	4.5	20
111	Bacterial- Stimulated Cytokine Production of Peripheral Mononuclear Cells From Patients of Various Periodontitis Categories. <i>Journal of Periodontology</i> , 1995, 66, 139-144.	3.4	38
112	A Comparison of the Effect of Epidermal Growth Factor, Platelet-Derived Growth Factor, and Fibroblast Growth Factor on Rat Periodontal Ligament Fibroblast-Like Cells' DNA Synthesis and Morphology. <i>Journal of Periodontology</i> , 1994, 65, 373-378.	3.4	28
113	Periodontal diseases in HIV-infected patients. <i>Journal of Clinical Periodontology</i> , 1994, 21, 270-280.	4.9	55
114	Identification of <i>Candida albicans</i> types related to healthy and pathological oral mucosa. <i>Journal of Oral Pathology and Medicine</i> , 1994, 23, 406-412.	2.7	76
115	Keratin staining pattern in clinically normal and diseased oral mucosa of lichen planus patients. <i>European Journal of Oral Sciences</i> , 1994, 102, 210-215.	1.5	5
116	Ligature-induced marginal inflammation around osseointegrated implants and ankylosed teeth. Clinical and radiographic observations in cynomolgus monkeys ( <i>Macaca fascicularis</i> ). <i>Clinical Oral Implants Research</i> , 1993, 4, 12-22.	4.5	93
117	Scanning electron microscopic observations of early plaque formation in vivo on enamel specimens treated with delmopinol. <i>Journal of Clinical Periodontology</i> , 1993, 20, 318-326.	4.9	10
118	Marginal Periodontitis and Cytokines: A Review of the Literature. <i>Journal of Periodontology</i> , 1993, 64, 1013-1022.	3.4	115
119	Non-Human Primates Used in Studies of Periodontal Disease Pathogenesis: A Review of the Literature. <i>Journal of Periodontology</i> , 1993, 64, 497-508.	3.4	117
120	Miconazole chewing gum for treatment of chronic oral candidosis. <i>European Journal of Oral Sciences</i> , 1993, 101, 386-390.	1.5	15
121	Epithelial $\beta$ -naphthyl acetate esterases in the green vervet monkey gingiva before and after periodontal surgery and during tooth eruption. <i>European Journal of Oral Sciences</i> , 1993, 101, 92-97.	1.5	1
122	The Effect of Insulin-Like Growth Factor-1 and Human Growth Hormone on Periodontal Ligament Fibroblast Morphology, Growth Pattern, DNA Synthesis, and Receptor Binding. <i>Journal of Periodontology</i> , 1992, 63, 960-968.	3.4	58
123	Oral Mucosa and Skin Reactions Related to Amalgam. <i>Advances in Dental Research</i> , 1992, 6, 120-124.	3.6	50
124	Plaque-induced marginal tissue reactions of osseointegrated oral implants: a review of the literature. <i>Clinical Oral Implants Research</i> , 1992, 3, 149-161.	4.5	113
125	The controversy of a premalignant potential of oral lichen planus is over. <i>Oral Surgery, Oral Medicine, and Oral Pathology</i> , 1992, 73, 704-706.	0.6	69
126	Reactions of the oral mucosa related to silver amalgam: a review*. <i>Journal of Oral Pathology and Medicine</i> , 1991, 20, 1-7.	2.7	71

#	ARTICLE	IF	CITATIONS
127	Immunohistochemical distribution of keratin proteins in human gingival heterotransplants in nude mice. <i>Journal of Periodontal Research</i> , 1991, 26, 1-9.	2.7	2
128	Amalgam associated mercury accumulations in normal oral mucosa, oral mucosal lesions of lichen planus and contact lesions associated with amalgam. <i>Journal of Oral Pathology and Medicine</i> , 1990, 19, 39-42.	2.7	81
129	Oral mucosal lesions related to silver amalgam restorations. <i>Oral Surgery, Oral Medicine, and Oral Pathology</i> , 1990, 70, 55-58.	0.6	97
130	Effect of dental plaque control on gingival lichen planus. <i>Oral Surgery, Oral Medicine, and Oral Pathology</i> , 1990, 69, 585-590.	0.6	125
