

Tamis W Pin

List of Publications by Citations

Source: <https://exaly.com/author-pdf/3148287/tamis-w-pin-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
32	The effectiveness of passive stretching in children with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , 2006 , 48, 855-62	3.3	142
31	A review of the effects of sleep position, play position, and equipment use on motor development in infants. <i>Developmental Medicine and Child Neurology</i> , 2007 , 49, 858-67	3.3	93
30	A review of developmental outcomes of term infants with post-asphyxia neonatal encephalopathy. <i>European Journal of Paediatric Neurology</i> , 2009 , 13, 224-34	3.8	83
29	Use of intrathecal baclofen therapy in ambulant children and adolescents with spasticity and dystonia of cerebral origin: a systematic review. <i>Developmental Medicine and Child Neurology</i> , 2011 , 53, 885-95	3.3	50
28	Efficacy of botulinum toxin A in children with cerebral palsy in Gross Motor Function Classification System levels IV and V: a systematic review. <i>Developmental Medicine and Child Neurology</i> , 2013 , 55, 304-13	3.3	45
27	Motor trajectories from 4 to 18 months corrected age in infants born at less than 30 weeks of gestation. <i>Early Human Development</i> , 2010 , 86, 573-80	2.2	44
26	Effectiveness of static weight-bearing exercises in children with cerebral palsy. <i>Pediatric Physical Therapy</i> , 2007 , 19, 62-73	0.9	44
25	Motor development from 4 to 8 months corrected age in infants born at or less than 29 weeksb gestation. <i>Developmental Medicine and Child Neurology</i> , 2009 , 51, 739-45	3.3	43
24	Psychometric properties of 2-minute walk test: a systematic review. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014 , 95, 1759-75	2.8	37
23	Reliability, validity and minimal detectable change of 2-minute walk test, 6-minute walk test and 10-meter walk test in frail older adults with dementia. <i>Experimental Gerontology</i> , 2019 , 115, 9-18	4.5	36
22	Psychometric properties of outcome measures for children and adolescents with brachial plexus birth palsy: a systematic review. <i>Developmental Medicine and Child Neurology</i> , 2013 , 55, 1075-88	3.3	19
21	Clinimetric properties of the alberta infant motor scale in infants born preterm. <i>Pediatric Physical Therapy</i> , 2010 , 22, 278-86	0.9	18
20	to stretch or not to stretch in children with cerebral palsyb <i>Developmental Medicine and Child Neurology</i> , 2007 , 49, 797-800; author reply 799	3.3	16
19	Reliability, validity, and norms of the 2-min walk test in children with and without neuromuscular disorders aged 6-12. <i>Disability and Rehabilitation</i> , 2018 , 40, 1266-1272	2.4	11
18	Segmental Assessment of Trunk Control in infants from 4 to 9 months of age- a psychometric study. <i>BMC Pediatrics</i> , 2018 , 18, 182	2.6	8
17	The effect of interactive computer play on balance and functional abilities in children with moderate cerebral palsy: a pilot randomized study. <i>Clinical Rehabilitation</i> , 2019 , 33, 704-710	3.3	7
16	Use of whole body vibration therapy in individuals with moderate severity of cerebral palsy- a feasibility study. <i>BMC Neurology</i> , 2019 , 19, 80	3.1	6

15	Targeted Training in Managing Children With Poor Trunk Control: 4 Case Reports. <i>Pediatric Physical Therapy</i> , 2018 , 30, E8-E13	0.9	6
14	Relationship between segmental trunk control and gross motor development in typically developing infants aged from 4 to 12 months: a pilot study. <i>BMC Pediatrics</i> , 2019 , 19, 425	2.6	5
13	Reliability, validity and minimal detectable change of 2-min walk test and 10-m walk test in frail older adults receiving day care and residential care. <i>Aging Clinical and Experimental Research</i> , 2020 , 32, 597-604	4.8	5
12	Effectiveness of interactive computer play on balance and postural control for children with cerebral palsy: A systematic review. <i>Gait and Posture</i> , 2019 , 73, 126-139	2.6	3
11	Longitudinal Development of Segmental Trunk Control in Full Term and Preterm Infants- a Pilot Study: Part I. <i>Developmental Neurorehabilitation</i> , 2020 , 23, 185-192	1.8	3
10	The Role of S100B Protein at 24 Hours of Postnatal Age as Early Indicator of Brain Damage and Prognostic Parameter of Perinatal Asphyxia. <i>Global Pediatric Health</i> , 2019 , 6, 2333794X19833729	1.2	2
9	Practice effect and cueing of 2-minute walk test, 6-minute walk test and 10-meter walk test in frail older adults with and without dementia - Recommendations to walk tests protocols. <i>Experimental Gerontology</i> , 2019 , 124, 110648	4.5	2
8	Effectiveness of a multidisciplinary parent training program for children with developmental disabilities: A single-blind randomized waitlist controlled trial. <i>Journal of Child Health Care</i> , 2020 , 24, 560-576	2	2
7	Development of Gross Motor Evaluation for Children Aged 18 to 42 Months. <i>Developmental Neurorehabilitation</i> , 2021 , 24, 173-179	1.8	2
6	Clinical transition for adolescents with developmental disabilities in Hong Kong: a pilot study. <i>Hong Kong Medical Journal</i> , 2016 , 22, 445-53	0.7	1
5	Longitudinal Development of Segmental Trunk Control in Full Term and Preterm Infants- a Pilot Study: Part II. <i>Developmental Neurorehabilitation</i> , 2020 , 23, 193-200	1.8	1
4	Development of the Social Motor Function Classification System for Children with Autism Spectrum Disorders: A Psychometric Study. <i>Journal of Autism and Developmental Disorders</i> , 2021 , 51, 1995-2003	4.6	1
3	Pin et al. reply. <i>Developmental Medicine and Child Neurology</i> , 2011 , 53, 1062-1063	3.3	0
2	Feasibility of Whole Body Vibration Therapy in Individuals with Dystonic or Spastic Dystonic Cerebral Palsy: A Pilot Study. <i>Journal of Rehabilitation Medicine Clinical Communications</i> , 2019 , 2, 100002 ^{1,2}		
1	Development and pilot evaluation of the Cognition domain of the Hong Kong Comprehensive Assessment Scales for Toddlers. <i>Developmental Neurorehabilitation</i> , 2021 , 24, 244-255	1.8
