#	ARTICLE	IF	CITATIONS
1	Opening the closed mind? Effects of reading literary fiction on need for closure and creativity. <i>Creativity Research Journal</i> , 2024, 36, 24-41.	2.6	0
2	Testing the validity of a self-report scale, author recognition test, and book counting as measures of lifetime exposure to print fiction. <i>Behavior Research Methods</i> , 2023, 55, 103-134.	4.0	8
3	Narrativity and Literariness Affect the Aesthetic Attitude in Text Reading. <i>Empirical Studies of the Arts</i> , 2023, 41, 231-258.	1.7	1
4	Autistic Adults are Not Impaired at Maintaining or Switching Between Counterfactual and Factual Worlds: An ERP Study. <i>Journal of Autism and Developmental Disorders</i> , 2022, 52, 349-360.	2.7	5
5	Theory of Mind in Offending: A Systematic Review. <i>Trauma, Violence, and Abuse</i> , 2022, 23, 1610-1628.	6.2	3
6	Visual perspective-taking in complex natural scenes. <i>Quarterly Journal of Experimental Psychology</i> , 2022, 75, 1541-1551.	1.1	5
7	Extraction of the GVS electrical artifact from EEG recordings of the motor related cortical potential. <i>Journal of Neuroscience Methods</i> , 2022, 368, 109459.	2.5	0
8	Training executive functions using an adaptive procedure over 21%days (10 training sessions) and an active control group. <i>Quarterly Journal of Experimental Psychology</i> , 2021, 74, 1579-1594.	1.1	3
9	Tracking developmental differences in real-world social attention across adolescence, young adulthood and older adulthood. <i>Nature Human Behaviour</i> , 2021, 5, 1381-1390.	12.0	20
10	The developmental trajectories of executive function from adolescence to old age. <i>Scientific Reports</i> , 2021, 11, 1382.	3.3	170
11	Short-term physical training enhances mirror system activation to action observation. <i>Social Neuroscience</i> , 2020, 15, 98-107.	1.3	12
12	Dissociable effects of prediction and integration during language comprehension: evidence from a large-scale study using brain potentials. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2020, 375, 20180522.	4.0	115
13	Children's and parents' looking preferences to gender-typed objects: Evidence from eye tracking. <i>Journal of Experimental Child Psychology</i> , 2020, 199, 104892.	1.4	0
14	Perspective influences eye movements during real-life conversation: Mentalising about self versus others in autism. <i>Autism</i> , 2020, 24, 2153-2165.	4.1	8
15	The neural basis of belief-attribution across the lifespan: False-belief reasoning and the N400 effect. <i>Cortex</i> , 2020, 126, 265-280.	2.4	5
16	Emotional Processing of Ironic Versus Literal Criticism in Autistic and Nonautistic Adults: Evidence From Eye-tracking. <i>Autism Research</i> , 2020, 13, 563-578.	3.8	15
17	Adolescents are delayed at inferring complex social intentions in others, but not basic (false) beliefs: An eye-movement investigation. <i>Quarterly Journal of Experimental Psychology</i> , 2020, 73, 1640-1659.	1.1	5
18	Autistic adults anticipate and integrate meaning based on the speaker's voice: Evidence from eye-tracking and event-related potentials.. <i>Journal of Experimental Psychology: General</i> , 2020, 149, 1097-1115.	2.1	16

#	ARTICLE	IF	CITATIONS
19	Sensorimotor mu rhythm during action observation changes across the lifespan independently from social cognitive processes. <i>Developmental Cognitive Neuroscience</i> , 2019, 38, 100659.	4.0	15
20	Distinguishing reality from fantasy in adults with autism spectrum disorder: Evidence from eye movements and reading. <i>Journal of Memory and Language</i> , 2019, 106, 95-107.	2.1	13
21	Intact counterfactual emotion processing in autism spectrum disorder: Evidence from eye-tracking. <i>Autism Research</i> , 2019, 12, 422-444.	3.8	14
22	Plausibility and Perspective Influence the Processing of Counterfactual Narratives. <i>Discourse Processes</i> , 2018, 55, 166-186.	1.8	12
23	Complement Set Reference after Implicitly Small Quantities: An Event-Related Potentials Study. <i>Discourse Processes</i> , 2018, 55, 146-156.	1.8	2
24	Age of avatar modulates the altercentric bias in a visual perspective-taking task: ERP and behavioral evidence. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2018, 18, 1298-1319.	2.0	21
25	Belief attribution in adults with and without autistic spectrum disorders. <i>Autism Research</i> , 2018, 11, 1542-1553.	3.8	13
26	Large-scale replication study reveals a limit on probabilistic prediction in language comprehension. <i>ELife</i> , 2018, 7, .	6.0	177
27	Imagining counterfactual worlds in autism spectrum disorder.. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2018, 44, 1444-1463.	0.9	10
28	Perceptual and Memorial Contributions to Developmental Prosopagnosia. <i>Quarterly Journal of Experimental Psychology</i> , 2017, 70, 298-315.	1.1	40
29	Behavioural improvement in a minimally conscious state after caloric vestibular stimulation: evidence from two single case studies. <i>Clinical Rehabilitation</i> , 2017, 31, 500-507.	2.2	14
30	Eye tracking reveals the cost of switching between self and other perspectives in a visual perspective-taking task. <i>Quarterly Journal of Experimental Psychology</i> , 2017, 70, 1646-1660.	1.1	31
31	Tracking the impact of depression in a perspective-taking task. <i>Scientific Reports</i> , 2017, 7, 14821.	3.3	10
32	Using perspective to resolve reference: The impact of cognitive load and motivation.. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2017, 43, 591-610.	0.9	35
33	Do two and three year old children use an incremental first-NP-as-agent bias to process active transitive and passive sentences?: A permutation analysis. <i>PLoS ONE</i> , 2017, 12, e0186129.	2.5	28
34	How children aged 2;6 tailor verbal expressions to interlocutor informational needs. <i>Journal of Child Language</i> , 2016, 43, 1277-1291.	1.2	9
35	Synchronised vestibular signals increase the P300 event-related potential elicited by auditory oddballs. <i>Brain Research</i> , 2016, 1648, 224-231.	2.2	6
36	Processing negation without context – why and when we represent the positive argument. <i>Language, Cognition and Neuroscience</i> , 2016, 31, 683-698.	1.2	120

#	ARTICLE	IF	CITATIONS
37	“Rosie”™ A Child Protection Simulation: Perspectives on Neglect and the “Unconscious At Work”™. <i>Child Abuse Review</i> , 2015, 24, 346-364.	0.8	19
38	Examining the cognitive costs of counterfactual language comprehension: Evidence from ERPs. <i>Brain Research</i> , 2015, 1622, 252-269.	2.2	20
39	Task constraints distinguish perspective inferences from perspective use during discourse interpretation in a false belief task. <i>Cognition</i> , 2015, 139, 50-70.	2.2	22
40	Empathy predicts false belief reasoning ability: evidence from the N400. <i>Social Cognitive and Affective Neuroscience</i> , 2015, 10, 848-855.	3.0	56
41	Examining mental simulations of uncertain events. <i>Psychonomic Bulletin and Review</i> , 2013, 20, 391-399.	2.8	3
42	Taking the epistemic step: Toward a model of on-line access to conversational implicatures. <i>Cognition</i> , 2013, 126, 423-440.	2.2	167
43	Investigating the timecourse of accessing conversational implicatures during incremental sentence interpretation. <i>Language and Cognitive Processes</i> , 2013, 28, 443-467.	2.2	118
44	Eye movements to audiovisual scenes reveal expectations of a just world.. <i>Journal of Experimental Psychology: General</i> , 2013, 142, 34-40.	2.1	35
45	Eye movements reveal rapid concurrent access to factual and counterfactual interpretations of the world. <i>Quarterly Journal of Experimental Psychology</i> , 2012, 65, 939-961.	1.1	30
46	Galvanic vestibular stimulation modulates the electrophysiological response during face processing. <i>Visual Neuroscience</i> , 2012, 29, 255-262.	1.0	15
47	Listeners' eyes reveal spontaneous sensitivity to others' perspectives. <i>Journal of Experimental Social Psychology</i> , 2012, 48, 257-263.	2.2	36
48	Eye movements reveal the time-course of anticipating behaviour based on complex, conflicting desires. <i>Cognition</i> , 2011, 119, 179-196.	2.2	26
49	Face, body, and center of gravity mediate person detection in natural scenes.. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2010, 36, 1477-1485.	0.9	51
50	Why We Simulate Negated Information: A Dynamic Pragmatic Account. <i>Quarterly Journal of Experimental Psychology</i> , 2010, 63, 2305-2312.	1.1	107
51	Expectations in counterfactual and theory of mind reasoning. <i>Language and Cognitive Processes</i> , 2010, 25, 297-346.	2.2	78
52	Anomalies in real and counterfactual worlds: An eye-movement investigation. <i>Journal of Memory and Language</i> , 2008, 58, 609-626.	2.1	95
53	Eye-movements and ERPs reveal the time course of processing negation and remitting counterfactual worlds. <i>Brain Research</i> , 2008, 1236, 113-125.	2.2	80
54	The effects of reading narrative fiction on social and moral cognition. <i>Scientific Study of Literature</i> , 0, , .	0.2	4

#	ARTICLE	IF	CITATIONS
55	Exploring the Relationship Between Loneliness and Social Cognition in Older Age. Social Psychology, 0, , .	0.7	1
