

Emil F Coccaro

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/3159069/emil-f-coccaro-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
173	Gene expression in peripheral blood mononuclear cells in impulsive aggression: Intermittent explosive disorder compared with non-aggressive healthy and psychiatric controls. <i>Psychoneuroendocrinology</i> , 2021 , 136, 105453	5	0
172	Associations of aggression and use of caffeine, alcohol and nicotine in healthy and aggressive individuals.. <i>Journal of Psychiatric Research</i> , 2021 , 146, 21-27	5.2	2
171	Neuronal responses to adverse social threat in healthy human subjects. <i>Journal of Psychiatric Research</i> , 2021 , 136, 47-53	5.2	2
170	Emotion attribution in intermittent explosive disorder. <i>Comprehensive Psychiatry</i> , 2021 , 106, 152229	7.3	0
169	The development of an fMRI protocol to investigate vmPFC network functioning underlying the generalization of behavioral control. <i>Psychiatry Research - Neuroimaging</i> , 2021 , 307, 111197	2.9	0
168	Emotional Regulation and Diabetes Distress in Adults With Type 1 and Type 2 Diabetes. <i>Diabetes Care</i> , 2021 , 44, 20-25	14.6	4
167	Evidence for the taxonic latent structure for DSM-5 intermittent explosive disorder in adults. <i>Psychological Medicine</i> , 2021 , 51, 54-61	6.9	1
166	The Role of 5-HT2B Receptor on Aggression and Drugs of Abuse. <i>Receptors</i> , 2021 , 291-307		
165	Assessment of subjective sleep quality and issues in aggression: Intermittent Explosive Disorder compared with psychiatric and healthy controls. <i>Comprehensive Psychiatry</i> , 2021 , 112, 152270	7.3	
164	Neural responses to induced emotion and response to social threat in intermittent explosive disorder. <i>Psychiatry Research - Neuroimaging</i> , 2021 , 318, 111388	2.9	0
163	Comorbidity of disruptive behavior disorders and intermittent explosive disorder. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2020 , 14, 24	6.8	0
162	History of childhood abuse and alcohol use disorder: Relationship with intermittent explosive disorder and intoxicated aggression frequency. <i>Journal of Psychiatric Research</i> , 2020 , 125, 38-44	5.2	8
161	The Overt Aggression Scale Modified (OAS-M) for clinical trials targeting impulsive aggression and intermittent explosive disorder: Validity, reliability, and correlates. <i>Journal of Psychiatric Research</i> , 2020 , 124, 50-57	5.2	11
160	Disordered Aggression and Violence in the United States. <i>Journal of Clinical Psychiatry</i> , 2020 , 81,	4.6	4
159	Neurotransmitter Function in Impulsive Aggression and Intermittent Explosive Disorder 2020 , 249-269		1
158	Potential Mood Variation Following a Behavioral Analogue of Self-Injurious Behavior. <i>Archives of Suicide Research</i> , 2020 , 24, S113-S125	2.3	0
157	Narcissistic and Borderline Personality Disorders: Relationship With Oxidative Stress. <i>Journal of Personality Disorders</i> , 2020 , 34, 6-24	2.6	7

156	Psychiatric comorbidity in Intermittent Explosive Disorder. <i>Journal of Psychiatric Research</i> , 2019 , 118, 38-43	5.2	5
155	Role of the kynurenine pathway and the endocannabinoid system as modulators of inflammation and personality traits. <i>Psychoneuroendocrinology</i> , 2019 , 110, 104434	5	2
154	Aggression directed towards others vs. aggression directed towards the self: clinical differences between intermittent explosive disorder and nonsuicidal self-injury. <i>Revista Brasileira De Psiquiatria</i> , 2019 , 41, 303-309	2.6	3
153	Translational Medicine Strategies for Drug Development for Impulsive Aggression. <i>Handbook of Behavioral Neuroscience</i> , 2019 , 29, 403-418	0.7	
152	Pharmacologic Treatment of Intermittent Explosive Disorder 2019 , 221-233		1
151	Aggression and Intermittent Explosive Disorder: Medical and Lifestyle Correlates 2019 , 131-143		
150	Clinical Approach and Assessment of Intermittent Explosive Disorder 2019 , 185-197		
149	Psychiatric Comorbidity in Intermittent Explosive Disorder 2019 , 67-84		1
148	Social Cognition in Intermittent Explosive Disorder 2019 , 145-156		0
147	Neuroimaging in Aggression and IED 2019 , 111-130		1
146	Neurotransmitters and Intermittent Explosive Disorder 2019 , 87-110		1
145	Phenomenology of Impulsive Aggression and Intermittent Explosive Disorder 2019 , 37-65		4
144	5-HT agonist, lorcaserin, reduces aggressive responding in intermittent explosive disorder: A pilot study. <i>Human Psychopharmacology</i> , 2019 , 34, e2714	2.3	5
143	Subtypes of aggression in intermittent explosive disorder. <i>Journal of Psychiatric Research</i> , 2019 , 109, 164-172	5.2	15
142	Identification and regulation of emotions in adults of varying weight statuses. <i>Journal of Health Psychology</i> , 2019 , 24, 941-952	3.1	5
141	Mild Traumatic Brain Injury and Aggression, Impulsivity, and History of Other- and Self-Directed Aggression. <i>Journal of Neuropsychiatry and Clinical Neurosciences</i> , 2018 , 30, 220-227	2.7	11
140	Psychosocial impairment in DSM-5 intermittent explosive disorder. <i>Psychiatry Research</i> , 2018 , 264, 91-95	9.9	11
139	Genome-Wide DNA Methylation Changes Associated with Intermittent Explosive Disorder: A Gene-Based Functional Enrichment Analysis. <i>International Journal of Neuropsychopharmacology</i> , 2018 , 21, 12-20	5.8	7

138	DSM-5 intermittent explosive disorder: Relationship with Disruptive Mood Dysregulation Disorder. <i>Comprehensive Psychiatry</i> , 2018 , 84, 118-121	7.3	6
137	Circulating endocannabinoids and affect regulation in human subjects. <i>Psychoneuroendocrinology</i> , 2018 , 92, 66-71	5	18
136	Comorbidity of personality disorder with intermittent explosive disorder. <i>Journal of Psychiatric Research</i> , 2018 , 106, 15-21	5.2	8
135	Reduced frontal grey matter, life history of aggression, and underlying genetic influence. <i>Psychiatry Research - Neuroimaging</i> , 2018 , 271, 126-134	2.9	13
134	Social desirability, deceptive reporting, and awareness of problematic aggression in intermittent explosive disorder compared with non-aggressive healthy and psychiatric controls. <i>Psychiatry Research</i> , 2018 , 270, 20-25	9.9	6
133	Development of a social emotional information processing assessment for adults (SEIP-Q). <i>Aggressive Behavior</i> , 2017 , 43, 47-59	2.8	16
132	Neural Correlates of Aggressive Behavior in Real Time: a Review of fMRI Studies of Laboratory Reactive Aggression. <i>Current Behavioral Neuroscience Reports</i> , 2017 , 4, 138-150	1.7	36
131	Intermittent explosive disorder and eating disorders: Analysis of national comorbidity and research samples. <i>Comprehensive Psychiatry</i> , 2017 , 75, 62-67	7.3	8
130	Development of a screening questionnaire for DSM-5 intermittent explosive disorder (IED-SQ). <i>Comprehensive Psychiatry</i> , 2017 , 74, 21-26	7.3	6
129	Intermittent Explosive Disorder and the Impulse-Control Disorders 2017 , 89-101		
128	Testosterone and Aggression: More Than Just Biology?. <i>Biological Psychiatry</i> , 2017 , 82, 234	7.9	2
127	Social emotional information processing in adults: Development and psychometrics of a computerized video assessment in healthy controls and aggressive individuals. <i>Psychiatry Research</i> , 2017 , 248, 40-47	9.9	10
126	Intermittent Explosive Disorder and Substance Use Disorder: Analysis of the National Comorbidity Survey Replication Sample. <i>Journal of Clinical Psychiatry</i> , 2017 , 78, 697-702	4.6	25
125	Elevated Plasma Oxidative Stress Markers in Individuals With Intermittent Explosive Disorder and Correlation With Aggression in Humans. <i>Biological Psychiatry</i> , 2016 , 79, 127-35	7.9	34
124	Social cognition in Intermittent Explosive Disorder and aggression. <i>Journal of Psychiatric Research</i> , 2016 , 83, 140-150	5.2	26
123	Comorbid intermittent explosive disorder and posttraumatic stress disorder: Clinical correlates and relationship to suicidal behavior. <i>Comprehensive Psychiatry</i> , 2016 , 70, 125-33	7.3	12
122	Substance use disorders: Relationship with intermittent explosive disorder and with aggression, anger, and impulsivity. <i>Journal of Psychiatric Research</i> , 2016 , 81, 127-32	5.2	37
121	White Matter Integrity Reductions in Intermittent Explosive Disorder. <i>Neuropsychopharmacology</i> , 2016 , 41, 2697-703	8.7	25

120	Tryptophan, kynurenine, and kynurenine metabolites: Relationship to lifetime aggression and inflammatory markers in human subjects. <i>Psychoneuroendocrinology</i> , 2016 , 71, 189-96	5	24
119	HbA1c levels as a function of emotional regulation and emotional intelligence in patients with type 2 diabetes. <i>Primary Care Diabetes</i> , 2016 , 10, 334-41	2.4	13
118	Frontolimbic Morphometric Abnormalities in Intermittent Explosive Disorder and Aggression. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2016 , 1, 32-38	3.4	16
117	Effects of Escitalopram Administration on Face Processing in Intermittent Explosive Disorder: An fMRI Study. <i>Neuropsychopharmacology</i> , 2016 , 41, 590-7	8.7	22
116	Toxoplasma gondii infection: relationship with aggression in psychiatric subjects. <i>Journal of Clinical Psychiatry</i> , 2016 , 77, 334-41	4.6	43
115	GH response to intravenous clonidine challenge correlates with history of childhood trauma in personality disorder. <i>Journal of Psychiatric Research</i> , 2016 , 76, 38-43	5.2	5
114	Defense styles in Intermittent Explosive Disorder. <i>Psychiatry Research</i> , 2016 , 238, 137-142	9.9	5
113	Amygdala hyperactivation to angry faces in intermittent explosive disorder. <i>Journal of Psychiatric Research</i> , 2016 , 79, 34-41	5.2	59
112	Relationships between perceived emotional intelligence, aggression, and impulsivity in a population-based adult sample. <i>Psychiatry Research</i> , 2016 , 246, 255-260	9.9	9
111	Differential fMRI BOLD responses in amygdala in intermittent explosive disorder as a function of past Alcohol Use Disorder. <i>Psychiatry Research - Neuroimaging</i> , 2016 , 257, 5-10	2.9	9
110	Emotion regulation deficits in intermittent explosive disorder. <i>Aggressive Behavior</i> , 2015 , 41, 25-33	2.8	30
109	Cerebrospinal fluid inflammatory cytokines and aggression in personality disordered subjects. <i>International Journal of Neuropsychopharmacology</i> , 2015 , 18, pyv001	5.8	25
108	Morphometric analysis of amygdala and hippocampus shape in impulsively aggressive and healthy control subjects. <i>Journal of Psychiatric Research</i> , 2015 , 69, 80-6	5.2	23
107	The nature of impulsive aggression: Commentary on "Aggression in borderline personality disorder--A multidimensional model". <i>Personality Disorders: Theory, Research, and Treatment</i> , 2015 , 6, 292-3	4.1	1
106	Inflammatory markers and chronic exposure to fluoxetine, divalproex, and placebo in intermittent explosive disorder. <i>Psychiatry Research</i> , 2015 , 229, 844-9	9.9	14
105	Childhood trauma and parental style: Relationship with markers of inflammation, oxidative stress, and aggression in healthy and personality disordered subjects. <i>Biological Psychology</i> , 2015 , 112, 56-65	3.2	25
104	Cerebrospinal fluid and plasma C-reactive protein and aggression in personality-disordered subjects: a pilot study. <i>Journal of Neural Transmission</i> , 2015 , 122, 321-6	4.3	14
103	Emotional intelligence and impulsive aggression in Intermittent Explosive Disorder. <i>Journal of Psychiatric Research</i> , 2015 , 61, 135-40	5.2	13

102	The experience of aggressive outbursts in Intermittent Explosive Disorder. <i>Psychiatry Research</i> , 2015 , 225, 710-5	9.9	30
101	Self-harm behavior among individuals with intermittent explosive disorder and personality disorders. <i>Journal of Psychiatric Research</i> , 2015 , 60, 125-31	5.2	20
100	Serotonin and impulsive aggression. <i>CNS Spectrums</i> , 2015 , 20, 295-302	1.8	88
99	Verbal versus physical aggression in Intermittent Explosive Disorder. <i>Psychiatry Research</i> , 2015 , 225, 531-9	9.9	12
98	Relationship between psychopathy, aggression, anger, impulsivity, and intermittent explosive disorder. <i>Aggressive Behavior</i> , 2014 , 40, 526-36	2.8	42
97	Intermittent Explosive Disorder and aversive parental care. <i>Psychiatry Research</i> , 2014 , 220, 477-82	9.9	10
96	Validity of the new A1 and A2 criteria for DSM-5 intermittent explosive disorder. <i>Comprehensive Psychiatry</i> , 2014 , 55, 260-7	7.3	18
95	History of childhood maltreatment in intermittent explosive disorder and suicidal behavior. <i>Journal of Psychiatric Research</i> , 2014 , 56, 10-7	5.2	25
94	Elevated plasma inflammatory markers in individuals with intermittent explosive disorder and correlation with aggression in humans. <i>JAMA Psychiatry</i> , 2014 , 71, 158-65	14.5	89
93	The latent structure of oppositional defiant disorder in children and adults. <i>Journal of Psychiatric Research</i> , 2013 , 47, 1932-9	5.2	18
92	Cerebrospinal fluid glutamate concentration correlates with impulsive aggression in human subjects. <i>Journal of Psychiatric Research</i> , 2013 , 47, 1247-53	5.2	51
91	Cerebrospinal fluid 5-hydroxyindolacetic acid correlates directly with negative affective intensity, but not affective lability, in human subjects. <i>International Journal of Neuropsychopharmacology</i> , 2013 , 16, 261-9	5.8	1
90	A novel V1a receptor antagonist blocks vasopressin-induced changes in the CNS response to emotional stimuli: an fMRI study. <i>Frontiers in Systems Neuroscience</i> , 2013 , 7, 100	3.5	29
89	Affective intensity and lability: heritability in adult male twins. <i>Journal of Affective Disorders</i> , 2012 , 136, 1011-6	6.6	17
88	Life history of impulsive behavior: development and validation of a new questionnaire. <i>Journal of Psychiatric Research</i> , 2012 , 46, 346-52	5.2	32
87	The latent structure of attention deficit/hyperactivity disorder in an adult sample. <i>Journal of Psychiatric Research</i> , 2012 , 46, 782-9	5.2	24
86	Hostile attributional bias, negative emotional responding, and aggression in adults: moderating effects of gender and impulsivity. <i>Aggressive Behavior</i> , 2012 , 38, 47-63	2.8	41
85	Funci3 corticol3bica en la conducta agresiva impulsiva. <i>Psiquiatría Biológica</i> , 2012 , 19, 46-53	0.2	3

84	Inter-relationship between different platelet measures of 5-HT and their relationship to aggression in human subjects. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2012 , 36, 277-81	5.5	5
83	Cerebrospinal fluid substance P-like immunoreactivity correlates with aggression in personality disordered subjects. <i>Biological Psychiatry</i> , 2012 , 72, 238-43	7.9	21
82	Cerebrospinal fluid neuropeptide Y-like immunoreactivity correlates with impulsive aggression in human subjects. <i>Biological Psychiatry</i> , 2012 , 72, 997-1003	7.9	29
81	What is the nature of serotonergic abnormalities in human aggression?. <i>Biological Psychiatry</i> , 2012 , 72, 980-1	7.9	8
80	Personality disorder--not otherwise specified evidence of validity and consideration for DSM-5. <i>Comprehensive Psychiatry</i> , 2012 , 53, 907-14	7.3	35
79	Intermittent explosive disorder as a disorder of impulsive aggression for DSM-5. <i>American Journal of Psychiatry</i> , 2012 , 169, 577-88	11.9	118
78	Modulation of central serotonin affects emotional information processing in impulsive aggressive personality disorder. <i>Journal of Clinical Psychopharmacology</i> , 2012 , 32, 329-35	1.7	13
77	Corticolimbic function in impulsive aggressive behavior. <i>Biological Psychiatry</i> , 2011 , 69, 1153-9	7.9	163
76	The neurochemistry of human aggression. <i>Advances in Genetics</i> , 2011 , 75, 151-69	3.3	61
75	Intermittent explosive disorder: development of integrated research criteria for Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition. <i>Comprehensive Psychiatry</i> , 2011 , 52, 119-25	7.3	46
74	Characterizing eating disorders in a personality disorders sample. <i>Psychiatry Research</i> , 2011 , 185, 427-32	9.9	8
73	Personality predictors of antiaggressive response to fluoxetine: inverse association with neuroticism and harm avoidance. <i>International Clinical Psychopharmacology</i> , 2011 , 26, 278-83	2.2	7
72	Genomic architecture of aggression: rare copy number variants in intermittent explosive disorder. <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2011 , 156B, 808-16	3.5	9
71	Lifetime history of cigarette smoking associated with aggression and impulsivity in both healthy and personality disordered volunteers. <i>Journal of Personality Disorders</i> , 2011 , 25, 645-55	2.6	9
70	Aggression, suicidality, and intermittent explosive disorder: serotonergic correlates in personality disorder and healthy control subjects. <i>Neuropsychopharmacology</i> , 2010 , 35, 435-44	8.7	65
69	GH response to intravenous clonidine challenge: absence of relationship with behavioral irritability, aggression, or impulsivity in human subjects. <i>Psychiatry Research</i> , 2010 , 178, 443-5	9.9	4
68	Multivariate behavior genetic analyses of aggressive behavior subtypes. <i>Behavior Genetics</i> , 2010 , 40, 603-17	3.2	35
67	Cerebrospinal fluid 5-hydroxyindolacetic acid and homovanillic acid: reciprocal relationships with impulsive aggression in human subjects. <i>Journal of Neural Transmission</i> , 2010 , 117, 241-8	4.3	44

66	Inverse relationship between numbers of 5-HT transporter binding sites and life history of aggression and intermittent explosive disorder. <i>Journal of Psychiatric Research</i> , 2010 , 44, 137-42	5.2	32
65	Proactive, reactive, and romantic relational aggression in adulthood: measurement, predictive validity, gender differences, and association with Intermittent Explosive Disorder. <i>Journal of Psychiatric Research</i> , 2010 , 44, 393-404	5.2	101
64	Cortisol responses to ipsapirone challenge correlate with aggression, while basal cortisol levels correlate with impulsivity, in personality disorder and healthy volunteer subjects. <i>Journal of Psychiatric Research</i> , 2010 , 44, 874-80	5.2	19
63	A family history study of intermittent explosive disorder. <i>Journal of Psychiatric Research</i> , 2010 , 44, 1101-5.2	5.2	16
62	Evaluation of behavioral impulsivity and aggression tasks as endophenotypes for borderline personality disorder. <i>Journal of Psychiatric Research</i> , 2009 , 43, 1036-48	5.2	94
61	Attributional and emotional responses to socially ambiguous cues: validation of a new assessment of social/emotional information processing in healthy adults and impulsive aggressive patients. <i>Journal of Psychiatric Research</i> , 2009 , 43, 915-25	5.2	89
60	Cerebrospinal fluid oxytocin, life history of aggression, and personality disorder. <i>Psychoneuroendocrinology</i> , 2009 , 34, 1567-73	5	118
59	Acute tryptophan depletion and self-injurious behavior in aggressive patients and healthy volunteers. <i>Psychopharmacology</i> , 2009 , 203, 53-61	4.7	28
58	Effects of acute alcohol intoxication and paroxetine on aggression in men. <i>Alcoholism: Clinical and Experimental Research</i> , 2009 , 33, 581-90	3.7	12
57	Serotonin augmentation reduces response to attack in aggressive individuals. <i>Psychological Science</i> , 2009 , 20, 714-20	7.9	60
56	A double-blind, randomized, placebo-controlled trial of fluoxetine in patients with intermittent explosive disorder. <i>Journal of Clinical Psychiatry</i> , 2009 , 70, 653-62	4.6	114
55	Prevalence of suicidal and self-injurious behavior among subjects with intermittent explosive disorder. <i>Psychiatry Research</i> , 2008 , 158, 248-50	9.9	22
54	Placebo-controlled, randomized trial of fluoxetine in the treatment of aggression in male intimate partner abusers. <i>International Clinical Psychopharmacology</i> , 2008 , 23, 337-41	2.2	13
53	Initial association of NR2E1 with bipolar disorder and identification of candidate mutations in bipolar disorder, schizophrenia, and aggression through resequencing. <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2008 , 147B, 880-9	3.5	29
52	The relationship between impulsive verbal aggression and intermittent explosive disorder. <i>Aggressive Behavior</i> , 2008 , 34, 51-60	2.8	36
51	Cognitive-behavioral therapy for intermittent explosive disorder: a pilot randomized clinical trial. <i>Journal of Consulting and Clinical Psychology</i> , 2008 , 76, 876-86	6.5	68
50	Consensus report on impulsive aggression as a symptom across diagnostic categories in child psychiatry: implications for medication studies. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2007 , 46, 309-322	7.2	119
49	Amygdala and orbitofrontal reactivity to social threat in individuals with impulsive aggression. <i>Biological Psychiatry</i> , 2007 , 62, 168-78	7.9	424

48	CSF testosterone: relationship to aggression, impulsivity, and venturesomeness in adult males with personality disorder. <i>Journal of Psychiatric Research</i> , 2007 , 41, 488-92	5.2	52
47	Plasma homovanillic acid correlates inversely with history of learning problems in healthy volunteer and personality disordered subjects. <i>Psychiatry Research</i> , 2007 , 149, 297-302	9.9	6
46	Association of C-reactive protein elevation with trait aggression and hostility in personality disordered subjects: a pilot study. <i>Journal of Psychiatric Research</i> , 2006 , 40, 460-5	5.2	55
45	Intermittent explosive disorder-integrated research diagnostic criteria: convergent and discriminant validity. <i>Journal of Psychiatric Research</i> , 2006 , 40, 231-42	5.2	48
44	The prevalence and correlates of DSM-IV intermittent explosive disorder in the National Comorbidity Survey Replication. <i>Archives of General Psychiatry</i> , 2006 , 63, 669-78		259
43	PennTwins: A Population-Based Cohort for Twin Studies. <i>Twin Research and Human Genetics</i> , 2006 , 9, 998-1005	2.2	16
42	PennTwins: a population-based cohort for twin studies. <i>Twin Research and Human Genetics</i> , 2006 , 9, 998-1005		8
41	Developmental psychopathology and neurobiology of aggression. <i>Development and Psychopathology</i> , 2005 , 17, 1151-71	4.3	38
40	High prevalence of personality disorders among healthy volunteers for research: implications for control group bias. <i>Journal of Psychiatric Research</i> , 2005 , 39, 421-30	5.2	23
39	Memories of childhood abuse in borderline personality disorder. <i>Current Psychiatry Reports</i> , 2005 , 7, 39	9.1	
38	Striatal Amphetamine-induced Dopamine Release in Schizotypal Personality Disorder. <i>Current Psychiatry Reports</i> , 2005 , 7, 40	9.1	
37	Neuroimaging and personality disorders. <i>Current Psychiatry Reports</i> , 2005 , 7, 65-72	9.1	41
36	Molecular genetics of personality. <i>Current Psychiatry Reports</i> , 2005 , 7, 73-80	9.1	37
35	Childhood trauma and personality disorder: positive correlation with adult CSF corticotropin-releasing factor concentrations. <i>American Journal of Psychiatry</i> , 2005 , 162, 995-7	11.9	73
34	Prevalence and features of intermittent explosive disorder in a clinical setting. <i>Journal of Clinical Psychiatry</i> , 2005 , 66, 1221-7	4.6	59
33	Divalproex for cluster B personality disorders. <i>Current Psychiatry Reports</i> , 2004 , 6, 41	9.1	
32	Borderline personality disorder therapy with omega-3 fatty acids. <i>Current Psychiatry Reports</i> , 2004 , 6, 42	9.1	
31	Platelet serotonin content correlates inversely with life history of aggression in personality-disordered subjects. <i>Psychiatry Research</i> , 2004 , 126, 23-32	9.9	46

30	Lifetime and 1-month prevalence rates of intermittent explosive disorder in a community sample. <i>Journal of Clinical Psychiatry</i> , 2004 , 65, 820-4	4.6	72
29	Norepinephrine function in personality disorder: plasma free MHPG correlates inversely with life history of aggression. <i>CNS Spectrums</i> , 2003 , 8, 731-6	1.8	26
28	Evidence for a dysfunctional prefrontal circuit in patients with an impulsive aggressive disorder. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2002 , 99, 8448-53	11.5	233
27	Is the nature of personality disorder categoric or dimensional?. <i>Current Psychiatry Reports</i> , 2000 , 2, 49-50	9.1	2
26	Intermittent explosive disorder. <i>Current Psychiatry Reports</i> , 2000 , 2, 67-71	9.1	36
25	Factors differentiating personality-disordered individuals with and without a history of unipolar mood disorder. <i>Depression and Anxiety</i> , 1999 , 10, 147-157	8.4	13
24	Etiology of the impulsivity/aggression relationship: genes or environment?. <i>Psychiatry Research</i> , 1999 , 86, 41-57	9.9	145
