#	ARTICLE	IF	CITATIONS
1	Patient adherence to medical treatment: a review of reviews. <i>BMC Health Services Research</i> , 2007, 7, 55.	2.2	465
2	Coding patient emotional cues and concerns in medical consultations: The Verona coding definitions of emotional sequences (VR-CoDES). <i>Patient Education and Counseling</i> , 2011, 82, 141-148.	2.2	207
3	Online focus groups as a tool to collect data in hard-to-include populations: examples from paediatric oncology. <i>BMC Medical Research Methodology</i> , 2009, 9, 15.	3.1	171
4	Development of the Verona coding definitions of emotional sequences to code health providers'™ responses (VR-CoDES-P) to patient cues and concerns. <i>Patient Education and Counseling</i> , 2011, 82, 149-155.	2.2	165
5	Does Age Really Matter? Recall of Information Presented to Newly Referred Patients With Cancer. <i>Journal of Clinical Oncology</i> , 2008, 26, 5450-5457.	1.6	143
6	Compliance with momentary pain measurement using electronic diaries: A systematic review. <i>European Journal of Pain</i> , 2009, 13, 354-365.	2.8	140
7	A Smartphone-Based Intervention With Diaries and Therapist-Feedback to Reduce Catastrophizing and Increase Functioning in Women With Chronic Widespread Pain: Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2013, 15, e5.	4.3	134
8	Children's Contributions to Pediatric Outpatient Encounters. <i>Pediatrics</i> , 1998, 102, 563-568.	2.1	133
9	Behavioral and Mood Effects of <i>Snoezelen</i> Integrated into 24-hour Dementia Care. <i>Journal of the American Geriatrics Society</i> , 2005, 53, 24-33.	2.6	130
10	Interventions to improve recall of medical information in cancer patients: a systematic review of the literature. <i>Psycho-Oncology</i> , 2008, 17, 857-868.	2.3	129
11	Young patients', parents', and survivors' communication preferences in paediatric oncology: Results of online focus groups. <i>BMC Pediatrics</i> , 2007, 7, 35.	1.7	124
12	Shifts in doctor-patient communication between 1986 and 2002: a study of videotaped General Practice consultations with hypertension patients. <i>BMC Family Practice</i> , 2006, 7, 62.	2.9	107
13	Tailored information about cancer risk and screening: A systematic review. <i>Patient Education and Counseling</i> , 2009, 77, 155-171.	2.2	105
14	The development and feasibility of a web-based intervention with diaries and situational feedback via smartphone to support self-management in patients with diabetes type 2. <i>Diabetes Research and Clinical Practice</i> , 2012, 97, 385-393.	2.8	104
15	Factors influencing intercultural doctor-patient communication: A realist review. <i>Patient Education and Counseling</i> , 2015, 98, 420-445.	2.2	102
16	Does training general practitioners to elicit patients'™ illness representations and action plans influence their communication as a whole?. <i>Patient Education and Counseling</i> , 2007, 66, 327-336.	2.2	101
17	Communication: the royal pathway to patient-centered medicine. <i>Patient Education and Counseling</i> , 2000, 39, 1-3.	2.2	98
18	Has patients' involvement in the decision-making process changed over time?. <i>Health Expectations</i> , 2006, 9, 333-342.	2.6	97

#	ARTICLE	IF	CITATIONS
19	Recall in Older Cancer Patients: Measuring Memory for Medical Information. <i>Gerontologist</i> , The, 2008, 48, 149-157.	3.9	96
20	Emotional and informational patient cues: The impact of nurses'™ responses on recall. <i>Patient Education and Counseling</i> , 2010, 79, 218-224.	2.2	95
21	Effects of snoezelen, integrated in 24h dementia care, on nurse's™ patient communication during morning care. <i>Patient Education and Counseling</i> , 2005, 58, 312-326.	2.2	89
22	Reducing patients'™ anxiety and uncertainty, and improving recall in bad news consultations.. <i>Health Psychology</i> , 2014, 33, 1382-1390.	1.6	89
23	Active listening in medical consultations: Development of the Active Listening Observation Scale (ALOS-global). <i>Patient Education and Counseling</i> , 2007, 68, 258-264.	2.2	86
24	Advantages of asynchronous online focus groups and face-to-face focus groups as perceived by child, adolescent and adult participants: a survey study. <i>BMC Research Notes</i> , 2014, 7, 756.	1.4	80
25	Consulting room computers and their effect on general practitioner-patient communication. <i>Family Practice</i> , 2010, 27, 644-651.	1.9	79
26	Shifts in doctor-patient communication during a series of outpatient consultations in non-insulin-dependent diabetes mellitus. <i>Patient Education and Counseling</i> , 1997, 30, 227-237.	2.2	78
27	Learning in context: Identifying gaps in research on the transfer of medical communication skills to the clinical workplace. <i>Patient Education and Counseling</i> , 2013, 90, 184-192.	2.2	78
28	Communication in context: new directions in communication research. <i>Patient Education and Counseling</i> , 2003, 50, 27-32.	2.2	76
29	Participation of chronic patients in medical consultations: patients' perceived efficacy, barriers and interest in support. <i>Health Expectations</i> , 2015, 18, 2375-2388.	2.6	75
30	Written online situational feedback via mobile phone to support self-management of chronic widespread pain: a usability study of a Web-based intervention. <i>BMC Musculoskeletal Disorders</i> , 2011, 12, 51.	1.9	74
31	Communicating with child patients in pediatric oncology consultations: a vignette study on child patients', parents', and survivors' communication preferences. <i>Psycho-Oncology</i> , 2011, 20, 269-277.	2.3	74
32	Residents'™ perceived barriers to communication skills learning: Comparing two medical working contexts in postgraduate training. <i>Patient Education and Counseling</i> , 2014, 95, 91-97.	2.2	74
33	Communication-related behavior change techniques used in face-to-face lifestyle interventions in primary care: A systematic review of the literature. <i>Patient Education and Counseling</i> , 2012, 89, 227-244.	2.2	73
34	The effect of patient's™ practitioner communication on pain: a systematic review. <i>European Journal of Pain</i> , 2016, 20, 675-688.	2.8	72
35	Furthering patient adherence: A position paper of the international expert forum on patient adherence based on an internet forum discussion. <i>BMC Health Services Research</i> , 2008, 8, 47.	2.2	71
36	A Smartphone-Based Intervention With Diaries and Therapist Feedback to Reduce Catastrophizing and Increase Functioning in Women With Chronic Widespread Pain. Part 2: 11-month Follow-up Results of a Randomized Trial. <i>Journal of Medical Internet Research</i> , 2013, 15, e72.	4.3	71

#	ARTICLE	IF	CITATIONS
37	Cancer Genetic Counseling: Communication and Counselors' Post-Visit Satisfaction, Cognitions, Anxiety, and Needs Fulfillment. <i>Journal of Genetic Counseling</i> , 2007, 16, 85-96.	1.6	69
38	Initial cancer genetic counseling consultation: Change in counsees' cognitions and anxiety, and association with addressing their needs and preferences. <i>American Journal of Medical Genetics, Part A</i> , 2005, 137A, 27-35.	1.2	68
39	Active Involvement of End Users When Developing Web-Based Mental Health Interventions. <i>Frontiers in Psychiatry</i> , 2017, 8, 72.	2.6	67
40	Do gender-dyads have different communication patterns? A comparative study in Western-European general practices. <i>Patient Education and Counseling</i> , 2002, 48, 253-264.	2.2	66
41	Survival and psychosocial adjustment to stoma surgery and nonstoma bowel resection: A 4-year follow-up. <i>Journal of Psychosomatic Research</i> , 1997, 42, 235-244.	2.6	65
42	Specifying the effects of physician's communication on patients' outcomes: A randomised controlled trial. <i>Patient Education and Counseling</i> , 2017, 100, 1482-1489.	2.2	64
43	The impact of assessing simulated bad news consultations on medical students' stress response and communication performance. <i>Psychoneuroendocrinology</i> , 2007, 32, 943-950.	2.7	62
44	Patient risk profiles and practice variation in nonadherence to antidepressants, antihypertensives and oral hypoglycemics. <i>BMC Health Services Research</i> , 2007, 7, 51.	2.2	60
45	Communication in cancer genetic counselling: does it reflect counsees' previsit needs and preferences?. <i>British Journal of Cancer</i> , 2005, 92, 1671-1678.	6.4	58
46	Effects of communication skills training and a Question Prompt Sheet to improve communication with older cancer patients: A randomized controlled trial. <i>Critical Reviews in Oncology/Hematology</i> , 2011, 80, 145-159.	4.4	58
47	Intervening on cognitions and behavior in irritable bowel syndrome: A feasibility trial using PDAs. <i>Journal of Psychosomatic Research</i> , 2011, 70, 267-277.	2.6	57
48	QUOTE-geneca: development of a counselee-centered instrument to measure needs and preferences in genetic counseling for hereditary cancer. <i>Psycho-Oncology</i> , 2005, 14, 361-375.	2.3	56
49	Patient Education About Treatment in Cancer Care. <i>Cancer Nursing</i> , 2007, 30, 251-260.	1.5	56
50	Effectiveness of a group-based intervention to change medication beliefs and improve medication adherence in patients with rheumatoid arthritis: A randomized controlled trial. <i>Patient Education and Counseling</i> , 2014, 94, 356-361.	2.2	55
51	The effect of electronic monitoring feedback on medication adherence and clinical outcomes: A systematic review. <i>PLoS ONE</i> , 2017, 12, e0185453.	2.5	55
52	QUOTEchemo: A patient-centred instrument to measure quality of communication preceding chemotherapy treatment through the patient's eyes. <i>European Journal of Cancer</i> , 2009, 45, 2967-2976.	2.8	53
53	Effects of continuing paediatric education in interpersonal communication skills. <i>European Journal of Pediatrics</i> , 2000, 159, 489-495.	2.7	52
54	Chemotherapy and information-seeking behaviour: characteristics of patients using mass media information sources. <i>Psycho-Oncology</i> , 2012, 21, 993-1002.	2.3	52

#	ARTICLE	IF	CITATIONS
55	Gender Differences in Gynecologist Communication. <i>Women and Health</i> , 2000, 30, 49-61.	1.0	50
56	Older cancer patients' information and communication needs: What they want is what they get?. <i>Patient Education and Counseling</i> , 2013, 92, 388-397.	2.2	50
57	Effect of Interactive eHealth Interventions on Improving Medication Adherence in Adults With Long-Term Medication: Systematic Review. <i>Journal of Medical Internet Research</i> , 2021, 23, e18901.	4.3	50
58	Discussing patient's lifestyle choices in the consulting room: analysis of GP-patient consultations between 1975 and 2008. <i>BMC Family Practice</i> , 2010, 11, 87.	2.9	49
59	Exploring lifestyle counselling in routine primary care consultations: the professionals' role. <i>Family Practice</i> , 2013, 30, 332-340.	1.9	49
60	Perceived need to take medication is associated with medication non-adherence in patients with rheumatoid arthritis. <i>Patient Preference and Adherence</i> , 2014, 8, 1635.	1.8	46
61	How patients and family physicians communicate about persistent medically unexplained symptoms. A qualitative study of video-recorded consultations. <i>Patient Education and Counseling</i> , 2013, 90, 354-360.	2.2	44
62	Nursing assistants' behaviour during morning care: effects of the implementation of snoezelen, integrated in 24-hour dementia care. <i>Journal of Advanced Nursing</i> , 2006, 53, 656-668.	3.3	43
63	The perceived personal control (PPC) questionnaire as an outcome of genetic counseling: Reliability and validity of the instrument. <i>American Journal of Medical Genetics, Part A</i> , 2006, 140A, 843-850.	1.2	43
64	Role of self-efficacy and social support in short-term recovery after total hip replacement: a prospective cohort study. <i>Health and Quality of Life Outcomes</i> , 2017, 15, 68.	2.4	43
65	The implementation of snoezelen in psychogeriatric care: an evaluation through the eyes of caregivers. <i>International Journal of Nursing Studies</i> , 2004, 41, 397-409.	5.6	42
66	Communicative challenges in the home care of older persons – a qualitative exploration. <i>Journal of Advanced Nursing</i> , 2016, 72, 2435-2444.	3.3	42
67	The role of companions in aiding older cancer patients to recall medical information. <i>Psycho-Oncology</i> , 2010, 19, 170-179.	2.3	41
68	The effects of the implementation of snoezelen on the quality of working life in psychogeriatric care. <i>International Psychogeriatrics</i> , 2005, 17, 407-427.	1.0	40
69	What we talk about when we talk about depression: doctor-patient conversations and treatment decision outcomes. <i>British Journal of General Practice</i> , 2012, 62, e55-e63.	1.4	40
70	Active Patient Participation in the Development of an Online Intervention. <i>JMIR Research Protocols</i> , 2014, 3, e59.	1.0	40
71	The relationship between complaint-related cognitions in referred patients with irritable bowel syndrome and subsequent health care seeking behaviour in primary care. <i>Family Practice</i> , 1996, 13, 12-17.	1.9	39
72	EACH News. <i>Patient Education and Counseling</i> , 2004, 55, 149-152.	2.2	38

#	ARTICLE	IF	CITATIONS
73	The value of tailored communication for person-centred outcomes. <i>Journal of Evaluation in Clinical Practice</i> , 2011, 17, 381-383.	1.8	38
74	A pre-visit website with question prompt sheet for counselees facilitates communication in the first consultation for breast cancer genetic counseling: findings from a randomized controlled trial. <i>Genetics in Medicine</i> , 2012, 14, 535-542.	2.4	38
75	Encounters between medical specialists and patients with medically unexplained physical symptoms; influences of communication on patient outcomes and use of health care: a literature overview. <i>Perspectives on Medical Education</i> , 2022, 1, 192-206.	3.5	38
76	Barriers and facilitators to effective communication experienced by patients with malignant lymphoma at all stages after diagnosis. <i>Psycho-Oncology</i> , 2013, 22, 2807-2814.	2.3	38
77	Web-based, self-management enhancing interventions with e-diaries and personalized feedback for persons with chronic illness: A tale of three studies. <i>Patient Education and Counseling</i> , 2013, 93, 451-458.	2.2	38
78	Effects of video-feedback on the communication, clinical competence and motivational interviewing skills of practice nurses: a pre-test posttest control group study. <i>Journal of Advanced Nursing</i> , 2014, 70, 2272-2283.	3.3	38
79	Exploring Residents' Communication Learning Process in the Workplace: A Five-Phase Model. <i>PLoS ONE</i> , 2015, 10, e0125958.	2.5	38
80	Communication and shared decision-making with patients with limited health literacy; helpful strategies, barriers and suggestions for improvement reported by hospital-based palliative care providers. <i>PLoS ONE</i> , 2020, 15, e0234926.	2.5	38
81	The Unexpected in Primary Care: A Multicenter Study on the Emergence of Unvoiced Patient Agenda. <i>Annals of Family Medicine</i> , 2004, 2, 534-540.	1.9	37
82	Observation of nurse-patient interaction in oncology: review of assessment instruments. <i>Patient Education and Counseling</i> , 2004, 54, 307-320.	2.2	36
83	Lifestyle counseling in hypertension-related visits - analysis of video-taped general practice visits. <i>BMC Family Practice</i> , 2008, 9, 58.	2.9	36
84	Relationship between medication beliefs, self-reported and refill adherence, and symptoms in patients with asthma using inhaled corticosteroids. <i>Patient Preference and Adherence</i> , 2014, 8, 83.	1.8	36
85	A cross-sectional study on person-centred communication in the care of older people: the COMHOME study protocol. <i>BMJ Open</i> , 2015, 5, e007864-e007864.	1.9	36
86	Evidence to inform education, training and supportive work environments for midwives involved in the care of women with female genital mutilation: A review of global experience. <i>Midwifery</i> , 2015, 31, 229-238.	2.3	36
87	Improving GP communication in consultations on medically unexplained symptoms: a qualitative interview study with patients in primary care. <i>British Journal of General Practice</i> , 2017, 67, e716-e723.	1.4	36
88	Doctors' perception of patients' cognitions and complaints in irritable bowel syndrome at an out-patient clinic. <i>Journal of Psychosomatic Research</i> , 1994, 38, 581-590.	2.6	35
89	Medically unexplained symptoms: the person, the symptoms and the dialogue. <i>Family Practice</i> , 2017, 34, cmw132.	1.9	35
90	Physician-patient communication in single-bedded versus four-bedded hospital rooms. <i>Patient Education and Counseling</i> , 2008, 73, 215-219.	2.2	34

#	ARTICLE	IF	CITATIONS
91	Longer-term influence of breast cancer genetic counseling on cognitions and distress: Smaller benefits for affected versus unaffected women. <i>Patient Education and Counseling</i> , 2011, 85, 425-431.	2.2	33
92	Identifying context factors explaining physician's low performance in communication assessment: an explorative study in general practice. <i>BMC Family Practice</i> , 2011, 12, 138.	2.9	33
93	Prenatal counseling for congenital anomaly tests: parental preferences and perceptions of midwife performance. <i>Prenatal Diagnosis</i> , 2013, 33, 341-353.	2.3	33
94	Older persons' worries expressed during home care visits: Exploring the content of cues and concerns identified by the Verona coding definitions of emotional sequences. <i>Patient Education and Counseling</i> , 2016, 99, 1955-1963.	2.2	33
95	Towards appropriate information provision for and decision-making with patients with limited health literacy in hospital-based palliative care in Western countries: a scoping review into available communication strategies and tools for healthcare providers. <i>BMC Palliative Care</i> , 2019, 18, 37.	1.8	33
96	A pre-visit tailored website enhances counselees' realistic expectations and knowledge and fulfils information needs for breast cancer genetic counselling. <i>Familial Cancer</i> , 2012, 11, 85-95.	1.9	32
97	Training Medical Specialists to Communicate Better with Patients with Medically Unexplained Physical Symptoms (MUPS). A Randomized, Controlled Trial. <i>PLoS ONE</i> , 2015, 10, e0138342.	2.5	32
98	Shared and individual medical appointments for children and adolescents with type 1 diabetes; differences in topics discussed?. <i>Patient Education and Counseling</i> , 2010, 79, 351-355.	2.2	31
99	Tailoring the amount of treatment information to cancer patients' and survivors' preferences: Effects on patient-reported outcomes. <i>Patient Education and Counseling</i> , 2020, 103, 514-520.	2.2	31
100	Examining the content of weight, nutrition and physical activity advices provided by Dutch practice nurses in primary care: analysis of videotaped consultations. <i>European Journal of Clinical Nutrition</i> , 2014, 68, 50-56.	2.9	30
101	Sharing decisions during diagnostic consultations; an observational study in pediatric oncology. <i>Patient Education and Counseling</i> , 2016, 99, 61-67.	2.2	30
102	Tailoring communication in cancer genetic counseling through individual video-supported feedback: A controlled pretest-posttest design. <i>Patient Education and Counseling</i> , 2006, 60, 326-335.	2.2	29
103	Intercultural doctor-patient communication in daily outpatient care: relevant communication skills. <i>Perspectives on Medical Education</i> , 2022, 5, 268-275.	3.5	29
104	Web-enabled video-feedback: A method to reflect on the communication skills of experienced physicians. <i>Patient Education and Counseling</i> , 2011, 82, 335-340.	2.2	28
105	Barriers and facilitators to disease-modifying antirheumatic drug use in patients with inflammatory rheumatic diseases: a qualitative theory-based study. <i>BMC Musculoskeletal Disorders</i> , 2016, 17, 442.	1.9	28
106	Patient information and emotional needs across the hip osteoarthritis continuum: a qualitative study. <i>BMC Health Services Research</i> , 2016, 16, 88.	2.2	27
107	Patient participation during oncological encounters: Barriers and need for supportive interventions experienced by elderly cancer patients. <i>Patient Education and Counseling</i> , 2017, 100, 2262-2268.	2.2	27
108	The power of clinician-expressed empathy to increase information recall in advanced breast cancer care: an observational study in clinical care, exploring the mediating role of anxiety. <i>Patient Education and Counseling</i> , 2021, 104, 1109-1115.	2.2	27

#	ARTICLE	IF	CITATIONS
109	Efficacy of a Web-Based Self-Management Enhancing Program for Patients with Rheumatoid Arthritis: Explorative Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2019, 21, e12463.	4.3	27
110	Persisting improvement in complaint-related cognitions initiated during medical consultations in functional abdominal complaints. <i>Psychological Medicine</i> , 1997, 27, 725-729.	4.5	26
