#	ARTICLE	IF	CITATIONS
1	Encounters between medical specialists and patients with medically unexplained physical symptoms; influences of communication on patient outcomes and use of health care: a literature overview. <i>Perspectives on Medical Education</i> , 2022, 1, 192-206.	3.5	38
2	Intercultural doctor-patient communication in daily outpatient care: relevant communication skills. <i>Perspectives on Medical Education</i> , 2022, 5, 268-275.	3.5	29
3	How General Practitioners Raise Psychosocial Concerns as a Potential Cause of Medically Unexplained Symptoms: A Conversation Analysis. <i>Health Communication</i> , 2022, 37, 696-707.	3.1	5
4	The use of implicit persuasion in decision-making about treatment for end-stage kidney disease. <i>Peritoneal Dialysis International</i> , 2022, 42, 377-386.	2.3	8
5	Persuasive communication in medical decision-making during consultations with patients with limited health literacy in hospital-based palliative care. <i>Patient Education and Counseling</i> , 2022, 105, 1130-1137.	2.2	3
6	Development of a blended communication training program for managing medically unexplained symptoms in primary care using the intervention mapping approach. <i>Patient Education and Counseling</i> , 2022, 105, 1305-1316.	2.2	5
7	A Serious Puzzle Game to Enhance Adherence to Antirheumatic Drugs in Patients With Rheumatoid Arthritis: Systematic Development Using Intervention Mapping. <i>JMIR Serious Games</i> , 2022, 10, e31570.	3.1	2
8	Unexplained versus explained symptoms: The difference is not in patients' language use. A quantitative analysis of linguistic markers. <i>Journal of Psychosomatic Research</i> , 2022, 152, 110667.	2.6	4
9	Mind your words: Oncologists' communication that potentially harms patients with advanced cancer: A survey on patient perspectives. <i>Cancer</i> , 2022, 128, 1133-1140.	4.1	11
10	The effect of shared decision-making on recovery from non-chronic aspecific low back pain in primary care; a post-hoc analysis from the patient, physician and observer perspectives. , 2022, 23, 22.		4
11	Affective communication with patients with limited health literacy in the palliative phase of COPD or lung cancer: Analysis of video-recorded consultations in outpatient care. <i>PLoS ONE</i> , 2022, 17, e0263433.	2.5	2
12	The Influencing Contexts and Potential Mechanisms Behind the Use of Web-Based Self-management Support Interventions: Realistic Evaluation. <i>JMIR Human Factors</i> , 2022, 9, e34925.	2.0	0
13	Patients' and health professionals' views on shared decision-making in age-related macular degeneration care: A qualitative study. <i>Ophthalmic and Physiological Optics</i> , 2022, 42, 1015-1022.	2.0	7
14	Patient coaching: What do patients want? A mixed methods study in waiting rooms of outpatient clinics. <i>PLoS ONE</i> , 2022, 17, e0269677.	2.5	0
15	Coding linguistic elements in clinical interactions: a step-by-step guide for analyzing communication form. <i>BMC Medical Research Methodology</i> , 2022, 22, .	3.1	3
16	Are Health Care Professionals'™ Implicit and Explicit Attitudes Toward Conventional Disease-Modifying Antirheumatic Drugs Associated With Those of Their Patients?. <i>Arthritis Care and Research</i> , 2021, 73, 364-373.	3.4	3
17	The power of clinician-expressed empathy to increase information recall in advanced breast cancer care: an observational study in clinical care, exploring the mediating role of anxiety. <i>Patient Education and Counseling</i> , 2021, 104, 1109-1115.	2.2	27
18	How to learn skilled communication in primary care MUS consultations: a focus group study. <i>Scandinavian Journal of Primary Health Care</i> , 2021, 39, 101-110.	1.5	5

#	ARTICLE	IF	CITATIONS
19	Shared Decision Making in Practice and the Perspectives of Health Care Professionals on Video-Recorded Consultations With Patients With Low Health Literacy in the Palliative Phase of Their Disease. <i>MDM Policy and Practice</i> , 2021, 6, 238146832110234.	0.9	4
20	Effect of Interactive eHealth Interventions on Improving Medication Adherence in Adults With Long-Term Medication: Systematic Review. <i>Journal of Medical Internet Research</i> , 2021, 23, e18901.	4.3	50
21	Information needs of patients with chronic diseases and their relatives for web-based advance care planning: a qualitative interview study. <i>BMC Palliative Care</i> , 2021, 20, 77.	1.8	5
22	Electronic Monitoring Feedback for Improving Medication Adherence and Clinical Outcomes in Early Rheumatoid Arthritis: A Randomized Clinical Trial. <i>Patient Preference and Adherence</i> , 2021, Volume 15, 1107-1119.	1.8	4
23	Health literacy, information provision and satisfaction in advanced cancer consultations: two observational studies using level of education as a proxy. <i>BMJ Supportive and Palliative Care</i> , 2021, , bmjspcare-2020-002859.	1.6	2
24	Effect of a health literacy training program for surgical oncologists and specialized nurses on disparities in referral to breast cancer genetic testing. <i>Breast</i> , 2021, 58, 80-87.	2.2	5
25	Identification of Cardiovascular Patient Groups at Risk for Poor Medication Adherence. <i>Journal of Cardiovascular Nursing</i> , 2021, 36, 489-497.	1.1	2
26	Addressing challenges in information-provision: a qualitative study among oncologists and women with advanced breast cancer. <i>BMC Palliative Care</i> , 2021, 20, 142.	1.8	7
27	The content and effectiveness of self-management support interventions for people at risk of pressure ulcers: A systematic review. <i>International Journal of Nursing Studies</i> , 2021, 122, 104014.	5.6	10
28	Automated Medical Reporting: From Multimodal Inputs to Medical Reports through Knowledge Graphs. , 2021, , .		1
29	Patient coaching in secondary care: healthcare professionalsâ€™ views on target group, intervention and coach profile. <i>International Journal for Quality in Health Care</i> , 2021, 33, .	1.8	1
30	Communication about breast cancer genetic counseling with patients with limited health literacy or a migrant background: evaluation of a training program for healthcare professionals. <i>Journal of Community Genetics</i> , 2021, 12, 91-99.	1.2	5
31	Towards an open and effective dialogue on complementary medicine in oncology: protocol of patient participatory study â€œCOMMONâ€™. <i>BMJ Open</i> , 2021, 11, e053005.	1.9	3
32	Explanations for medically unexplained symptoms: a qualitative study on GPs in daily practice consultations. <i>Family Practice</i> , 2020, 37, 124-130.	1.9	6
33	Tailoring the amount of treatment information to cancer patientsâ€™ and survivorsâ€™ preferences: Effects on patient-reported outcomes. <i>Patient Education and Counseling</i> , 2020, 103, 514-520.	2.2	31
34	Self-management support in cardiovascular consultations by advanced practice nurses trained in motivational interviewing: An observational study. <i>Patient Education and Counseling</i> , 2020, 103, 159-164.	2.2	12
35	Placebo Effects of Nursesâ€™ Communication alongside Standard Medical Care on Pain and Other Outcomes: A Randomized Controlled Trial in Clinical Tonsillectomy Care. <i>Psychotherapy and Psychosomatics</i> , 2020, 89, 56-58.	8.8	4
36	Provider caring and structuring treatment information to improve cancer patientsâ€™ recall: Does it help?. <i>Patient Education and Counseling</i> , 2020, 103, 55-62.	2.2	14

#	ARTICLE	IF	CITATIONS
37	Patients' Evaluation of a Preparatory Online Communication Tool for Older Patients With Cancer Preceding Chemotherapy. <i>Cancer Nursing</i> , 2020, 43, E71-E78.	1.5	4
38	Instrumental and affective communication with patients with limited health literacy in the palliative phase of cancer or COPD. <i>BMC Palliative Care</i> , 2020, 19, 152.	1.8	13
39	Shifts in patients' question-asking behaviour between 2007 and 2016: An observational study of video-recorded general practice consultations. <i>Patient Education and Counseling</i> , 2020, 103, 1168-1175.	2.2	5
40	Lessons learned from participatory research to enhance client participation in long-term care research: a multiple case study. <i>Research Involvement and Engagement</i> , 2020, 6, 27.	2.9	9
41	Patients' and Clinicians' Perceptions of Clinician-Expressed Empathy in Advanced Cancer Consultations and Associations with Patient Outcomes. <i>Palliative Medicine Reports</i> , 2020, 1, 76-83.	0.9	23
42	Qualitative instruments involving clients as co-researchers to assess and improve the quality of care relationships in long-term care: an evaluation of instruments to enhance client participation in quality research. <i>BMJ Open</i> , 2020, 10, e033034.	1.9	3
43	Developing a digital training tool to support oncologists in the skill of information-provision: a user centred approach. <i>BMC Medical Education</i> , 2020, 20, 135.	2.4	19
44	Communication and shared decision-making with patients with limited health literacy; helpful strategies, barriers and suggestions for improvement reported by hospital-based palliative care providers. <i>PLoS ONE</i> , 2020, 15, e0234926.	2.5	38
45	Linguistic and interactional aspects that characterize consultations about medically unexplained symptoms: A systematic review. <i>Journal of Psychosomatic Research</i> , 2020, 132, 109994.	2.6	14
46	Emotional communication in home care: A comparison between Norway and Sweden. <i>Patient Education and Counseling</i> , 2020, 103, 1546-1553.	2.2	3
47	Building ground for didactics in a patient decision aid for hip osteoarthritis. Exploring patient-related barriers and facilitators towards shared decision-making. <i>Patient Education and Counseling</i> , 2020, 103, 1343-1350.	2.2	8
48	Medically unexplained symptoms: time to and triggers for diagnosis in primary care consultations. <i>British Journal of General Practice</i> , 2020, 70, e86-e94.	1.4	10
49	Systematic development of a training program for healthcare professionals to improve communication about breast cancer genetic counseling with low health literate patients. <i>Familial Cancer</i> , 2020, 19, 281-290.	1.9	7
50	The Feasibility and Effectiveness of Web-Based Advance Care Planning Programs: Scoping Review. <i>Journal of Medical Internet Research</i> , 2020, 22, e15578.	4.3	26
51	Evaluation of a Web-Based Self-Management Program for Patients With Cardiovascular Disease: Explorative Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2020, 22, e17422.	4.3	22
52	Effects of the Proactive Interdisciplinary Self-Management (PRISMA) Program on Online Care Platform Usage in Patients with Type 2 Diabetes in Primary Care: A Randomized Controlled Trial. <i>Journal of Diabetes Research</i> , 2020, 2020, 1-10.	2.3	10
53	Effects of a Proactive Interdisciplinary Self-Management Program on Patient Self-Efficacy and Participation During Practice Nurse Consultations: A Randomized Controlled Trial in Type 2 Diabetes. <i>Journal of Clinical Medicine Research</i> , 2020, 12, 79-89.	1.2	5
