#	ARTICLE	IF	CITATIONS
1	Infant temperament prospectively predicts general psychopathology in childhood. <i>Development and Psychopathology</i> , 2022, 34, 774-783.	1.4	14
2	Mind wandering and executive dysfunction predict children's performance in the metronome response task. <i>Journal of Experimental Child Psychology</i> , 2022, 213, 105257.	0.7	5
3	Bidirectional and interactive effects of child temperament and parenting in early childhood on the trajectory of social anxiety in adolescence. <i>Depression and Anxiety</i> , 2022, 39, 192-200.	2.0	3
4	Trajectories of socially anxious behavior from age 5 to 13: Temperamental and sociocognitive pathways. <i>Child Development</i> , 2022, 93, 1334-1346.	1.7	5
5	A Developmental Pathway From Early Behavioral Inhibition to Young Adults' Anxiety During the COVID-19 Pandemic. <i>Focus (American Psychiatric Publishing)</i> , 2022, 20, 224-231.	0.4	1
6	Development of Proactive Control and Anxiety Among Behaviorally Inhibited Adolescents. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2022, 61, 1466-1475.	0.3	4
7	Structural Brain Correlates of Childhood Inhibited Temperament: An ENIGMA-Anxiety Mega-analysis. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2022, 61, 1182-1188.	0.3	2
8	Inhibitory control and set shifting describe different pathways from behavioral inhibition to socially anxious behavior. <i>Developmental Science</i> , 2021, 24, e13040.	1.3	21
9	Understanding the Emergence of Social Anxiety in Children With Behavioral Inhibition. <i>Biological Psychiatry</i> , 2021, 89, 681-689.	0.7	49
10	Temperament. , 2021, , 4777-4778.		0
11	Self-Reported Temperament in Children and Adolescent with High Functioning Autism. , 2021, , 4186-4190.		0
12	Pathways from maternal shyness to adolescent social anxiety. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2021, , .	3.1	10
13	Behavioral inhibition and dual mechanisms of anxiety risk: Disentangling neural correlates of proactive and reactive control. <i>JCPP Advances</i> , 2021, 1, e12022.	1.4	15
14	Examining a developmental pathway from early behavioral inhibition to emotion regulation and social anxiety: The moderating role of parenting.. <i>Developmental Psychology</i> , 2021, 57, 1261-1273.	1.2	9
15	A Developmental Pathway From Early Behavioral Inhibition to Young Adults' Anxiety During the COVID-19 Pandemic. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2021, 60, 1300-1308.	0.3	18
16	Transactional Associations Between Parent and Late Adolescent Internalizing Symptoms During the COVID-19 Pandemic: The Moderating Role of Avoidant Coping. <i>Journal of Youth and Adolescence</i> , 2021, 50, 459-469.	1.9	30
17	The Prominence of Self-referential Processing across ERP and Memory Consolidation in Children. <i>Developmental Neuropsychology</i> , 2021, 46, 598-615.	1.0	6
18	Attention bias to reward predicts behavioral problems and moderates early risk to externalizing and attention problems. <i>Development and Psychopathology</i> , 2020, 32, 397-409.	1.4	20

#	ARTICLE	IF	CITATIONS
19	Relations between catecholâ€œmethyltransferase Val158Met genotype and inhibitory control development in childhood. <i>Developmental Psychobiology</i> , 2020, 62, 181-190.	0.9	4
20	Longitudinal patterns of anger reactivity and riskâ€œtaking: The role of peerâ€œcontext. <i>Social Development</i> , 2020, 29, 600-614.	0.8	0
21	Differences in Parent and Child Report on the Screen for Child Anxiety-Related Emotional Disorders (SCARED): Implications for Investigations of Social Anxiety in Adolescents. <i>Journal of Abnormal Child Psychology</i> , 2020, 48, 561-571.	3.5	32
22	Are you as important as me? Self-other discrimination within trait-adjective processing. <i>Brain and Cognition</i> , 2020, 142, 105569.	0.8	8
23	Shyness and perceived monitoring by peers affect childrenâ€™s performance in a divided attention task. <i>Journal of Experimental Child Psychology</i> , 2020, 198, 104882.	0.7	5
24	Self-Reported Temperament in Children and Adolescent with High Functioning Autism. , 2020, , 1-5.		0
25	Adolescent cognitive control, theta oscillations, and social observation. <i>NeuroImage</i> , 2019, 198, 13-30.	2.1	37
26	Development of inhibitory control during childhood and its relations to early temperament and later social anxiety: unique insights provided by latent growth modeling and signal detection theory. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2019, 60, 622-629.	3.1	44
27	Multidimensional Emotion Regulation Moderates the Relation Between Behavioral Inhibition at Age 2 and Social Reticence with Unfamiliar Peers at Age 4. <i>Journal of Abnormal Child Psychology</i> , 2019, 47, 1239-1251.	3.5	23
28	Consequences of Not Planning Ahead: Reduced Proactive Control Moderates Longitudinal Relations Between Behavioral Inhibition and Anxiety. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2019, 58, 768-775.e1.	0.3	25
29	Profiles and Correlates of Parentâ€™Child Agreement on Social Anxiety Symptoms in Youth with Autism Spectrum Disorder. <i>Journal of Autism and Developmental Disorders</i> , 2018, 48, 2023-2037.	1.7	20
30	Metaperception in Adolescents With and Without Autism Spectrum Disorder. <i>Journal of Autism and Developmental Disorders</i> , 2018, 48, 533-548.	1.7	13
31	F17. Complex Dynamics of the Error-Monitoring System Reveal Insights Into Social Anxiety Within Structured and Unstructured Social Settings. <i>Biological Psychiatry</i> , 2018, 83, S243.	0.7	0
32	The Social World of Behaviorally Inhibited Children: A Transactional Account. , 2018, , 135-155.		8
33	Developmental Relations Among Behavioral Inhibition, Anxiety, and Attention Biases to Threat and Positive Information. <i>Child Development</i> , 2017, 88, 141-155.	1.7	81
34	A Neurobehavioral Mechanism Linking Behaviorally Inhibited Temperament and Later Adolescent Social Anxiety. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2017, 56, 1097-1105.	0.3	75
35	Attention Processes Underlying Risk and Resilience in Behaviorally Inhibited Children. <i>Current Behavioral Neuroscience Reports</i> , 2017, 4, 99-106.	0.6	44
36	The salience of the self: Selfâ€™referential processing and internalizing problems in children and adolescents with autism spectrum disorder. <i>Autism Research</i> , 2017, 10, 949-960.	2.1	27

#	ARTICLE	IF	CITATIONS
37	Early-Childhood Social Reticeence Predicts Brain Function in Preadolescent Youths During Distinct Forms of Peer Evaluation. <i>Psychological Science</i> , 2016, 27, 821-835.	1.8	49
38	Brief Report: Reduced Temporal-Central EEG Alpha Coherence During Joint Attention Perception in Adolescents with Autism Spectrum Disorder. <i>Journal of Autism and Developmental Disorders</i> , 2016, 46, 1477-1489.	1.7	43
39	Supporting the Spectrum Hypothesis: Self-Reported Temperament in Children and Adolescents with High Functioning Autism. <i>Journal of Autism and Developmental Disorders</i> , 2016, 46, 1184-1195.	1.7	28
40	Early Childhood Behavioral Inhibition Predicts Cortical Thickness in Adulthood. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2016, 55, 122-129.e1.	0.3	28
41	Metacognitive Awareness of Facial Affect in Higher-Functioning Children and Adolescents with Autism Spectrum Disorder. <i>Journal of Autism and Developmental Disorders</i> , 2016, 46, 882-898.	1.7	22
42	Emergent patterns of risk for psychopathology: The influence of infant avoidance and maternal caregiving on trajectories of social reticeence. <i>Development and Psychopathology</i> , 2015, 27, 1163-1178.	1.4	14
43	Contextual startle responses moderate the relation between behavioral inhibition and anxiety in middle childhood. <i>Psychophysiology</i> , 2015, 52, 1544-1549.	1.2	26
44	Early social fear in relation to play with an unfamiliar peer: Actor and partner effects.. <i>Developmental Psychology</i> , 2015, 51, 1588-1596.	1.2	10
45	Early Behavioral Inhibition and Emotion Regulation: Pathways Toward Social Competence in Middle Childhood. <i>Child Development</i> , 2015, 86, 1227-1240.	1.7	64
46	Error monitoring in response to social stimuli in individuals with higher-functioning Autism Spectrum Disorder. <i>Developmental Science</i> , 2015, 18, 389-403.	1.3	18
47	Infant Attachment Security and Early Childhood Behavioral Inhibition Interact to Predict Adolescent Social Anxiety Symptoms. <i>Child Development</i> , 2015, 86, 598-613.	1.7	59
48	Behavioral Inhibition and Developmental Risk: A Dual-Processing Perspective. <i>Neuropsychopharmacology</i> , 2015, 40, 207-224.	2.8	150
49	Positive Affect Processing and Joint Attention in Infants at High Risk for Autism: An Exploratory Study. <i>Journal of Autism and Developmental Disorders</i> , 2015, 45, 4051-4062.	1.7	15
50	Social competence with an unfamiliar peer in children and adolescents with high functioning autism: Measurement and individual differences. <i>Research in Autism Spectrum Disorders</i> , 2015, 17, 25-39.	0.8	39
51	The Costs and Benefits of Self-monitoring for Higher Functioning Children and Adolescents with Autism. <i>Journal of Autism and Developmental Disorders</i> , 2015, 45, 548-559.	1.7	18
52	Guidelines and Best Practices for Electrophysiological Data Collection, Analysis and Reporting in Autism. <i>Journal of Autism and Developmental Disorders</i> , 2015, 45, 425-443.	1.7	75
53	Cognitive control moderates early childhood temperament in predicting social behavior in 7-year-old children: an ERP study. <i>Developmental Science</i> , 2014, 17, 667-681.	1.3	95
54	Associations Between Behavioral Inhibition and Children's Social Problem-solving Behavior During Social Exclusion. <i>Social Development</i> , 2014, 23, 487-501.	0.8	41

#	ARTICLE	IF	CITATIONS
55	Cognitive Conflict Links Behavioural Inhibition and Social Problem Solving During Social Exclusion in Childhood. <i>Infant and Child Development</i> , 2014, 23, 273-282.	0.9	20
56	Early Behavioral Inhibition and Increased Error Monitoring Predict Later Social Phobia Symptoms in Childhood. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2014, 53, 447-455.	0.3	100
57	Longitudinal trajectories of social reticence with unfamiliar peers across early childhood.. <i>Developmental Psychology</i> , 2014, 50, 2311-2323.	1.2	65
58	Anger and Positive Reactivity in Infancy: Effects on Maternal Report of Surgency and Attention Focusing in Early Childhood. <i>Infancy</i> , 2013, 18, 184-201.	0.9	9
59	Social problem solving in early childhood: Developmental change and the influence of shyness. <i>Journal of Applied Developmental Psychology</i> , 2013, 34, 185-193.	0.8	20
60	Temperamental exuberance and executive function predict propensity for risk taking in childhoodâ€”CORRIGENDUM. <i>Development and Psychopathology</i> , 2013, 25, 275-275.	1.4	1
61	Temperamental exuberance and executive function predict propensity for risk taking in childhood. <i>Development and Psychopathology</i> , 2012, 24, 847-856.	1.4	44
62	Interpersonal predictors of early therapeutic alliance in a transdiagnostic cognitive-behavioral treatment for adolescents with anxiety and depression.. <i>Psychotherapy</i> , 2012, 49, 218-230.	0.7	21
63	Goodness of Fit Between Children and Classrooms: Effects of Child Temperament and Preschool Classroom Quality on Achievement Trajectories. <i>Early Education and Development</i> , 2012, 23, 302-322.	1.6	41
64	Temperament and Social Problem Solving Competence in Preschool: Influences on Academic Skills in Early Elementary School. <i>Social Development</i> , 2012, 21, 761-779.	0.8	24
65	Maternal Caregiving Moderates the Relation Between Temperamental Fear and Social Behavior with Peers. <i>Infancy</i> , 2012, 17, 715-730.	0.9	24
66	Developmental and Individual Differences on the P1 and N170 ERP Components in Children With and Without Autism. <i>Developmental Neuropsychology</i> , 2011, 36, 214-236.	1.0	113
67	Longitudinal stability of temperamental exuberance and socialâ€”emotional outcomes in early childhood.. <i>Developmental Psychology</i> , 2011, 47, 765-780.	1.2	152
68	The Relations between Infant Negative Reactivity, Nonâ€”maternal Childcare, and Children's Interactions with Familiar and Unfamiliar Peers. <i>Social Development</i> , 2011, 20, 718-740.	0.8	26
69	Behavioral Inhibition and Anxiety: The Moderating Roles of Inhibitory Control and Attention Shifting. <i>Journal of Abnormal Child Psychology</i> , 2011, 39, 735-747.	3.5	209
70	Attention Biases to Threat Link Behavioral Inhibition to Social Withdrawal over Time in Very Young Children. <i>Journal of Abnormal Child Psychology</i> , 2011, 39, 885-895.	3.5	222
71	Anterior EEG Asymmetry and the Modifier Model of Autism. <i>Journal of Autism and Developmental Disorders</i> , 2011, 41, 1113-1124.	1.7	48
72	Ordinary variations in human maternal caregiving in infancy and biobehavioral development in early childhood: A followâ€”up study. <i>Developmental Psychobiology</i> , 2010, 52, 558-567.	0.9	99

#	ARTICLE	IF	CITATIONS
73	Anger and Approach Motivation in Infancy: Relations to Early Childhood Inhibitory Control and Behavior Problems. <i>Infancy</i> , 2010, 15, 246-269.	0.9	51
74	Electrophysiological Correlates of Cognitive Control and the Regulation of Shyness in Children. <i>Developmental Neuropsychology</i> , 2010, 35, 177-193.	1.0	67
75	Self-referenced processing, neurodevelopment and joint attention in autism. <i>Autism</i> , 2010, 14, 408-429.	2.4	83
76	Early temperament, propensity for risk-taking and adolescent substance-related problems: A prospective multi-method investigation. <i>Addictive Behaviors</i> , 2010, 35, 1148-1151.	1.7	33
77	Impact of Behavioral Inhibition and Parenting Style on Internalizing and Externalizing Problems from Early Childhood through Adolescence. <i>Journal of Abnormal Child Psychology</i> , 2009, 37, 1063-1075.	3.5	248
78	Temperament as a Predictor of Symptomatology and Adaptive Functioning in Adolescents with High-Functioning Autism. <i>Journal of Autism and Developmental Disorders</i> , 2009, 39, 842-855.	1.7	56
79	Self-referenced memory, social cognition, and symptom presentation in autism. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2009, 50, 853-861.	3.1	70
80	A History of Childhood Behavioral Inhibition and Enhanced Response Monitoring in Adolescence Are Linked to Clinical Anxiety. <i>Biological Psychiatry</i> , 2009, 65, 445-448.	0.7	209
81	Stable Early Maternal Report of Behavioral Inhibition Predicts Lifetime Social Anxiety Disorder in Adolescence. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2009, 48, 928-935.	0.3	440
82	Startle Response in Behaviorally Inhibited Adolescents With a Lifetime Occurrence of Anxiety Disorders. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2009, 48, 610-617.	0.3	67
83	Predicting Social Wariness in Middle Childhood: The Moderating Roles of Childcare History, Maternal Personality and Maternal Behavior. <i>Social Development</i> , 2008, 17, 471-487.	0.8	142
84	Salivary cortisol levels and infant temperament shape developmental trajectories in boys at risk for behavioral maladjustment. <i>Psychoneuroendocrinology</i> , 2008, 33, 916-925.	1.3	64
85	Behavioral reactivity and approach-withdrawal bias in infancy.. <i>Developmental Psychology</i> , 2008, 44, 1491-1496.	1.2	213
86	Development and validation of the Preschool Temperament Classification System for use with teachers. <i>Early Childhood Research Quarterly</i> , 2007, 22, 440-450.	1.6	4
87	Attention alters neural responses to evocative faces in behaviorally inhibited adolescents. <i>NeuroImage</i> , 2007, 35, 1538-1546.	2.1	188
88	Temperament theory and the study of cognition-emotion interactions across development. <i>Developmental Review</i> , 2007, 27, 396-427.	2.6	86
89	The Modifier Model of Autism and Social Development in Higher Functioning Children. <i>Research and Practice for Persons With Severe Disabilities</i> , 2007, 32, 124-139.	0.3	58
90	Response monitoring, the error-related negativity, and differences in social behavior in autism. <i>Brain and Cognition</i> , 2006, 61, 96-109.	0.8	117

#	ARTICLE	IF	CITATIONS
91	Striatal Functional Alteration in Adolescents Characterized by Early Childhood Behavioral Inhibition. <i>Journal of Neuroscience</i> , 2006, 26, 6399-6405.	1.7	206
92	Evidence for a Gene-Environment Interaction in Predicting Behavioral Inhibition in Middle Childhood. <i>Psychological Science</i> , 2005, 16, 921-926.	1.8	229
93	Behavioral Inhibition: Linking Biology and Behavior within a Developmental Framework. <i>Annual Review of Psychology</i> , 2005, 56, 235-262.	9.9	923
94	Psychophysiological and Behavioral Evidence for Varying Forms and Functions of Nonsocial Behavior in Preschoolers. <i>Child Development</i> , 2004, 75, 251-263.	1.7	133
95	Temperamental Contributions to Social Behavior: The Moderating Roles of Frontal EEG Asymmetry and Gender. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2001, 40, 68-74.	0.3	116
96	Continuity and Discontinuity of Behavioral Inhibition and Exuberance: Psychophysiological and Behavioral Influences across the First Four Years of Life. <i>Child Development</i> , 2001, 72, 1-21.	1.7	776
97	Temperament as an Organizer of Development. <i>Infancy</i> , 2000, 1, 239-244.	0.9	10
98	Does infancy matter? predicting social behavior from infant temperament. , 1999, 22, 445-455.		43
99	Effects of the Height of the Internal Features of Faces on Adults' Aesthetic Ratings and 5-Month-Olds' Looking Times. <i>Perception</i> , 1999, 28, 839-850.	0.5	34
100	Stability and instability of infant temperament. , 1998, 21, 72.		1
101	Inhibited and Uninhibited Children: Challenges in School Settings. <i>School Psychology Review</i> , 1998, 27, 492-505.	1.8	39
102	The Consistency and Concomitants of Inhibition: Some of the Children, All of the Time. <i>Child Development</i> , 1997, 68, 467.	1.7	209
103	The Consistency and Concomitants of Inhibition: Some of the Children, All of the Time. <i>Child Development</i> , 1997, 68, 467-483.	1.7	236
104	Developmental Psychophysiology: Conceptual and Methodological Issues. , 0, , 453-481.		20
