

David S Krantz

List of Publications by Citations

Source: <https://exaly.com/author-pdf/3195415/david-s-krantz-publications-by-citations.pdf>
Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

145 papers	9,393 citations	52 h-index	95 g-index
190 ext. papers	9,985 ext. citations	6.4 avg, IF	5.34 L-index

#	Paper	IF	Citations
145	Acute psychophysiological reactivity and risk of cardiovascular disease: A review and methodologic critique.. <i>Psychological Bulletin</i> , 1984 , 96, 435-464	19.1	762
144	Mental stress and the induction of silent myocardial ischemia in patients with coronary artery disease. <i>New England Journal of Medicine</i> , 1988 , 318, 1005-12	59.2	641
143	The effect of atherosclerosis on the vasomotor response of coronary arteries to mental stress. <i>New England Journal of Medicine</i> , 1991 , 325, 1551-6	59.2	504
142	Effects of psychological and social factors on organic disease: a critical assessment of research on coronary heart disease. <i>Annual Review of Psychology</i> , 2002 , 53, 341-69	26.1	330
141	Assessment of preferences for self-treatment and information in health care.. <i>Journal of Personality and Social Psychology</i> , 1980 , 39, 977-990	6.5	318
140	Helplessness, stress level, and the coronary-prone behavior pattern. <i>Journal of Experimental Social Psychology</i> , 1974 , 10, 284-300	2.6	307
139	Cardiovascular reactivity to the cold pressor test as a predictor of hypertension. <i>Hypertension</i> , 1989 , 14, 524-30	8.5	295
138	Mental stress--induced myocardial ischemia and cardiac events. <i>JAMA - Journal of the American Medical Association</i> , 1996 , 275, 1651-6	27.4	221
137	Behavior, Health, and Environmental Stress 1986 ,		210
136	Mental stress-induced ischemia and all-cause mortality in patients with coronary artery disease: Results from the Psychophysiological Investigations of Myocardial Ischemia study. <i>Circulation</i> , 2002 , 105, 1780-4	16.7	181
135	Physiological, motivational, and cognitive effects of aircraft noise on children: Moving from the laboratory to the field.. <i>American Psychologist</i> , 1980 , 35, 231-243	9.5	178
134	Ischemic, hemodynamic, and neurohormonal responses to mental and exercise stress. Experience from the Psychophysiological Investigations of Myocardial Ischemia Study (PIMI). <i>Circulation</i> , 1996 , 94, 2402-9	16.7	176
133	Individual differences in behaviorally evoked cardiovascular response: temporal stability and hemodynamic patterning. <i>Psychophysiology</i> , 1990 , 27, 605-19	4.1	171
132	Automated physical activity monitoring: validation and comparison with physiological and self-report measures. <i>Psychophysiology</i> , 1993 , 30, 296-305	4.1	145
131	Triggers of myocardial ischemia during daily life in patients with coronary artery disease: physical and mental activities, anger and smoking. <i>Journal of the American College of Cardiology</i> , 1996 , 27, 585-92	15.1	144
130	The impact of disease severity on the informed consent process in clinical research. <i>American Journal of Medicine</i> , 1996 , 100, 261-8	2.4	138
129	Depression, the metabolic syndrome and cardiovascular risk. <i>Psychosomatic Medicine</i> , 2008 , 70, 40-8	3.7	133

128	Effects of types of challenge on pressor and heart rate responses in type A and B women. <i>Psychophysiology</i> , 1981 , 18, 1-9	4.1	129
127	Induction of silent myocardial ischemia with mental stress testing: relation to the triggers of ischemia during daily life activities and to ischemic functional severity. <i>Journal of the American College of Cardiology</i> , 1994 , 24, 1645-51	15.1	121
126	Mental stress-induced ischemia in the laboratory and ambulatory ischemia during daily life. Association and hemodynamic features. <i>Circulation</i> , 1995 , 92, 2102-8	16.7	121
125	MENTAL STRESS AS A TRIGGER OF MYOCARDIAL ISCHEMIA AND INFARCTION**Preparation of this article was assisted by a grant from the NIH (HL47337) and USUHS grant RO7233. The opinions and assertions expressed herein are those of the authors and are not to be construed as reflecting the views of the USUHS or the US Department of Defense. <i>Cardiology Clinics</i> , 1996 , 14, 271-287	2.5	118
124	Frontal electrocortical and cardiovascular reactivity during happiness and anger. <i>Biological Psychology</i> , 2000 , 55, 3-23	3.2	117
123	Effects of acute mental stress and exercise on T-wave alternans in patients with implantable cardioverter defibrillators and controls. <i>Circulation</i> , 2004 , 109, 1864-9	16.7	115
122	Prognostic value of mental stress testing in coronary artery disease. <i>American Journal of Cardiology</i> , 1999 , 84, 1292-7	3	115
121	Unique and common variance in Structured Interview and Jenkins Activity Survey measures of Type A behavior pattern.. <i>Journal of Personality and Social Psychology</i> , 1982 , 42, 303-313	6.5	115
120	Information, choice, and reactions to stress: A field experiment in a blood bank with laboratory analogue.. <i>Journal of Personality and Social Psychology</i> , 1979 , 37, 608-620	6.5	106
119	Depressive symptom dimensions and cardiovascular prognosis among women with suspected myocardial ischemia: A report from the National Heart, Lung, and Blood Institute-sponsored Women's Ischemia Syndrome Evaluation. <i>Archives of General Psychiatry</i> , 2009 , 66, 499-507		104
118	Changes in heart rate and heart rate variability before ambulatory ischemic events(1). <i>Journal of the American College of Cardiology</i> , 2001 , 38, 742-9	15.1	90
117	Comorbid depression and anxiety symptoms as predictors of cardiovascular events: results from the NHLBI-sponsored Women's Ischemia Syndrome Evaluation (WISE) study. <i>Psychosomatic Medicine</i> , 2009 , 71, 958-64	3.7	88
116	Effects of acute mental stress and exercise on inflammatory markers in patients with coronary artery disease and healthy controls. <i>American Journal of Cardiology</i> , 2008 , 101, 767-73	3	88
115	Extent of coronary atherosclerosis, type A behavior, and cardiovascular response to social interaction. <i>Psychophysiology</i> , 1981 , 18, 654-64	4.1	88
114	Effects of mental stress in patients with coronary artery disease: evidence and clinical implications. <i>JAMA - Journal of the American Medical Association</i> , 2000 , 283, 1800-2	27.4	87
113	Effects of mental stress on flow-mediated brachial arterial dilation and influence of behavioral factors and hypercholesterolemia in subjects without cardiovascular disease. <i>American Journal of Cardiology</i> , 2003 , 92, 687-91	3	86
112	Effects of mental stress on coronary epicardial vasomotion and flow velocity in coronary artery disease: relationship with hemodynamic stress responses. <i>Journal of the American College of Cardiology</i> , 2001 , 37, 1359-66	15.1	85
111	Environmental stress and biobehavioral antecedents of coronary heart disease.. <i>Journal of Consulting and Clinical Psychology</i> , 1988 , 56, 333-341	6.5	84

110	Effects of control over aversive stimulation and type A behavior on cardiovascular and plasma catecholamine responses. <i>Psychophysiology</i> , 1982 , 19, 408-19	4.1	79
109	Perceived control of aversive stimulation and the reduction of stress responses. <i>Journal of Personality</i> , 1973 , 41, 577-95	4.4	77
108	Transient left ventricular dysfunction during provocative mental stress in patients with coronary artery disease. <i>American Heart Journal</i> , 1989 , 118, 1-8	4.9	76
107	Assessment of Preferences for self-treatment and information in health care. <i>Journal of Personality and Social Psychology</i> , 1980 , 39, 977-90	6.5	75
106	Circadian variation of ambulatory myocardial ischemia. Triggering by daily activities and evidence for an endogenous circadian component. <i>Circulation</i> , 1996 , 93, 1364-71	16.7	72
105	Depression and cardiovascular health care costs among women with suspected myocardial ischemia: prospective results from the WISE (Women's Ischemia Syndrome Evaluation) Study. <i>Journal of the American College of Cardiology</i> , 2009 , 53, 176-83	15.1	70
104	Aircraft noise and children: Longitudinal and cross-sectional evidence on adaptation to noise and the effectiveness of noise abatement.. <i>Journal of Personality and Social Psychology</i> , 1981 , 40, 331-345	6.5	69
103	Psychobiological substrates of the Type A behavior pattern.. <i>Health Psychology</i> , 1983 , 2, 393-411	5	63
102	Relationship among mental stress-induced ischemia and ischemia during daily life and during exercise: the Psychophysiologic Investigations of Myocardial Ischemia (PIMI) study. <i>Journal of the American College of Cardiology</i> , 1999 , 33, 1476-84	15.1	62
101	Defensive hostility: Relationship to multiple markers of cardiac ischemia in patients with coronary disease.. <i>Health Psychology</i> , 1995 , 14, 202-209	5	62
100	Social networks and incident stroke among women with suspected myocardial ischemia. <i>Psychosomatic Medicine</i> , 2008 , 70, 282-7	3.7	61
99	Social network and coronary artery calcification in asymptomatic individuals. <i>Psychosomatic Medicine</i> , 2005 , 67, 343-52	3.7	61
98	Cognitive processes and recovery from heart attack: a review and theoretical analysis. <i>Journal of Human Stress</i> , 1980 , 6, 27-38		60
97	Major life changes before and after the onset of chronic daily headache: a population-based study. <i>Cephalalgia</i> , 2008 , 28, 868-76	6.1	59
96	Resemblances of twins and their parents in pattern A behavior. <i>Psychosomatic Medicine</i> , 1976 , 38, 140-4	3.7	59
95	Mental stress and coronary artery disease: a multidisciplinary guide. <i>Progress in Cardiovascular Diseases</i> , 2006 , 49, 106-22	8.5	55
94	Prothrombotic effects of environmental stress: changes in platelet function, hematocrit, and total plasma protein. <i>Psychosomatic Medicine</i> , 1995 , 57, 592-9	3.7	54
93	Stress, Reactivity, and Type a Behavior: Current Status and Future Directions. <i>Annals of Behavioral Medicine</i> , 1988 , 10, 64-70	4.5	52

92	Anginal symptoms, coronary artery disease, and adverse outcomes in Black and White women: the NHLBI-sponsored Women's Ischemia Syndrome Evaluation (WISE) study. <i>Journal of Women's Health</i> , 2013 , 22, 724-32	3	49
91	Triggers of angina and ST-segment depression in ambulatory patients with coronary artery disease: evidence for an uncoupling of angina and ischemia. <i>American Heart Journal</i> , 1994 , 128, 703-12	4.9	48
90	The circadian variation of cardiovascular stress levels and reactivity: relationship to individual differences in morningness/eveningness. <i>Psychophysiology</i> , 1996 , 33, 273-81	4.1	44
89	Association between symptoms of depression and anxiety with heart rate variability in patients with implantable cardioverter defibrillators. <i>Psychosomatic Medicine</i> , 2009 , 71, 821-7	3.7	43
88	Psychotropic medication use and risk of adverse cardiovascular events in women with suspected coronary artery disease: outcomes from the Women's Ischemia Syndrome Evaluation (WISE) study. <i>Heart</i> , 2009 , 95, 1901-6	5.1	42
87	A naturalistic study of social influences on meal size among moderately obese and nonobese subjects. <i>Psychosomatic Medicine</i> , 1979 , 41, 19-27	3.7	40
86	Psychological correlates of progression of atherosclerosis in men. <i>Psychosomatic Medicine</i> , 1979 , 41, 467-75	3.7	37
85	Self-rated versus objective health indicators as predictors of major cardiovascular events: the NHLBI-sponsored Women's Ischemia Syndrome Evaluation. <i>Psychosomatic Medicine</i> , 2010 , 72, 549-55	3.7	36
84	The Psychophysiological Investigations of Myocardial Ischemia (PIMI) study: objective, methods, and variability of measures. <i>Psychosomatic Medicine</i> , 1998 , 60, 56-63	3.7	36
83	Effect of beta-blockade on low heart rate-related ischemia during mental stress. <i>Journal of the American College of Cardiology</i> , 1991 , 17, 1388-95	15.1	36
82	Type A behavior and coronary artery bypass surgery: intraoperative blood pressure and perioperative complications. <i>Psychosomatic Medicine</i> , 1982 , 44, 273-84	3.7	36
81	Heart rate variability reproducibility and stability using commercially available equipment in coronary artery disease with daily life myocardial ischemia. <i>American Journal of Cardiology</i> , 1996 , 78, 866-70	3	35
80	Cardiovascular stress response and coronary artery disease: evidence of an adverse postmenopausal effect in women. <i>American Heart Journal</i> , 1998 , 135, 881-7	4.9	34
79	Mental stress as an acute trigger of ischemic left ventricular dysfunction and blood pressure elevation in coronary artery disease. <i>American Journal of Cardiology</i> , 1990 , 66, 28G-31G	3	34
78	Anger, hostility, and cardiac symptoms in women with suspected coronary artery disease: the Women's Ischemia Syndrome Evaluation (WISE) Study. <i>Journal of Women's Health</i> , 2006 , 15, 1214-23	3	33
77	The antianxiety effect of beta-blockers on punished responding. <i>Pharmacology Biochemistry and Behavior</i> , 1986 , 25, 371-4	3.9	31
76	Propranolol medication among coronary patients: relationship to type A behavior and cardiovascular response. <i>Journal of Human Stress</i> , 1982 , 8, 4-12		30
75	Relationships between cardiovascular disease risk factors and depressive symptoms as predictors of cardiovascular disease events in women. <i>Journal of Women's Health</i> , 2012 , 21, 133-9	3	29

74	Comparison of mental stress-induced myocardial ischemia in coronary artery disease patients with versus without left ventricular dysfunction. <i>American Journal of Cardiology</i> , 2005 , 95, 322-6	3	29
73	Time course and mechanisms of decreased plasma volume during acute psychological stress and postural change in humans. <i>Psychophysiology</i> , 1995 , 32, 538-45	4.1	28
72	Defensive hostility, gender and cardiovascular levels and responses to stress. <i>Annals of Behavioral Medicine</i> , 1996 , 18, 246-54	4.5	28
71	Some cautions for research on personality and health. <i>Journal of Personality</i> , 1987 , 55, 351-7	4.4	28
70	Clinical implications of the Women's Ischemia Syndrome Evaluation: inter-relationships between symptoms, psychosocial factors and cardiovascular outcomes. <i>Women's Health</i> , 2013 , 9, 479-90	3	27
69	Development of a diary for use with ambulatory monitoring of mood, activities, and physiological function. <i>Journal of Psychopathology and Behavioral Assessment</i> , 1990 , 12, 203-217	2	27
68	Hostility scores are associated with increased risk of cardiovascular events in women undergoing coronary angiography: a report from the NHLBI-Sponsored WISE Study. <i>Psychosomatic Medicine</i> , 2005 , 67, 546-52	3.7	26
67	Effects of beta-adrenergic activity on T-wave amplitude. <i>Psychophysiology</i> , 1989 , 26, 488-92	4.1	26
66	Short-term behavioral effects of beta-adrenergic medications in men with mild hypertension. <i>Clinical Pharmacology and Therapeutics</i> , 1988 , 43, 429-35	6.1	25
65	Physiological, motivational, and cognitive effects of aircraft noise on children: moving from the laboratory to the field. <i>American Psychologist</i> , 1980 , 35, 231-43	9.5	25
64	Anxiety associations with cardiac symptoms, angiographic disease severity, and healthcare utilization: the NHLBI-sponsored Women's Ischemia Syndrome Evaluation. <i>International Journal of Cardiology</i> , 2013 , 168, 2335-40	3.2	24
63	Unique and common variance in structured interview and Jenkins Activity Survey measures of the type A behavior pattern. <i>Journal of Personality and Social Psychology</i> , 1982 , 42, 303-13	6.5	24
62	Prognostic significance of active and modified forms of endothelin 1 in patients with heart failure with reduced ejection fraction. <i>Clinical Biochemistry</i> , 2015 , 48, 292-6	3.5	23
61	The Social Context of Obesity Research: Another Perspective on Its Place in the Field of Social Psychology. <i>Personality and Social Psychology Bulletin</i> , 1978 , 4, 177-184	4.1	22
60	Transient coronary occlusion with mental stress. <i>American Heart Journal</i> , 1996 , 132, 1299-301	4.9	20
59	Memory performance by mild hypertensives following beta-adrenergic blockade. <i>Psychopharmacology</i> , 1986 , 89, 20-4	4.7	20
58	Depression, dietary habits, and cardiovascular events among women with suspected myocardial ischemia. <i>American Journal of Medicine</i> , 2014 , 127, 840-7	2.4	19
57	Technological and medical advances: implications for health psychology. <i>Health Psychology</i> , 2004 , 23, 142-6	5	18

56	Psychological Correlates of Mental Stress-induced Ischemia in the Laboratory: The Psychophysiological Investigation of Myocardial Ischemia (PIMI) Study. <i>Journal of Health Psychology</i> , 2000 , 5, 75-85	3.1	18
55	Combining psychosocial data to improve prediction of cardiovascular disease risk factors and events: The National Heart, Lung, and Blood Institute--sponsored Women's Ischemia Syndrome Evaluation study. <i>Psychosomatic Medicine</i> , 2012 , 74, 263-70	3.7	17
54	Reproducibility of mental stress-induced myocardial ischemia in the Psychophysiological Investigations of Myocardial Ischemia (PIMI). <i>Psychosomatic Medicine</i> , 1998 , 60, 64-70	3.7	16
53	Environmental stress and biobehavioral antecedents of coronary heart disease. <i>Journal of Consulting and Clinical Psychology</i> , 1988 , 56, 333-41	6.5	16
52	Psychophysiological Reactivity in Coronary Heart Disease. <i>Behavioral Medicine Update: A Publication of the Society of Behavioral Medicine</i> , 1984 , 6, 11-15		15
51	Relationship of socioeconomic markers to daily life ischemia and blood pressure reactivity in coronary artery disease patients. <i>Annals of Behavioral Medicine</i> , 2005 , 30, 74-84	4.5	14
50	Daily variation in post traumatic stress symptoms in individuals with and without probable post traumatic stress disorder. <i>BMC Psychiatry</i> , 2019 , 19, 56	4.2	14
49	Mental stress peripheral vascular reactivity is elevated in women with coronary vascular dysfunction: Results from the NHLBI-sponsored Cardiac Autonomic Nervous System (CANS) study. <i>International Journal of Cardiology</i> , 2018 , 251, 8-13	3.2	14
48	Three strategies for bridging different levels of analysis and embracing the biopsychosocial model. <i>Health Psychology</i> , 2013 , 32, 597-601	5	13
47	Psychological and physiological predictors of angina during exercise-induced ischemia in patients with coronary artery disease. <i>Psychosomatic Medicine</i> , 2013 , 75, 413-21	3.7	13
46	Symptoms of anxiety and depression are correlates of angina pectoris by recent history and an ischemia-positive treadmill test in patients with documented coronary artery disease in the pimi study. <i>Cardiovascular Psychiatry and Neurology</i> , 2011 , 2011, 134040		13
45	Biobehavioral aspects of cardiovascular disease: Progress and prospects.. <i>Health Psychology</i> , 1989 , 8, 649-676	5	13
44	Anger, hostility, and hospitalizations in patients with heart failure. <i>Health Psychology</i> , 2017 , 36, 829-838	5	13
43	High Concordance Between Mental Stress-Induced and Adenosine-Induced Myocardial Ischemia Assessed Using SPECT in Heart Failure Patients: Hemodynamic and Biomarker Correlates. <i>Journal of Nuclear Medicine</i> , 2015 , 56, 1527-33	8.9	12
42	Relationship between left ventricular mass and hemodynamic responses to physical and mental stress. <i>Journal of Psychosomatic Research</i> , 2000 , 48, 79-88	4.1	12
41	Environmental stress, reactivity and ischaemic heart disease. <i>The British Journal of Medical Psychology</i> , 1988 , 61 (Pt 1), 3-16		12
40	Psychological stress and short-term hospitalisations or death in patients with heart failure. <i>Heart</i> , 2016 , 102, 1820-1825	5.1	12
39	Psychosocial predictors of long-term mortality among women with suspected myocardial ischemia: the NHLBI-sponsored Women's Ischemia Syndrome Evaluation. <i>Journal of Behavioral Medicine</i> , 2016 , 39, 687-93	3.6	10

38	The Social Context of Stress and Behavioral Medicine Research 1989 , 383-392		10
37	Perspectives on the interface between psychology and public health.. <i>American Psychologist</i> , 1982 , 37, 955-960	9.5	10
36	Associations of perceived stress and state anger with symptom burden and functional status in patients with heart failure. <i>Psychology and Health</i> , 2019 , 34, 1250-1266	2.9	8
35	QT variability during rest and exercise in patients with implantable cardioverter defibrillators and healthy controls. <i>Annals of Noninvasive Electrocardiology</i> , 2009 , 14, 40-9	1.5	8
34	Pyridostigmine, diethyltoluamide, permethrin, and stress: a double-blind, randomized, placebo-controlled trial to assess safety. <i>Mayo Clinic Proceedings</i> , 2006 , 81, 1303-10	6.4	8
33	Biobehavioral research on cardiovascular disorders.. <i>Health Psychology</i> , 1989 , 8, 737-746	5	7
