

# David S Krantz

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/3195415/david-s-krantz-publications-by-year.pdf>

**Version:** 2024-04-05

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

145 papers	9,393 citations	52 h-index	95 g-index
190 ext. papers	9,985 ext. citations	6.4 avg, IF	5.34 L-index

#	Paper	IF	Citations
145	Mental Health, Ill-Defined Conditions, and Healthcare Utilization Following Bereavement: A Prospective Case-Control Study.. <i>Journal of the Academy of Consultation-Liaison Psychiatry</i> , <b>2022</b> ,		1
144	The Interaction of Biology and Emotion: Uncovering a New Phenotype of Nonobstructive Coronary Artery Disease.. <i>Biological Psychiatry</i> , <b>2022</b> , 91, 606-608	7.9	
143	Post-traumatic stress disorder (PTSD) as a systemic disorder: Pathways to cardiovascular disease. <i>Health Psychology</i> , <b>2021</b> ,	5	2
142	Somatic Versus Cognitive Depressive Symptoms as Predictors of Coronary Artery Disease among Women with Suspected Ischemia: The Women's Ischemia Syndrome Evaluation.. <i>Heart and Mind (Mumbai, India)</i> , <b>2021</b> , 5, 112-118	0.6	2
141	Psychological factors and cardiac repolarization instability during anger in implantable cardioverter defibrillator patients. <i>Annals of Noninvasive Electrocardiology</i> , <b>2021</b> , 26, e12848	1.5	2
140	Cardiac Sympathetic Activity by I-Meta-Iodobenzylguanidine Imaging in Women With Coronary Microvascular Dysfunction: A Pilot Study. <i>JACC: Cardiovascular Imaging</i> , <b>2021</b> , 14, 1873-1875	8.4	1
139	Psychological stress, cardiac symptoms, and cardiovascular risk in women with suspected ischaemia but no obstructive coronary disease. <i>Stress and Health</i> , <b>2020</b> , 36, 264-273	3.7	4
138	Preferences for Self-Care and Involvement in Health Care <b>2020</b> , 149-166		
137	Impact of Mental Stress and Anger on Indices of Diastolic Function in Patients With Heart Failure. <i>Journal of Cardiac Failure</i> , <b>2020</b> , 26, 1006-1010	3.3	6
136	Associations of perceived stress and state anger with symptom burden and functional status in patients with heart failure. <i>Psychology and Health</i> , <b>2019</b> , 34, 1250-1266	2.9	8
135	Daily variation in post traumatic stress symptoms in individuals with and without probable post traumatic stress disorder. <i>BMC Psychiatry</i> , <b>2019</b> , 19, 56	4.2	14
134	Mental stress peripheral vascular reactivity is elevated in women with coronary vascular dysfunction: Results from the NHLBI-sponsored Cardiac Autonomic Nervous System (CANS) study. <i>International Journal of Cardiology</i> , <b>2018</b> , 251, 8-13	3.2	14
133	A New Clinically Applicable Measure of Functional Status in Patients With Heart Failure: The 60-Foot Walk Test. <i>JACC: Heart Failure</i> , <b>2017</b> , 5, 411-420	7.9	4
132	Anger, hostility, and hospitalizations in patients with heart failure. <i>Health Psychology</i> , <b>2017</b> , 36, 829-838	5	13
131	Psychosocial predictors of long-term mortality among women with suspected myocardial ischemia: the NHLBI-sponsored Women's Ischemia Syndrome Evaluation. <i>Journal of Behavioral Medicine</i> , <b>2016</b> , 39, 687-93	3.6	10
130	Psychological stress and short-term hospitalisations or death in patients with heart failure. <i>Heart</i> , <b>2016</b> , 102, 1820-1825	5.1	12
129	High Concordance Between Mental Stress-Induced and Adenosine-Induced Myocardial Ischemia Assessed Using SPECT in Heart Failure Patients: Hemodynamic and Biomarker Correlates. <i>Journal of Nuclear Medicine</i> , <b>2015</b> , 56, 1527-33	8.9	12

128	Prognostic significance of active and modified forms of endothelin 1 in patients with heart failure with reduced ejection fraction. <i>Clinical Biochemistry</i> , <b>2015</b> , 48, 292-6	3.5	23
127	Depression, dietary habits, and cardiovascular events among women with suspected myocardial ischemia. <i>American Journal of Medicine</i> , <b>2014</b> , 127, 840-7	2.4	19
126	Three strategies for bridging different levels of analysis and embracing the biopsychosocial model. <i>Health Psychology</i> , <b>2013</b> , 32, 597-601	5	13
125	Anxiety associations with cardiac symptoms, angiographic disease severity, and healthcare utilization: the NHLBI-sponsored Women's Ischemia Syndrome Evaluation. <i>International Journal of Cardiology</i> , <b>2013</b> , 168, 2335-40	3.2	24
124	Clinical implications of the Women's Ischemia Syndrome Evaluation: inter-relationships between symptoms, psychosocial factors and cardiovascular outcomes. <i>Women's Health</i> , <b>2013</b> , 9, 479-90	3	27
123	Psychological and physiological predictors of angina during exercise-induced ischemia in patients with coronary artery disease. <i>Psychosomatic Medicine</i> , <b>2013</b> , 75, 413-21	3.7	13
122	Anginal symptoms, coronary artery disease, and adverse outcomes in Black and White women: the NHLBI-sponsored Women's Ischemia Syndrome Evaluation (WISE) study. <i>Journal of Women's Health</i> , <b>2013</b> , 22, 724-32	3	49
121	Depression 3 and 9 months after discharge is less common in cardiac patients who are receiving statins at discharge. <i>Evidence-Based Mental Health</i> , <b>2012</b> , 15, 39	11.1	
120	Relationships between cardiovascular disease risk factors and depressive symptoms as predictors of cardiovascular disease events in women. <i>Journal of Women's Health</i> , <b>2012</b> , 21, 133-9	3	29
119	Combining psychosocial data to improve prediction of cardiovascular disease risk factors and events: The National Heart, Lung, and Blood Institute--sponsored Women's Ischemia Syndrome Evaluation study. <i>Psychosomatic Medicine</i> , <b>2012</b> , 74, 263-70	3.7	17
118	Symptoms of anxiety and depression are correlates of angina pectoris by recent history and an ischemia-positive treadmill test in patients with documented coronary artery disease in the pimi study. <i>Cardiovascular Psychiatry and Neurology</i> , <b>2011</b> , 2011, 134040		13
117	Self-rated versus objective health indicators as predictors of major cardiovascular events: the NHLBI-sponsored Women's Ischemia Syndrome Evaluation. <i>Psychosomatic Medicine</i> , <b>2010</b> , 72, 549-55	3.7	36
116	Depressive symptom dimensions and cardiovascular prognosis among women with suspected myocardial ischemia: A report from the National Heart, Lung, and Blood Institute-sponsored Women's Ischemia Syndrome Evaluation. <i>Archives of General Psychiatry</i> , <b>2009</b> , 66, 499-507		104
115	Psychotropic medication use and risk of adverse cardiovascular events in women with suspected coronary artery disease: outcomes from the Women's Ischemia Syndrome Evaluation (WISE) study. <i>Heart</i> , <b>2009</b> , 95, 1901-6	5.1	42
114	QT variability during rest and exercise in patients with implantable cardioverter defibrillators and healthy controls. <i>Annals of Noninvasive Electrocardiology</i> , <b>2009</b> , 14, 40-9	1.5	8
113	Depression and cardiovascular health care costs among women with suspected myocardial ischemia: prospective results from the WISE (Women's Ischemia Syndrome Evaluation) Study. <i>Journal of the American College of Cardiology</i> , <b>2009</b> , 53, 176-83	15.1	70
112	Comorbid depression and anxiety symptoms as predictors of cardiovascular events: results from the NHLBI-sponsored Women's Ischemia Syndrome Evaluation (WISE) study. <i>Psychosomatic Medicine</i> , <b>2009</b> , 71, 958-64	3.7	88
111	Association between symptoms of depression and anxiety with heart rate variability in patients with implantable cardioverter defibrillators. <i>Psychosomatic Medicine</i> , <b>2009</b> , 71, 821-7	3.7	43

110	Major life changes before and after the onset of chronic daily headache: a population-based study. <i>Cephalalgia</i> , <b>2008</b> , 28, 868-76	6.1	59
109	Effects of acute mental stress and exercise on inflammatory markers in patients with coronary artery disease and healthy controls. <i>American Journal of Cardiology</i> , <b>2008</b> , 101, 767-73	3	88
108	Depression, the metabolic syndrome and cardiovascular risk. <i>Psychosomatic Medicine</i> , <b>2008</b> , 70, 40-8	3.7	133
107	Social networks and incident stroke among women with suspected myocardial ischemia. <i>Psychosomatic Medicine</i> , <b>2008</b> , 70, 282-7	3.7	61
106	Mental stress hemodynamic responses and myocardial ischemia: does left ventricular dysfunction alter these relationships?. <i>Psychosomatic Medicine</i> , <b>2007</b> , 69, 495-500	3.7	6
105	Heart Disease/Attack <b>2007</b> , 266-272		
104	Mental stress and coronary artery disease: a multidisciplinary guide. <i>Progress in Cardiovascular Diseases</i> , <b>2006</b> , 49, 106-22	8.5	55
103	Anger, hostility, and cardiac symptoms in women with suspected coronary artery disease: the Women's Ischemia Syndrome Evaluation (WISE) Study. <i>Journal of Women's Health</i> , <b>2006</b> , 15, 1214-23	3	33
102	Pyridostigmine, diethyltoluamide, permethrin, and stress: a double-blind, randomized, placebo-controlled trial to assess safety. <i>Mayo Clinic Proceedings</i> , <b>2006</b> , 81, 1303-10	6.4	8
101	Initial evaluation of N,N-diethyl-m-toluamide and permethrin absorption in human volunteers under stress conditions. <i>Military Medicine</i> , <b>2006</b> , 171, 122-7	1.3	4
100	Social network and coronary artery calcification in asymptomatic individuals. <i>Psychosomatic Medicine</i> , <b>2005</b> , 67, 343-52	3.7	61
99	Hostility scores are associated with increased risk of cardiovascular events in women undergoing coronary angiography: a report from the NHLBI-Sponsored WISE Study. <i>Psychosomatic Medicine</i> , <b>2005</b> , 67, 546-52	3.7	26
98	Relationship of socioeconomic markers to daily life ischemia and blood pressure reactivity in coronary artery disease patients. <i>Annals of Behavioral Medicine</i> , <b>2005</b> , 30, 74-84	4.5	14
97	Comparison of mental stress-induced myocardial ischemia in coronary artery disease patients with versus without left ventricular dysfunction. <i>American Journal of Cardiology</i> , <b>2005</b> , 95, 322-6	3	29
96	Effects of acute mental stress and exercise on T-wave alternans in patients with implantable cardioverter defibrillators and controls. <i>Circulation</i> , <b>2004</b> , 109, 1864-9	16.7	115
95	Technological and medical advances: implications for health psychology. <i>Health Psychology</i> , <b>2004</b> , 23, 142-6	5	18
94	Effects of mental stress on flow-mediated brachial arterial dilation and influence of behavioral factors and hypercholesterolemia in subjects without cardiovascular disease. <i>American Journal of Cardiology</i> , <b>2003</b> , 92, 687-91	3	86
93	Mental stress-induced ischemia and all-cause mortality in patients with coronary artery disease: Results from the Psychophysiological Investigations of Myocardial Ischemia study. <i>Circulation</i> , <b>2002</b> , 105, 1780-4	16.7	181

92	Effects of psychological and social factors on organic disease: a critical assessment of research on coronary heart disease. <i>Annual Review of Psychology</i> , <b>2002</b> , 53, 341-69	26.1	330
91	Diseases of the circulatory system. <b>2002</b> , 203-238		2
90	Effects of mental stress on coronary epicardial vasomotion and flow velocity in coronary artery disease: relationship with hemodynamic stress responses. <i>Journal of the American College of Cardiology</i> , <b>2001</b> , 37, 1359-66	15.1	85
89	Changes in heart rate and heart rate variability before ambulatory ischemic events(1). <i>Journal of the American College of Cardiology</i> , <b>2001</b> , 38, 742-9	15.1	90
88	Hostility and Type A behaviour in coronary artery disease <b>2001</b> , 119-124		
87	Drugs: beta-blockers <b>2001</b> , 683-685		
86	Effects of mental stress in patients with coronary artery disease: evidence and clinical implications. <i>JAMA - Journal of the American Medical Association</i> , <b>2000</b> , 283, 1800-2	27.4	87
85	Psychological Correlates of Mental Stress-induced Ischemia in the Laboratory: The Psychophysiological Investigation of Myocardial Ischemia (PIMI) Study. <i>Journal of Health Psychology</i> , <b>2000</b> , 5, 75-85	3.1	18
84	Frontal electrocortical and cardiovascular reactivity during happiness and anger. <i>Biological Psychology</i> , <b>2000</b> , 55, 3-23	3.2	117
83	Relationship between left ventricular mass and hemodynamic responses to physical and mental stress. <i>Journal of Psychosomatic Research</i> , <b>2000</b> , 48, 79-88	4.1	12
82	Prognostic value of mental stress testing in coronary artery disease. <i>American Journal of Cardiology</i> , <b>1999</b> , 84, 1292-7	3	115
81	Relationship among mental stress-induced ischemia and ischemia during daily life and during exercise: the Psychophysiologic Investigations of Myocardial Ischemia (PIMI) study. <i>Journal of the American College of Cardiology</i> , <b>1999</b> , 33, 1476-84	15.1	62
80	Cardiovascular stress response and coronary artery disease: evidence of an adverse postmenopausal effect in women. <i>American Heart Journal</i> , <b>1998</b> , 135, 881-7	4.9	34
79	Cardiovascular Disorders <b>1998</b> , 189-216		4
78	Reproducibility of mental stress-induced myocardial ischemia in the Psychophysiological Investigations of Myocardial Ischemia (PIMI). <i>Psychosomatic Medicine</i> , <b>1998</b> , 60, 64-70	3.7	16
77	The Psychophysiological Investigations of Myocardial Ischemia (PIMI) study: objective, methods, and variability of measures. <i>Psychosomatic Medicine</i> , <b>1998</b> , 60, 56-63	3.7	36
76	MENTAL STRESS AS A TRIGGER OF MYOCARDIAL ISCHEMIA AND INFARCTION**Preparation of this article was assisted by a grant from the NIH (HL47337) and USUHS grant RO7233. The opinions and assertions expressed herein are those of the authors and are not to be construed as reflecting the views of the USUHS or the US Department of Defense.. <i>Cardiology Clinics</i> , <b>1996</b> , 14, 271-287	2.5	118
75	Triggers of myocardial ischemia during daily life in patients with coronary artery disease: physical and mental activities, anger and smoking. <i>Journal of the American College of Cardiology</i> , <b>1996</b> , 27, 585-92	15.1	144

74	Transient coronary occlusion with mental stress. <i>American Heart Journal</i> , <b>1996</b> , 132, 1299-301	4.9	20
73	The impact of disease severity on the informed consent process in clinical research. <i>American Journal of Medicine</i> , <b>1996</b> , 100, 261-8	2.4	138
72	Defensive hostility, gender and cardiovascular levels and responses to stress. <i>Annals of Behavioral Medicine</i> , <b>1996</b> , 18, 246-54	4.5	28
71	Heart rate variability reproducibility and stability using commercially available equipment in coronary artery disease with daily life myocardial ischemia. <i>American Journal of Cardiology</i> , <b>1996</b> , 78, 866-70	3	35
70	The circadian variation of cardiovascular stress levels and reactivity: relationship to individual differences in morningness/eveningness. <i>Psychophysiology</i> , <b>1996</b> , 33, 273-81	4.1	44
69	Circadian variation of ambulatory myocardial ischemia. Triggering by daily activities and evidence for an endogenous circadian component. <i>Circulation</i> , <b>1996</b> , 93, 1364-71	16.7	72
68	Ischemic, hemodynamic, and neurohormonal responses to mental and exercise stress. Experience from the Psychophysiological Investigations of Myocardial Ischemia Study (PIMI). <i>Circulation</i> , <b>1996</b> , 94, 2402-9	16.7	176
67	Mental stress-induced myocardial ischemia and cardiac events. <i>JAMA - Journal of the American Medical Association</i> , <b>1996</b> , 275, 1651-6	27.4	221
66	Time course and mechanisms of decreased plasma volume during acute psychological stress and postural change in humans. <i>Psychophysiology</i> , <b>1995</b> , 32, 538-45	4.1	28
65	Person environment interactions are alive and well in health psychology. <i>Psychology and Health</i> , <b>1995</b> , 10, 281-284	2.9	
64	Prothrombotic effects of environmental stress: changes in platelet function, hematocrit, and total plasma protein. <i>Psychosomatic Medicine</i> , <b>1995</b> , 57, 592-9	3.7	54
63	Defensive hostility: Relationship to multiple markers of cardiac ischemia in patients with coronary disease.. <i>Health Psychology</i> , <b>1995</b> , 14, 202-209	5	62
62	Mental stress-induced ischemia in the laboratory and ambulatory ischemia during daily life. Association and hemodynamic features. <i>Circulation</i> , <b>1995</b> , 92, 2102-8	16.7	121
61	Induction of silent myocardial ischemia with mental stress testing: relation to the triggers of ischemia during daily life activities and to ischemic functional severity. <i>Journal of the American College of Cardiology</i> , <b>1994</b> , 24, 1645-51	15.1	121
60	Triggers of angina and ST-segment depression in ambulatory patients with coronary artery disease: evidence for an uncoupling of angina and ischemia. <i>American Heart Journal</i> , <b>1994</b> , 128, 703-12	4.9	48
59	Automated physical activity monitoring: validation and comparison with physiological and self-report measures. <i>Psychophysiology</i> , <b>1993</b> , 30, 296-305	4.1	145
58	Behavioral Triggers of Silent and Symptomatic Myocardial Ischemia. <i>Journal of Cardiovascular Electrophysiology</i> , <b>1991</b> , 2, s86-s91	2.7	2
57	Effect of beta-blockade on low heart rate-related ischemia during mental stress. <i>Journal of the American College of Cardiology</i> , <b>1991</b> , 17, 1388-95	15.1	36

56	The effect of atherosclerosis on the vasomotor response of coronary arteries to mental stress. <i>New England Journal of Medicine</i> , <b>1991</b> , 325, 1551-6	59.2	504
55	Individual differences in behaviorally evoked cardiovascular response: temporal stability and hemodynamic patterning. <i>Psychophysiology</i> , <b>1990</b> , 27, 605-19	4.1	171
54	Mental stress as an acute trigger of ischemic left ventricular dysfunction and blood pressure elevation in coronary artery disease. <i>American Journal of Cardiology</i> , <b>1990</b> , 66, 28G-31G	3	34
53	Development of a diary for use with ambulatory monitoring of mood, activities, and physiological function. <i>Journal of Psychopathology and Behavioral Assessment</i> , <b>1990</b> , 12, 203-217	2	27
52	Cardiovascular reactivity to the cold pressor test as a predictor of hypertension. <i>Hypertension</i> , <b>1989</b> , 14, 524-30	8.5	295
51	Effects of beta-adrenergic activity on T-wave amplitude. <i>Psychophysiology</i> , <b>1989</b> , 26, 488-92	4.1	26
50	Transient left ventricular dysfunction during provocative mental stress in patients with coronary artery disease. <i>American Heart Journal</i> , <b>1989</b> , 118, 1-8	4.9	76
49	Biobehavioral aspects of cardiovascular disease: Progress and prospects.. <i>Health Psychology</i> , <b>1989</b> , 8, 649-676	5	13
48	Biobehavioral research on cardiovascular disorders.. <i>Health Psychology</i> , <b>1989</b> , 8, 737-746	5	7
47	The Social Context of Stress and Behavioral Medicine Research <b>1989</b> , 383-392		10
46	Short-term behavioral effects of beta-adrenergic medications in men with mild hypertension. <i>Clinical Pharmacology and Therapeutics</i> , <b>1988</b> , 43, 429-35	6.1	25
45	Mental stress and the induction of silent myocardial ischemia in patients with coronary artery disease. <i>New England Journal of Medicine</i> , <b>1988</b> , 318, 1005-12	59.2	641
44	Speaking, stress, and the induction of myocardial ischemia. <i>New England Journal of Medicine</i> , <b>1988</b> , 319, 867-9	59.2	2
43	Environmental stress, reactivity and ischaemic heart disease. <i>The British Journal of Medical Psychology</i> , <b>1988</b> , 61 ( Pt 1), 3-16		12
42	Environmental stress and biobehavioral antecedents of coronary heart disease.. <i>Journal of Consulting and Clinical Psychology</i> , <b>1988</b> , 56, 333-341	6.5	84
41	Stress, Reactivity, and Type a Behavior: Current Status and Future Directions. <i>Annals of Behavioral Medicine</i> , <b>1988</b> , 10, 64-70	4.5	52
40	Environmental stress and biobehavioral antecedents of coronary heart disease. <i>Journal of Consulting and Clinical Psychology</i> , <b>1988</b> , 56, 333-41	6.5	16
39	Stability and Change in Type A Components and Cardiovascular Reactivity in Medical Students During Periods of Academic Stress <sup>1</sup> . <i>Journal of Applied Social Psychology</i> , <b>1987</b> , 17, 679-698	2.1	3

38	Some cautions for research on personality and health. <i>Journal of Personality</i> , <b>1987</b> , 55, 351-7	4.4	28
37	Memory performance by mild hypertensives following beta-adrenergic blockade. <i>Psychopharmacology</i> , <b>1986</b> , 89, 20-4	4.7	20
36	The antianxiety effect of beta-blockers on punished responding. <i>Pharmacology Biochemistry and Behavior</i> , <b>1986</b> , 25, 371-4	3.9	31
35	Personality, Cardiovascular Disorders, and Illness Behaviour <b>1986</b> , 273-282
