

# Jan P Vandembroucke

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/319837/jan-p-vandembroucke-publications-by-year.pdf>

**Version:** 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

235  
papers

43,058  
citations

#	Paper	IF	Citations
235	Strengthening the Reporting of Observational Studies in Epidemiology (STROBE): Explanation and Elaboration. Translation to Russian. <i>Digital Diagnostics</i> , <b>2021</b> , 2, 119-169	1.8	1
234	Tipping Points - Do the Prognostic Values of Multimorbidity and Functional Status Vary with Age?. <i>Clinical Epidemiology</i> , <b>2021</b> , 13, 853-857	5.9	0
233	Does death from Covid-19 arise from a multi-step process?. <i>European Journal of Epidemiology</i> , <b>2021</b> , 36, 1-9	12.1	3
232	Community-Acquired Bacteremia after Age 50 and Subsequent Incidence of a Cancer Diagnosis: A Danish Population-Based Cohort Study. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2020</b> , 29, 2626-2632	4.6	0
231	Educational note: types of causes. <i>International Journal of Epidemiology</i> , <b>2020</b> , 49, 676-685	7.8	1
230	A Test-Negative Design with Additional Population Controls Can Be Used to Rapidly Study Causes of the SARS-CoV-2 Epidemic. <i>Epidemiology</i> , <b>2020</b> , 31, 836-843	3.1	18
229	COSMOS-E: Guidance on conducting systematic reviews and meta-analyses of observational studies of etiology. <i>PLoS Medicine</i> , <b>2019</b> , 16, e1002742	11.6	139
228	Test-Negative Designs: Differences and Commonalities with Other Case-Control Studies with "Other Patient" Controls. <i>Epidemiology</i> , <b>2019</b> , 30, 838-844	3.1	22
227	Re: Is the Smog Lifting?. <i>Epidemiology</i> , <b>2019</b> , 30, e37	3.1	2
226	From ideas to studies: how to get ideas and sharpen them into research questions. <i>Clinical Epidemiology</i> , <b>2018</b> , 10, 253-264	5.9	10
225	How trial results are intended to be used: is PRECIS-2 a step forward?. <i>Journal of Clinical Epidemiology</i> , <b>2017</b> , 84, 25-26	5.7	12
224	Clinical epidemiology: A daydream?. <i>European Journal of Epidemiology</i> , <b>2017</b> , 32, 95-101	12.1	0
223	Exposure Opportunity: The Advantages of Including Men in Analyses of Female-Related Risk Factors. <i>American Journal of Epidemiology</i> , <b>2017</b> , 185, 965-973	3.8	2
222	Confounding in observational studies based on large health care databases: problems and potential solutions - a primer for the clinician. <i>Clinical Epidemiology</i> , <b>2017</b> , 9, 185-193	5.9	67
221	Effect modification, interaction and mediation: an overview of theoretical insights for clinical investigators. <i>Clinical Epidemiology</i> , <b>2017</b> , 9, 331-338	5.9	92
220	Acute cardiovascular events and all-cause mortality in patients with hyperthyroidism: a population-based cohort study. <i>European Journal of Endocrinology</i> , <b>2017</b> , 176, 1-9	6.5	47
219	Response: Formalism or pluralism? A reply to commentaries on 'Causality and causal inference in epidemiology'. <i>International Journal of Epidemiology</i> , <b>2016</b> , 45, 1841-1851	7.8	14

218	Noninferiority is (too) common in noninferiority trials. <i>Journal of Clinical Epidemiology</i> , <b>2016</b> , 71, 118-20	5.7	6
217	Performing Survival Analyses in the Presence of Competing Risks: A Clinical Example in Older Breast Cancer Patients. <i>Journal of the National Cancer Institute</i> , <b>2016</b> , 108,	9.7	62
216	Authors' Reply to: VanderWeele et'al., Chiolero, and Schooling et'al. <i>International Journal of Epidemiology</i> , <b>2016</b> , 45, 2203-2205	7.8	6
215	Instrumental variable analysis as a complementary analysis in studies of adverse effects: venous thromboembolism and second-generation versus third-generation oral contraceptives. <i>Pharmacoepidemiology and Drug Safety</i> , <b>2016</b> , 25, 317-24	2.6	9
214	Causality and causal inference in epidemiology: the need for a pluralistic approach. <i>International Journal of Epidemiology</i> , <b>2016</b> , 45, 1776-1786	7.8	150
213	Causation, mediation and explanation. <i>International Journal of Epidemiology</i> , <b>2016</b> , 45, 1915-1922	7.8	5
212	Point: incident exposures, prevalent exposures, and causal inference: does limiting studies to persons who are followed from first exposure onward damage epidemiology?. <i>American Journal of Epidemiology</i> , <b>2015</b> , 182, 826-33	3.8	38
211	Vandenbroucke and Pearce respond to "incident and prevalent exposures and causal inference". <i>American Journal of Epidemiology</i> , <b>2015</b> , 182, 846-7	3.8	5
210	Risk of venous and arterial thrombotic events in patients diagnosed with superficial vein thrombosis: a nationwide cohort study. <i>Blood</i> , <b>2015</b> , 125, 229-35	2.2	40
209	Preregistration: when shall we start the real discussion?. <i>European Journal of Public Health</i> , <b>2015</b> , 25, 555-6	2.1	3
208	Sample size importantly limits the usefulness of instrumental variable methods, depending on instrument strength and level of confounding. <i>Journal of Clinical Epidemiology</i> , <b>2014</b> , 67, 1258-64	5.7	31
207	Physician's preference-based instrumental variable analysis: is it valid and useful in a moderate-sized study?. <i>Epidemiology</i> , <b>2014</b> , 25, 923-7	3.1	8
206	The Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) Statement: guidelines for reporting observational studies. <i>International Journal of Surgery</i> , <b>2014</b> , 12, 1495-9	7.5	3267
205	Strengthening the Reporting of Observational Studies in Epidemiology (STROBE): explanation and elaboration. <i>International Journal of Surgery</i> , <b>2014</b> , 12, 1500-24	7.5	1057
204	Randomized trials with missing outcome data: how to analyze and what to report. <i>Cmaj</i> , <b>2014</b> , 186, 1153-7	3.75	52
203	RE: Drug risk assessment and data reuse. <i>Pharmacoepidemiology and Drug Safety</i> , <b>2014</b> , 23, 109-10	2.6	
202	Commentary: regression discontinuity design: let's give it a try to evaluate medical and public health interventions. <i>Epidemiology</i> , <b>2014</b> , 25, 738-41	3.1	18
201	Commentary: A structural approach to Berkson's fallacy and a guide to a history of opinions about it. <i>International Journal of Epidemiology</i> , <b>2014</b> , 43, 515-21	7.8	31

200	Multisystem morbidity and mortality in Cushing's syndrome: a cohort study. <i>Journal of Clinical Endocrinology and Metabolism</i> , <b>2013</b> , 98, 2277-84	5.6	235
199	Use of glucocorticoids and risk of venous thromboembolism: a nationwide population-based case-control study. <i>JAMA Internal Medicine</i> , <b>2013</b> , 173, 743-52	11.5	241
198	Commentary: Snow's paper on 'offensive trades'--with the benefit of 150 years of hindsight. <i>International Journal of Epidemiology</i> , <b>2013</b> , 42, 1235-8	7.8	2
197	Informed consent and the new EU regulation on data protection. <i>International Journal of Epidemiology</i> , <b>2013</b> , 42, 1891-2	7.8	2
196	Adolphe Vorderman's 1897 study on beriberi: an example of scrupulous efforts to avoid bias. <i>Journal of the Royal Society of Medicine</i> , <b>2013</b> , 106, 108-11	2.3	4
195	Re-using Mini-Sentinel data following rapid assessments of potential safety signals via modular analytic programs. <i>Pharmacoepidemiology and Drug Safety</i> , <b>2013</b> , 22, 1036-45	2.6	10
194	Reporting instrumental variable analyses. <i>Epidemiology</i> , <b>2013</b> , 24, 937-8	3.1	5
193	Trends in citations to books on epidemiological and statistical methods in the biomedical literature. <i>PLoS ONE</i> , <b>2013</b> , 8, e61837	3.7	7
192	Resistance after selective decontamination. <i>Lancet Infectious Diseases</i> , <b>2012</b> , 12, 179; author reply 180-1	25.5	
191	A voice from the past, lessons for today. <i>Statistics in Medicine</i> , <b>2012</b> , 31, 2780-1	2.3	
190	Distinguishing case series from cohort studies. <i>Annals of Internal Medicine</i> , <b>2012</b> , 156, 37-40	8	166
189	Should preregistration of epidemiologic study protocols become compulsory? Reflections and a counterproposal. <i>Epidemiology</i> , <b>2012</b> , 23, 184-8	3.1	21
188	A mapping between interactions and interference: implications for vaccine trials. <i>Epidemiology</i> , <b>2012</b> , 23, 285-92	3.1	14
187	Quantification of bias in direct effects estimates due to different types of measurement error in the mediator. <i>Epidemiology</i> , <b>2012</b> , 23, 551-60	3.1	55
186	Case-control studies: basic concepts. <i>International Journal of Epidemiology</i> , <b>2012</b> , 41, 1480-9	7.8	135
185	Overestimation of risk ratios by odds ratios in trials and cohort studies: alternatives to logistic regression. <i>Cmaj</i> , <b>2012</b> , 184, 895-9	3.5	248
184	Incidence rates in dynamic populations. <i>International Journal of Epidemiology</i> , <b>2012</b> , 41, 1472-9	7.8	60
183	On Compulsory Preregistration of Protocols. <i>Epidemiology</i> , <b>2012</b> , 23, 652	3.1	

182	Reporting of noninferiority trials was incomplete in trial registries. <i>Journal of Clinical Epidemiology</i> , <b>2011</b> , 64, 1034-8	5.7	13
181	Associations between vitamin D receptor genotypes and mortality in a cohort of older Dutch individuals. <i>European Journal of Endocrinology</i> , <b>2011</b> , 164, 75-82	6.5	11
180	Relationship between venous and arterial thrombosis: a review of the literature from a causal perspective. <i>Seminars in Thrombosis and Hemostasis</i> , <b>2011</b> , 37, 885-96	5.3	67
179	Endogenous subclinical thyroid disorders, physical and cognitive function, depression, and mortality in older individuals. <i>European Journal of Endocrinology</i> , <b>2011</b> , 165, 545-54	6.5	113
178	Comprehensive evaluations of the adverse effects of drugs: importance of appropriate study selection and data sources. <i>Therapeutic Advances in Drug Safety</i> , <b>2011</b> , 2, 59-68	3.5	36
177	Prophylactic corticosteroids for cardiopulmonary bypass in adults. <i>The Cochrane Library</i> , <b>2011</b> , CD005566	5.2	36
176	Efficacy of experimental treatments compared with standard treatments in non-inferiority trials: a meta-analysis of randomized controlled trials. <i>International Journal of Epidemiology</i> , <b>2010</b> , 39, 1567-81	7.8	22
175	Registering observational research: second thoughts. <i>Lancet, The</i> , <b>2010</b> , 375, 982-3	4.0	16
174	Preregistration of epidemiologic studies: an ill-founded mix of ideas. <i>Epidemiology</i> , <b>2010</b> , 21, 619-20	3.1	20
173	Health risks encountered by Dutch medical students during an elective in the tropics and the quality and comprehensiveness of pre-and post-travel care. <i>BMC Medical Education</i> , <b>2010</b> , 10, 89	3.3	24
172	A solution to the problem of studying blood donor-related risk factors when patients have received multiple transfusions. <i>Transfusion</i> , <b>2010</b> , 50, 1959-66	2.9	9
171	Female donors and transfusion-related acute lung injury: A case-referent study from the International TRALI Unisex Research Group. <i>Transfusion</i> , <b>2010</b> , 50, 2447-54	2.9	35
170	Dutch perinatal mortality. Study did a good job. <i>BMJ, The</i> , <b>2010</b> , 341, c7042	5.9	3
169	Commentary: Maziak's essay, seen from another angle. <i>International Journal of Epidemiology</i> , <b>2009</b> , 38, 410-2; author reply 607-11	7.8	2
168	Commentary: 'Smoking and lung cancer'--the embryogenesis of modern epidemiology. <i>International Journal of Epidemiology</i> , <b>2009</b> , 38, 1193-6	7.8	6
167	STREGA, STROBE, STARD, SQUIRE, MOOSE, PRISMA, GNOSIS, TREND, ORION, COREQ, QUOROM, REMARK... and CONSORT: for whom does the guideline toll?. <i>Journal of Clinical Epidemiology</i> , <b>2009</b> , 62, 594-6	5.7	86
166	Myocardial infarction occurs with a similar 24 h pattern in the 4G/5G versions of plasminogen activator inhibitor-1. <i>Chronobiology International</i> , <b>2009</b> , 26, 637-52	3.6	2
165	The HRT controversy: observational studies and RCTs fall in line. <i>Lancet, The</i> , <b>2009</b> , 373, 1233-5	4.0	67

164	Challenges in evaluating surgical innovation. <i>Lancet, The</i> , <b>2009</b> , 374, 1097-104	40	417
163	No surgical innovation without evaluation: the IDEAL recommendations. <i>Lancet, The</i> , <b>2009</b> , 374, 1105-1240	40	1053
162	When one depends on the other: reporting of interaction in case-control and cohort studies. <i>Epidemiology</i> , <b>2009</b> , 20, 161-6	3.1	93
161	A meta-analysis of surgical treatment for vestibular schwannoma: is hospital volume related to preservation of facial function?. <i>Otology and Neurotology</i> , <b>2009</b> , 30, 975-80	2.6	14
160	Travel and venous thrombosis: an exercise in thinking about bias. <i>Annals of Internal Medicine</i> , <b>2009</b> , 151, 212-3	8	4
159	The Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) statement: guidelines for reporting observational studies. <i>Journal of Clinical Epidemiology</i> , <b>2008</b> , 61, 344-9	5.7	4750
158	Perinatal outcome, health, growth, and medical care utilization of 5- to 8-year-old intracytoplasmic sperm injection singletons. <i>Fertility and Sterility</i> , <b>2008</b> , 89, 1133-1146	4.8	68
157	Cognitive development of singletons born after intracytoplasmic sperm injection compared with in vitro fertilization and natural conception. <i>Fertility and Sterility</i> , <b>2008</b> , 90, 289-96	4.8	66
156	Opportunities for enhancing the FDA guidance on pharmacovigilance. <i>JAMA - Journal of the American Medical Association</i> , <b>2008</b> , 300, 952-4	27.4	11
155	Benefits and risks of drug treatments: how to combine the best evidence on benefits with the best data about adverse effects. <i>JAMA - Journal of the American Medical Association</i> , <b>2008</b> , 300, 2417-9	27.4	90
154	Observational research, randomised trials, and two views of medical science. <i>PLoS Medicine</i> , <b>2008</b> , 5, e67	11.6	238
153	What do case-control studies estimate? Survey of methods and assumptions in published case-control research. <i>American Journal of Epidemiology</i> , <b>2008</b> , 168, 1073-81	3.8	114
152	Measures of Biological Interaction and the STROBE Statement. <i>Epidemiology</i> , <b>2008</b> , 19, 519	3.1	
151	Trends in total cholesterol screening and in prescribing lipid-lowering drugs in general practice in the period 1994-2003. <i>BMC Family Practice</i> , <b>2008</b> , 9, 39	2.6	6
150	What conclusions should be drawn between critical care physician management and patient mortality in the intensive care unit?. <i>Annals of Internal Medicine</i> , <b>2008</b> , 149, 768-9; author reply 772	8	2
149	An outbreak of <i>Pneumocystis jiroveci</i> pneumonia with 1 predominant genotype among renal transplant recipients: interhuman transmission or a common environmental source?. <i>Clinical Infectious Diseases</i> , <b>2007</b> , 44, 1143-9	11.6	125
148	Epidemiology and comorbidity of erysipelas in primary care. <i>Dermatology</i> , <b>2007</b> , 215, 118-22	4.4	45
147	The Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) statement: guidelines for reporting observational studies. <i>PLoS Medicine</i> , <b>2007</b> , 4, e296	11.6	2066

146	Clinical predictors of alloimmunization after red blood cell transfusion. <i>Transfusion</i> , <b>2007</b> , 47, 2066-71	2.9	84
145	The Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) statement: guidelines for reporting observational studies. <i>Bulletin of the World Health Organization</i> , <b>2007</b> , 85, 867-72	8.2	613
144	Strengthening the Reporting of Observational Studies in Epidemiology (STROBE): explanation and elaboration. <i>PLoS Medicine</i> , <b>2007</b> , 4, e297	11.6	1900
143	Association between body mass index and mortality is similar in the hemodialysis population and the general population at high age and equal duration of follow-up. <i>Journal of the American Society of Nephrology: JASN</i> , <b>2007</b> , 18, 967-74	12.7	100
142	Matched follow-up study of 5-8 year old ICSI-singletons: comparison of their neuromotor development to IVF and naturally conceived singletons. <i>Human Reproduction</i> , <b>2007</b> , 22, 1638-46	5.7	43
141	Heredity versus environment in tuberculosis in twins: the 1950s United Kingdom Prophit Survey Simonds and Comstock revisited. <i>American Journal of Respiratory and Critical Care Medicine</i> , <b>2007</b> , 176, 1281-8	10.2	59
140	Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) statement: guidelines for reporting observational studies. <i>BMJ, The</i> , <b>2007</b> , 335, 806-8	5.9	2821
139	A possible overestimation of the effect of aspirin. <i>Archives of Internal Medicine</i> , <b>2007</b> , 167, 2372-3; author reply 2373		3
138	Determinants of methicillin-resistant <i>Staphylococcus aureus</i> carriage in nursing homes. <i>Age and Ageing</i> , <b>2007</b> , 36, 327-30	3	18
137	Analytic approaches to observational studies with treatment selection bias. <i>JAMA - Journal of the American Medical Association</i> , <b>2007</b> , 297, 2077-8; author reply 2078	27.4	8
136	Commentary: strengthening the reporting of observational epidemiology the STROBE statement. <i>International Journal of Epidemiology</i> , <b>2007</b> , 36, 948-50	7.8	11
135	The Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) statement: guidelines for reporting observational studies. <i>Annals of Internal Medicine</i> , <b>2007</b> , 147, 573-7	8	2941
134	Strengthening the Reporting of Observational Studies in Epidemiology (STROBE): explanation and elaboration. <i>Annals of Internal Medicine</i> , <b>2007</b> , 147, W163-94	8	765
133	The making of STROBE. <i>Epidemiology</i> , <b>2007</b> , 18, 797-9	3.1	38
132	The Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) statement: guidelines for reporting observational studies. <i>Epidemiology</i> , <b>2007</b> , 18, 800-4	3.1	763
131	Strengthening the Reporting of Observational Studies in Epidemiology (STROBE): explanation and elaboration. <i>Epidemiology</i> , <b>2007</b> , 18, 805-35	3.1	1174
130	The Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) statement: guidelines for reporting observational studies. <i>Preventive Medicine</i> , <b>2007</b> , 45, 247-51	4.3	630
129	The Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) statement: guidelines for reporting observational studies. <i>Lancet, The</i> , <b>2007</b> , 370, 1453-7	40	5729

128	Serum troponin T concentration as a predictor of mortality in hemodialysis and peritoneal dialysis patients. <i>American Journal of Kidney Diseases</i> , <b>2006</b> , 47, 823-9	7.4	33
127	Case reports of suspected adverse drug reactions: case reports were dismissed too quickly. <i>BMJ, The</i> , <b>2006</b> , 332, 488	5.9	8
126	One-time general consent for research on biological samples: opt out system for patients is optimal and endorsed in many countries. <i>BMJ, The</i> , <b>2006</b> , 332, 665	5.9	15
125	Overweight, obesity, and mortality. <i>New England Journal of Medicine</i> , <b>2006</b> , 355, 2699; author reply 2700-1	5.2	7
124	What is the best evidence for determining harms of medical treatment?. <i>Cmaj</i> , <b>2006</b> , 174, 645-6	3.5	59
123	Population screening for single genes that codetermine common diseases in adulthood had limited effects. <i>Journal of Clinical Epidemiology</i> , <b>2006</b> , 59, 358-64	5.7	2
122	Preemptive versus Non-preemptive simultaneous pancreas-kidney transplantation: a single-center, long-term, follow-up study. <i>Transplantation</i> , <b>2006</b> , 81, 1119-24	1.8	25
121	Sick leave as a predictor of job loss in patients with chronic arthritis. <i>International Archives of Occupational and Environmental Health</i> , <b>2006</b> , 80, 160-70	3.2	27
120	Homoeopathy and "the growth of truth". <i>Lancet, The</i> , <b>2005</b> , 366, 691-2	4.0	31
119	In an observational study elderly patients had an increased risk of falling due to home hazards. <i>Journal of Clinical Epidemiology</i> , <b>2005</b> , 58, 63-7	5.7	39
118	A regression model with unexplained residuals was preferred in the analysis of the fetal origins of adult diseases hypothesis. <i>Journal of Clinical Epidemiology</i> , <b>2005</b> , 58, 1320-4	5.7	114
117	Incidence of recombinant erythropoietin (EPO) hyporesponse, EPO-associated antibodies, and pure red cell aplasia in dialysis patients. <i>Kidney International</i> , <b>2005</b> , 68, 1215-22	9.9	25
116	ACE I/D polymorphism is associated with mortality in a cohort study of patients starting with dialysis. <i>Kidney International</i> , <b>2005</b> , 68, 2237-43	9.9	14
115	Re: "quality of reporting of observational longitudinal research". <i>American Journal of Epidemiology</i> , <b>2005</b> , 162, 1032-3; author reply 1033	3.8	0
114	Thrombophilia, clinical factors, and recurrent venous thrombotic events. <i>JAMA - Journal of the American Medical Association</i> , <b>2005</b> , 293, 2352-61	27.4	381
113	Case-control and two-gate designs in diagnostic accuracy studies. <i>Clinical Chemistry</i> , <b>2005</b> , 51, 1335-41	5.5	306
112	Factor V Leiden and venous thromboembolism. <i>Annals of Internal Medicine</i> , <b>2004</b> , 141, 484	8	2
111	Assessing the quality of research. <i>BMJ, The</i> , <b>2004</b> , 328, 39-41	5.9	220

110	Commentary: the HRT story: vindication of old epidemiological theory. <i>International Journal of Epidemiology</i> , <b>2004</b> , 33, 456-7	7.8	16
109	Specific autoantibodies precede the symptoms of rheumatoid arthritis: a study of serial measurements in blood donors. <i>Arthritis and Rheumatism</i> , <b>2004</b> , 50, 380-6		1282
108	Increased levels of C-reactive protein in serum from blood donors before the onset of rheumatoid arthritis. <i>Arthritis and Rheumatism</i> , <b>2004</b> , 50, 2423-7		126
107	When are observational studies as credible as randomised trials?. <i>Lancet, The</i> , <b>2004</b> , 363, 1728-31	40	403
106	Re: Oral contraceptives and the risk of breast cancer in BRCA1 and BRCA2 mutation carriers. <i>Journal of the National Cancer Institute</i> , <b>2003</b> , 95, 1011-2; author reply 1012-3	9.7	3
105	Continuing controversies over "risks and rates"--more than a century after William Farr's "On prognosis". <i>International Journal of Public Health</i> , <b>2003</b> , 48, 216-8		6
104	Thrombophilias and gynaecology. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , <b>2003</b> , 17, 509-28	4.6	15
103	More on the LIFE study. <i>Lancet, The</i> , <b>2003</b> , 361, 532-3; author reply 533-4	40
