#	Article	IF	Citations
1	Effects of environmental cadmium exposure on liver function in adults. Occupational and Environmental Medicine, 2013, 70, 268-273.	2.8	82
2	Long Working Hours and Cardiovascular Disease. Journal of Occupational and Environmental Medicine, 2012, 54, 532-537.	1.7	59
3	The relationship between shift work and mental health among electronics workers in South Korea: A cross-sectional study. PLoS ONE, 2017, 12, e0188019.	2.5	43
4	Effects of perceived job insecurity on depression, suicide ideation, and decline in self-rated health in Korea: a population-based panel study. International Archives of Occupational and Environmental Health, 2017, 90, 663-671.	2.3	39
5	Musculoskeletal Disorders and Agricultural Risk Factors Among Korean Farmers. Journal of Agromedicine, 2016, 21, 353-363.	1.5	35
6	The effect of long working hours on 10-year risk of coronary heart disease and stroke in the Korean population: the Korea National Health and Nutrition Examination Survey (KNHANES), 2007 to 2013. Annals of Occupational and Environmental Medicine, 2016, 28, 64.	1.0	30
7	Effect of Long Working Hours on Self-reported Hypertension among Middle-aged and Older Wage Workers. Annals of Occupational and Environmental Medicine, 2014, 26, 25.	1.0	29
8	Association between Voluntary/Involuntary Job Loss and the Development of Stroke or Cardiovascular Disease: A Prospective Study of Middle-Aged to Older Workers in a Rapidly Developing Asian Country. PLoS ONE, 2014, 9, e113495.	2.5	24
9	Long working hours may increase risk of coronary heart disease. American Journal of Industrial Medicine, 2014, 57, 1227-1234.	2.1	22
10	The relationship between working hours and lifestyle behaviors: Evidence from a population-based panel study in Korea. Journal of Occupational Health, 2021, 63, e12280.	2.1	22
11	Effects of voluntary/involuntary retirement on their own and spouses' depressive symptoms. Comprehensive Psychiatry, 2016, 66, 1-8.	3.1	21
12	Occupational post-traumatic stress disorder: an updated systematic review. BMC Public Health, 2020, 20, 768.	2.9	20
13	Occupational Lead Exposure and Brain Tumors: Systematic Review and Meta-Analysis. International Journal of Environmental Research and Public Health, 2020, 17, 3975.	2.6	18
14	Chronic Diseases, Health Behaviors, and Demographic Characteristics as Predictors of Ill Health Retirement: Findings from the Korea Health Panel Survey (2008â€“2012). PLoS ONE, 2016, 11, e0166921.	2.5	17
15	Influence of illness and unhealthy behavior on healthâ€related early retirement in Korea: Results from a longitudinal study in Korea. Journal of Occupational Health, 2015, 57, 28-38.	2.1	16
16	Cancer risk in road transportation workers: a national representative cohort study with 600,000 person-years of follow-up. Scientific Reports, 2020, 10, 11331.	3.3	16
17	Gender and educational level modify the relationship between workplace mistreatment and health problems: a comparison between South Korea and EU countries. Journal of Occupational Health, 2015, 57, 427-437.	2.1	15
18	Occupational physical activity, not leisure-time physical activity, is associated with increased high-sensitivity C reactive protein levels. Occupational and Environmental Medicine, 2021, 78, 86-91.	2.8	14

#	Article	IF	Citations
19	Computer use at work is associated with self-reported depressive and anxiety disorder. Annals of Occupational and Environmental Medicine, 2016, 28, 57.	1.0	12
20	Adverse pregnancy outcomes in healthcare workers: a Korean nationwide population-based study. International Archives of Occupational and Environmental Health, 2017, 90, 501-506.	2.3	11
21	Suicide Trends over Time by Occupation in Korea and Their Relationship to Economic Downturns. International Journal of Environmental Research and Public Health, 2019, 16, 2007.	2.6	11
22	The Impact of Working Hours on Cardiovascular Diseases and Moderating Effects of Sex and Type of Work. Journal of Occupational and Environmental Medicine, 2019, 61, e247-e252.	1.7	11
23	Health-Related Productivity Loss According to Health Conditions among Workers in South Korea. International Journal of Environmental Research and Public Health, 2021, 18, 7589.	2.6	11
24	Does working long hours increase the risk of cardiovascular disease for everyone?. Journal of Occupational Health, 2019, 61, 431-441.	2.1	10
25	Cancer Incidence Among Air Transportation Industry Workers Using the National Cohort Study of Korea. International Journal of Environmental Research and Public Health, 2019, 16, 2906.	2.6	10
26	Long work hours and decreased glomerular filtration rate in the Korean working population. Occupational and Environmental Medicine, 2020, 77, 699-705.	2.8	10
27	Heat exposure and workersâ€™ health: a systematic review. Reviews on Environmental Health, 2022, 37, 45-59.	2.4	10
28	Association of sedentary work with colon and rectal cancer: systematic review and meta-analysis. Occupational and Environmental Medicine, 2022, 79, 277-286.	2.8	10
29	The combined effect of long working hours and individual risk factors on cardiovascular disease: An interaction analysis. Journal of Occupational Health, 2021, 63, e12204.	2.1	9
30	Sedentary work and breast cancer risk: A systematic review and meta-analysis. Journal of Occupational Health, 2021, 63, e12239.	2.1	9
31	Comparison of work environment and occupational injury in direct and indirect employment in Korea and Europe. Annals of Occupational and Environmental Medicine, 2019, 31, e24.	1.0	9
32	Crossover effect of spouse weekly working hours on estimated 10-years risk of cardiovascular disease. PLoS ONE, 2017, 12, e0182010.	2.5	8
33	Does longâ€term experience of nonstandard employment increase the incidence of depression in the elderly?. Journal of Occupational Health, 2016, 58, 247-254.	2.1	7
34	Maculopathy from an accidental exposure to welding arc. BMJ Case Reports, 2019, 12, bcr-2018-227677.	0.5	7
35	The Association between Shift Work and Health-Related Productivity Loss due to Either Sickness Absence or Reduced Performance at Work: A Cross-Sectional Study of Korea. International Journal of Environmental Research and Public Health, 2020, 17, 8493.	2.6	7
36	Association of long working hours and health-related productivity loss, and its differential impact by income level: A cross-sectional study of the Korean workers. Journal of Occupational Health, 2020, 62, e12190.	2.1	7

#	Article	IF	Citations
37	Precarious Employment as Compared With Unemployment Reduces the Risk of Depression in the Elderly in Korea. Journal of Occupational and Environmental Medicine, 2020, 62, e559-e566.	1.7	7
38	Poor glycemic control in workers with diabetes mellitus in relation to long working hours: a cross-sectional study. Industrial Health, 2020, 58, 451-459.	1.0	7
39	Fixed night workers and failed smoking cessation. Journal of Occupational Medicine and Toxicology, 2019, 14, 23.	2.2	6
40	Trends in Obesity Prevalence by Occupation Based on Korean National Health and Nutrition Examination Survey From 1998 to 2015. Safety and Health at Work, 2020, 11, 97-102.	0.6	6
41	Working for Long Hours Is Associated With Dietary Fiber Insufficiency. Frontiers in Nutrition, 2022, 9, 786569.	3.7	6
42	Job characteristics as risk factors for early retirement due to ill health: The Korean Longitudinal Study of Aging (2006â€2014). Journal of Occupational Health, 2019, 61, 63-72.	2.1	5
43	Increased risk of gastric cancer in workers with occupational dust exposure. Korean Journal of Internal Medicine, 2021, 36, S18-S26.	1.7	5
44	Interaction between occupational physical burdens and low job control on musculoskeletal pain: Analysis of the 5th Korean Working Environment Survey. Journal of Occupational Health, 2021, 63, e12244.	2.1	4
45	Association between sleep disturbance and occupational injury among Korean employees. Annals of Occupational and Environmental Medicine, 2021, 33, e29.	1.0	4
46	Influence of combined exposure to perceived risk at work and unstable employment on self-rated health: a comparison of two cross-sectional surveys in Europe and Korea. BMJ Open, 2020, 10, e032380.	1.9	3
47	Doseâ€“Response Relationship between Environmental Exposure to Nickel and Pulmonary Function in the Korean General Population Aged 40 or Older. International Journal of Environmental Research and Public Health, 2021, 18, 7016.	2.6	3
48	Is Educational Level Linked to Unable to Work Due to Ill-health?. Safety and Health at Work, 2020, 11, 159-164.	0.6	2
49	Establishment and operation of a cooperative program to identify work-related acute myeloid leukemia in a general hospital. Annals of Occupational and Environmental Medicine, 2019, 31, e33.	1.0	2
50	Long Working Hours and Risk of Depression by Household Income Level. Journal of Occupational and Environmental Medicine, 2022, 64, 99-104.	1.7	2
51	Poor workerâ€™s long working hours paradox: evidence from the Korea National Health and Nutrition Examination Survey, 2013-2018. Annals of Occupational and Environmental Medicine, 2022, 34, e2.	1.0	2
52	Comparative analyses of occupational injuries among temporary agency worker and direct contract workers: Findings from the Korea Health Panel 2009â€“2018. Journal of Occupational Health, 2022, 64, e12326.	2.1	2
53	Association between long working hours and liver enzymes: evidence from the Korea National Health and Nutrition Examination Survey, 2007â€“2017. Annals of Occupational and Environmental Medicine, 2022, 34, .	1.0	2
54	The Association Between Long Working Hours of Parents and Dyslipidemia in Their Children. Frontiers in Public Health, 0, 10, .	2.7	2

#	Article	IF	Citations
55	The Health Status of Informal Waste Collectors in Korea. International Journal of Environmental Research and Public Health, 2020, 17, 5363.	2.6	1
56	Differential impact of working hours on unmet medical needs by income level: a longitudinal study of Korean workers. Scandinavian Journal of Work, Environment and Health, 2021, , .	3.4	1
57	P060â€…Crossover effect of spouse working hours on predicted risk of cardiovascular disease. , 2016, , .		0
58	P.1.20â€…Trends in prevalence of obesity according to occupational group: the korean national health and nutrition examination survey. Occupational and Environmental Medicine, 2019, 76, A82.3-A82.	2.8	0
