#	ARTICLE	IF	CITATIONS
1	Heat exposure and workers' health: a systematic review. <i>Reviews on Environmental Health</i> , 2022, 37, 45-59.	2.4	10
2	Association of sedentary work with colon and rectal cancer: systematic review and meta-analysis. <i>Occupational and Environmental Medicine</i> , 2022, 79, 277-286.	2.8	10
3	Long Working Hours and Risk of Depression by Household Income Level. <i>Journal of Occupational and Environmental Medicine</i> , 2022, 64, 99-104.	1.7	2
4	Poor workers' long working hours paradox: evidence from the Korea National Health and Nutrition Examination Survey, 2013-2018. <i>Annals of Occupational and Environmental Medicine</i> , 2022, 34, e2.	1.0	2
5	Comparative analyses of occupational injuries among temporary agency worker and direct contract workers: Findings from the Korea Health Panel 2009-2018. <i>Journal of Occupational Health</i> , 2022, 64, e12326.	2.1	2
6	Working for Long Hours Is Associated With Dietary Fiber Insufficiency. <i>Frontiers in Nutrition</i> , 2022, 9, 786569.	3.7	6
7	Association between long working hours and liver enzymes: evidence from the Korea National Health and Nutrition Examination Survey, 2007-2017. <i>Annals of Occupational and Environmental Medicine</i> , 2022, 34, .	1.0	2
8	Occupational physical activity, not leisure-time physical activity, is associated with increased high-sensitivity C reactive protein levels. <i>Occupational and Environmental Medicine</i> , 2021, 78, 86-91.	2.8	14
9	The combined effect of long working hours and individual risk factors on cardiovascular disease: An interaction analysis. <i>Journal of Occupational Health</i> , 2021, 63, e12204.	2.1	9
10	Interaction between occupational physical burdens and low job control on musculoskeletal pain: Analysis of the 5th Korean Working Environment Survey. <i>Journal of Occupational Health</i> , 2021, 63, e12244.	2.1	4
11	The relationship between working hours and lifestyle behaviors: Evidence from a population-based panel study in Korea. <i>Journal of Occupational Health</i> , 2021, 63, e12280.	2.1	22
12	Sedentary work and breast cancer risk: A systematic review and meta-analysis. <i>Journal of Occupational Health</i> , 2021, 63, e12239.	2.1	9
13	Increased risk of gastric cancer in workers with occupational dust exposure. <i>Korean Journal of Internal Medicine</i> , 2021, 36, S18-S26.	1.7	5
14	Dose-Response Relationship between Environmental Exposure to Nickel and Pulmonary Function in the Korean General Population Aged 40 or Older. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7016.	2.6	3
15	Health-Related Productivity Loss According to Health Conditions among Workers in South Korea. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7589.	2.6	11
16	Association between sleep disturbance and occupational injury among Korean employees. <i>Annals of Occupational and Environmental Medicine</i> , 2021, 33, e29.	1.0	4
17	Differential impact of working hours on unmet medical needs by income level: a longitudinal study of Korean workers. <i>Scandinavian Journal of Work, Environment and Health</i> , 2021, .	3.4	1
18	Trends in Obesity Prevalence by Occupation Based on Korean National Health and Nutrition Examination Survey From 1998 to 2015. <i>Safety and Health at Work</i> , 2020, 11, 97-102.	0.6	6

#	ARTICLE	IF	CITATIONS
19	Cancer risk in road transportation workers: a national representative cohort study with 600,000 person-years of follow-up. <i>Scientific Reports</i> , 2020, 10, 11331.	3.3	16
20	The Association between Shift Work and Health-Related Productivity Loss due to Either Sickness Absence or Reduced Performance at Work: A Cross-Sectional Study of Korea. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 8493.	2.6	7
21	Influence of combined exposure to perceived risk at work and unstable employment on self-rated health: a comparison of two cross-sectional surveys in Europe and Korea. <i>BMJ Open</i> , 2020, 10, e032380.	1.9	3
22	The Health Status of Informal Waste Collectors in Korea. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 5363.	2.6	1
23	Occupational Lead Exposure and Brain Tumors: Systematic Review and Meta-Analysis. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 3975.	2.6	18
24	Long work hours and decreased glomerular filtration rate in the Korean working population. <i>Occupational and Environmental Medicine</i> , 2020, 77, 699-705.	2.8	10
25	Is Educational Level Linked to Unable to Work Due to Ill-health?. <i>Safety and Health at Work</i> , 2020, 11, 159-164.	0.6	2
26	Association of long working hours and health-related productivity loss, and its differential impact by income level: A cross-sectional study of the Korean workers. <i>Journal of Occupational Health</i> , 2020, 62, e12190.	2.1	7
27	Precarious Employment as Compared With Unemployment Reduces the Risk of Depression in the Elderly in Korea. <i>Journal of Occupational and Environmental Medicine</i> , 2020, 62, e559-e566.	1.7	7
28	Occupational post-traumatic stress disorder: an updated systematic review. <i>BMC Public Health</i> , 2020, 20, 768.	2.9	20
29	Poor glycemic control in workers with diabetes mellitus in relation to long working hours: a cross-sectional study. <i>Industrial Health</i> , 2020, 58, 451-459.	1.0	7
30	Does working long hours increase the risk of cardiovascular disease for everyone?. <i>Journal of Occupational Health</i> , 2019, 61, 431-441.	2.1	10
31	Cancer Incidence Among Air Transportation Industry Workers Using the National Cohort Study of Korea. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2906.	2.6	10
32	Fixed night workers and failed smoking cessation. <i>Journal of Occupational Medicine and Toxicology</i> , 2019, 14, 23.	2.2	6
33	Job characteristics as risk factors for early retirement due to ill health: The Korean Longitudinal Study of Aging (2006-2014). <i>Journal of Occupational Health</i> , 2019, 61, 63-72.	2.1	5
34	Suicide Trends over Time by Occupation in Korea and Their Relationship to Economic Downturns. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2007.	2.6	11
35	Maculopathy from an accidental exposure to welding arc. <i>BMJ Case Reports</i> , 2019, 12, bcr-2018-227677.	0.5	7
36	P.1.20 Trends in prevalence of obesity according to occupational group: the Korean national health and nutrition examination survey. <i>Occupational and Environmental Medicine</i> , 2019, 76, A82.3-A82.	2.8	0

#	ARTICLE	IF	CITATIONS
37	The Impact of Working Hours on Cardiovascular Diseases and Moderating Effects of Sex and Type of Work. <i>Journal of Occupational and Environmental Medicine</i> , 2019, 61, e247-e252.	1.7	11
38	Comparison of work environment and occupational injury in direct and indirect employment in Korea and Europe. <i>Annals of Occupational and Environmental Medicine</i> , 2019, 31, e24.	1.0	9
39	Establishment and operation of a cooperative program to identify work-related acute myeloid leukemia in a general hospital. <i>Annals of Occupational and Environmental Medicine</i> , 2019, 31, e33.	1.0	2
40	Adverse pregnancy outcomes in healthcare workers: a Korean nationwide population-based study. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 501-506.	2.3	11
41	Effects of perceived job insecurity on depression, suicide ideation, and decline in self-rated health in Korea: a population-based panel study. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 663-671.	2.3	39
42	The relationship between shift work and mental health among electronics workers in South Korea: A cross-sectional study. <i>PLoS ONE</i> , 2017, 12, e0188019.	2.5	43
43	Crossover effect of spouse weekly working hours on estimated 10-years risk of cardiovascular disease. <i>PLoS ONE</i> , 2017, 12, e0182010.	2.5	8
44	P060â€¦Crossover effect of spouse working hours on predicted risk of cardiovascular disease. , 2016, , .		0
45	The effect of long working hours on 10-year risk of coronary heart disease and stroke in the Korean population: the Korea National Health and Nutrition Examination Survey (KNHANES), 2007 to 2013. <i>Annals of Occupational and Environmental Medicine</i> , 2016, 28, 64.	1.0	30
46	Effects of voluntary/involuntary retirement on their own and spouses' depressive symptoms. <i>Comprehensive Psychiatry</i> , 2016, 66, 1-8.	3.1	21
47	Musculoskeletal Disorders and Agricultural Risk Factors Among Korean Farmers. <i>Journal of Agromedicine</i> , 2016, 21, 353-363.	1.5	35
48	Computer use at work is associated with self-reported depressive and anxiety disorder. <i>Annals of Occupational and Environmental Medicine</i> , 2016, 28, 57.	1.0	12
49	Does long-term experience of nonstandard employment increase the incidence of depression in the elderly?. <i>Journal of Occupational Health</i> , 2016, 58, 247-254.	2.1	7
50	Chronic Diseases, Health Behaviors, and Demographic Characteristics as Predictors of Ill Health Retirement: Findings from the Korea Health Panel Survey (2008â€“2012). <i>PLoS ONE</i> , 2016, 11, e0166921.	2.5	17
51	Influence of illness and unhealthy behavior on health-related early retirement in Korea: Results from a longitudinal study in Korea. <i>Journal of Occupational Health</i> , 2015, 57, 28-38.	2.1	16
52	Gender and educational level modify the relationship between workplace mistreatment and health problems: a comparison between South Korea and EU countries. <i>Journal of Occupational Health</i> , 2015, 57, 427-437.	2.1	15
53	Association between Voluntary/Involuntary Job Loss and the Development of Stroke or Cardiovascular Disease: A Prospective Study of Middle-Aged to Older Workers in a Rapidly Developing Asian Country. <i>PLoS ONE</i> , 2014, 9, e113495.	2.5	24
54	Effect of Long Working Hours on Self-reported Hypertension among Middle-aged and Older Wage Workers. <i>Annals of Occupational and Environmental Medicine</i> , 2014, 26, 25.	1.0	29

#	ARTICLE	IF	CITATIONS
55	Long working hours may increase risk of coronary heart disease. American Journal of Industrial Medicine, 2014, 57, 1227-1234.	2.1	22
56	Effects of environmental cadmium exposure on liver function in adults. Occupational and Environmental Medicine, 2013, 70, 268-273.	2.8	82
57	Long Working Hours and Cardiovascular Disease. Journal of Occupational and Environmental Medicine, 2012, 54, 532-537.	1.7	59
58	The Association Between Long Working Hours of Parents and Dyslipidemia in Their Children. Frontiers in Public Health, 0, 10, .	2.7	2
