

Gabrielle M Turner-McGrievy

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/3201429/gabrielle-m-turner-mcgrievypublications-by-year.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

146 papers	4,254 citations	32 h-index	61 g-index
160 ext. papers	5,243 ext. citations	3.7 avg, IF	5.7 L-index

#	Paper	IF	Citations
146	Meal timing, distribution of macronutrients, and inflammation among African-American women: A cross-sectional study.. <i>Chronobiology International</i> , 2022 , 1-8	3.6	0
145	Healthy Summer Learners: An explanatory mixed methods study and process evaluation.. <i>Evaluation and Program Planning</i> , 2022 , 92, 102070	1.7	
144	Impact of risk of generalizability biases in adult obesity interventions: A meta-epidemiological review and meta-analysis. <i>Obesity Reviews</i> , 2021 , 23, e13369	10.6	1
143	Comparison of the Diet ID Platform to the Automated Self-administered 24-hour (ASA24) Dietary Assessment Tool for Assessment of Dietary Intake. <i>Journal of the American College of Nutrition</i> , 2021 , 1-23	3.5	1
142	Impact of a year-round school calendar on children's BMI and fitness: Final outcomes from a natural experiment. <i>Pediatric Obesity</i> , 2021 , 16, e12789	4.6	2
141	Measuring and Leveraging Motives and Values in Dietary Interventions. <i>Nutrients</i> , 2021 , 13,	6.7	2
140	Analysis of Social Media Discussions on (#)Diet by Blue, Red, and Swing States in the U.S. <i>Healthcare (Switzerland)</i> , 2021 , 9,	3.4	4
139	Is Burden Always Bad? Emerging Low-Burden Approaches to Mobile Dietary Self-monitoring and the Role Burden Plays with Engagement. <i>Journal of Technology in Behavioral Science</i> , 2021 , 6, 447	2.3	5
138	Differences in the proportion of children meeting behavior guidelines between summer' and school' by socioeconomic status and race. <i>Obesity Science and Practice</i> , 2021 , 7, 719-726	2.6	0
137	The Roles of Campus Ministry Leaders: Guiding Students through the Transition to Adulthood. <i>The Journal of Pastoral Care & Counseling: JPCC</i> , 2021 , 75, 92-102	0.6	
136	Associations of maternal stress and/or depressive symptoms with diet quality during pregnancy: a narrative review. <i>Nutrition Reviews</i> , 2021 , 79, 495-517	6.4	6
135	Examining commonalities and differences in food groups, nutrients, and diet quality among popular diets. <i>Clinical Nutrition ESPEN</i> , 2021 , 41, 377-385	1.3	10
134	Healthy Eating and Physical Activity Interventions in Faith-Based Settings: A Systematic Review Using the Reach, Effectiveness/Efficacy, Adoption, Implementation, Maintenance Framework. <i>American Journal of Preventive Medicine</i> , 2021 , 60, 127-135	6.1	5
133	Dynamics of sleep, sedentary behavior, and moderate-to-vigorous physical activity on school versus nonschool days. <i>Sleep</i> , 2021 , 44,	1.1	2
132	Healthy Food Density is Not Associated With Diet Quality Among Pregnant Women With Overweight/Obesity in South Carolina. <i>Journal of Nutrition Education and Behavior</i> , 2021 , 53, 120-129	2	
131	A Behavioral Lifestyle Intervention to Limit Gestational Weight Gain in Pregnant Women with Overweight and Obesity. <i>Obesity</i> , 2021 , 29, 672-680	8	3
130	Identifying and Analyzing Health-Related Themes in Disinformation Shared by Conservative and Liberal Russian Trolls on Twitter. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	8

129	Effective recruitment strategies for African-American men and women: the Nutritious Eating with Soul study. <i>Health Education Research</i> , 2021 , 36, 206-211	1.8	2
128	Associations between Fasting Duration, Timing of First and Last Meal, and Cardiometabolic Endpoints in the National Health and Nutrition Examination Survey. <i>Nutrients</i> , 2021 , 13,	6.7	3
127	Stress and Depressive Symptoms Are Not Associated with Overall Diet Quality, But Are Associated with Aspects of Diet Quality in Pregnant Women in South Carolina. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2021 , 121, 1785-1792	3.9	0
126	COVID-19 Leads to Accelerated Increases in Children's BMI z-Score Gain: An Interrupted Time-Series Study. <i>American Journal of Preventive Medicine</i> , 2021 , 61, e161-e169	6.1	17
125	COVID-19 messed up my research: Insights from physical activity and nutrition translational research. <i>Translational Journal of the American College of Sports Medicine</i> , 2021 , 6,	1.1	2
124	Evaluating a Technology-Mediated HPV Vaccination Awareness Intervention: A Controlled, Quasi-Experimental, Mixed Methods Study. <i>Vaccines</i> , 2020 , 8,	5.3	9
123	Changes in dietary inflammatory potential predict changes in sleep quality metrics, but not sleep duration. <i>Sleep</i> , 2020 , 43,	1.1	11
122	Dietary pattern recognition on Twitter: a case example of before, during, and after four natural disasters. <i>Natural Hazards</i> , 2020 , 103, 1035-1049	3	8
121	Campus ministry leaders promoting student mental health at a large public university in the Southeast United States. <i>Mental Health, Religion and Culture</i> , 2020 , 23, 67-79	1.1	1
120	They Eat What They Eat, I Eat What I Eat—Examining the Perspectives and Experiences of African Americans Who Adopt Plant-Based Diets. <i>American Journal of Lifestyle Medicine</i> , 2020 , 155982762090885 ^{1,9}		
119	Refining an algorithm-powered just-in-time adaptive weight control intervention: A randomized controlled trial evaluating model performance and behavioral outcomes. <i>Health Informatics Journal</i> , 2020 , 26, 2315-2331	3	10
118	Identification and evaluation of risk of generalizability biases in pilot versus efficacy/effectiveness trials: a systematic review and meta-analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 19	8.4	22
117	Turn up the healthy eating and activity time (HEAT): Physical activity outcomes from a 4-year non-randomized controlled trial in summer day camps. <i>Preventive Medicine Reports</i> , 2020 , 17, 101053	2.6	6
116	We're Not Meat Shamers. We're Plant Pushers. How Owners of Local Vegan Soul Food Restaurants Promote Healthy Eating in the African American Community. <i>Journal of Black Studies</i> , 2020 , 51, 168-193	0.9	5
115	Sensor-measured physical activity is associated with decreased cardiovascular disease risk in African Americans. <i>Lifestyle Medicine</i> , 2020 , 1, e16	0.7	
114	A Clinical Trial to Increase Self-Monitoring of Physical Activity and Eating Behaviors Among Adolescents: Protocol for the ImPACT Feasibility Study. <i>JMIR Research Protocols</i> , 2020 , 9, e18098	2	0
113	The Nutritious Eating with Soul (NEW Soul) Study: Study design and methods of a two-year randomized trial comparing culturally adapted soul food vegan vs. omnivorous diets among African American adults at risk for heart disease. <i>Contemporary Clinical Trials</i> , 2020 , 88, 105897	2.3	12
112	The impact of summer vacation on children's obesogenic behaviors and body mass index: a natural experiment. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 153	8.4	11

111	Before the lunch line: Effectiveness of behavioral economic interventions for pre-commitment on elementary school children's food choices. <i>Journal of Economic Behavior and Organization</i> , 2020 , 176, 597-618	1.6	1
110	The role of self-efficacy and information processing in weight loss during an mHealth behavioral intervention. <i>Digital Health</i> , 2020 , 6, 2055207620976755	4	1
109	Outcomes of a short term dietary intervention involving vegan soul food restaurants on African American adults: perceived barriers, benefits, and dietary acceptability of adopting a plant-based diet. <i>Food Quality and Preference</i> , 2020 , 79, 103788	5.8	6
108	The potential of a year-round school calendar for maintaining children's weight status and fitness: Preliminary outcomes from a natural experiment. <i>Journal of Sport and Health Science</i> , 2020 , 9, 18-27	8.2	8
107	Dietary Self-Monitoring Through Calorie Tracking but Not Through a Digital Photography App Is Associated with Significant Weight Loss: The 2SMART Pilot Study-A 6-Month Randomized Trial. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2019 , 119, 1525-1532	3.9	18
106	Defining Adherence to Mobile Dietary Self-Monitoring and Assessing Tracking Over Time: Tracking at Least Two Eating Occasions per Day Is Best Marker of Adherence within Two Different Mobile Health Randomized Weight Loss Interventions. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2019 , 119, 1516-1524	3.9	25
105	Examining the Role of Twitter in Response and Recovery During and After Historic Flooding in South Carolina. <i>Journal of Public Health Management and Practice</i> , 2019 , 25, E6-E12	1.9	12
104	Impact of a 12-month Inflammation Management Intervention on the Dietary Inflammatory Index, inflammation, and lipids. <i>Clinical Nutrition ESPEN</i> , 2019 , 30, 42-51	1.3	14
103	Development and testing of a multicomponent obesogenic built environment measure for youth using kernel density estimations. <i>Health and Place</i> , 2019 , 56, 174-183	4.6	12
102	The effects of meal-timing on self-rated hunger and dietary inflammatory potential among a sample of college students. <i>Journal of American College Health</i> , 2019 , 67, 328-337	2.2	1
101	Examining demographic characteristics and food access indicators from the location of vegan soul food restaurants in the south. <i>Ethnicity and Health</i> , 2019 , 1-16	2.2	1
100	A Pilot Study Examining Religious Organization Affiliation, Sexual Health Information Sources, and Sexual Behaviors Among College Students. <i>American Journal of Sexuality Education</i> , 2019 , 14, 32-54	0.9	0
99	Changes in children's sleep and physical activity during a 1-week versus a 3-week break from school: a natural experiment. <i>Sleep</i> , 2019 , 42,	1.1	15
98	Comparing Changes in Diet Quality Between Two Technology-Based Diet Tracking Devices. <i>Journal of Technology in Behavioral Science</i> , 2019 , 4, 25-32	2.3	
97	Baseline markers of inflammation, lipids, glucose, and Dietary Inflammatory Index scores do not differ between adults willing to participate in an intensive inflammation reduction intervention and those who do not. <i>Nutrition and Health</i> , 2019 , 25, 9-19	2.1	4
96	Using Commercial Physical Activity Trackers for Health Promotion Research: Four Case Studies. <i>Health Promotion Practice</i> , 2019 , 20, 381-389	1.8	6
95	A randomized controlled trial to prevent excessive gestational weight gain and promote postpartum weight loss in overweight and obese women: Health In Pregnancy and Postpartum (HIPP). <i>Contemporary Clinical Trials</i> , 2018 , 66, 51-63	2.3	20
94	The mFIT (Motivating Families with Interactive Technology) Study: a Randomized Pilot to Promote Physical Activity and Healthy Eating Through Mobile Technology. <i>Journal of Technology in Behavioral Science</i> , 2018 , 3, 179-189	2.3	7

93	Characterizing diabetes, diet, exercise, and obesity comments on Twitter. <i>International Journal of Information Management</i> , 2018 , 38, 1-6	16.4	69
92	Statewide dissemination and implementation of physical activity standards in afterschool programs: two-year results. <i>BMC Public Health</i> , 2018 , 18, 819	4.1	8
91	Use of Mobile Wearable Devices to Compare Eating, Physical Activity, and Sleep Between Individuals Following Vegetarian and Omnivorous Diets. <i>Journal of Technology in Behavioral Science</i> , 2018 , 3, 259-267	2.3	
90	Spatial clustering patterns of child weight status in a southeastern US county.. <i>Applied Geography</i> , 2018 , 99, 12-21	4.4	11
89	Economic evaluation of a group randomized controlled trial on healthy eating and physical activity in afterschool programs. <i>Preventive Medicine</i> , 2018 , 106, 60-65	4.3	6
88	Mobilizing mHealth for Moms: a Review of Mobile Apps for Tracking Gestational Weight Gain. <i>Journal of Technology in Behavioral Science</i> , 2018 , 3, 32-40	2.3	1
87	E-Media Use and Preferences for Physical Activity and Public Health Information: Results of a Web-Based Survey. <i>Journal of Public Health Management and Practice</i> , 2018 , 24, 385-391	1.9	2
86	The Electronic Community Park Audit Tool (eCPAT): Exploring the Use of Mobile Technology for Youth Empowerment and Advocacy for Healthy Community Policy, Systems, and Environmental Change. <i>Frontiers in Public Health</i> , 2018 , 6, 332	6	3
85	Children's Obesogenic Behaviors During Summer Versus School: A Within-Person Comparison. <i>Journal of School Health</i> , 2018 , 88, 886-892	2.1	23
84	Children's Moderate to Vigorous Physical Activity Attending Summer Day Camps. <i>American Journal of Preventive Medicine</i> , 2017 , 53, 78-84	6.1	26
83	Wired: parent-child relationship quality and recreational media use in a diverse sample of US children and adolescents. <i>Journal of Children and Media</i> , 2017 , 11, 347-357	1.9	3
82	Evaluation of a statewide dissemination and implementation of physical activity intervention in afterschool programs: a nonrandomized trial. <i>Translational Behavioral Medicine</i> , 2017 , 7, 690-701	3.2	8
81	Byte by Bite: Use of a mobile Bite Counter and weekly behavioral challenges to promote weight loss. <i>Smart Health</i> , 2017 , 3-4, 20-26	2.1	12
80	Two-Year Healthy Eating Outcomes: An RCT in Afterschool Programs. <i>American Journal of Preventive Medicine</i> , 2017 , 53, 316-326	6.1	10
79	The Dietary Intervention to Enhance Tracking with Mobile Devices (DIET Mobile) Study: A 6-Month Randomized Weight Loss Trial. <i>Obesity</i> , 2017 , 25, 1336-1342	8	45
78	Understanding differences between summer vs. school obesogenic behaviors of children: the structured days hypothesis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017 , 14, 100	8.4	262
77	Conversations about sexuality on a public university campus: perspectives from campus ministry students and leaders. <i>Sex Education</i> , 2017 , 17, 103-118	2.2	2
76	Choosing between responsive-design websites versus mobile apps for your mobile behavioral intervention: presenting four case studies. <i>Translational Behavioral Medicine</i> , 2017 , 7, 224-232	3.2	32

75	Trading pounds for points: Engagement and weight loss in a mobile health intervention. <i>Digital Health</i> , 2017 , 3, 2055207617702252	4	11
74	A plant-based diet for overweight and obesity prevention and treatment. <i>Journal of Geriatric Cardiology</i> , 2017 , 14, 369-374	1.7	45
73	First year physical activity findings from turn up the HEAT (Healthy Eating and Activity Time) in summer day camps. <i>PLoS ONE</i> , 2017 , 12, e0173791	3.7	10
72	College Freshmen Students' Perspectives on Weight Gain Prevention in the Digital Age: Web-Based Survey. <i>JMIR Public Health and Surveillance</i> , 2017 , 3, e71	11.4	5
71	The Interconnectedness of Diet Choice and Distance Running: Results of the Research Understanding the Nutrition of Endurance Runners (RUNNER) Study. <i>International Journal of Sport Nutrition and Exercise Metabolism</i> , 2016 , 26, 205-211	4.4	13
70	Social networks for improving healthy weight loss behaviors for overweight and obese adults: A randomized clinical trial of the social pounds off digitally (Social POD) mobile app. <i>International Journal of Medical Informatics</i> , 2016 , 94, 81-90	5.3	40
69	Physical activity outcomes in afterschool programs: A group randomized controlled trial. <i>Preventive Medicine</i> , 2016 , 90, 207-15	4.3	17
68	Paving the way for SMART weight loss in college students. <i>Lancet Diabetes and Endocrinology</i> , 2016 , 4, 719-721	18.1	
67	Tasting profile affects adoption of caloric beverage reduction in a randomized weight loss intervention. <i>Obesity Science and Practice</i> , 2016 , 2, 392-398	2.6	6
66	Are We There Yet? Compliance with Physical Activity Standards in YMCA Afterschool Programs. <i>Childhood Obesity</i> , 2016 , 12, 237-46	2.5	10
65	Is a Picture Worth a Thousand Words? Few Evidence-Based Features of Dietary Interventions Included in Photo Diet Tracking Mobile Apps for Weight Loss. <i>Journal of Diabetes Science and Technology</i> , 2016 , 10, 1399-1405	4.1	19
64	Making Healthy Eating Policy Practice: A Group Randomized Controlled Trial on Changes in Snack Quality, Costs, and Consumption in After-School Programs. <i>American Journal of Health Promotion</i> , 2016 , 30, 521-31	2.5	21
63	Integrating social media into weight loss interventions. <i>Current Opinion in Psychology</i> , 2016 , 9, 11-15	6.2	18
62	A Mixed-Methods Approach to the Development, Refinement, and Pilot Testing of Social Networks for Improving Healthy Behaviors. <i>JMIR Human Factors</i> , 2016 , 3, e8	2.5	8
61	A Technology-Mediated Behavioral Weight Gain Prevention Intervention for College Students: Controlled, Quasi-Experimental Study. <i>Journal of Medical Internet Research</i> , 2016 , 18, e133	7.6	34
60	Crowdsourcing for self-monitoring: Using the Traffic Light Diet and crowdsourcing to provide dietary feedback. <i>Digital Health</i> , 2016 , 2, 2055207616657212	4	1
59	Examining the impact of an online social media challenge on participant physical activity and body weight in the United States. <i>Sport in Society</i> , 2016 , 19, 1690-1702	1	1
58	Perspective: Randomized Controlled Trials Are Not a Panacea for Diet-Related Research. <i>Advances in Nutrition</i> , 2016 , 7, 423-32	10	56

57	The Fast-Casual Conundrum: Fast-Casual Restaurant Entrées Are Higher in Calories than Fast Food. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2016 , 116, 1606-1612	3.9	18
56	Differences in Environmental Impact and Food Expenditures of Four Different Plant-based Diets and an Omnivorous Diet: Results of a Randomized, Controlled Intervention. <i>Journal of Hunger and Environmental Nutrition</i> , 2016 , 11, 382-395	1.5	4
55	Compliance With the Healthy Eating Standards in YMCA After-School Programs. <i>Journal of Nutrition Education and Behavior</i> , 2016 , 48, 555-562.e1	2	6
54	Physical activity opportunities in afterschool programs. <i>Health Promotion Practice</i> , 2015 , 16, 371-82	1.8	20
53	Tweet for health: using an online social network to examine temporal trends in weight loss-related posts. <i>Translational Behavioral Medicine</i> , 2015 , 5, 160-6	3.2	20
52	Prevalence of body mass index and body weight cut-off points for in vitro fertilization treatment at U.S. clinics and current clinic weight loss strategy recommendations. <i>Human Fertility</i> , 2015 , 18, 215-9	1.9	13
51	Dietary adherence and acceptability of five different diets, including vegan and vegetarian diets, for weight loss: The New DIETs study. <i>Eating Behaviors</i> , 2015 , 19, 33-8	3	36
50	Making policy practice in afterschool programs: a randomized controlled trial on physical activity changes. <i>American Journal of Preventive Medicine</i> , 2015 , 48, 694-706	6.1	42
49	Evaluation of compliance to national nutrition policies in summer day camps. <i>Public Health Nutrition</i> , 2015 , 18, 1620-5	3.3	10
48	Making healthy eating and physical activity policy practice: process evaluation of a group randomized controlled intervention in afterschool programs. <i>Health Education Research</i> , 2015 , 30, 849-65	1.8	16
47	Dietary intake, eating behaviors, and quality of life in women with polycystic ovary syndrome who are trying to conceive. <i>Human Fertility</i> , 2015 , 18, 16-21	1.9	23
46	Comparative effectiveness of plant-based diets for weight loss: a randomized controlled trial of five different diets. <i>Nutrition</i> , 2015 , 31, 350-8	4.8	119
45	The use of crowdsourcing for dietary self-monitoring: crowdsourced ratings of food pictures are comparable to ratings by trained observers. <i>Journal of the American Medical Association: JAMA</i> , 2015 , 22, e112-9	8.6	20
44	Randomization to plant-based dietary approaches leads to larger short-term improvements in Dietary Inflammatory Index scores and macronutrient intake compared with diets that contain meat. <i>Nutrition Research</i> , 2015 , 35, 97-106	4	58
43	Salty or sweet? Nutritional quality, consumption, and cost of snacks served in afterschool programs. <i>Journal of School Health</i> , 2015 , 85, 118-24	2.1	18
42	Community partnership to address snack quality and cost in after-school programs. <i>Journal of School Health</i> , 2014 , 84, 543-8	2.1	16
41	Increasing fruit, vegetable and water consumption in summer day camps--3-year findings of the healthy lunchbox challenge. <i>Health Education Research</i> , 2014 , 29, 812-21	1.8	5
40	Key elements of plant-based diets associated with reduced risk of metabolic syndrome. <i>Current Diabetes Reports</i> , 2014 , 14, 524	5.6	32

39	Children select unhealthy choices when given a choice among snack offerings. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2014 , 114, 1440-6	3.9	20
38	Does the type of weight loss diet affect who participates in a behavioral weight loss intervention? A comparison of participants for a plant-based diet versus a standard diet trial. <i>Appetite</i> , 2014 , 73, 156-62	4.5	11
37	Healthy eating in summer day camps: the Healthy Lunchbox Challenge. <i>Journal of Nutrition Education and Behavior</i> , 2014 , 46, 134-41	2	7
36	Making healthy eating and physical activity policy practice: the design and overview of a group randomized controlled trial in afterschool programs. <i>Contemporary Clinical Trials</i> , 2014 , 38, 291-303	2.3	27
35	Varying social media post types differentially impacts engagement in a behavioral weight loss intervention. <i>Translational Behavioral Medicine</i> , 2014 , 4, 355-62	3.2	69
34	Information processing versus social cognitive mediators of weight loss in a podcast-delivered health intervention. <i>Health Education and Behavior</i> , 2014 , 41, 197-206	4.2	12
33	The interaction between dietary and life goals: using goal systems theory to explore healthy diet and life goals. <i>Health Psychology and Behavioral Medicine</i> , 2014 , 2, 759-769	2.2	2
32	Effects of a competency-based professional development training on children's physical activity and staff physical activity promotion in summer day camps. <i>New Directions for Youth Development</i> , 2014 , 2014, 57-78		6
31	Transitioning to new child-care nutrition policies: nutrient content of preschool menus differs by presence of vegetarian main entrée. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2014 , 114, 117-23	3.9	8
30	From policy to practice: strategies to meet physical activity standards in YMCA afterschool programs. <i>American Journal of Preventive Medicine</i> , 2014 , 46, 281-8	6.1	39
29	From policy to practice: addressing snack quality, consumption, and price in after-school programs. <i>Journal of Nutrition Education and Behavior</i> , 2014 , 46, 384-9	2	17
28	Low glycemic index vegan or low-calorie weight loss diets for women with polycystic ovary syndrome: a randomized controlled feasibility study. <i>Nutrition Research</i> , 2014 , 34, 552-8	4	39
27	Are we sure that Mobile Health is really mobile? An examination of mobile device use during two remotely-delivered weight loss interventions. <i>International Journal of Medical Informatics</i> , 2014 , 83, 313-9	5.3	16
26	Comparison of two theory-based, fully automated telephone interventions designed to maintain dietary change in healthy adults: study protocol of a three-arm randomized controlled trial. <i>JMIR Research Protocols</i> , 2014 , 3, e62	2	1
25	Mobile apps for pediatric obesity prevention and treatment, healthy eating, and physical activity promotion: just fun and games?. <i>Translational Behavioral Medicine</i> , 2013 , 3, 320-5	3.2	106
24	Weight loss social support in 140 characters or less: use of an online social network in a remotely delivered weight loss intervention. <i>Translational Behavioral Medicine</i> , 2013 , 3, 287-94	3.2	96
23	Frequency of consumption at fast-food restaurants is associated with dietary intake in overweight and obese women recruited from financially disadvantaged neighborhoods. <i>Nutrition Research</i> , 2013 , 33, 636-46	4	23
22	Comparison of traditional versus mobile app self-monitoring of physical activity and dietary intake among overweight adults participating in an mHealth weight loss program. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2013 , 20, 513-8	8.6	266

21	Delivering health information via podcast or web: media effects on psychosocial and physiological responses. <i>Health Communication</i> , 2013 , 28, 101-9	3.2	17
20	Taking the bitter with the sweet: relationship of supertasting and sweet preference with metabolic syndrome and dietary intake. <i>Journal of Food Science</i> , 2013 , 78, S336-42	3.4	25
19	Replacing caloric beverages with water or diet beverages for weight loss in adults: main results of the Choose Healthy Options Consciously Everyday (CHOICE) randomized clinical trial. <i>American Journal of Clinical Nutrition</i> , 2012 , 95, 555-63	7	256
18	Decreases in dietary glycemic index are related to weight loss among individuals following therapeutic diets for type 2 diabetes. <i>Journal of Nutrition</i> , 2011 , 141, 1469-74	4.1	14
17	Tweets, Apps, and Pods: Results of the 6-month Mobile Pounds Off Digitally (Mobile POD) randomized weight-loss intervention among adults. <i>Journal of Medical Internet Research</i> , 2011 , 13, e1207.6	7.6	192
16	Nutrient adequacy of vegetarian diets. <i>Journal of the American Dietetic Association</i> , 2010 , 110, 1450; author reply 1451, 1453		1
15	A low-fat vegan diet and a conventional diabetes diet in the treatment of type 2 diabetes: a randomized, controlled, 74-wk clinical trial. <i>American Journal of Clinical Nutrition</i> , 2009 , 89, 1588S-1596S	7	255
14	D2 dopamine receptor Taq1A polymorphism, body weight, and dietary intake in type 2 diabetes. <i>Nutrition</i> , 2009 , 25, 58-65	4.8	60
13	Nutrition information to the desktop: a pilot online nutrition course on saturated fat for public librarians increases knowledge, expectancies, and self-efficacy. <i>Journal of Nutrition Education and Behavior</i> , 2009 , 41, 188-93	2	3
12	A low-fat vegan diet elicits greater macronutrient changes, but is comparable in adherence and acceptability, compared with a more conventional diabetes diet among individuals with type 2 diabetes. <i>Journal of the American Dietetic Association</i> , 2009 , 109, 263-72		91
