#	ARTICLE	IF	CITATIONS
1	Epidemiology of multimorbidity and implications for health care, research, and medical education: a cross-sectional study. <i>Lancet, The</i> , 2012, 380, 37-43.	6.3	4,855
2	Global, regional, and national estimates of the population at increased risk of severe COVID-19 due to underlying health conditions in 2020: a modelling study. <i>The Lancet Global Health</i> , 2020, 8, e1003-e1017.	2.9	760
3	The consultation and relational empathy (CARE) measure: development and preliminary validation and reliability of an empathy-based consultation process measure. <i>Family Practice</i> , 2004, 21, 699-705.	0.8	601
4	Defining and measuring multimorbidity: a systematic review of systematic reviews. <i>European Journal of Public Health</i> , 2019, 29, 182-189.	0.1	448
5	Adapting clinical guidelines to take account of multimorbidity. <i>BMJ, The</i> , 2012, 345, e6341-e6341.	3.0	400
6	The Inverse Care Law: Clinical Primary Care Encounters in Deprived and Affluent Areas of Scotland. <i>Annals of Family Medicine</i> , 2007, 5, 503-510.	0.9	298
7	Analyzing the "nature" and "specific effectiveness" of clinical empathy: A theoretical overview and contribution towards a theory-based research agenda. <i>Patient Education and Counseling</i> , 2009, 74, 339-346.	1.0	283
8	Impact of COVID-19 on loneliness, mental health, and health service utilisation: a prospective cohort study of older adults with multimorbidity in primary care. <i>British Journal of General Practice</i> , 2020, 70, e817-e824.	0.7	277
9	Multiple physical and mental health comorbidity in adults with intellectual disabilities: population-based cross-sectional analysis. <i>BMC Family Practice</i> , 2015, 16, 110.	2.9	254
10	Management of multimorbidity using a patient-centred care model: a pragmatic cluster-randomised trial of the 3D approach. <i>Lancet, The</i> , 2018, 392, 41-50.	6.3	254
11	Drug-disease and drug-drug interactions: systematic examination of recommendations in 12 UK national clinical guidelines. <i>BMJ, The</i> , 2015, 350, h949-h949.	3.0	247
12	Determinants and patient-reported long-term outcomes of physician empathy in oncology: A structural equation modelling approach. <i>Patient Education and Counseling</i> , 2007, 69, 63-75.	1.0	217
13	Relevance and practical use of the Consultation and Relational Empathy (CARE) Measure in general practice. <i>Family Practice</i> , 2005, 22, 328-334.	0.8	216
14	Empathy and quality of care. <i>British Journal of General Practice</i> , 2002, 52 Suppl, S9-12.	0.7	214
15	The effect of physical multimorbidity, mental health conditions and socioeconomic deprivation on unplanned admissions to hospital: a retrospective cohort study. <i>Cmaj</i> , 2013, 185, E221-E228.	0.9	212
16	An exploratory mixed methods study of the acceptability and effectiveness of mindfulness -based cognitive therapy for patients with active depression and anxiety in primary care. <i>BMC Psychiatry</i> , 2006, 6, 14.	1.1	204
17	Epidemiology of multimorbidity in China and implications for the healthcare system: cross-sectional survey among 162,464 community household residents in southern China. <i>BMC Medicine</i> , 2014, 12, 188.	2.3	203
18	Schizophrenia is associated with excess multiple physical-health comorbidities but low levels of recorded cardiovascular disease in primary care: cross-sectional study. <i>BMJ Open</i> , 2013, 3, e002808.	0.8	184

#	ARTICLE	IF	CITATIONS
19	Multimorbidity in primary care: developing the research agenda. <i>Family Practice</i> , 2009, 26, 79-80.	0.8	179
20	Physical multimorbidity, health service use, and catastrophic health expenditure by socioeconomic groups in China: an analysis of population-based panel data. <i>The Lancet Global Health</i> , 2020, 8, e840-e849.	2.9	177
21	Challenges of managing people with multimorbidity in today's healthcare systems. <i>BMC Family Practice</i> , 2015, 16, 129.	2.9	176
22	Is polypharmacy always hazardous? A retrospective cohort analysis using linked electronic health records from primary and secondary care. <i>British Journal of Clinical Pharmacology</i> , 2014, 77, 1073-1082.	1.1	159
23	Multimorbidity in primary care: a systematic review of prospective cohort studies. <i>British Journal of General Practice</i> , 2012, 62, e297-e307.	0.7	156
24	The influence of socioeconomic deprivation on multimorbidity at different ages: a cross-sectional study. <i>British Journal of General Practice</i> , 2014, 64, e440-e447.	0.7	154
25	Visual impairment is associated with physical and mental comorbidities in older adults: a cross-sectional study. <i>BMC Medicine</i> , 2014, 12, 181.	2.3	153
26	Mindfulness based interventions in multiple sclerosis - a systematic review. <i>BMC Neurology</i> , 2014, 14, 15.	0.8	148
27	General practitioner empathy, patient enablement, and patient-reported outcomes in primary care in an area of high socio-economic deprivation in Scotland – A pilot prospective study using structural equation modeling. <i>Patient Education and Counseling</i> , 2008, 73, 240-245.	1.0	140
28	An "endless struggle": a qualitative study of general practitioners' and practice nurses' experiences of managing multimorbidity in socio-economically deprived areas of Scotland. <i>Chronic Illness</i> , 2011, 7, 45-59.	0.6	138
29	Does mindfulness improve outcomes in patients with chronic pain? Systematic review and meta-analysis. <i>British Journal of General Practice</i> , 2015, 65, e387-e400.	0.7	135
30	Stroke, multimorbidity and polypharmacy in a nationally representative sample of 1,424,378 patients in Scotland: implications for treatment burden. <i>BMC Medicine</i> , 2014, 12, 151.	2.3	124
31	Managing patients with mental and physical multimorbidity. <i>BMJ</i> , The, 2012, 345, e5559-e5559.	3.0	121
32	The Association Between Perceived Stress and Mortality Among People With Multimorbidity: A Prospective Population-Based Cohort Study. <i>American Journal of Epidemiology</i> , 2016, 184, 199-210.	1.6	119
33	Practitioner empathy, patient enablement and health outcomes: A prospective study of acupuncture patients. <i>Patient Education and Counseling</i> , 2006, 63, 239-245.	1.0	116
34	Effect of facemasks on empathy and relational continuity: a randomised controlled trial in primary care. <i>BMC Family Practice</i> , 2013, 14, 200.	2.9	116
35	Examining variation in the measurement of multimorbidity in research: a systematic review of 566 studies. <i>Lancet Public Health</i> , The, 2021, 6, e587-e597.	4.7	116
36	Patient enablement requires physician empathy: a cross-sectional study of general practice consultations in areas of high and low socioeconomic deprivation in Scotland. <i>BMC Family Practice</i> , 2012, 13, 6.	2.9	115

#	ARTICLE	IF	CITATIONS
37	The contribution of risk factors to socioeconomic inequalities in multimorbidity across the lifecycle: a longitudinal analysis of the Twenty-07 cohort. <i>BMC Medicine</i> , 2017, 15, 152.	2.3	112
38	The Effects of Mindfulness-Based Stress Reduction Program on the Mental Health of Family Caregivers: A Randomized Controlled Trial. <i>Psychotherapy and Psychosomatics</i> , 2014, 83, 45-53.	4.0	108
39	A Pilot Prospective Study on the Consultation and Relational Empathy, Patient Enablement, and Health Changes over 12 Months in Patients Going to the Glasgow Homoeopathic Hospital. <i>Journal of Alternative and Complementary Medicine</i> , 2005, 11, 591-600.	2.1	107
40	General Practitioners' Empathy and Health Outcomes: A Prospective Observational Study of Consultations in Areas of High and Low Deprivation. <i>Annals of Family Medicine</i> , 2016, 14, 117-124.	0.9	107
41	Multimorbidity in bipolar disorder and undertreatment of cardiovascular disease: a cross sectional study. <i>BMC Medicine</i> , 2013, 11, 263.	2.3	104
42	Comorbidity and polypharmacy in people with dementia: insights from a large, population-based cross-sectional analysis of primary care data. <i>Age and Ageing</i> , 2017, 46, 33-39.	0.7	104
43	Depression and Multimorbidity. <i>Journal of Clinical Psychiatry</i> , 2014, 75, 1202-1208.	1.1	103
44	Multimorbidity and the inverse care law in primary care. <i>BMJ</i> , 2012, 344, e4152-e4152.	3.0	96
45	The CARE Plus study – a whole-system intervention to improve quality of life of primary care patients with multimorbidity in areas of high socioeconomic deprivation: exploratory cluster randomised controlled trial and cost-utility analysis. <i>BMC Medicine</i> , 2016, 14, 88.	2.3	92
46	A Systematic Review of the Benefits of Mindfulness-Based Interventions following Transient Ischemic Attack and Stroke. <i>International Journal of Stroke</i> , 2013, 8, 465-474.	2.9	91
47	More time for complex consultations in a high-deprivation practice is associated with increased patient enablement. <i>British Journal of General Practice</i> , 2007, 57, 960-966.	0.7	87
48	Improving medication management in multimorbidity: development of the Multimorbidity Collaborative Medication Review And DEcision Making (MY COMRADE) intervention using the Behaviour Change Wheel. <i>Implementation Science</i> , 2015, 10, 132.	2.5	86
49	Comparing the Effectiveness of Mindfulness-based Stress Reduction and Multidisciplinary Intervention Programs for Chronic Pain. <i>Clinical Journal of Pain</i> , 2011, 27, 724-734.	0.8	85
50	Health services research in the public healthcare system in Hong Kong: An analysis of over 1 million antihypertensive prescriptions between 2004–2007 as an example of the potential and pitfalls of using routinely collected electronic patient data. <i>BMC Health Services Research</i> , 2008, 8, 138.	0.9	80
51	Co-morbidity and polypharmacy in Parkinson's disease: insights from a large Scottish primary care database. <i>BMC Neurology</i> , 2017, 17, 126.	0.8	80
52	Providing feedback: Exploring a model (emotion, content, outcomes) for facilitating multisource feedback. <i>Medical Teacher</i> , 2011, 33, 744-749.	1.0	76
53	Empathy, Enablement, and Outcome: An Exploratory Study on Acupuncture Patients' Perceptions. <i>Journal of Alternative and Complementary Medicine</i> , 2003, 9, 869-876.	2.1	75
54	General practice funding underpins the persistence of the inverse care law: cross-sectional study in Scotland. <i>British Journal of General Practice</i> , 2015, 65, e799-e805.	0.7	75

#	ARTICLE	IF	CITATIONS
55	Quality in general practice consultations; a qualitative study of the views of patients living in an area of high socio-economic deprivation in Scotland. <i>BMC Family Practice</i> , 2007, 8, 22.	2.9	73
56	Double trouble: the impact of multimorbidity and deprivation on preference-weighted health related quality of life a cross sectional analysis of the Scottish Health Survey. <i>International Journal for Equity in Health</i> , 2013, 12, 67.	1.5	72
57	Mindfulness-based stress reduction for people with multiple sclerosis – a feasibility randomised controlled trial. <i>BMC Neurology</i> , 2017, 17, 94.	0.8	72
58	The Role of Empathy in Therapy and the Physician-Patient Relationship. <i>Research in Complementary Medicine</i> , 2012, 19, 252-257.	2.2	70
59	The importance of empathy in the enablement of patients attending the Glasgow Homoeopathic Hospital. <i>British Journal of General Practice</i> , 2002, 52, 901-5.	0.7	68
60	The reliability of workplace-based assessment in postgraduate medical education and training: a national evaluation in general practice in the United Kingdom. <i>Advances in Health Sciences Education</i> , 2009, 14, 219-232.	1.7	66
61	Mindfulness-based cognitive therapy <i>v.</i> group psychoeducation for people with generalised anxiety disorder: Randomised controlled trial. <i>British Journal of Psychiatry</i> , 2016, 209, 68-75.	1.7	65
62	CQI-2—a new measure of holistic interpersonal care in primary care consultations. <i>British Journal of General Practice</i> , 2006, 56, 262-8.	0.7	63
63	The influence of multi-morbidity and self-reported socio-economic standing on the prevalence of depression in an elderly Hong Kong population. <i>BMC Public Health</i> , 2008, 8, 119.	1.2	62
64	Measuring empathic, person-centred communication in primary care nurses: validity and reliability of the Consultation and Relational Empathy (CARE) Measure. <i>BMC Family Practice</i> , 2015, 16, 149.	2.9	59
65	Outcome related to impact on daily living: preliminary validation of the ORIDL instrument. <i>BMC Health Services Research</i> , 2007, 7, 139.	0.9	57
66	The development of urban community health centres for strengthening primary care in China: a systematic literature review. <i>British Medical Bulletin</i> , 2015, 116, ldv043.	2.7	56
67	Relationships of Multimorbidity and Income With Hospital Admissions in 3 Health Care Systems. <i>Annals of Family Medicine</i> , 2015, 13, 164-167.	0.9	56
68	Health benefits of primary care social work for adults with complex health and social needs: a systematic review. <i>Health and Social Care in the Community</i> , 2018, 26, 1-13.	0.7	55
69	A pilot study on the validity and reliability of the Patient Enablement Instrument (PEI) in a Chinese population. <i>Family Practice</i> , 2010, 27, 395-403.	0.8	54
70	Reliability and validity of the Chinese version of the CARE Measure in a primary care setting in Hong Kong. <i>Family Practice</i> , 2009, 26, 398-406.	0.8	53
71	Multimorbidity and mental health: can psychiatry rise to the challenge?. <i>British Journal of Psychiatry</i> , 2013, 202, 391-393.	1.7	51
72	Socioeconomic Determinants of Multimorbidity: A Population-Based Household Survey of Hong Kong Chinese. <i>PLoS ONE</i> , 2015, 10, e0140040.	1.1	51

#	ARTICLE	IF	CITATIONS
73	Physical and mental health comorbidities of epilepsy: Population-based cross-sectional analysis of 1.5 million people in Scotland. <i>Seizure: the Journal of the British Epilepsy Association</i> , 2017, 45, 125-131.	0.9	51
74	Scoping review of systematic reviews of complementary medicine for musculoskeletal and mental health conditions. <i>BMJ Open</i> , 2018, 8, e020222.	0.8	51
75	Effectiveness of Community-Links Practitioners in Areas of High Socioeconomic Deprivation. <i>Annals of Family Medicine</i> , 2019, 17, 518-525.	0.9	50
76	The impact of socioeconomic status and multimorbidity on mortality: a population-based cohort study. <i>Clinical Epidemiology</i> , 2017, Volume 9, 279-289.	1.5	49
77	Delivering a primary care-based social prescribing initiative: a qualitative study of the benefits and challenges. <i>British Journal of General Practice</i> , 2018, 68, e487-e494.	0.7	49
78	Multimorbidity and Socioeconomic Deprivation in Primary Care Consultations. <i>Annals of Family Medicine</i> , 2018, 16, 127-131.	0.9	48
79	How to Design and Evaluate Interventions to Improve Outcomes for Patients with Multimorbidity. <i>Journal of Comorbidity</i> , 2013, 3, 10-17.	3.9	46
80	Optimising mindfulness-based stress reduction for people with multiple sclerosis. <i>Chronic Illness</i> , 2018, 14, 154-166.	0.6	46
81	Impact of socioeconomic deprivation on rate and cause of death in severe mental illness. <i>BMC Psychiatry</i> , 2014, 14, 261.	1.1	45
82	Randomised controlled trial of a brief intervention targeting predominantly non-verbal communication in general practice consultations. <i>British Journal of General Practice</i> , 2015, 65, e351-e356.	0.7	45
83	Comorbidity in chronic kidney disease: a large cross-sectional study of prevalence in Scottish primary care. <i>British Journal of General Practice</i> , 2021, 71, e243-e249.	0.7	45
84	A qualitative study of patient's views on the consultation at the Glasgow Homoeopathic Hospital, an NHS integrative complementary and orthodox medical care unit. <i>Patient Education and Counseling</i> , 2004, 53, 13-18.	1.0	44
85	How Does Sex Influence Multimorbidity? Secondary Analysis of a Large Nationally Representative Dataset. <i>International Journal of Environmental Research and Public Health</i> , 2016, 13, 391.	1.2	43
86	Mindfulness-based interventions for mental well-being among people with multiple sclerosis: a systematic review and meta-analysis of randomised controlled trials. <i>Journal of Neurology, Neurosurgery and Psychiatry</i> , 2019, 90, 1051-1058.	0.9	42
87	Multimorbidity combinations, costs of hospital care and potentially preventable emergency admissions in England: A cohort study. <i>PLoS Medicine</i> , 2021, 18, e1003514.	3.9	42
88	The "Everyday Work" of Living with Multimorbidity in Socioeconomically Deprived Areas of Scotland. <i>Journal of Comorbidity</i> , 2014, 4, 1-10.	3.9	41
89	Patient centredness and the outcome of primary care consultations with patients with depression in areas of high and low socioeconomic deprivation. <i>British Journal of General Practice</i> , 2012, 62, e576-e581.	0.7	40
90	Examining the practice of generalist expertise: a qualitative study identifying constraints and solutions. <i>JRSM Short Reports</i> , 2013, 4, 204253331351015.	0.6	40
