#	ARTICLE	IF	CITATIONS
1	Towards weather and climate services that integrate indigenous and scientific forecasts to improve forecast reliability and acceptability in Ghana. <i>Environmental Development</i> , 2022, 42, 100698.	1.8	20
2	Are the planning targets of liquid biofuel development achievable in China under climate change?. <i>Agricultural Systems</i> , 2021, 186, 102963.	3.2	9
3	Techniques and skills of indigenous weather and seasonal climate forecast in Northern Ghana. <i>Climate and Development</i> , 2021, 13, 551-562.	2.2	30
4	Forecast probability, lead time and farmer decision-making in rice farming systems in Northern Ghana. <i>Climate Risk Management</i> , 2021, 31, 100258.	1.6	13
5	Adaptation pathways: A review of approaches and a learning framework. <i>Environmental Science and Policy</i> , 2021, 116, 266-275.	2.4	84
6	Flood Risk and Adaptation Strategies for Soybean Production Systems on the Flood-Prone Pampas under Climate Change. <i>Agronomy</i> , 2021, 11, 1187.	1.3	2
7	Matches, mismatches and priorities of pathways from a climate-resilient development perspective in the mountains of Nepal. <i>Environmental Science and Policy</i> , 2021, 125, 135-145.	2.4	9
8	Co-producing climate information services with smallholder farmers in the Lower Bengal Delta: How forecast visualization and communication support farmers' decision-making. <i>Climate Risk Management</i> , 2021, 33, 100346.	1.6	13
9	Advancing climate resilient development pathways since the IPCC's fifth assessment report. <i>Environmental Science and Policy</i> , 2021, 126, 168-176.	2.4	27
10	Hydroclimatic Information Needs of Smallholder Farmers in the Lower Bengal Delta, Bangladesh. <i>Atmosphere</i> , 2020, 11, 1009.	1.0	9
11	Role of Information in Farmers' Response to Weather and Water Related Stresses in the Lower Bengal Delta, Bangladesh. <i>Sustainability</i> , 2020, 12, 6598.	1.6	22
12	Communicating Climate Change Risk: A Content Analysis of IPCC's Summary for Policymakers. <i>Sustainability</i> , 2020, 12, 4861.	1.6	20
13	Exploring Future Water Shortage for Large River Basins under Different Water Allocation Strategies. <i>Water Resources Management</i> , 2018, 32, 3071-3086.	1.9	19
14	Defining tipping points for social-ecological systems scholarship—an interdisciplinary literature review. <i>Environmental Research Letters</i> , 2018, 13, 033005.	2.2	161
15	Diagnosing the potential of hydro-climatic information services to support rice farming in northern Ghana. <i>Njas - Wageningen Journal of Life Sciences</i> , 2018, 86-87, 51-63.	7.9	37
16	Climate adaptation approaches and key policy characteristics: Cases from South Asia. <i>Environmental Science and Policy</i> , 2017, 78, 58-65.	2.4	50
17	Many-objective robust decision making for water allocation under climate change. <i>Science of the Total Environment</i> , 2017, 607-608, 294-303.	3.9	24
18	Building Regional Water-Use Scenarios Consistent with Global Shared Socioeconomic Pathways. <i>Environmental Processes</i> , 2017, 4, 15-31.	1.7	13

#	ARTICLE	IF	CITATIONS
19	Identifying and Assessing Robust Water Allocation Plans for Deltas Under Climate Change. <i>Water Resources Management</i> , 2016, 30, 5421-5435.	1.9	3
20	Analysing monthly sectorial water use and its influence on salt intrusion induced water shortage in urbanized deltas. <i>Sustainable Cities and Society</i> , 2016, 26, 255-263.	5.1	12
21	Method selection in adaptation research: the case of the Delta Programme for the Dutch Wadden region. <i>Regional Environmental Change</i> , 2016, 16, 111-122.	1.4	8
22	The future of the Rhine: stranded ships and no more salmon?. <i>Regional Environmental Change</i> , 2016, 16, 31-41.	1.4	16
23	Construction area expansion in relation to economic-demographic development and land resource in the Pearl River Delta of China. <i>Journal of Chinese Geography</i> , 2016, 26, 188-202.	1.5	30
24	Climate Change Adaptation in the Carpathian Mountain Region. , 2016, , 79-99.		6
25	Editorial: Decisive moments in climate change adaptation. <i>Journal of Water and Climate Change</i> , 2015, 6, 661-665.	1.2	3
26	Turning points in climate change adaptation. <i>Ecology and Society</i> , 2015, 20, .	1.0	15
27	Sectorial Water Use Trends in the Urbanizing Pearl River Delta, China. <i>PLoS ONE</i> , 2015, 10, e0115039.	1.1	8
28	Hydrological response to climate change: The Pearl River, China under different RCP scenarios. <i>Journal of Hydrology: Regional Studies</i> , 2015, 4, 228-245.	1.0	86
29	Portfolios of adaptation investments in water management. <i>Mitigation and Adaptation Strategies for Global Change</i> , 2015, 20, 1247-1265.	1.0	9
30	Thresholds, tipping and turning points for sustainability under climate change. <i>Current Opinion in Environmental Sustainability</i> , 2013, 5, 334-340.	3.1	85
31	Tipping from the Holocene to the Anthropocene: How threatened are major world deltas?. <i>Current Opinion in Environmental Sustainability</i> , 2013, 5, 644-654.	3.1	157
32	Adaptation Turning Points in River Restoration? The Rhine Salmon Case. <i>Sustainability</i> , 2013, 5, 2288-2304.	1.6	22
33	Managing the current and future supply of ecosystem services in the Hungarian and Romanian Tisza River Basin. <i>Regional Environmental Change</i> , 2012, 12, 689-700.	1.4	16
34	Opportunities and Constraints for Climate Adaptation in Regional Water and Land Use Planning. <i>Climate Change Management</i> , 2011, , 669-692.	0.6	1
35	The <i>climate learning ladder.</i> A pragmatic procedure to support climate adaptation. <i>Environmental Policy and Governance</i> , 2010, 20, 1-11.	2.1	38
36	Individuals Matter: Exploring Strategies of Individuals to Change the Water Policy for the Tisza River in Hungary. <i>Ecology and Society</i> , 2010, 15, .	1.0	11

#	ARTICLE	IF	CITATIONS
37	Exploring earth system governance: A case study of floodplain management along the Tisza river in Hungary. <i>Global Environmental Change</i> , 2009, 19, 503-511.	3.6	41
38	Cross-Border Organisations as an Adaptive Water Management Response to Climate Change: The Case of the Guadiana River Basin. <i>Environment and Planning C: Urban Analytics and City Science</i> , 2009, 27, 876-893.	1.5	15
39	Lessons learnt from a participatory integrated assessment of greenhouse gas emission reduction options in firms. <i>Mitigation and Adaptation Strategies for Global Change</i> , 2008, 13, 359-378.	1.0	9
40	Dealing with Uncertainty in Flood Management Through Diversification. <i>Ecology and Society</i> , 2008, 13, .	1.0	77
