#	ARTICLE	IF	CITATIONS
1	Uneven trends of temperature indices during the growing season and dormancy in Serbia. <i>Theoretical and Applied Climatology</i> , 2022, 147, 1277-1295.	2.8	2
2	Flowering phenology of apricot cultivars in the Belgrade region. <i>Journal of Agricultural Sciences (Belgrade)</i> , 2020, 65, 239-249.	0.3	0
3	Future climatic suitability of the Emilia-Romagna (Italy) region for grape production. <i>Regional Environmental Change</i> , 2019, 19, 599-614.	2.9	17
4	Implementation of climate change science in viticulture sustainable development planning in Serbia. <i>E3S Web of Conferences</i> , 2018, 50, 01005.	0.5	3
5	Global warming impact on climate change in Serbia for the period 1961-2100. <i>Thermal Science</i> , 2018, 22, 2267-2280.	1.1	35
6	Observed changes of temperature extremes in Serbia over the period 1961 - 2010. <i>Atmospheric Research</i> , 2017, 183, 26-41.	4.1	42
7	Climatic shifts in high quality wine production areas, Emilia Romagna, Italy, 1961-2015. <i>Climate Research</i> , 2017, 73, 195-206.	1.1	10
8	Effect of a grey hail protection net on the fruit quality of the "Bluecrop"™ highbush blueberry (<i>Vaccinium corymbosum</i> L.). <i>Journal of Agricultural Sciences (Belgrade)</i> , 2017, 62, 329-339.	0.3	0
9	Response of grapevine phenology to recent temperature change and variability in the wine-producing area of Sremski Karlovci, Serbia. <i>Journal of Agricultural Science</i> , 2016, 154, 186-206.	1.3	38
10	Does microclimate under grey hail protection net affect biological and nutritional properties of "Duke"™ highbush blueberry (<i>Vaccinium corymbosum</i> L.)?. <i>Fruits</i> , 2016, 71, 161-170.	0.4	14
11	Analysis of grapevine phenology in the region of Sremski Karlovci. <i>Journal of Agricultural Sciences (Belgrade)</i> , 2013, 58, 73-84.	0.3	3
12	On the use of regional climate models: Implications of climate change for viticulture in Serbia. <i>Agricultural and Forest Meteorology</i> , 2012, 158-159, 53-62.	4.8	67
13	Predicting apricot phenology using meteorological data. <i>International Journal of Biometeorology</i> , 2011, 55, 723-732.	3.0	17
14	Evaluation of different methods for determining growing degree-day thresholds in apricot cultivars. <i>International Journal of Biometeorology</i> , 2010, 54, 411-422.	3.0	45
15	Determination of zones of different plum growing period length in Serbia. <i>Journal of Agricultural Sciences (Belgrade)</i> , 2007, 52, 137-144.	0.3	1
16	Importance of phenological observations and predictions in agriculture. <i>Journal of Agricultural Sciences (Belgrade)</i> , 2005, 50, 217-225.	0.3	26
