#	ARTICLE	IF	CITATIONS
1	Verbal working memory and its relationship to sentence-level reading and listening comprehension in persons with aphasia. <i>Aphasiology</i> , 2009, 23, 1040-1052.	2.2	55
2	Comparing connected language elicitation procedures in persons with aphasia: Concurrent validation of the Story Retell Procedure. <i>Aphasiology</i> , 2007, 21, 775-790.	2.2	40
3	Reliability and Validity of the Computerized Revised Token Test: Comparison of Reading and Listening Versions in Persons With and Without Aphasia. <i>Journal of Speech, Language, and Hearing Research</i> , 2015, 58, 311-324.	1.6	31
4	Effects of Syntactic Structure on Sentence Comprehension Ability as a Function of the Canonicity of Word-Order and Its Relation to Working Memory Capacity in Korean-Speaking Elderly Adults. <i>Communication Sciences and Disorders</i> , 2015, 20, 24-33.	0.4	29
5	Age-Related Changes in Sentence Production Abilities and Their Relation to Working-Memory Capacity: Evidence from a Verb-Final Language. <i>PLoS ONE</i> , 2015, 10, e0119424.	2.5	24
6	Syntactic Complexity as a Linguistic Marker to Differentiate Mild Cognitive Impairment From Normal Aging. <i>Journal of Speech, Language, and Hearing Research</i> , 2020, 63, 1416-1429.	1.6	24
7	The Effects of Sentence Repetition-Based Working Memory Treatment on Sentence Comprehension Abilities in Individuals With Aphasia. <i>American Journal of Speech-Language Pathology</i> , 2016, 25, S823-S838.	1.8	21
8	What Drives Task Performance During Animal Fluency in People With Alzheimer's Disease?. <i>Frontiers in Psychology</i> , 2020, 11, 1485.	2.1	21
9	Multi-channel fusion convolutional neural network to classify syntactic anomaly from language-related ERP components. <i>Information Fusion</i> , 2019, 52, 53-61.	19.1	17
10	The Effects of Verb Argument Complexity on Verb Production in Persons with Aphasia: Evidence from a Subject-Object-Verb Language. <i>Journal of Psycholinguistic Research</i> , 2016, 45, 287-305.	1.3	16
11	Clustering and Switching Patterns in Semantic Fluency and Their Relationship to Working Memory in Mild Cognitive Impairment. <i>Dementia and Neurocognitive Disorders</i> , 2019, 18, 47.	1.4	15
12	Effects of age, working memory, and word order on passive-sentence comprehension: evidence from a verb-final language. <i>International Psychogeriatrics</i> , 2017, 29, 939-948.	1.0	14
13	Treatment Efficacy of Semantic Feature Analyses for Persons with Aphasia: Evidence from Meta-Analyses. <i>Communication Sciences and Disorders</i> , 2016, 21, 310-323.	0.4	14
14	Age-related Decline in Case-Marker Processing and its Relation to Working Memory Capacity. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2017, 72, 813-820.	3.9	13
15	Cross-Linguistic Differences in a Picture-Description Task Between Korean- and English-Speaking Individuals With Aphasia. <i>American Journal of Speech-Language Pathology</i> , 2016, 25, S813-S822.	1.8	12
16	Effects of working memory demands on sentence production in aphasia. <i>Journal of Neurolinguistics</i> , 2018, 48, 64-75.	1.1	11
17	Effects of Verb Network Strengthening Treatment on Retrieval of Verbs and Nouns in Persons with Aphasia. <i>Communication Sciences and Disorders</i> , 2014, 19, 89-98.	0.4	10
18	The Efficacy of Telepractice Intervention for Children & Adolescents with Speech, Language & Hearing Impairments: a Meta-Analysis. <i>Communication Sciences and Disorders</i> , 2020, 25, 976-986.	0.4	9

#	ARTICLE	IF	CITATIONS
19	Real-time processing in reading sentence comprehension for normal adult individuals and persons with aphasia. <i>Aphasiology</i> , 2011, 25, 57-70.	2.2	8
20	Passive sentence comprehension difficulties and its related factors in children with cochlear implants. <i>International Journal of Pediatric Otorhinolaryngology</i> , 2018, 109, 60-66.	1.0	8
21	Effects of Syntactic Complexity on a Case Marker Processing Task in People with Mild Cognitive Impairment. <i>Communication Sciences and Disorders</i> , 2013, 18, 35-46.	0.4	8
22	Production Frequency, Semantic Typicality, and Familiarity of Noun Exemplars for Elderly Adults. <i>Communication Sciences and Disorders</i> , 2014, 19, 213-225.	0.4	6
23	The Effects of Semantic Feature Analysis Treatment on Naming Performance in Korean Individuals with Early Dementia of the Alzheimer's Type: Using a Familiarity of Nouns Scale. <i>Communication Sciences and Disorders</i> , 2015, 20, 34-47.	0.4	6
24	Age-Related Differences in Animacy Effects as a Function of Word-Order Canonicity in a Verb-Final Language: Evidence from ERP. <i>Communication Sciences and Disorders</i> , 2016, 21, 653-667.	0.4	6
25	Age-Related Differences in Word Recognition Task according to the Interference Types: Evidence from Eye-Tracking. <i>Communication Sciences and Disorders</i> , 2019, 24, 186-204.	0.4	6
26	Verbs and Their Thematic Role Processing Abilities for People with Aphasia. <i>Communication Sciences and Disorders</i> , 2018, 23, 337-346.	0.4	6
27	Age-Related Decline in Storage and Processing Components of Working Memory: An Eye-Tracking Study. <i>Communication Sciences and Disorders</i> , 2019, 24, 205-219.	0.4	5
28	Working Memory Capacity and Its Relation to Stroop Interference and Facilitation Effects in Individuals With Mild Cognitive Impairment. <i>American Journal of Speech-Language Pathology</i> , 2012, 21, S166-78.	1.8	4
29	Noun-Verb Dissociation in a Confrontation Naming Task for Persons with Mild Cognitive Impairment. <i>Dementia and Neurocognitive Disorders</i> , 2013, 12, 41.	1.4	4
30	Effects of Computerized Language Intervention on Abilities of Time-Person-Place Orientation and Naming for Individuals with Dementia of the Alzheimer's Type. <i>Communication Sciences and Disorders</i> , 2015, 20, 237-254.	0.4	4
31	Aging-Related Differences in the Resolution of Ambiguity from Case Marker Deletions in a Verb-Final Language. <i>Communication Sciences and Disorders</i> , 2019, 24, 695-706.	0.4	4
32	The Effects of Noun-Phrase Type and Parallel Function on Online Sentence Processing for Normal Elderly Adults. <i>Communication Sciences and Disorders</i> , 2015, 20, 222-236.	0.4	3
33	Age-Related Differences in Sentence Processing of Who-Questions: An Eye-Tracking Study. <i>Communication Sciences and Disorders</i> , 2020, 25, 382-398.	0.4	3
34	Story Retelling Analyses as a Function of Visual Cues using Information Units for Persons with Aphasia. <i>Communication Sciences and Disorders</i> , 2017, 22, 756-771.	0.4	3
35	ERP Components Associated with Locality Dependency of Time References between Young and Elderly Adults. <i>Communication Sciences and Disorders</i> , 2018, 23, 129-145.	0.4	3
36	Aged-Related Differences in the Predictability of Verb-Thematic Roles: An Eye-Tracking Study. <i>Communication Sciences and Disorders</i> , 2019, 24, 447-459.	0.4	3

#	ARTICLE	IF	CITATIONS
37	A Meta-Analysis of the Event-Related Potential during Auditory Processing in Infants with Familial Risk for Dyslexia and Its Correlation to Language Abilities. <i>Communication Sciences and Disorders</i> , 2019, 24, 837-851.	0.4	3
38	Differential Deficits of Nouns and Verbs in a Generative Naming Task for Individuals with Mild Cognitive Impairment. <i>Communication Sciences and Disorders</i> , 2020, 25, 50-62.	0.4	3
39	Ethanol induces persistent potentiation of 5-HT ₃ receptor-stimulated GABA release at synapses on rat hippocampal CA1 neurons. <i>Neuropharmacology</i> , 2021, 184, 108415.	4.1	2
40	Language treatment effects on communicative abilities and working memory in Korean-speaking agrammatic Broca's aphasia caused by moyamoya disease: Phase II evidence from a case study. <i>Neurocase</i> , 2021, 27, 297-307.	0.6	2
41	Changes in linguistic behaviors based on smart speaker task performance and pragmatic skills in multiple turn-taking interactions. <i>Intelligent Service Robotics</i> , 2021, 14, 357-372.	2.6	2
42	Age-Related Changes in Category Decision-Making Abilities as a Function of Typicality and Animacy of Noun Exemplars. <i>Communication Sciences and Disorders</i> , 2014, 19, 523-531.	0.4	2
43	Effects of Working Memory Treatment using Verb-Carrier Phrases on Language Processing in Persons with Mild Cognitive Impairment. <i>Communication Sciences and Disorders</i> , 2016, 21, 524-537.	0.4	2
44	Effects of Verb Argument Structure and the Types of Presentation Modality on Verb Production in Individuals with Aphasia Using a Verb-Final Language. <i>Communication Sciences and Disorders</i> , 2020, 25, 399-410.	0.4	2
45	Non-transcription analysis of connected speech in mild cognitive impairment using an information unit scoring system. <i>Journal of Neurolinguistics</i> , 2022, 61, 101035.	1.1	2
46	Machine-Learning and Corpus-Based Analyses of Korean Nouns from Subjects and Objects: Stimuli Development of Verb Treatment for Neurogenic Communication Disorders. <i>Communication Sciences and Disorders</i> , 2019, 24, 968-985.	0.4	2
47	Effects of Semantic Feature Analysis Treatment on Landmark Naming in Individuals with Subjective Memory Impairment. <i>Communication Sciences and Disorders</i> , 2021, 26, 428-446.	0.4	1
48	The Effect of Processing Load on Semantic and Phonological Working Memory in Mild Cognitive Impairment. <i>Communication Sciences and Disorders</i> , 2016, 21, 295-309.	0.4	1
49	Age-related Differences in Confrontation Naming Ability according to Visual Stimulus Valence. <i>Communication Sciences and Disorders</i> , 2021, 26, 616-629.	0.4	1
50	A Longitudinal Analysis of the Cognitive Function and Related Factors in Older Adults Using a Multilevel Growth Model. <i>Communication Sciences and Disorders</i> , 2021, 26, 601-615.	0.4	1
51	Effects of Syntactic Complexity on Sentence Comprehension in the Discourse of Persons with Aphasia. <i>Communication Sciences and Disorders</i> , 2016, 21, 668-682.	0.4	1
52	Syntactic Priming Effects on Active and Passive Sentence Production in Persons with Aphasia: Evidence from an Eye-tracking Study. <i>Communication Sciences and Disorders</i> , 2020, 25, 75-91.	0.4	1
53	What Eye Movement Reveals Concerning Age-Related Dissociation in Syntactic Prediction: Evidence From a Verb-Final Language. <i>Journal of Speech, Language, and Hearing Research</i> , 2022, , 1-23.	1.6	1
54	Priming Effects on Verb Production as a Function of Semantic Richness in Persons with Aphasia. <i>Communication Sciences and Disorders</i> , 2021, 26, 137-148.	0.4	0

#	ARTICLE	IF	CITATIONS
55	Idiom Processing Abilities according to Task Types in Patients with Dementia of Alzheimer's Type. Communication Sciences and Disorders, 2021, 26, 149-161.	0.4	0
56	Age-related Differences in the Effects of Working Memory Capacity and Cognitive Load on Word Recognition: An Eye Tracking Study. Communication Sciences and Disorders, 2021, 26, 392-412.	0.4	0
57	Toward a conversational model for counsel robots: how different question types elicit different linguistic behaviors. Intelligent Service Robotics, 2021, 14, 373-385.	2.6	0
58	Preference of Verb Thematic Role Assignment and Verb Selection Abilities in Persons with Aphasia. Communication Sciences and Disorders, 2020, 25, 857-871.	0.4	0
59	Case Marker Assignment Abilities as a Function of the Noun Types of Thematic Roles in Aphasia. Communication Sciences and Disorders, 2020, 25, 624-639.	0.4	0
60	Age-Related Differences in Production of Non-Canonical Syntactic Structures as a Function of Modifiers to Noun Phrases. Communication Sciences and Disorders, 2020, 25, 609-623.	0.4	0
61	ERP Evidence of Working Memory Capacity and Signal-to-Noise Ratio Effects on Sentence Plausibility Tasks in Elderly Adults. Communication Sciences and Disorders, 2022, 27, 140-157.	0.4	0
62	Effects of Working Memory Capacity and Noise Placement on Passive Sentence Processing in Elderly Adults: An Eye-Tracking Study. Communication Sciences and Disorders, 2022, 27, 158-174.	0.4	0
63	Effects of Differential Presentation of Noun Types on Sentence Processing in Elderly Adults: An Eye-tracking Study. Communication Sciences and Disorders, 2021, 26, 847-862.	0.4	0
64	A Study on the Current Status and Needs of Counseling Curriculum in Communication Disorders in Korea. Communication Sciences and Disorders, 2021, 26, 975-992.	0.4	0
65	Treatment Efficacy of Working Memory Plus Melodic Intonation Therapy for People with Dementia of Alzheimer's Type. Communication Sciences and Disorders, 2022, 27, 349-370.	0.4	0
66	Age-related Differences in Word Recognition Tasks according to Visual Interference and Noun Imagery. Communication Sciences and Disorders, 2022, 27, 313-329.	0.4	0
