66 papers	495 citations	759233 12 h-index	794594 19 g-index
66 all docs	66 docs citations	66 times ranked	380 citing authors

#	ARTICLE	IF	CITATIONS
1	Non-transcription analysis of connected speech in mild cognitive impairment using an information unit scoring system. Journal of Neurolinguistics, 2022, 61, 101035.	1.1	2
2	ERP Evidence of Working Memory Capacity and Signal-to-Noise Ratio Effects on Sentence Plausibility Tasks in Elderly Adults. Communication Sciences and Disorders, 2022, 27, 140-157.	0.4	0
3	Effects of Working Memory Capacity and Noise Placement on Passive Sentence Processing in Elderly Adults: An Eye-Tracking Study. Communication Sciences and Disorders, 2022, 27, 158-174.	0.4	0
4	What Eye Movement Reveals Concerning Age-Related Dissociation in Syntactic Prediction: Evidence From a Verb-Final Language. Journal of Speech, Language, and Hearing Research, 2022, , 1-23.	1.6	1
5	Treatment Efficacy of Working Memory Plus Melodic Intonation Therapy for People with Dementia of Alzheimerâ€™s Type. Communication Sciences and Disorders, 2022, 27, 349-370.	0.4	0
6	Age-related Differences in Word Recognition Tasks according to Visual Interference and Noun Imagery. Communication Sciences and Disorders, 2022, 27, 313-329.	0.4	0
7	Ethanol induces persistent potentiation of 5-HT3 receptor-stimulated GABA release at synapses on rat hippocampal CA1 neurons. Neuropharmacology, 2021, 184, 108415.	4.1	2
8	Priming Effects on Verb Production as a Function of Semantic Richness in Persons with Aphasia. Communication Sciences and Disorders, 2021, 26, 137-148.	0.4	0
9	Idiom Processing Abilities according to Task Types in Patients with Dementia of Alzheimerâ€™s Type. Communication Sciences and Disorders, 2021, 26, 149-161.	0.4	0
10	Language treatment effects on communicative abilities and working memory in Korean-speaking agrammatic Brocaâ€™s aphasia caused by moyamoya disease: Phase II evidence from a case study. Neurocase, 2021, 27, 297-307.	0.6	2
11	Age-related Differences in the Effects of Working Memory Capacity and Cognitive Load on Word Recognition: An Eye Tracking Study. Communication Sciences and Disorders, 2021, 26, 392-412.	0.4	0
12	Effects of Semantic Feature Analysis Treatment on Landmark Naming in Individuals with Subjective Memory Impairment. Communication Sciences and Disorders, 2021, 26, 428-446.	0.4	1
13	Toward a conversational model for counsel robots: how different question types elicit different linguistic behaviors. Intelligent Service Robotics, 2021, 14, 373-385.	2.6	0
14	Changes in linguistic behaviors based on smart speaker task performance and pragmatic skills in multiple turn-taking interactions. Intelligent Service Robotics, 2021, 14, 357-372.	2.6	2
15	Age-related Differences in Confrontation Naming Ability according to Visual Stimulus Valence. Communication Sciences and Disorders, 2021, 26, 616-629.	0.4	1
16	A Longitudinal Analysis of the Cognitive Function and Related Factors in Older Adults Using a Multilevel Growth Model. Communication Sciences and Disorders, 2021, 26, 601-615.	0.4	1
17	Effects of Differential Presentation of Noun Types on Sentence Processing in Elderly Adults: An Eye-tracking Study. Communication Sciences and Disorders, 2021, 26, 847-862.	0.4	0
18	A Study on the Current Status and Needs of Counseling Curriculum in Communication Disorders in Korea. Communication Sciences and Disorders, 2021, 26, 975-992.	0.4	0

#	ARTICLE	IF	CITATIONS
19	What Drives Task Performance During Animal Fluency in People With Alzheimer's Disease?. Frontiers in Psychology, 2020, 11, 1485.	2.1	21
20	Syntactic Complexity as a Linguistic Marker to Differentiate Mild Cognitive Impairment From Normal Aging. Journal of Speech, Language, and Hearing Research, 2020, 63, 1416-1429.	1.6	24
21	Age-Related Differences in Sentence Processing of Who-Questions: An Eye-Tracking Study. Communication Sciences and Disorders, 2020, 25, 382-398.	0.4	3
22	Effects of Verb Argument Structure and the Types of Presentation Modality on Verb Production in Individuals with Aphasia Using a Verb-Final Language. Communication Sciences and Disorders, 2020, 25, 399-410.	0.4	2
23	The Efficacy of Telepractice Intervention for Children & Adolescents with Speech, Language & Hearing Impairments: a Meta-Analysis. Communication Sciences and Disorders, 2020, 25, 976-986.	0.4	9
24	Preference of Verb Thematic Role Assignment and Verb Selection Abilities in Persons with Aphasia. Communication Sciences and Disorders, 2020, 25, 857-871.	0.4	0
25	Syntactic Priming Effects on Active and Passive Sentence Production in Persons with Aphasia: Evidence from an Eye-tracking Study. Communication Sciences and Disorders, 2020, 25, 75-91.	0.4	1
26	Differential Deficits of Nouns and Verbs in a Generative Naming Task for Individuals with Mild Cognitive Impairment. Communication Sciences and Disorders, 2020, 25, 50-62.	0.4	3
27	Case Marker Assignment Abilities as a Function of the Noun Types of Thematic Roles in Aphasia. Communication Sciences and Disorders, 2020, 25, 624-639.	0.4	0
28	Age-Related Differences in Production of Non-Canonical Syntactic Structures as a Function of Modifiers to Noun Phrases. Communication Sciences and Disorders, 2020, 25, 609-623.	0.4	0
29	Multi-channel fusion convolutional neural network to classify syntactic anomaly from language-related ERP components. Information Fusion, 2019, 52, 53-61.	19.1	17
30	Clustering and Switching Patterns in Semantic Fluency and Their Relationship to Working Memory in Mild Cognitive Impairment. Dementia and Neurocognitive Disorders, 2019, 18, 47.	1.4	15
31	Age-Related Differences in Word Recognition Task according to the Interference Types: Evidence from Eye-Tracking. Communication Sciences and Disorders, 2019, 24, 186-204.	0.4	6
32	Age-Related Decline in Storage and Processing Components of Working Memory: An Eye-Tracking Study. Communication Sciences and Disorders, 2019, 24, 205-219.	0.4	5
33	Aged-Related Differences in the Predictability of Verb-Thematic Roles: An Eye-Tracking Study. Communication Sciences and Disorders, 2019, 24, 447-459.	0.4	3
34	Aging-Related Differences in the Resolution of Ambiguity from Case Marker Deletions in a Verb-Final Language. Communication Sciences and Disorders, 2019, 24, 695-706.	0.4	4
35	A Meta-Analysis of the Event-Related Potential during Auditory Processing in Infants with Familial Risk for Dyslexia and Its Correlation to Language Abilities. Communication Sciences and Disorders, 2019, 24, 837-851.	0.4	3
36	Machine-Learning and Corpus-Based Analyses of Korean Nouns from Subjects and Objects: Stimuli Development of Verb Treatment for Neurogenic Communication Disorders. Communication Sciences and Disorders, 2019, 24, 968-985.	0.4	2

#	ARTICLE	IF	CITATIONS
37	Passive sentence comprehension difficulties and its related factors in children with cochlear implants. International Journal of Pediatric Otorhinolaryngology, 2018, 109, 60-66.	1.0	8
38	Effects of working memory demands on sentence production in aphasia. Journal of Neurolinguistics, 2018, 48, 64-75.	1.1	11
39	ERP Components Associated with Locality Dependency of Time References between Young and Elderly Adults. Communication Sciences and Disorders, 2018, 23, 129-145.	0.4	3
40	Verbs and Their Thematic Role Processing Abilities for People with Aphasia. Communication Sciences and Disorders, 2018, 23, 337-346.	0.4	6
41	Age-related Decline in Case-Marker Processing and its Relation to Working Memory Capacity. Journals of Gerontology - Series B Psychological Sciences and Social Sciences, 2017, 72, 813-820.	3.9	13
42	Effects of age, working memory, and word order on passive-sentence comprehension: evidence from a verb-final language. International Psychogeriatrics, 2017, 29, 939-948.	1.0	14
43	Story Retelling Analyses as a Function of Visual Cues using Information Units for Persons with Aphasia. Communication Sciences and Disorders, 2017, 22, 756-771.	0.4	3
44	The Effects of Sentence Repetition–Based Working Memory Treatment on Sentence Comprehension Abilities in Individuals With Aphasia. American Journal of Speech-Language Pathology, 2016, 25, S823-S838.	1.8	21
45	Cross-Linguistic Differences in a Picture-Description Task Between Korean- and English-Speaking Individuals With Aphasia. American Journal of Speech-Language Pathology, 2016, 25, S813-S822.	1.8	12
46	The Effects of Verb Argument Complexity on Verb Production in Persons with Aphasia: Evidence from a Subject–Object–Verb Language. Journal of Psycholinguistic Research, 2016, 45, 287-305.	1.3	16
47	The Effect of Processing Load on Semantic and Phonological Working Memory in Mild Cognitive Impairment. Communication Sciences and Disorders, 2016, 21, 295-309.	0.4	1
48	Treatment Efficacy of Semantic Feature Analyses for Persons with Aphasia: Evidence from Meta-Analyses. Communication Sciences and Disorders, 2016, 21, 310-323.	0.4	14
49	Age-Related Differences in Animacy Effects as a Function of Word-Order Canonicity in a Verb-Final Language: Evidence from ERP. Communication Sciences and Disorders, 2016, 21, 653-667.	0.4	6
50	Effects of Working Memory Treatment using Verb-Carrier Phrases on Language Processing in Persons with Mild Cognitive Impairment. Communication Sciences and Disorders, 2016, 21, 524-537.	0.4	2
51	Effects of Syntactic Complexity on Sentence Comprehension in the Discourse of Persons with Aphasia. Communication Sciences and Disorders, 2016, 21, 668-682.	0.4	1
52	Age-Related Changes in Sentence Production Abilities and Their Relation to Working-Memory Capacity: Evidence from a Verb-Final Language. PLoS ONE, 2015, 10, e0119424.	2.5	24
53	Reliability and Validity of the Computerized Revised Token Test: Comparison of Reading and Listening Versions in Persons With and Without Aphasia. Journal of Speech, Language, and Hearing Research, 2015, 58, 311-324.	1.6	31
54	The Effects of Semantic Feature Analysis Treatment on Naming Performance in Korean Individuals with Early Dementia of the Alzheimer's Type: Using a Familiarity of Nouns Scale. Communication Sciences and Disorders, 2015, 20, 34-47.	0.4	6

#	ARTICLE	IF	CITATIONS
55	The Effects of Noun-Phrase Type and Parallel Function on Online Sentence Processing for Normal Elderly Adults. Communication Sciences and Disorders, 2015, 20, 222-236.	0.4	3
56	Effects of Computerized Language Intervention on Abilities of Time-Person-Place Orientation and Naming for Individuals with Dementia of the Alzheimer's Type. Communication Sciences and Disorders, 2015, 20, 237-254.	0.4	4
57	Effects of Syntactic Structure on Sentence Comprehension Ability as a Function of the Canonicity of Word-Order and Its Relation to Working Memory Capacity in Korean-Speaking Elderly Adults. Communication Sciences and Disorders, 2015, 20, 24-33.	0.4	29
58	Effects of Verb Network Strengthening Treatment on Retrieval of Verbs and Nouns in Persons with Aphasia. Communication Sciences and Disorders, 2014, 19, 89-98.	0.4	10
59	Production Frequency, Semantic Typicality, and Familiarity of Noun Exemplars for Elderly Adults. Communication Sciences and Disorders, 2014, 19, 213-225.	0.4	6
60	Age-Related Changes in Category Decision-Making Abilities as a Function of Typicality and Animacy of Noun Exemplars. Communication Sciences and Disorders, 2014, 19, 523-531.	0.4	2
61	Noun-Verb Dissociation in a Confrontation Naming Task for Persons with Mild Cognitive Impairment. Dementia and Neurocognitive Disorders, 2013, 12, 41.	1.4	4
62	Effects of Syntactic Complexity on a Case Marker Processing Task in People with Mild Cognitive Impairment. Communication Sciences and Disorders, 2013, 18, 35-46.	0.4	8
63	Working Memory Capacity and Its Relation to Stroop Interference and Facilitation Effects in Individuals With Mild Cognitive Impairment. American Journal of Speech-Language Pathology, 2012, 21, S166-78.	1.8	4
64	Real-time processing in reading sentence comprehension for normal adult individuals and persons with aphasia. Aphasiology, 2011, 25, 57-70.	2.2	8
65	Verbal working memory and its relationship to sentence-level reading and listening comprehension in persons with aphasia. Aphasiology, 2009, 23, 1040-1052.	2.2	55
66	Comparing connected language elicitation procedures in persons with aphasia: Concurrent validation of the Story Retell Procedure. Aphasiology, 2007, 21, 775-790.	2.2	40
