citing authors

#	ARTICLE	IF	CITATIONS
1	Portable Facial Stimulator Design and Standardization: IEC 60601-1-2. , 2021, , .		0
2	Correlational study of the center of pressure measures of postural steadiness on five different standing tasks in overweight adults. Biomedizinische Technik, 2020, 65, 367-378.	0.8	1
3	Determination of Postural Control Mechanism in Overweight Adults Using The Artificial Neural Networks System and Nonlinear Autoregressive Moving Average Model. Advanced Biomedical Engineering, 2020, 9, 154-166.	0.6	0
4	The effect of virtual reality-based balance training on motor learning and postural control in healthy adults: a randomized preliminary study. BioMedical Engineering OnLine, 2018, 17, 124.	2.7	42
5	Estimation the center of pressure with bi-planar postural stability model and neural network system. , 2015, , .		0
6	Designing the controlling system for LeHab passive exercise robot. , 2015, , .		3
7	Human postural stability model and artificial neural network for prediction the center of pressure. , 2014, , .		0
8	Defining the rehabilitation treatment programs for stroke patients by applying Neural Network and Decision Trees models. , 2014, , .		0
9	Virtual pattern classification of upper limbs motion using artificial neural networks. , 2013, , .		0
10	ROI detection of reading process using ANFIS method. , 2012, , .		1
11	Prediction gait during ascending stair by using artificial neural networks. , 2012, , .		1
12	Designing the LeHab robot for passive exercise in neurological patients. , 2012, , .		4
13	Design of exoskeleton arm for enhancing human limb movement. , 2011, , .		2
