#	ARTICLE	IF	CITATIONS
1	Effectiveness of App-Delivered, Tailored Self-management Support for Adults With Lower Back Pain—Related Disability. <i>JAMA Internal Medicine</i> , 2021, 181, 1288.	2.6	67
2	Prevention of low back pain and its consequences among nurses' aides in elderly care: a stepped-wedge multi-faceted cluster-randomized controlled trial. <i>BMC Public Health</i> , 2013, 13, 1088.	1.2	51
3	A multifaceted workplace intervention for low back pain in nurses' aides. <i>Pain</i> , 2015, 156, 1786-1794.	2.0	46
4	Processes, barriers and facilitators to implementation of a participatory ergonomics program among eldercare workers. <i>Applied Ergonomics</i> , 2017, 58, 491-499.	1.7	40
5	GLA:DA® Back group-based patient education integrated with exercises to support self-management of back pain— development, theories and scientific evidence—. <i>BMC Musculoskeletal Disorders</i> , 2018, 19, 418.	0.8	40
6	An App-Delivered Self-Management Program for People With Low Back Pain: Protocol for the selfBACK Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2019, 8, e14720.	0.5	34
7	A multi-faceted workplace intervention targeting low back pain was effective for physical work demands and maladaptive pain behaviours, but not for work ability and sickness absence: Stepped wedge cluster randomised trial. <i>Scandinavian Journal of Public Health</i> , 2016, 44, 560-570.	1.2	33
8	Health disparities between immigrant and Danish cleaners. <i>International Archives of Occupational and Environmental Health</i> , 2011, 84, 665-674.	1.1	30
9	Barriers and facilitators to patient uptake and utilisation of digital interventions for the self-management of low back pain: a systematic review of qualitative studies. <i>BMJ Open</i> , 2020, 10, e038800.	0.8	30
10	The association between health and sickness absence among Danish and non-Western immigrant cleaners in Denmark. <i>International Archives of Occupational and Environmental Health</i> , 2013, 86, 397-405.	1.1	21
11	Mechanisms for reducing low back pain: a mediation analysis of a multifaceted intervention in workers in elderly care. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 49-58.	1.1	21
12	Recall Bias in Low Back Pain Among Workers. <i>Spine</i> , 2018, 43, E727-E733.	1.0	20
13	Successful Reach and Adoption of a workplace health promotion RCT targeting a group of high-risk workers. <i>BMC Medical Research Methodology</i> , 2010, 10, 56.	1.4	19
14	Does Self-Assessed Physical Capacity Predict Development of Low Back Pain Among Health Care Workers? A 2-Year Follow-up Study. <i>Spine</i> , 2013, 38, 272-276.	1.0	18
15	Adoption of workplaces and reach of employees for a multi-faceted intervention targeting low back pain among nurses' aides. <i>BMC Medical Research Methodology</i> , 2014, 14, 60.	1.4	18
16	Associations between psychosocial work environment and hypertension among non-Western immigrant and Danish cleaners. <i>International Archives of Occupational and Environmental Health</i> , 2012, 85, 829-835.	1.1	17
17	Participation of Danish and immigrant cleaners in a 1-year worksite intervention preventing physical deterioration. <i>Ergonomics</i> , 2012, 55, 256-264.	1.1	14
18	Physical Capacity and Risk for Long-Term Sickness Absence. <i>Journal of Occupational and Environmental Medicine</i> , 2015, 57, 526-530.	0.9	13

#	ARTICLE	IF	CITATIONS
19	Psychosocial work environment among immigrant and Danish cleaners. <i>International Archives of Occupational and Environmental Health</i> , 2012, 85, 89-95.	1.1	12
20	Operationalizing a model to quantify implementation of a multi-component intervention in a stepped-wedge trial. <i>Implementation Science</i> , 2018, 13, 26.	2.5	12
21	Improving work for the body – a participatory ergonomic intervention aiming at reducing physical exertion and musculoskeletal pain among childcare workers (the TOY-project): study protocol for a wait-list cluster-randomized controlled trial. <i>Trials</i> , 2018, 19, 411.	0.7	11
22	Using Intervention Mapping to Develop a Decision Support System–Based Smartphone App (selfBACK) to Support Self-management of Nonspecific Low Back Pain: Development and Usability Study. <i>Journal of Medical Internet Research</i> , 2022, 24, e26555.	2.1	11
23	App-Delivered Self-Management Intervention Trial selfBACK for People With Low Back Pain: Protocol for Implementation and Process Evaluation. <i>JMIR Research Protocols</i> , 2020, 9, e20308.	0.5	9
24	Identifying a practice-based implementation framework for sustainable interventions for improving the evolving working environment: Hitting the Moving Target Framework. <i>Applied Ergonomics</i> , 2018, 67, 170-177.	1.7	6
25	Evaluation and Dissemination of a Checklist to Improve Implementation of Work Environment Initiatives in the Eldercare Sector: Protocol for a Prospective Observational Study. <i>JMIR Research Protocols</i> , 2020, 9, e16039.	0.5	1
26	Pain management in eldercare employees – the role of managers in addressing musculoskeletal pain and pain-related sickness absence. <i>BMC Public Health</i> , 2022, 22, 432.	1.2	1
27	Nation-Wide Dissemination of a Digital Checklist to Improve Work Environment in the Eldercare Sector in Denmark. <i>Frontiers in Public Health</i> , 2020, 8, 502106.	1.3	0
