#	ARTICLE	IF	CITATIONS
1	Prevalence of psychiatric disorders in children and adolescents with and without intellectual disability. <i>Journal of Intellectual Disability Research</i> , 2003, 47, 51-58.	1.2	561
2	The prevalence of challenging behaviors: a total population study. <i>Research in Developmental Disabilities</i> , 2001, 22, 77-93.	1.2	526
3	Mental health of children and adolescents with intellectual disabilities in Britain. <i>British Journal of Psychiatry</i> , 2007, 191, 493-499.	1.7	439
4	Mothers supporting children with autistic spectrum disorders. <i>Autism</i> , 2004, 8, 409-423.	2.4	404
5	Comorbidity of intellectual disability and mental disorder in children and adolescents: A systematic review. <i>Journal of Intellectual and Developmental Disability</i> , 2011, 36, 137-143.	1.1	363
6	Mothers of children and adolescents with intellectual disability: social and economic situation, mental health status, and the self-assessed social and psychological impact of the child's difficulties. <i>Journal of Intellectual Disability Research</i> , 2003, 47, 385-399.	1.2	335
7	A population-based investigation of behavioural and emotional problems and maternal mental health: associations with autism spectrum disorder and intellectual disability. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2011, 52, 91-99.	3.1	320
8	Lifestyle related risk factors for poor health in residential settings for people with intellectual disabilities. <i>Research in Developmental Disabilities</i> , 2000, 21, 469-486.	1.2	293
9	Poverty and people with intellectual disabilities. <i>Mental Retardation and Developmental Disabilities Research Reviews</i> , 2007, 13, 107-113.	3.5	271
10	Underweight, obesity and exercise among adults with intellectual disabilities in supported accommodation in Northern England. <i>Journal of Intellectual Disability Research</i> , 2005, 49, 134-143.	1.2	212
11	Prevalence of epilepsy among people with intellectual disabilities: A systematic review. <i>Seizure: the Journal of the British Epilepsy Association</i> , 2015, 29, 46-62.	0.9	206
12	Social Networks of People With Mental Retardation in Residential Settings. <i>Mental Retardation</i> , 2001, 39, 201-214.	1.1	176
13	Health inequalities and people with learning disabilities in the UK. <i>Tizard Learning Disability Review</i> , 2011, 16, 42-48.	0.3	175
14	The mental health of young children with intellectual disabilities or borderline intellectual functioning. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2010, 45, 579-587.	1.6	166
15	Deprivation, ethnicity and the prevalence of intellectual and developmental disabilities. <i>Journal of Epidemiology and Community Health</i> , 2012, 66, 218-224.	2.0	157
16	Beliefs and emotional reactions of care staff working with people with challenging behaviour. <i>Journal of Intellectual Disability Research</i> , 1995, 39, 341-352.	1.2	156
17	Living circumstances of children and adults with mental retardation or developmental disabilities in the united states, canada, england and wales, and australia. <i>Mental Retardation and Developmental Disabilities Research Reviews</i> , 2001, 7, 115-121.	3.5	150
18	Socio-economic position, household composition, health status and indicators of the well-being of mothers of children with and without intellectual disabilities. <i>Journal of Intellectual Disability Research</i> , 2006, 50, 862-873.	1.2	141

#	ARTICLE	IF	CITATIONS
19	Deinstitutionalization in the UK and Ireland: Outcomes for service users. <i>Journal of Intellectual and Developmental Disability</i> , 1996, 21, 17-37.	1.1	139
20	The form and function of challenging behaviours. <i>Journal of Intellectual Disability Research</i> , 1995, 39, 388-398.	1.2	135
21	Health Status and Health Risks of the "Hidden Majority" of Adults With Intellectual Disability. <i>Intellectual and Developmental Disabilities</i> , 2011, 49, 155-165.	0.6	133
22	Loneliness, social support, social isolation and wellbeing among working age adults with and without disability: Cross-sectional study. <i>Disability and Health Journal</i> , 2021, 14, 100965.	1.6	127
23	Treatment and Management of Challenging Behaviours in Residential Settings. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2000, 13, 197-215.	1.3	124
24	Behavior Problems at 5 Years of Age and Maternal Mental Health in Autism and Intellectual Disability. <i>Journal of Abnormal Child Psychology</i> , 2011, 39, 1137-1147.	3.5	124
25	Emotional and behavioural difficulties in young children with and without developmental delay: a multinational perspective. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2010, 51, 583-593.	3.1	123
26	The physical health of British adults with intellectual disability: cross sectional study. <i>International Journal for Equity in Health</i> , 2016, 15, 11.	1.5	123
27	Poverty, socioeconomic position, social capital and the health of children and adolescents with intellectual disabilities in Britain: a replication. <i>Journal of Intellectual Disability Research</i> , 2007, 51, 866-874.	1.2	117
28	The Relationship Between Life Events and Psychopathology Amongst Children with Intellectual Disabilities. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2004, 17, 109-117.	1.3	115
29	Friendship Activities of Adults with Intellectual Disabilities in Supported Accommodation in Northern England. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2004, 17, 191-197.	1.3	113
30	The health of disabled people and the social determinants of health. <i>Public Health</i> , 2011, 125, 145-147.	1.4	111
31	Contribution of Socioeconomic Position to Health Inequalities of British Children and Adolescents With Intellectual Disabilities. <i>American Journal on Intellectual and Developmental Disabilities</i> , 2007, 112, 140.	2.7	107
32	Predicting the persistence of severe self-injurious behavior. <i>Research in Developmental Disabilities</i> , 2001, 22, 67-75.	1.2	101
33	Use of the Strengths and Difficulties Questionnaire to assess the mental health needs of children and adolescents with intellectual disabilities. <i>Journal of Intellectual and Developmental Disability</i> , 2005, 30, 14-23.	1.1	94
34	Issues Concerning Self-Report Data and Population-Based Data Sets Involving People With Intellectual Disabilities. <i>Intellectual and Developmental Disabilities</i> , 2013, 51, 333-348.	0.6	92
35	Lower well-being of young Australian adults with self-reported disability reflects their poorer living conditions rather than health issues. <i>Australian and New Zealand Journal of Public Health</i> , 2012, 36, 176-182.	0.8	90
36	The impact of health checks for people with intellectual disabilities: An updated systematic review of evidence. <i>Research in Developmental Disabilities</i> , 2014, 35, 2450-2462.	1.2	89

#	ARTICLE	IF	CITATIONS
37	Receipt of psychotropic medication by people with intellectual disability in residential settings. <i>Journal of Intellectual Disability Research</i> , 2000, 44, 666-676.	1.2	89
38	Variations in the social inclusion of people with intellectual disabilities in supported living schemes and residential settings. <i>Journal of Intellectual Disability Research</i> , 2007, 51, 207-217.	1.2	86
39	Quality of Life Indicators for Individuals With Intellectual Disabilities: Extending Current Practice. <i>Intellectual and Developmental Disabilities</i> , 2013, 51, 316-332.	0.6	86
40	Poverty and children with intellectual disabilities in the world's richer countries. <i>Journal of Intellectual and Developmental Disability</i> , 2004, 29, 319-338.	1.1	84
41	Quality and Costs of Community-Based Residential Supports, Village Communities, and Residential Campuses in the United Kingdom. <i>American Journal on Intellectual and Developmental Disabilities</i> , 2000, 105, 81.	2.7	82
42	Quality and Costs of Supported Living Residences and Group Homes in the United Kingdom. <i>American Journal on Intellectual and Developmental Disabilities</i> , 2001, 106, 401.	2.7	81
43	A review of choice research with people with severe and profound developmental disabilities. <i>Research in Developmental Disabilities</i> , 1996, 17, 391-411.	1.2	80
44	Living with support in a home in the community: Predictors of behavioral development and household and community activity. <i>Mental Retardation and Developmental Disabilities Research Reviews</i> , 2001, 7, 75-83.	3.5	79
45	How much does intellectual disability really cost? First estimates for Australia. <i>Journal of Intellectual and Developmental Disability</i> , 2012, 37, 42-49.	1.1	77
46	The mental health of young people with disabilities: impact of social conditions. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2011, 46, 1-10.	1.6	76
47	Health inequalities experienced by children and young people with intellectual disabilities. <i>Journal of Intellectual Disabilities</i> , 2011, 15, 269-278.	1.0	76
48	Trauma and Life Events in Adults with Intellectual Disability. <i>Current Developmental Disorders Reports</i> , 2015, 2, 93-99.	0.9	76
49	The impact of health checks for people with intellectual disabilities: a systematic review of evidence. <i>Journal of Intellectual Disability Research</i> , 2011, 55, 1009-1019.	1.2	73
50	Setting global research priorities for developmental disabilities, including intellectual disabilities and autism. <i>Journal of Intellectual Disability Research</i> , 2014, 58, 1121-1130.	1.2	73
51	Receipt of psychotropic medication by people with intellectual disability in residential settings. <i>Journal of Intellectual Disability Research</i> , 2000, 44, 666-676.	1.2	72
52	Household income and health status in children and adolescents in Britain. <i>European Journal of Public Health</i> , 2006, 16, 354-360.	0.1	72
53	Person-centred planning: factors associated with successful outcomes for people with intellectual disabilities. <i>Journal of Intellectual Disability Research</i> , 2007, 51, 232-243.	1.2	72
54	Socioeconomic Circumstances and Risk of Psychiatric Disorders Among Parents of Children With Early Cognitive Delay. <i>American Journal on Intellectual and Developmental Disabilities</i> , 2010, 115, 30-42.	0.8	70

#	ARTICLE	IF	CITATIONS
55	Socioeconomic disadvantage, social participation and networks and the self-rated health of English men and women with mild and moderate intellectual disabilities: cross sectional survey. <i>European Journal of Public Health</i> , 2008, 18, 31-37.	0.1	68
56	Self-reported smoking and alcohol use among adolescents with intellectual disabilities. <i>Journal of Intellectual Disabilities</i> , 2005, 9, 58-69.	1.0	66
57	Prevalence and risk of violence against people with and without disabilities: findings from an Australian population-based study. <i>Australian and New Zealand Journal of Public Health</i> , 2016, 40, 16-21.	0.8	65
58	The quality and costs of community-based residential supports and residential campuses for people with severe and complex disabilities. <i>Journal of Intellectual and Developmental Disability</i> , 2000, 25, 263-279.	1.1	63
59	The effectiveness of staff support: evaluating Active Support training using a conditional probability approach. <i>Research in Developmental Disabilities</i> , 2000, 21, 243-255.	1.2	63
60	Treatment and management of challenging behaviours in congregate and noncongregate community-based supported accommodation. <i>Journal of Intellectual Disability Research</i> , 2005, 49, 63-72.	1.2	63
61	Mental disorders and problematic behaviours in people with intellectual disability: future directions for research. <i>Journal of Intellectual Disability Research</i> , 1997, 41, 440-447.	1.2	61
62	Is There a Bidirectional Relationship Between Maternal Well-Being and Child Behavior Problems in Autism Spectrum Disorders? Longitudinal Analysis of a Population-Defined Sample of Young Children. <i>Autism Research</i> , 2013, 6, 201-211.	2.1	61
63	Predictors of the persistence of conduct difficulties in children with cognitive delay. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2011, 52, 1184-1194.	3.1	60
64	Listening to Adolescents and Adults with Intellectual Disabilities from South Asian Communities. <i>Journal of Applied Research in Intellectual Disabilities</i> , 1997, 10, 250-263.	1.3	59
65	Self-reported exposure to disablism is associated with poorer self-reported health and well-being among adults with intellectual disabilities in England: A cross-sectional survey. <i>Public Health</i> , 2010, 124, 682-689.	1.4	59
66	Environmental opportunities and supports for exercising self-determination in community-based residential settings. <i>Research in Developmental Disabilities</i> , 2001, 22, 487-502.	1.2	58
67	Informal Carers of Adolescents and Adults with Learning Difficulties from the South Asian Communities: Family Circumstances, Service Support and Carer Stress. <i>British Journal of Social Work</i> , 1998, 28, 821-837.	0.9	56
68	Developing an Evidence Base for Violent and Disablist Hate Crime in Britain. <i>Journal of Interpersonal Violence</i> , 2014, 29, 3086-3104.	1.3	56
69	Prescription of Psychotropic Medication to People with Intellectual Disabilities in Primary Health-care Settings. <i>Journal of Applied Research in Intellectual Disabilities</i> , 1999, 12, 46-57.	1.3	55
70	Poverty transitions among families supporting a child with intellectual disability. <i>Journal of Intellectual and Developmental Disability</i> , 2010, 35, 224-234.	1.1	54
71	The "transition cliff" in the administrative prevalence of learning disabilities in England. <i>Tizard Learning Disability Review</i> , 2012, 17, 139-143.	0.3	54
72	The Resident Choice Scale: a measure to assess opportunities for self-determination in residential settings. <i>Journal of Intellectual Disability Research</i> , 2004, 48, 103-113.	1.2	53
