#	Paper	IF	Citations
97	Interpretation and Impact of Real-World Clinical Data for the Practicing Clinician. <i>Advances in Therapy</i> , 2018 , 35, 1763-1774	4.1	193
96	Overweight among children and adolescents in a Native Canadian community: prevalence and associated factors. <i>American Journal of Clinical Nutrition</i> , 2000 , 71, 693-700	7	184
95	Glycemic control and morbidity in the Canadian primary care setting (results of the diabetes in Canada evaluation study). <i>Diabetes Research and Clinical Practice</i> , 2005 , 70, 90-7	7.4	170
94	Specific patterns of food consumption and preparation are associated with diabetes and obesity in a Native Canadian community. <i>Journal of Nutrition</i> , 1998 , 128, 541-7	4.1	143
93	The role of patient, physician and systemic factors in the management of type 2 diabetes mellitus. <i>Family Practice</i> , 2002 , 19, 344-9	1.9	121
92	Health-related quality of life associated with daytime and nocturnal hypoglycaemic events: a time trade-off survey in five countries. <i>Health and Quality of Life Outcomes</i> , 2013 , 11, 90	3	117
91	Cardiometabolic risk in Canada: a detailed analysis and position paper by the cardiometabolic risk working group. <i>Canadian Journal of Cardiology</i> , 2011 , 27, e1-e33	3.8	116
90	Global complication rates of type 2 diabetes in Indigenous peoples: A comprehensive review. <i>Diabetes Research and Clinical Practice</i> , 2008 , 82, 1-17	7.4	112
89	Type 2 diabetes mellitus management in Canada: is it improving?. <i>Canadian Journal of Diabetes</i> , 2013 , 37, 82-9	2.1	92
88	Peripheral Neuropathy and Nerve Dysfunction in Individuals at High Risk for Type 2 Diabetes: The PROMISE Cohort. <i>Diabetes Care</i> , 2015 , 38, 793-800	14.6	82
87	Treatment gaps in the management of cardiovascular risk factors in patients with type 2 diabetes in Canada. <i>Canadian Journal of Cardiology</i> , 2010 , 26, 297-302	3.8	77
86	Clinical inertia in patients with T2DM requiring insulin in family practice. <i>Canadian Family Physician</i> , 2010 , 56, e418-24	0.9	70
85	G protein beta3 subunit gene variant and blood pressure variation in Canadian Oji-Cree. <i>Hypertension</i> , 1998 , 32, 688-92	8.5	63
84	Complications of Type 2 Diabetes Among Aboriginal Canadians: prevalence and associated risk factors. <i>Diabetes Care</i> , 2005 , 28, 2054-7	14.6	61
83	Genetic variation in LMNA modulates plasma leptin and indices of obesity in aboriginal Canadians. <i>Physiological Genomics</i> , 2000 , 3, 39-44	3.6	54
82	The impact of diabetes on cardiovascular risk factors and outcomes in a native Canadian population. <i>Diabetes Research and Clinical Practice</i> , 2002 , 55, 165-73	7.4	51
81	The effect of hypoglycemia on health-related quality of life: Canadian results from a multinational time trade-off survey. <i>Canadian Journal of Diabetes</i> , 2014 , 38, 45-52	2.1	49

80	Safety and efficacy of IDegLira titrated once weekly versus twice weekly in patients with type 2 diabetes uncontrolled on oral antidiabetic drugs: DUAL VI randomized clinical trial. <i>Diabetes, Obesity and Metabolism</i> , 2017 , 19, 858-865	6.7	47
79	Major gaps in diabetes clinical care among Canada's First Nations: results of the CIRCLE study. <i>Diabetes Research and Clinical Practice</i> , 2011 , 92, 272-9	7.4	44
78	Treatment satisfaction and quality of life using an early insulinization strategy with insulin glargine compared to an adjusted oral therapy in the management of Type 2 diabetes: the Canadian INSIGHT Study. <i>Diabetes Research and Clinical Practice</i> , 2007 , 78, 254-8	7.4	44
77	Clinical use of insulin degludec. <i>Diabetes Research and Clinical Practice</i> , 2015 , 109, 19-31	7.4	43
76	Type 2 diabetes in Aboriginal peoples. <i>Canadian Journal of Diabetes</i> , 2013 , 37 Suppl 1, S191-6	2.1	41
75	Body image concepts differ by age and sex in an Ojibway-Cree community in Canada. <i>Journal of Nutrition</i> , 1996 , 126, 2990-3000	4.1	40
74	Prevalence and epidemiology of diabetes in Canadian primary care practices: a report from the Canadian Primary Care Sentinel Surveillance Network. <i>Canadian Journal of Diabetes</i> , 2014 , 38, 179-85	2.1	39
73	Type 2 diabetes in family practice. Room for improvement. <i>Canadian Family Physician</i> , 2003 , 49, 778-85	0.9	39
72	Real-world crude incidence of hypoglycemia in adults with diabetes: Results of the InHypo-DM Study, Canada. <i>BMJ Open Diabetes Research and Care</i> , 2018 , 6, e000503	4.5	39
71	Best Practices for the Prevention and Management of Diabetes and Obesity-Related Chronic Disease among Indigenous Peoples in Canada: A Review. <i>Canadian Journal of Diabetes</i> , 2016 , 40, 216-25	2.1	36
70	Childhood overweight and obesity management: A national perspective of primary health care providers' views, practices, perceived barriers and needs. <i>Paediatrics and Child Health</i> , 2010 , 15, 419-26	0.7	35
69	Investigating concordance in diabetes diagnosis between primary care charts (electronic medical records) and health administrative data: a retrospective cohort study. <i>BMC Health Services Research</i> , 2010 , 10, 347	2.9	35
68	Angiotensinogen gene variation associated with variation in blood pressure in aboriginal Canadians. <i>Hypertension</i> , 1997 , 29, 1073-7	8.5	32
67	Superior efficacy of insulin degludec/liraglutide versus insulin glargine U100 as add-on to sodium-glucose co-transporter-2 inhibitor therapy: A randomized clinical trial in people with uncontrolled type 2 diabetes. <i>Diabetes, Obesity and Metabolism</i> , 2019 , 21, 1399-1408	6.7	31
66	Call to action: A new path for improving diabetes care for Indigenous peoples, a global review. <i>Diabetes Research and Clinical Practice</i> , 2017 , 123, 120-133	7.4	29
65	Association of NEFA composition with insulin sensitivity and beta cell function in the Prospective Metabolism and Islet Cell Evaluation (PROMISE) cohort. <i>Diabetologia</i> , 2018 , 61, 821-830	10.3	26
64	Prevalence, determinants and co-morbidities of chronic kidney disease among First Nations adults with diabetes: results from the CIRCLE study. <i>BMC Nephrology</i> , 2012 , 13, 57	2.7	25
63	Lifestyle interventions for type 2 diabetes. Relevance for clinical practice. <i>Canadian Family Physician</i> , 2003 , 49, 1618-25	0.9	25

62	Lifestyle management for type 2 diabetes. Are family physicians ready and willing?. <i>Canadian Family Physician</i> , 2004 , 50, 1235-43	0.9	25
61	Can family physicians help patients initiate basal insulin therapy successfully?: randomized trial of patient-titrated insulin glargine compared with standard oral therapy: lessons for family practice from the Canadian INSIGHT trial. <i>Canadian Family Physician</i> , 2008 , 54, 550-8	0.9	24
60	Impact of a quality improvement program on primary healthcare in Canada: a mixed-method evaluation. <i>Health Policy</i> , 2015 , 119, 405-16	3.2	23
59	Descriptions of health states associated with increasing severity and frequency of hypoglycemia: a patient-level perspective. <i>Patient Preference and Adherence</i> , 2013 , 7, 925-36	2.4	23
58	Sandy lake health and diabetes project: a community-based intervention targeting type 2 diabetes and its risk factors in a first nations community. <i>Frontiers in Endocrinology</i> , 2013 , 4, 170	5.7	22
57	Teleconferenced educational detailing: diabetes education for primary care physicians. <i>Journal of Continuing Education in the Health Professions</i> , 2005 , 25, 87-97	2.1	22
56	Initiating insulin: How to help people with type 2 diabetes start and continue insulin successfully. <i>International Journal of Clinical Practice</i> , 2017 , 71, e12973	2.9	21
55	Influence of a quality improvement learning collaborative program on team functioning in primary healthcare. <i>Families, Systems and Health</i> , 2015 , 33, 222-30	0.7	19
54	Out-of-pocket Costs of Managing Hyperglycemia and Hypoglycemia in Patients With Type 1 Diabetes and Insulin-treated Type 2 Diabetes. <i>Canadian Journal of Diabetes</i> , 2007 , 31, 25-33	2.1	18
53	Does a patient-managed insulin intensification strategy with insulin glargine and insulin glulisine provide similar glycemic control as a physician-managed strategy? Results of the START (Self-Titration With Apidra to Reach Target) Study: a randomized noninferiority trial. <i>Diabetes Care</i> , 2014 , 37, 604-10	14.6	17
52	Dietary Patterns and Type 2 Diabetes Mellitus in a First Nations Community. <i>Canadian Journal of Diabetes</i> , 2016 , 40, 304-10	2.1	16
51	Recommendations from the Canadian Diabetes Association. 2003 guidelines for prevention and management of diabetes and related cardiovascular risk factors. <i>Canadian Family Physician</i> , 2004 , 50, 425-33	0.9	16
50	The power of two: an update on fixed-dose combinations for type 2 diabetes. <i>Expert Review of Clinical Pharmacology</i> , 2016 , 9, 1453-1462	3.8	16
49	Results of a mixed-methods evaluation of partnerships for health: a quality improvement initiative for diabetes care. <i>Journal of the American Board of Family Medicine</i> , 2013 , 26, 711-9	1.6	15
48	Providers' Perceptions of barriers to the management of type 2 diabetes in remote Aboriginal settings. <i>International Journal of Circumpolar Health</i> , 2011 , 70, 552-63	1.7	15
47	Diabetes Management in Canada: Baseline Results of the Group Practice Diabetes Management Study. <i>Canadian Journal of Diabetes</i> , 2006 , 30, 1-7	2.1	15
46	Insulin Matters: A Practical Approach to Basal Insulin Management in Type 2 Diabetes. <i>Diabetes Therapy</i> , 2018 , 9, 501-519	3.6	14
45	Developing community-driven quality improvement initiatives to enhance chronic disease care in Indigenous communities in Canada: the FORGE AHEAD program protocol. <i>Health Research Policy and Systems</i> , 2016 , 14, 55	3.7	12

44	Can community retail pharmacist and diabetes expert support facilitate insulin initiation by family physicians? Results of the AIM@GP randomized controlled trial. <i>BMC Health Services Research</i> , 2013 , 13, 71	2.9	11
43	Associations of circulating 25(OH)D with cardiometabolic disorders underlying type 2 diabetes mellitus in an Aboriginal Canadian community. <i>Diabetes Research and Clinical Practice</i> , 2015 , 109, 440-9	7.4	11
42	Insulin degludec/liraglutide (IDegLira) was effective across a range of dysglycaemia and body mass index categories in the DUAL V randomized trial. <i>Diabetes, Obesity and Metabolism</i> , 2018 , 20, 200-205	6.7	9
41	When Insulin Therapy Fails: The Impact of SGLT2 Inhibitors in Patients With Type 2 Diabetes. <i>Diabetes Care</i> , 2017 , 40, e141-e142	14.6	9
40	Family Members: The Forgotten Players in the Diabetes Care Team (The TALK-HYPO Study). <i>Diabetes Therapy</i> , 2019 , 10, 2305-2311	3.6	7
39	Cross-Sectional and Prospective Associations between Abdominal Adiposity and Proinsulin Concentration		7
38	Longitudinal Associations of Phospholipid and Cholesteryl Ester Fatty Acids With Disorders Underlying Diabetes. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2016 , 101, 2536-44	5.6	7
37	Use of once-weekly semaglutide in patients with type 2 diabetes in routine clinical practice: Results from the SURE Canada multicentre, prospective, observational study. <i>Diabetes, Obesity and Metabolism</i> , 2021 , 23, 2269-2278	6.7	7
36	Clinical Considerations When Initiating and Titrating Insulin Degludec/Liraglutide (IDegLira) in People with Type 2 Diabetes. <i>Drugs</i> , 2020 , 80, 147-165	12.1	6
35	An innovative model of diabetes care and delivery: the St. Joseph Primary Care Diabetes Support Program (SJHC PCDSP). <i>Canadian Journal of Diabetes</i> , 2014 , 38, 212-5	2.1	6
34	National Survey of Indigenous primary healthcare capacity and delivery models in Canada: the TransFORMation of IndiGENous PrimARy HEALthcare delivery (FORGE AHEAD) community profile survey. <i>BMC Health Services Research</i> , 2018 , 18, 828	2.9	6
33	The Diabetes Evaluation Framework for Innovative National Evaluations (DEFINE): Construct and Content Validation Using a Modified Delphi Method. <i>Canadian Journal of Diabetes</i> , 2017 , 41, 281-296	2.1	5
32	Closing the indigenous health gap in Canada: Results from the TransFORMation of IndiGENous PrimARy HEALthcare delivery (FORGE AHEAD) program. <i>Diabetes Research and Clinical Practice</i> , 2020 , 162, 108066	7.4	5
31	Clusters of fatty acids in the serum triacylglyceride fraction associate with the disorders of type 2 diabetes. <i>Journal of Lipid Research</i> , 2018 , 59, 1751-1762	6.3	5
30	Therapeutic Inertia in People With Type 2 Diabetes in Primary Care: A Challenge That Just Won't Go Away. <i>Diabetes Spectrum</i> , 2020 , 33, 44-49	1.9	5
29	Living With Hypoglycemia: An Exploration of Patients' Emotions: Qualitative Findings From the InHypo-DM Study, Canada. <i>Diabetes Spectrum</i> , 2019 , 32, 270-276	1.9	5
28	Controlled trial of an intervention to improve cholesterol management in diabetes patients in remote Aboriginal communities. <i>International Journal of Circumpolar Health</i> , 2010 , 69, 333-43	1.7	4
27	Traditional foods and 25(OH)D concentrations in a subarctic First Nations community. <i>International Journal of Circumpolar Health</i> , 2016 , 75, 31956	1.7	4

26	A Population-Based Study on Incidence and Associated Risk Factors for Hypoglycemia in Canada: The InHYPO-DM Study. <i>Canadian Journal of Diabetes</i> , 2016 , 40, S11-S12	2.1	4
25	Beyond the Sick Role: The Many Roles of Adults With Type 1 and Type 2 Diabetes in the Management of Hypoglycemia-The InHypo-DM Study, Canada. <i>Canadian Journal of Diabetes</i> , 2020 , 44, 657-662	2.1	3
24	A National Survey of Physicians and Allied Health Professionals: Practices and Perspectives Regarding Hypoglycemia Management: The InHYPO-DM Study Image 8. <i>Canadian Journal of Diabetes</i> , 2016 , 40, S58-S59	2.1	3
23	The FORGE AHEAD clinical readiness consultation tool: a validated tool to assess clinical readiness for chronic disease care mobilization in Canada's First Nations. <i>BMC Health Services Research</i> , 2017 , 17, 233	2.9	3
22	Case study of evaluations that go beyond clinical outcomes to assess quality improvement diabetes programmes using the Diabetes Evaluation Framework for Innovative National Evaluations (DEFINE). <i>Journal of Evaluation in Clinical Practice</i> , 2016 , 22, 644-52	2.5	3
21	Reporting of hypoglycaemia in clinical trials of basal insulins: A need for consensus. <i>Diabetes, Obesity and Metabolism</i> , 2019 , 21, 1529-1542	6.7	2
20	Use of Diabetes Registry Data for Comparing Indices of Diabetes Management: A Comparison of 2 Urban Sites in Canada and Colombia. <i>Canadian Journal of Diabetes</i> , 2015 , 39, 496-501	2.1	2
19	The Distribution of Fatty Acid Biomarkers of Dairy Intake across Serum Lipid Fractions: The Prospective Metabolism and Islet Cell Evaluation (PROMISE) Cohort. <i>Lipids</i> , 2019 , 54, 617-627	1.6	2
18	Investments in diabetes strategies: time to evaluate!. <i>Canadian Journal of Diabetes</i> , 2014 , 38, 159-60	2.1	2
17	Room for improvement in diabetes care among First Nations in northern Quebec (Eeyou Istchee): reasonable management of glucose but poor management of complications. <i>International Journal of Circumpolar Health</i> , 2012 , 71, 1-8	1.7	2
16	Managing diabetes. Recommendations and caveats. <i>Canadian Family Physician</i> , 2005 , 51, 637-9, 644-6	0.9	2
15	Similar glycaemic control and less hypoglycaemia during active titration after insulin initiation with glargine 300 units/mL and degludec 100 units/mL: A subanalysis of the BRIGHT study. <i>Diabetes, Obesity and Metabolism</i> , 2020 , 22, 346-354	6.7	2
14	Impact of a primary healthcare quality improvement program on diabetes in Canada: evaluation of the Quality Improvement and Innovation Partnership (QIIP). <i>BMJ Open Diabetes Research and Care</i> , 2017 , 5, e000392	4.5	1
13	Exposure to specific components of a diabetes risk behavior prevention program associated with select psychosocial, dietary and anthropometric outcomes. <i>FASEB Journal</i> , 2008 , 22, 677.17	0.9	1
12	A qualitative enquiry of hypoglycemia and the social determinants of health: The InHypo-DM study, Canada. <i>Families, Systems and Health</i> , 2018 , 36, 471-481	0.7	1
11	Evaluating the Effectiveness of Switching to Insulin Degludec from Other Basal Insulins in a Real-World Canadian Population with Type 1 or Type 2 Diabetes: The CAN-TREAT Study. <i>Diabetes Therapy</i> , 2021 , 12, 1689-1702	3.6	1
10	COVID-19 hinterland: surveilling the self-reported impacts of the pandemic on diabetes management in the USA (cross-sectional results of the iNPHORM study). <i>BMJ Open</i> , 2021 , 11, e049782	3	0
9	COVID-19 hinterland: surveilling the self-reported impacts of the pandemic on diabetes management in the USA (cross-sectional results of the iNPHORM study). <i>BMJ Open</i> , 2021 , 11, e049782	3	0

8	Primary and Secondary Cardiovascular Prevention Among First Nations Peoples With Type 2 Diabetes in Canada: Findings From the FORGE AHEAD Program. <i>CJC Open</i> , 2020 , 2, 547-554	2	0
7	Short-term intensive insulin as induction and maintenance therapy for the preservation of beta-cell function in early type 2 diabetes (RESET-IT Main): A 2-year randomized controlled trial. <i>Diabetes, Obesity and Metabolism</i> , 2021 , 23, 1926-1935	6.7	0
6	Le diabète de type 2 chez les Autochtones. <i>Canadian Journal of Diabetes</i> , 2013 , 37, S575-S581	2.1	
5	Assessment and Treatment of Cardiometabolic Risk in Adults at Risk for or with Type 2 Diabetes Mellitus. <i>Canadian Journal of Diabetes</i> , 2012 , 36, 320-326	2.1	
4	Baseline Assessment for a Multi-institutional Diabetes Prevention Program for First Nations. <i>FASEB Journal</i> , 2006 , 20, A129	0.9	
3	Health Care Providers' Emotional Responses to Their Patients' Hypoglycemic Events: Qualitative Findings From the InHypo-DM Study, Canada. <i>Diabetes Spectrum</i> , 2021 , 34, 388-393	1.9	
2	Cardiovascular risk factor management in patients with diabetes: Does management differ with disease duration?. <i>Journal of Diabetes and Its Complications</i> , 2021 , 35, 107997	3.2	
1	Clinical Use of Insulin Glargine 300U/mL in Adults with Type 2 Diabetes: Hypothetical Case Studies.. <i>Diabetes Therapy</i> , 2022 , 1	3.6
