#	Article	IF	CITATIONS
1	Restricting the advertising of high fat, salt and sugar foods on the Transport for London estate: Process and implementation study. Social Science and Medicine, 2022, 292, 114548.	3.8	10
2	Self-Reported Impacts of the COVID-19 Pandemic on Diet-Related Behaviors and Food Security in 5 Countries: Results from the International Food Policy Study 2020. Journal of Nutrition, 2022, 152, 35S-46S.	2.9	15
3	Meat-Reduced Dietary Practices and Efforts in 5 Countries: Analysis of Cross-Sectional Surveys in 2018 and 2019. Journal of Nutrition, 2022, 152, 57S-66S.	2.9	10
4	Understanding Marketing Responses to a Tax on Sugary Drinks: A Qualitative Interview Study in the United Kingdom, 2019. International Journal of Health Policy and Management, 2022, , .	0.9	3
5	Changes in household food and drink purchases following restrictions on the advertisement of high fat, salt, and sugar products across the Transport for London network: A controlled interrupted time series analysis. PLoS Medicine, 2022, 19, e1003915.	8.4	23
6	Tax awareness and perceived cost of sugar-sweetened beverages in four countries between 2017 and 2019: findings from the international food policy study. International Journal of Behavioral Nutrition and Physical Activity, 2022, 19, 38.	4.6	8
7	Awareness of and Participation in School Food Programs Among Youth From Six Countries. Journal of Nutrition, 2022, , .	2.9	0
8	The Conceptual Framework for the International Food Policy Study: Evaluating the Population-Level Impact of Food Policy. Journal of Nutrition, 2022, 152, 1S-12S.	2.9	14
9	Using group model building to frame the commercial determinants of dietary behaviour in adolescence – proposed methods for online system mapping workshops. BMC Medical Research Methodology, 2022, 22, 84.	3.1	5
10	The Impact of the Universal Infant Free School Meal Policy on Dietary Quality in English and Scottish Primary School Children: Evaluation of a Natural Experiment. Nutrients, 2022, 14, 1602.	4.1	3
11	Adolescents' media usage and self-reported exposure to advertising across six countries: implications for less healthy food and beverage marketing. BMJ Open, 2022, 12, e058913.	1.9	12
12	Exploring the potential impact of the proposed UK TV and online food advertising regulations: a concept mapping study. BMJ Open, 2022, 12, e060302.	1.9	2
13	No new fast-food outlets allowed! Evaluating the effect of planning policy on the local food environment in the North East of England. Social Science and Medicine, 2022, 306, 115126.	3.8	15
14	Field validity and spatial accuracy of Food Standards Agency Food Hygiene Rating scheme data for England. Journal of Public Health, 2021, 43, e720-e727.	1.8	6
15	Planning and Public Health professionals' experiences of using the planning system to regulate hot food takeaway outlets in England: A qualitative study. Health and Place, 2021, 67, 102305.	3.3	10
16	Will calorie labels for food and drink served outside the home improve public health?. BMJ, The, 2021, 372, n40.	6.0	22
17	ls Obesity Policy in England Fit for Purpose? Analysis of Government Strategies and Policies, 1992–2020. Milbank Quarterly, 2021, 99, 126-170.	4.4	73
18	Evaluation of public health interventions from a complex systems perspective: A research methods review. Social Science and Medicine. 2021. 272. 113697.	3.8	86

#	Article	IF	CITATIONS
19	Sociodemographic differences in self-reported exposure to high fat, salt and sugar food and drink advertising: a cross-sectional analysis of 2019 UK panel data. BMJ Open, 2021, 11, e048139.	1.9	11
20	Conceptualizing the commercial determinants of dietary behaviors associated with obesity: A systematic review using principles from critical interpretative synthesis. Obesity Science and Practice, 2021, 7, 473-486.	1.9	11
21	The impact of school exclusion zone planning guidance on the number and type of food outlets in an English local authority: A longitudinal analysis. Health and Place, 2021, 70, 102600.	3.3	8
22	Newspaper coverage of food insecurity in UK, 2016–2019: a multi-method analysis. BMC Public Health, 2021, 21, 1201.	2.9	5
23	Framework for the development and evaluation of complex interventions: gap analysis, workshop and consultation-informed update. Health Technology Assessment, 2021, 25, 1-132.	2.8	184
24	Stakeholder experiences of using online spatial data visualisation tools for local public health decision support: A qualitative study. Health and Place, 2021, 71, 102648.	3.3	4
25	Public acceptability of the UK Soft Drinks Industry Levy: repeat cross-sectional analysis of the International Food Policy Study (2017–2019). BMJ Open, 2021, 11, e051677.	1.9	3
26	A new framework for developing and evaluating complex interventions: update of Medical Research Council guidance. BMJ, The, 2021, 374, n2061.	6.0	1,567
27	Media representations of opposition to the â€~junk food advertising ban' on the Transport for London (TfL) network: A thematic content analysis of UK news and trade press. SSM - Population Health, 2021, 15, 100828.	2.7	7
28	Automatic classification of takeaway food outlet cuisine type using machine (deep) learning. Machine Learning With Applications, 2021, 6, 100106.	4.4	5
29	Age-related and socioeconomic inequalities in timeliness of referral and start of treatment in colorectal cancer: a population-based analysis. Journal of Epidemiology and Community Health, 2021, 75, jech-2020-214232.	3.7	18
30	How should we evaluate sweetened beverage tax policies? A review of worldwide experience. BMC Public Health, 2021, 21, 1941.	2.9	12
31	Assessing the relationship between adverse pregnancy outcomes and area-level deprivation in Wales 2014–2019: a national population-based cross-sectional study. BMJ Open, 2021, 11, e052330.	1.9	1
32	Differences in diet quality and socioeconomic patterning of diet quality across ethnic groups: cross-sectional data from the HELIUS Dietary Patterns study. European Journal of Clinical Nutrition, 2020, 74, 387-396.	2.9	25
33	The Recognition-Response Gap in Acute Stroke: Examining the Relationship between Stroke Recognition and Response in a General Population Survey. Journal of Stroke and Cerebrovascular Diseases, 2020, 29, 104499.	1.6	7
34	Parents' and carers' awareness and perceptions of UK supermarket policies on less healthy food at checkouts: A qualitative study. Appetite, 2020, 147, 104541.	3.7	15
35	Acceptability of a cessation intervention for pregnant smokers: a qualitative study guided by Normalization Process Theory. BMC Public Health, 2020, 20, 1512.	2.9	7
36	Physical distancing interventions and incidence of coronavirus disease 2019: natural experiment in 149 countries. BMJ, The, 2020, 370, m2743.	6.0	427

#	Article	IF	CITATIONS
37	The Lancet Commission on diabetes: using data to transform diabetes care and patient lives. Lancet, The, 2020, 396, 2019-2082.	13.7	327
38	What role should the commercial food system play in promoting health through better diet?. BMJ, The, 2020, 368, m545.	6.0	41
39	An analysis of the stock market reaction to the announcements of the UK Soft Drinks Industry Levy. Economics and Human Biology, 2020, 38, 100834.	1.7	23
40	Impact of the announcement and implementation of the UK Soft Drinks Industry Levy on sugar content, price, product size and number of available soft drinks in the UK, 2015-19: AÂcontrolled interrupted time series analysis. PLoS Medicine, 2020, 17, e1003025.	8.4	141
41	Perceptions of â€~Home Cooking': A Qualitative Analysis from the United Kingdom and United States. Nutrients, 2020, 12, 198.	4.1	21
42	Using natural experimental studies to guide public health action: turning the evidence-based medicine paradigm on its head. Journal of Epidemiology and Community Health, 2020, 74, 203-208.	3.7	111
43	The long-term health and wellbeing impacts of Healthy New Towns (HNTs): protocol for a baseline and feasibility study of HNT demonstrator sites in England. Pilot and Feasibility Studies, 2020, 6, 4.	1.2	5
44	Socio-demographic characteristics, diet and health among food insecure UK adults: cross-sectional analysis of the International Food Policy Study. Public Health Nutrition, 2020, 23, 2602-2614.	2.2	21
45	The impact of UK soft drinks industry levy on manufacturers' domestic turnover. Economics and Human Biology, 2020, 37, 100866.	1.7	15
46	Stakeholders' perceptions and experiences of the National Health Service diabetes prevention programme in England: qualitative study with service users, intervention providers and deliverers, commissioners and referrers. BMC Health Services Research, 2020, 20, 307.	2.2	12
47	Anticipatory changes in British household purchases of soft drinks associated with the announcement of the Soft Drinks Industry Levy: A controlled interrupted time series analysis. PLoS Medicine, 2020, 17, e1003269.	8.4	10
48	Should Public Health and Policy Communities Interact With the Food Industry? It Depends on Context Comment on "Towards Preventing and Managing Conflict of Interest in Nutrition Policy? An Analysis of Submissions to a Consultation on a Draft WHO Tool". International Journal of Health Policy and Management, 2020, , .	0.9	2
