#	ARTICLE	IF	CITATIONS
1	Learning from a multidisciplinary randomized controlled intervention in retirement village residents. <i>Journal of the American Geriatrics Society</i> , 2022, 70, 743-753.	1.3	4
2	An interRAI derived frailty index predicts acute hospitalizations in older adults residing in retirement villages: A prospective cohort study. <i>PLoS ONE</i> , 2022, 17, e0264715.	1.1	1
3	Factors associated with healthcare utilization and trajectories in retirement village residents. <i>Journal of the American Geriatrics Society</i> , 2022, 70, 754-765.	1.3	0
4	Referral for publicly funded aged care services in Indigenous populations: An exploratory cohort study of ethnic variation in Aotearoa New Zealand. <i>Australasian Journal on Ageing</i> , 2022, , .	0.4	1
5	The prevalence and intensity of pain in older people living in retirement villages in Auckland, New Zealand. <i>Health and Social Care in the Community</i> , 2022, , .	0.7	0
6	Lonely in a crowd: loneliness in New Zealand retirement village residents. <i>International Psychogeriatrics</i> , 2021, 33, 481-493.	0.6	11
7	An interRAI-derived frailty index is associated with prior hospitalisations in older adults residing in retirement villages. <i>Australasian Journal on Ageing</i> , 2021, 40, 66-71.	0.4	6
8	Developing pharmacist-facilitated medicines review services for community-dwelling Māori older adults in New Zealand – A qualitative study exploring stakeholder views. <i>Health and Social Care in the Community</i> , 2021, 29, 564-573.	0.7	5
9	Predictive factors for entry to long-term residential care in octogenarian Māori and non-Māori in New Zealand, LiLACS NZ cohort. <i>BMC Public Health</i> , 2021, 21, 34.	1.2	11
10	Utilising te Tiriti o Waitangi to approach health intervention development and research: pharmacist-facilitated medicines review interventions for Māori older adults. <i>Journal of Primary Health Care</i> , 2021, 13, 124-131.	0.2	6
11	Research in the retirement village community – The problems of recruiting a representative cohort of residents in Auckland, New Zealand. <i>Australasian Journal on Ageing</i> , 2021, 40, 177-183.	0.4	6
12	The Diet Quality and Nutrition Inadequacy of Pre-Frail Older Adults in New Zealand. <i>Nutrients</i> , 2021, 13, 2384.	1.7	6
13	Ethnic Variations in the Quality Use of Medicines in Older Adults: Māori and Non-Māori in Aotearoa New Zealand. <i>Drugs and Aging</i> , 2021, 38, 205-217.	1.3	10
14	A pharmacist-led medicines review intervention in community-dwelling Māori older adults – a feasibility study protocol. <i>Research in Social and Administrative Pharmacy</i> , 2020, 16, 1264-1271.	1.5	6
15	Health profile of residents of retirement villages in Auckland, New Zealand: findings from a cross-sectional survey with health assessment. <i>BMJ Open</i> , 2020, 10, e035876.	0.8	12
16	The very old in intensive care: Admission characteristics, mortality and supports needed at six months postdischarge. <i>Australasian Journal on Ageing</i> , 2020, 39, 305-309.	0.4	0
17	Medical fitness to drive assessment with older drivers: A qualitative study with general practitioners in New Zealand. <i>Journal of Transport and Health</i> , 2020, 17, 100856.	1.1	4
18	Falls risk factor assessment and secondary prevention in the older old. <i>New Zealand Medical Journal</i> , 2020, 133, 24-31.	0.5	0

#	ARTICLE	IF	CITATIONS
19	Get up, get dressed, get moving! Preventing functional decline is everyone's business. <i>New Zealand Medical Journal</i> , 2020, 133, 150-152.	0.5	1
20	Diverticular disease management in primary care: How do estimates from community-dispensed antibiotics inform provision of care?. <i>PLoS ONE</i> , 2019, 14, e0219818.	1.1	3
21	Care Homes. , 2019, , 249-260.		0
22	Association between post-discharge secondary care and risk of repeated hospital presentation, entry into long-term care and mortality in older people after acute hospitalization. <i>Geriatrics and Gerontology International</i> , 2019, 19, 1048-1053.	0.7	4
23	Diverticulosis and nine connective tissue disorders: epidemiological support for an association. <i>Connective Tissue Research</i> , 2019, 60, 389-398.	1.1	19
24	A systematic review of pharmacist-led medicines review services in New Zealand – is there equity for Māori older adults?. <i>Research in Social and Administrative Pharmacy</i> , 2019, 15, 1383-1394.	1.5	11
25	Study protocol of a randomised controlled trial to examine the impact of a complex intervention in pre-frail older adults. <i>Aging Clinical and Experimental Research</i> , 2019, 31, 1407-1417.	1.4	10
26	More than ticking a box: barriers to CPR form completion. <i>New Zealand Medical Journal</i> , 2019, 132, 74-77.	0.5	0
27	Patterns of multi-morbidity and prediction of hospitalisation and all-cause mortality in advanced age. <i>Age and Ageing</i> , 2018, 47, 261-268.	0.7	30
28	Drug Burden and its Association with Falls Among Older Adults in New Zealand: A National Population Cross-Sectional Study. <i>Drugs and Aging</i> , 2018, 35, 73-81.	1.3	21
29	Understanding driving anxiety in older adults. <i>Maturitas</i> , 2018, 118, 51-55.	1.0	17
30	Scared behind the wheel: what impact does driving anxiety have on the health and well-being of young older adults?. <i>International Psychogeriatrics</i> , 2017, 29, 1027-1034.	0.6	16
31	Transitions to and from long-term care facilities and length of completed stay: Reuse of population-based survey data. <i>Australasian Journal on Ageing</i> , 2017, 36, E1-E7.	0.4	5
32	Ethnic and Gender Differences in Preferred Activities among Māori and non-Māori of Advanced age in New Zealand. <i>Journal of Cross-Cultural Gerontology</i> , 2017, 32, 433-446.	0.5	5
33	Testosterone in advance age: a New Zealand longitudinal cohort study: Life and Living in Advanced Age (Te Puāwaitanga o Ngā Tapuwae Kia Ora Tonu). <i>BMJ Open</i> , 2017, 7, e016572.	0.8	1
34	CPR decision making in the hospital setting. <i>New Zealand Medical Journal</i> , 2017, 130, 70-71.	0.5	0
35	What is the relationship between visual impairment and cognitive function in octogenarians?. <i>New Zealand Medical Journal</i> , 2017, 130, 33-47.	0.5	3
36	Seven things you need to know about men's health. <i>New Zealand Medical Journal</i> , 2017, 130, 7-10.	0.5	0

#	ARTICLE	IF	CITATIONS
37	Medication use and potentially inappropriate medications in those with limited prognosis living in residential aged care. <i>Australasian Journal on Ageing</i> , 2016, 35, E18-24.	0.4	21
38	The "Big Five"™. Hypothesis generation: a multidisciplinary intervention package reduces disease-specific hospitalisations from long-term care: a post hoc analysis of the ARCHUS cluster-randomised controlled trial. <i>Age and Ageing</i> , 2016, 45, 415-420.	0.7	21
39	Hospitalisation of older people before and after long-term care entry in Auckland, New Zealand. <i>Age and Ageing</i> , 2016, 45, 558-563.	0.7	18
40	Avoidable readmission: an avoidable failure of discharge planning. <i>Lancet Haematology</i> , 2016, 3, e258-e259.	2.2	0
41	Falls risk assessment for hospitalised older adults: a combination of motion data and vital signs. <i>Aging Clinical and Experimental Research</i> , 2016, 28, 1159-1168.	1.4	9
42	Exome-wide analysis of rare coding variation identifies novel associations with COPD and airflow limitation in <i>MOCS3</i> , <i>IFIT3</i> and <i>SERPINA12</i> . <i>Thorax</i> , 2016, 71, 501-509.	2.7	22
43	Socioeconomic correlates of quality of life for non-Māori in advanced age: Te Puāwaitanga o Nga Tapuwae Kia ora Tonu. <i>Life and Living in Advanced Age: a Cohort Study in New Zealand (LiLACS NZ)</i> . <i>New Zealand Medical Journal</i> , 2016, 129, 18-32.	0.5	4
44	Integrated vital signs monitoring system using ubiquitous devices: Multiple physical signs detection and decision support for hospitalized older adults. , 2015, 2015, 1219-22.		5
45	Likelihood of residential aged care use in later life: a simple approach to estimation with international comparison. <i>Australian and New Zealand Journal of Public Health</i> , 2015, 39, 374-379.	0.8	47
46	Dietary protein intake may reduce hospitalisation due to infection in Māori of advanced age: LiLACS NZ. <i>Australian and New Zealand Journal of Public Health</i> , 2015, 39, 390-395.	0.8	3
47	Multiple physical signs detection and decision support system for hospitalized older adults. <i>Physiological Measurement</i> , 2015, 36, 2069-2088.	1.2	2
48	Mobile healthcare applications: system design review, critical issues and challenges. <i>Australasian Physical and Engineering Sciences in Medicine</i> , 2015, 38, 23-38.	1.4	177
49	Progress towards predicting 1-year mortality in older people living in residential long-term care. <i>Age and Ageing</i> , 2015, 44, 497-501.	0.7	9
50	The Aged Residential Care Healthcare Utilization Study (ARCHUS): A Multidisciplinary, Cluster Randomized Controlled Trial Designed to Reduce Acute Avoidable Hospitalizations From Long-Term Care Facilities. <i>Journal of the American Medical Directors Association</i> , 2015, 16, 49-55.	1.2	48
51	Left Ventricular Geometry and All-cause Mortality in Advanced Age. <i>Heart Lung and Circulation</i> , 2015, 24, 32-39.	0.2	13
52	Advanced decision support system for older adults. <i>Studies in Health Technology and Informatics</i> , 2015, 211, 235-40.	0.2	0
53	Genome-wide protein QTL mapping identifies human plasma kallikrein as a post-translational regulator of serum uPAR levels. <i>FASEB Journal</i> , 2014, 28, 923-934.	0.2	29
54	The Cluster-Randomized BRIGHT Trial: Proactive Case Finding for Community-Dwelling Older Adults. <i>Annals of Family Medicine</i> , 2014, 12, 514-524.	0.9	17

#	ARTICLE	IF	CITATIONS
55	Residential aged care: The de facto hospice for New Zealand's older people. <i>Australasian Journal on Ageing</i> , 2014, 33, 114-120.	0.4	34
56	A multifactorial falls risk prediction model for hospitalized older adults. , 2014, 2014, 3484-7.		9
57	Do Gerontology Nurse Specialists Make a Difference in Hospitalization of Long-Term Care Residents? Results of a Randomized Comparison Trial. <i>Journal of the American Geriatrics Society</i> , 2014, 62, 1962-1967.	1.3	36
58	A wireless patient monitoring system for hospitalized older adults: Acceptability, reliability and accuracy evaluation. , 2014, , .		7
59	Real-time vital signs monitoring and interpretation system for early detection of multiple physical signs in older adults. , 2014, , .		12
60	Agreement between self-reports and medical records of cardiovascular disease in octogenarians. <i>Journal of Clinical Epidemiology</i> , 2013, 66, 1135-1143.	2.4	38
61	A Randomized Controlled Trial to Determine the Effect of a Model of Restorative Home Care on Physical Function and Social Support Among Older People. <i>Archives of Physical Medicine and Rehabilitation</i> , 2013, 94, 1015-1022.	0.5	54
62	Ten years of tiotropium: clinical impact and patient perspectives. <i>International Journal of COPD</i> , 2013, 8, 117.	0.9	32
63	A comprehensive survey of wearable and wireless ECG monitoring systems for older adults. <i>Medical and Biological Engineering and Computing</i> , 2013, 51, 485-495.	1.6	210
64	Reports of the proportion of older people living in long-term care: a cautionary tale from New Zealand. <i>Australian and New Zealand Journal of Public Health</i> , 2013, 37, 264-271.	0.8	7
65	Elderly Men Have Low Levels of Anti-Müllerian Hormone and Inhibin B, but with High Interpersonal Variation: A Cross-Sectional Study of the Sertoli Cell Hormones in 615 Community-Dwelling Men. <i>PLoS ONE</i> , 2013, 8, e70967.	1.1	32
66	Goal setting as a feature of homecare services for older people: does it make a difference?. <i>Age and Ageing</i> , 2012, 41, 24-29.	0.7	62
67	Doing what's important: Valued activities for older New Zealand Māori and non-Māori. <i>Australasian Journal on Ageing</i> , 2012, 31, 241-246.	0.4	11
68	International comparison of long-term care resident dependency across four countries (1998-2009): A descriptive study. <i>Australasian Journal on Ageing</i> , 2012, 31, 233-240.	0.4	18
69	Twenty-Year Trends in Dependency in Residential Aged Care in Auckland, New Zealand: A Descriptive Study. <i>Journal of the American Medical Directors Association</i> , 2011, 12, 535-540.	1.2	51
70	Residential aged care in Auckland, New Zealand 1988-2008: do real trends over time match predictions?. <i>Age and Ageing</i> , 2011, 40, 487-494.	0.7	34
71	Do the Effects of Testosterone on Muscle Strength, Physical Function, Body Composition, And Quality of Life Persist Six Months after Treatment in Intermediate-Frail and Frail Elderly Men?. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2011, 96, 454-458.	1.8	83
72	Acute non-invasive ventilation in older patients: medical evolution and improvement in survival of the un-fittest. <i>Age and Ageing</i> , 2011, 40, 414-416.	0.7	3

#	ARTICLE	IF	CITATIONS
73	National variability in provision of health services for major long-term conditions in New Zealand (a) Tj ETQq1 1 0.784314 rgBT /Overlo	0.5	1
74	Effects of Testosterone on Muscle Strength, Physical Function, Body Composition, and Quality of Life in Intermediate-Frail and Frail Elderly Men: A Randomized, Double-Blind, Placebo-Controlled Study. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2010, 95, 639-650.	1.8	556
75	Of proverbs and prevention: aspiration and its consequences in older patients. <i>Age and Ageing</i> , 2010, 39, 2-4.	0.7	30
76	Can nurses help identify patients with depression following stroke? A pilot study using two methods of detection. <i>Journal of Advanced Nursing</i> , 2007, 57, 505-512.	1.5	27
77	A national survey: percussion, vibration, shaking and active cycle breathing techniques used in patients with acute exacerbations of chronic obstructive pulmonary disease. <i>Physiotherapy</i> , 2007, 93, 110-113.	0.2	19
78	Association of beta-2-adrenoceptor polymorphisms and pulmonary function in patients with chronic obstructive pulmonary disease. <i>Geriatrics and Gerontology International</i> , 2006, 6, 129-135.	0.7	0
79	Non-invasive ventilation in elderly patients with acute exacerbations of COPD: bringing pressure to bear. <i>Age and Ageing</i> , 2006, 35, 1-2.	0.7	8
80	Age-related differences in smoking cessation advice and support given to patients hospitalised with smoking-related illness. <i>Age and Ageing</i> , 2005, 34, 639-642.	0.7	16
81	Predictors of 1-year mortality in patients discharged from hospital following acute exacerbation of chronic obstructive pulmonary disease. <i>Age and Ageing</i> , 2005, 34, 491-496.	0.7	121
82	Pulmonary rehabilitation programmes in the UK: a national representative survey. <i>Clinical Rehabilitation</i> , 2004, 18, 444-449.	1.0	159
83	Current initiatives in the management of patients with chronic obstructive pulmonary disease: the NICE Guidelines and the recent evidence base. <i>Age and Ageing</i> , 2004, 33, 419-421.	0.7	1
84	Prevalence of sub-threshold depression in elderly patients with chronic obstructive pulmonary disease. <i>International Journal of Geriatric Psychiatry</i> , 2003, 18, 412-416.	1.3	92
85	Associations Between Polymorphisms of the High-Affinity Immunoglobulin E Receptor and Late-Onset Airflow Obstruction in Older Populations. <i>Journal of the American Geriatrics Society</i> , 2003, 51, 1265-1269.	1.3	6
86	Chronic bronchitis: an old man's enemy?. <i>Age and Ageing</i> , 2003, 32, 561-562.	0.7	2
87	Early mobilization with walking aids following hospital admission with acute exacerbation of chronic obstructive pulmonary disease. <i>Clinical Rehabilitation</i> , 2003, 17, 465-471.	1.0	29
88	Evaluation and Treatment of Dysphagia Following Stroke. <i>Topics in Geriatric Rehabilitation</i> , 2003, 19, 43-59.	0.2	11
89	Reliability of the Manchester respiratory activities of daily living questionnaire as a postal questionnaire. <i>Age and Ageing</i> , 2002, 31, 355-358.	0.7	17
90	Mortality predictors in disabling chronic obstructive pulmonary disease in old age. <i>Age and Ageing</i> , 2002, 31, 137-140.	0.7	92

#	ARTICLE	IF	CITATIONS
91	A feasibility study of antidepressant drug therapy in depressed elderly patients with chronic obstructive pulmonary disease. <i>International Journal of Geriatric Psychiatry</i> , 2001, 16, 451-454.	1.3	115
92	Mood disorders in elderly patients with chronic obstructive pulmonary disease. <i>Reviews in Clinical Gerontology</i> , 2000, 10, 193-202.	0.5	79
93	Depression and anxiety in elderly outpatients with chronic obstructive pulmonary disease: prevalence, and validation of the BASDEC screening questionnaire. <i>International Journal of Geriatric Psychiatry</i> , 2000, 15, 1090-1096.	1.3	265
94	Improving Outcomes in Elderly Patients with Asthma. <i>Drugs and Aging</i> , 1999, 14, 1-9.	1.3	17
95	The Relationship Between Age and Bronchial Responsiveness. <i>Chest</i> , 1999, 115, 660-665.	0.4	17
96	A comparison of the Barthel index and Nottingham extended activities of daily living scale in the assessment of disability in chronic airflow limitation in old age. <i>Age and Ageing</i> , 1998, 27, 369-374.	0.7	29
97	The effect of walking aids on exercise capacity and oxygenation in elderly patients with chronic obstructive pulmonary disease. <i>Age and Ageing</i> , 1998, 27, 703-706.	0.7	22
98	Depression in elderly outpatients with disabling chronic obstructive pulmonary disease. <i>Age and Ageing</i> , 1998, 27, 155-160.	0.7	83
99	Persistence of atopic effects on airway calibre and bronchial responsiveness in older adults. <i>Age and Ageing</i> , 1997, 26, 435-440.	0.7	12
100	Respiratory disease in old age. <i>Reviews in Clinical Gerontology</i> , 1996, 6, 21-39.	0.5	2
101	Impaired Bronchodilator Response to Albuterol in Healthy Elderly Men and Women. <i>Chest</i> , 1995, 108, 401-406.	0.4	90
102	Respiratory disease in old age. Part 1: age-related changes in the lung, respiratory infections and lung tumours. <i>Reviews in Clinical Gerontology</i> , 1993, 3, 147-155.	0.5	2
103	Respiratory disease in old age. Part 2: asthma, chronic obstructive airways disease and emphysema. <i>Reviews in Clinical Gerontology</i> , 1993, 3, 223-230.	0.5	4
104	Respiratory rehabilitation in the elderly patient. <i>Reviews in Clinical Gerontology</i> , 1993, 3, 281-294.	0.5	2
105	Relationship between Nonspecific Bronchial Responsiveness to Methacholine and Peripheral Mononuclear Leukocyte Beta-adrenergic Receptor Function in Young Drug-naive Subjects. <i>The American Review of Respiratory Disease</i> , 1992, 146, 592-597.	2.9	15
