| # | Article                                                                                                                                                                                        | IF  | CITATIONS |
|---|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1 | Effects of uterotonics on farrowing traits and piglet vitality: A systematic review and meta-analysis. Theriogenology, 2021, 161, 151-160.                                                     | 0.9 | 19        |
| 2 | The ideal holding time for boar semen is 24†h at 17†°C prior to short-cryopreservation protocols. Cryobiology, 2019, 86, 58-64.                                                                | 0.3 | 16        |
| 3 | Causes of Sow Mortality and Risks to Post-Mortem Findings in a Brazilian Intensive Swine Production System. Animals, 2022, 12, 1804.                                                           | 1.0 | 8         |
| 4 | Effects of farrowing induction with prostaglandins on farrowing traits and piglet performance: A systematic review and meta-analysis. Theriogenology, 2022, 180, 1-16.                         | 0.9 | 7         |
| 5 | The importance of optimal body condition to maximize reproductive health and perinatal outcomes in pigs. Nutrition Research Reviews, $0$ , $1$ -59.                                            | 2.1 | 7         |
| 6 | Altrenogest during early pregnancy modulates uterine glandular epithelium and endometrial growth factor expression at the time implantation in pigs. Animal Reproduction, 2021, 18, e20200431. | 0.4 | 5         |
| 7 | Vaginal microbiota signatures in healthy and purulent vulvar discharge sows. Scientific Reports, 2022, 12, .                                                                                   | 1.6 | 3         |
| 8 | Altrenogest Supplementation during Early Pregnancy Improves Reproductive Outcome in Pigs. Animals, 2022, 12, 1801.                                                                             | 1.0 | 1         |
