#	ARTICLE	IF	CITATIONS
1	What helps people to reduce or stop self-harm? A systematic review and meta-synthesis of first-hand accounts. <i>Journal of Public Health</i> , 2023, 45, 154-161.	1.8	8
2	The Impact of Prenatal Screening on Disability Communities and the Meaning of Disability. <i>The International Library of Bioethics</i> , 2022, , 45-56.	0.2	1
3	Ten years of NIHR research training: perceptions of the programmes: a qualitative interview study. <i>BMJ Open</i> , 2022, 12, e046410.	1.9	7
4	Understanding the functions of repeated self-harm: A Q methodology approach. <i>Social Science and Medicine</i> , 2021, 268, 113527.	3.8	4
5	Mentoring as an intervention to promote gender equality in academic medicine: a systematic review. <i>BMJ Open</i> , 2021, 11, e040355.	1.9	14
6	What is so complicated about prenatal testing for Down syndrome? A personal view. <i>Human Genetics</i> , 2021, , 1.	3.8	0
7	When Does a Lot Become Too Much? A Q Methodological Investigation of UK Student Perceptions of Digital Addiction. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 11149.	2.6	3
8	Conveying Information About Screening and Diagnosis. , 2020, , 154-160.e2.		1
9	Parental expectations of raising a child with disability in decision-making for prenatal testing and termination of pregnancy: A mixed methods study. <i>Patient Education and Counseling</i> , 2020, 103, 2373-2383.	2.2	6
10	Using Q-methodology to guide the implementation of new healthcare policies. <i>BMJ Quality and Safety</i> , 2018, 27, 737-742.	3.7	33
11	Randomized controlled feasibility trial of supported self-management in adults with Type 2 diabetes mellitus and an intellectual disability: <sc>OK</sc> <i>Diabetic Medicine</i> , 2018, 35, 776-788.	2.3	11
12	Characterizing adults with Type 2 diabetes mellitus and intellectual disability: outcomes of a case-finding study. <i>Diabetic Medicine</i> , 2018, 35, 352-359.	2.3	10
13	The feasibility of using the EQ-5D-3L with adults with mild to moderate learning disabilities within a randomized control trial: a qualitative evaluation. <i>Pilot and Feasibility Studies</i> , 2018, 4, 164.	1.2	8
14	Student and staff perceptions of alcohol as part of student life in Denmark: A Q methodology study. <i>PLoS ONE</i> , 2018, 13, e0205923.	2.5	2
15	Developing and feasibility testing of data collection methods for an economic evaluation of a supported selfmanagement programme for adults with a learning disability and type 2 diabetes. <i>Pilot and Feasibility Studies</i> , 2018, 4, 80.	1.2	2
16	Development of a supported self-management intervention for adults with type 2 diabetes and a learning disability. <i>Pilot and Feasibility Studies</i> , 2018, 4, 106.	1.2	3
17	Managing with Learning Disability and Diabetes: OK-Diabetes â€œ a case-finding study and feasibility randomised controlled trial. <i>Health Technology Assessment</i> , 2018, 22, 1-328.	2.8	11
18	Altruism or obligation? The motivations and experience of women who donate oocytes to known recipients in assisted conception treatment: an interpretative phenomenological analysis study. <i>Journal of Psychosomatic Obstetrics and Gynaecology</i> , 2017, 38, 4-11.	2.1	8

#	ARTICLE	IF	CITATIONS
19	Hole in the heart: bringing up Beth. <i>Journal of Reproductive and Infant Psychology</i> , 2017, 35, 423-425.	1.8	0
20	Identifying people with a learning disability: an advanced search for general practice. <i>British Journal of General Practice</i> , 2017, 67, e842-e850.	1.4	19
21	Good practice or positive action? Using Q methodology to identify competing views on improving gender equality in academic medicine. <i>BMJ Open</i> , 2017, 7, e015973.	1.9	37
22	Tell it Right, Start it Right: An evaluation of training for health professionals about Down syndrome. <i>British Journal of Midwifery</i> , 2016, 24, 110-117.	0.4	10
23	Measurement of adherence in a randomised controlled trial of a complex intervention: supported self-management for adults with learning disability and type 2 diabetes. <i>BMC Medical Research Methodology</i> , 2016, 16, 132.	3.1	25
24	Supported self-management for adults with type 2 diabetes and a learning disability (OK-Diabetes): study protocol for a randomised controlled feasibility trial. <i>Trials</i> , 2015, 16, 342.	1.6	18
25	Presenting life with cystic fibrosis: a Q-methodological approach to developing balanced, experience-based prenatal screening information. <i>Health Expectations</i> , 2015, 18, 1349-1362.	2.6	4
26	Non-invasive prenatal testing for Down's syndrome: psychologically speaking, what else do we need to know?. <i>Journal of Reproductive and Infant Psychology</i> , 2014, 32, 1-4.	1.8	8
27	Explaining variation in Down's syndrome screening uptake: comparing the Netherlands with England and Denmark using documentary analysis and expert stakeholder interviews. <i>BMC Health Services Research</i> , 2014, 14, 437.	2.2	61
28	Is advice incompatible with autonomous informed choice? Women's perceptions of advice in the context of antenatal screening: a qualitative study. <i>Health Expectations</i> , 2014, 17, 555-564.	2.6	18
29	Differences in the perceived role of the healthcare provider in delivering vascular health checks: a Q methodology study. <i>BMC Family Practice</i> , 2013, 14, 172.	2.9	15
