

Michael A Nader

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/336876/michael-a-nader-publications-by-year.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

91 papers	1,871 citations	21 h-index	42 g-index
116 ext. papers	2,126 ext. citations	3.7 avg, IF	4.68 L-index

#	Paper	IF	Citations
91	Initial Evaluations of the Microtubule-Based PET Radiotracer, [C]MPC-6827 in a Rodent Model of Cocaine Abuse.. <i>Frontiers in Medicine</i> , 2022 , 9, 817274	4.9	1
90	The impact of social variables in preclinical models of cocaine abuse. <i>Faculty Reviews</i> , 2021 , 10, 76	1.2	0
89	Effect of ethanol and cocaine on [C]MPC-6827 uptake in SH-SY5Y cells. <i>Molecular Biology Reports</i> , 2021 , 48, 3871-3876	2.8	2
88	Brain cell-derived exosomes in plasma serve as neurodegeneration biomarkers in male cynomolgus monkeys self-administrating oxycodone. <i>EBioMedicine</i> , 2021 , 63, 103192	8.8	10
87	Chronic levetiracetam (Keppra®) treatment increases the reinforcing strength of cocaine in rhesus monkeys. <i>Pharmacology Biochemistry and Behavior</i> , 2021 , 207, 173217	3.9	
86	PET Imaging of [C]MPC-6827, a Microtubule-Based Radiotracer in Non-Human Primate Brains. <i>Molecules</i> , 2020 , 25,	4.8	5
85	Rhesus Macaque Brain Developmental Trajectory: A Longitudinal Analysis Using Tensor-Based Structural Morphometry and Diffusion Tensor Imaging. <i>Cerebral Cortex</i> , 2020 , 30, 4325-4335	5.1	4
84	Effects of the -2 Adrenergic Receptor Agonists Lofexidine and Guanfacine on Food-Cocaine Choice in Socially Housed Cynomolgus Monkeys. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2020 , 375, 193-201	4.7	3
83	Cannabinoid Modulation of Food-Cocaine Choice in Male Rhesus Monkeys. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2020 , 373, 44-50	4.7	2
82	Evaluation of the Reinforcing Strength of Phendimetrazine Using a Progressive-Ratio Schedule of Reinforcement in Rhesus Monkeys. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2020 , 374, 1-5	4.7	2
81	Creating effective academic research teams: Two tools borrowed from business practice. <i>Journal of Clinical and Translational Science</i> , 2020 , 5, e74	0.4	1
80	The Effects of the M1 Muscarinic Acetylcholine Receptor Positive Allosteric Modulator VU0486846 on Cognitive Performance in Aged Nonhuman Primates. <i>FASEB Journal</i> , 2020 , 34, 1-1	0.9	
79	Effects of the mGluR2/3 receptor agonist LY379268 on the reinforcing strength of cocaine in rhesus monkeys. <i>Psychopharmacology</i> , 2020 , 237, 409-417	4.7	2
78	Modulation of arousal and sleep/wake architecture by M PAM VU0453595 across young and aged rodents and nonhuman primates. <i>Neuropsychopharmacology</i> , 2020 , 45, 2219-2228	8.7	3
77	Effects of early life stress on cocaine intake in male and female rhesus macaques. <i>Psychopharmacology</i> , 2020 , 237, 3583-3589	4.7	2
76	Effects of early life stress on cocaine self-administration in post-pubertal male and female rhesus macaques. <i>Psychopharmacology</i> , 2019 , 236, 2785-2796	4.7	3
75	Effects of the mGluR2/3 agonist LY379268, alone and in combination with monoamineenhancing drugs, on cocaine self-administration in rhesus monkeys. <i>FASEB Journal</i> , 2019 , 33, 664.5	0.9	

74	Effects of Dopamine D3 Receptor Compounds on Oxycodone Self-Administration, Reinstatement and Antinociception in Monkeys. <i>FASEB Journal</i> , 2019 , 33, 498.1	0.9	
73	Abuse Potential of Phendimetrazine and its Effects on Cocaine Self-Administration in Rhesus Monkeys. <i>FASEB Journal</i> , 2019 , 33, 664.7	0.9	
72	Regional elevations in microglial activation and cerebral glucose utilization in frontal white matter tracts of rhesus monkeys following prolonged cocaine self-administration. <i>Brain Structure and Function</i> , 2019 , 224, 1417-1428	4	7
71	Discovery of VU2957 (Valiglurax): An mGlu Positive Allosteric Modulator Evaluated as a Preclinical Candidate for the Treatment of Parkinson's Disease. <i>ACS Medicinal Chemistry Letters</i> , 2019 , 10, 255-260	4.3	13
70	Chronic Δ^9 THC in Rhesus Monkeys: Effects on Cognitive Performance and Dopamine D2/D3 Receptor Availability. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2018 , 364, 300-310	4.7	10
69	Yawning elicited by intravenous ethanol in rhesus monkeys with experience self-administering cocaine and ethanol: Involvement of dopamine D receptors. <i>Alcohol</i> , 2018 , 69, 1-5	2.7	2
68	Behavioral Determinants of Cannabinoid Self-Administration in Old World Monkeys. <i>Neuropsychopharmacology</i> , 2017 , 42, 1522-1530	8.7	20
67	Social Status in Monkeys: Effects of Social Confrontation on Brain Function and Cocaine Self-Administration. <i>Neuropsychopharmacology</i> , 2017 , 42, 1093-1102	8.7	9
66	Effects of ethanol on cocaine self-administration in monkeys responding under a second-order schedule of reinforcement. <i>Drug and Alcohol Dependence</i> , 2017 , 170, 112-119	4.9	
65	A novel orvinol analog, BU08028, as a safe opioid analgesic without abuse liability in primates. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2016 , 113, E5511-8	11.5	74
64	Time to connect: bringing social context into addiction neuroscience. <i>Nature Reviews Neuroscience</i> , 2016 , 17, 592-9	13.5	134
63	Multi-Atlas Library for Eliminating Normalization Failures in Non-Human Primates. <i>Neuroinformatics</i> , 2016 , 14, 183-90	3.2	7
62	Evaluation of the Reinforcing Effect of Quetiapine, Alone and in Combination with Cocaine, in Rhesus Monkeys. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2016 , 356, 244-50	4.7	6
61	Animal models for addiction medicine: From vulnerable phenotypes to addicted individuals. <i>Progress in Brain Research</i> , 2016 , 224, 3-24	2.9	20
60	Neural Correlates of Exposure to Cocaine Cues in Rhesus Monkeys: Modulation by the Dopamine Transporter. <i>Biological Psychiatry</i> , 2016 , 80, 702-710	7.9	2
59	Effects of abstinence from chronic cocaine self-administration on nonhuman primate dorsal and ventral noradrenergic bundle terminal field structures. <i>Brain Structure and Function</i> , 2016 , 221, 2703-15	4	1
58	Systemic Effects of AT-121 as a Safe Analgesic without Abuse Liability in Primates. <i>FASEB Journal</i> , 2016 , 30, 927.10	0.9	
57	Preclinical laboratory assessments of predictors of social rank in female cynomolgus monkeys. <i>American Journal of Primatology</i> , 2016 , 78, 402-417	2.5	9

56	Functional consequences of cocaine expectation: findings in a non-human primate model of cocaine self-administration. <i>Addiction Biology</i> , 2016 , 21, 519-29	4.6	2
55	Identifying Medication Targets for Psychostimulant Addiction: Unraveling the Dopamine D3 Receptor Hypothesis. <i>Journal of Medicinal Chemistry</i> , 2015 , 58, 5361-80	8.3	76
54	Effects of oral and intravenous administration of buspirone on food-cocaine choice in socially housed male cynomolgus monkeys. <i>Neuropsychopharmacology</i> , 2015 , 40, 1072-83	8.7	25
53	Relationship between estradiol and progesterone concentrations and cognitive performance in normally cycling female cynomolgus monkeys. <i>Hormones and Behavior</i> , 2015 , 72, 12-9	3.7	11
52	Differential effects of the dopamine D3 receptor antagonist PG01037 on cocaine and methamphetamine self-administration in rhesus monkeys. <i>Neuropharmacology</i> , 2015 , 92, 34-43	5.5	21
51	BU08028 Displays a Promising Therapeutic Profile as an Analgesic in Monkeys. <i>FASEB Journal</i> , 2015 , 29, 616.2	0.9	1
50	Influence of Dopamine D2 Receptor Availability During Abstinence from Long-Term Cocaine Exposure in Female Cynomolgus Monkeys. <i>FASEB Journal</i> , 2015 , 29, 768.18	0.9	
49	Effects of Ethanol on Cocaine Self-administration in Monkeys under a Fixed-interval Schedule or Food-Drug Choice Procedure. <i>FASEB Journal</i> , 2015 , 29, 930.12	0.9	
48	William L. Woolverton: a case history in unraveling the behavioral pharmacology of stimulants. <i>Neuropharmacology</i> , 2014 , 87, 4-8	5.5	1
47	PET studies in nonhuman primate models of cocaine abuse: translational research related to vulnerability and neuroadaptations. <i>Neuropharmacology</i> , 2014 , 84, 138-51	5.5	26
46	Environmental modulation of drug taking: Nonhuman primate models of cocaine abuse and PET neuroimaging. <i>Neuropharmacology</i> , 2014 , 76 Pt B, 510-7	5.5	22
45	Further characterization of quinpirole-elicited yawning as a model of dopamine D3 receptor activation in male and female monkeys. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2014 , 350, 205-11	4.7	14
44	Functional consequences of cocaine re-exposure after discontinuation of cocaine availability. <i>Neuropharmacology</i> , 2014 , 85, 528-37	5.5	3
43	Regionally-specific alterations in myelin proteins in nonhuman primate white matter following prolonged cocaine self-administration. <i>Drug and Alcohol Dependence</i> , 2014 , 137, 143-7	4.9	7
42	Further characterization of varenicline (VAR) and mecamylamine (MEC) and effects on self-administration (SA) of cocaine (COC) and nicotine (NIC). <i>FASEB Journal</i> , 2013 , 27, 1098.9	0.9	
41	The role of dopamine D3 receptors in the discriminative stimulus effects of quinpirole, cocaine, and methamphetamine in rhesus monkeys. <i>FASEB Journal</i> , 2013 , 27, 659.4	0.9	
40	Effects of chronic treatment with the D3 receptor-selective compound PG619 on cocaine (COC) self-administration and FDG brain activity in rhesus monkeys. <i>FASEB Journal</i> , 2013 , 27, 659.1	0.9	
39	Interactions of dopamine (DA) D2-like receptor availability and DA transporters (DAT) on cocaine self-administration in female cynomolgus monkeys. <i>FASEB Journal</i> , 2013 , 27, 659.5	0.9	

38	Social dominance in female monkeys: dopamine receptor function and cocaine reinforcement. <i>Biological Psychiatry</i> , 2012 , 72, 414-21	7.9	58
37	Nonhuman primate models of social behavior and cocaine abuse. <i>Psychopharmacology</i> , 2012 , 224, 57-67	4.7	32
36	Further characterization of dopamine D2/D3 receptors and cocaine self-administration in socially housed female monkeys. <i>FASEB Journal</i> , 2012 , 26, 661.2	0.9	
35	Effects of cocaine self-administration on cognition in monkeys and evaluation of cognitive enhancement as a therapeutic strategy. <i>FASEB Journal</i> , 2012 , 26, 659.12	0.9	
34	Impulsivity and vulnerability to cocaine self-administration in adult rhesus monkeys exposed to cocaine in utero. <i>FASEB Journal</i> , 2010 , 24, 765.5	0.9	
33	Effects of varenicline on the discriminative stimulus effects of nicotine in female cynomolgus monkeys. <i>FASEB Journal</i> , 2010 , 24, 580.3	0.9	
32	The effects of social hierarchy on cocaine reinforcement and brain interactions in male and female monkeys. <i>FASEB Journal</i> , 2010 , 24, 765.4	0.9	
31	Effects of chronic administration of dopamine D2-like receptor agonists aripiprazole and (R)-N-propyl-norapomorphine on food/cocaine choice in socially housed monkeys. <i>FASEB Journal</i> , 2010 , 24, 765.3	0.9	
30	Cognitive deficits associated with chronic cocaine self-administration in monkeys. <i>FASEB Journal</i> , 2010 , 24, 582.7	0.9	
29	Impulsivity and vulnerability to cocaine self-administration in adult rhesus monkeys exposed to cocaine in utero. <i>FASEB Journal</i> , 2009 , 23, 588.9	0.9	
28	Characterization of PG-619, a dopamine D3 receptor partial agonist, on cocaine self-administration and drug-elicited yawning in rhesus monkeys. <i>FASEB Journal</i> , 2009 , 23, 588.4	0.9	
27	Effects of aripiprazole and (-)NPA, dopamine D2-like receptor agonists of varying intrinsic efficacy, on cocaine vs. food choice in monkeys. <i>FASEB Journal</i> , 2009 , 23, 588.3	0.9	1
26	Brain imaging in nonhuman primates: insights into drug addiction. <i>ILAR Journal</i> , 2008 , 49, 89-102	1.7	20
25	Review. Positron emission tomography imaging studies of dopamine receptors in primate models of addiction. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2008 , 363, 3223-32	5.8	54
24	The reinforcing and discriminative stimulus effects of self-administered cocaine in monkeys: a within-subject design. <i>FASEB Journal</i> , 2008 , 22, 713.5	0.9	
23	Chronic d-amphetamine alters food-reinforced responding and cocaine self-administration under a progressive-ratio schedule in rhesus monkeys. <i>FASEB Journal</i> , 2008 , 22, 713.14	0.9	1
22	Effects of an acute social stressor on brain glucose utilization and cocaine self-administration in socially housed monkeys. <i>FASEB Journal</i> , 2008 , 22, 713.7	0.9	
21	Characterization of dopamine D1, D2, and D3 receptor function in adult rhesus monkeys exposed to cocaine in utero. <i>FASEB Journal</i> , 2008 , 22, 904.2	0.9	

20	Altered D2 receptor availability in adult rhesus monkeys exposed to cocaine in utero. <i>FASEB Journal</i> , 2007 , 21, A1179	0.9	
19	Lasting influence of social hierarchy on impulsivity and cocaine choice in cynomolgus monkeys. <i>FASEB Journal</i> , 2007 , 21, A781	0.9	
18	Chronic d-amphetamine treatment attenuates the reinforcing strength of cocaine in rhesus monkeys. <i>FASEB Journal</i> , 2007 , 21, A778	0.9	
17	Behavioral and neurochemical measures as predictors of social rank in female monkeys. <i>FASEB Journal</i> , 2007 , 21, A1179	0.9	9
16	PET imaging of dopamine D2 receptors during chronic cocaine self-administration in monkeys. <i>Nature Neuroscience</i> , 2006 , 9, 1050-6	25.5	355
15	PET imaging of dopamine D2 receptors in monkey models of cocaine abuse: genetic predisposition versus environmental modulation. <i>American Journal of Psychiatry</i> , 2005 , 162, 1473-82	11.9	118
14	Effects of cocaine self-administration on striatal dopamine systems in rhesus monkeys: initial and chronic exposure. <i>Neuropsychopharmacology</i> , 2002 , 27, 35-46	8.7	168
13	Cocaine- and food-maintained responding under a multiple schedule in rhesus monkeys: environmental context and the effects of a dopamine antagonist. <i>Psychopharmacology</i> , 2002 , 163, 292-301	4.7	11
12	Chronic cocaine-mediated changes in non-human primate nucleus accumbens gene expression. <i>Journal of Neurochemistry</i> , 2001 , 77, 542-9	6	104
11	Chronic cocaine-mediated changes in non-human primate nucleus accumbens gene expression. <i>Journal of Neurochemistry</i> , 2001 , 77, 1423-1423	6	2
10	Predictors of social status in cynomolgus monkeys (<i>Macaca fascicularis</i>) after group formation. <i>American Journal of Primatology</i> , 2000 , 52, 115-31	2.5	81
9	Fluorine-18-labeled tropane analogs for PET imaging studies of the dopamine transporter. <i>Synapse</i> , 2000 , 37, 109-17	2.4	21
8	Self-administration of two long-acting monoamine transport blockers in rhesus monkeys. <i>Psychopharmacology</i> , 2000 , 152, 414-21	4.7	21
7	Distribution of [3H]citalopram binding sites in the nonhuman primate brain. <i>Annals of the New York Academy of Sciences</i> , 1999 , 877, 700-2	6.5	27
6	Effect of cocaine self-administration on striatal dopamine D1 receptors in rhesus monkeys. <i>Synapse</i> , 1998 , 28, 1-9	2.4	55
5	Effect of cocaine self-administration on dopamine D2 receptors in rhesus monkeys. <i>Synapse</i> , 1998 , 30, 88-96	2.4	105
4	Further evaluation of the reinforcing effects of the novel cocaine analog 2beta-propanoyl-3beta-(4-tolyl)-tropane (PTT) in rhesus monkeys. <i>Psychopharmacology</i> , 1998 , 136, 139-47	4.7	20
3	Imaging of cholinergic terminals using the radiotracer [18F](+)-4-fluorobenzyltrozamicol: in vitro binding studies and positron emission tomography studies in nonhuman primates. <i>Synapse</i> , 1997 , 25, 368-80	2.4	43

1	In Vivo Imaging Applications for the Nervous System in Animal Models253-269	1
