

Paulo Gustavo kotze

List of Publications by Citations

Source: <https://exaly.com/author-pdf/3378967/paulo-gustavo-kotze-publications-by-citations.pdf>

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

174
papers

2,290

| # | Paper | IF | Citations |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 174 | ECCO-ESGAR Guideline for Diagnostic Assessment in IBD Part 1: Initial diagnosis, monitoring of known IBD, detection of complications. <i>Journal of Crohns and Colitis</i> , 2019 , 13, 144-164 | 1.5 | 427 |
| 173 | European evidence based consensus on surgery for ulcerative colitis. <i>Journal of Crohns and Colitis</i> , 2015 , 9, 4-25 | 1.5 | 209 |
| 172 | ECCO-ESGAR Guideline for Diagnostic Assessment in IBD Part 2: IBD scores and general principles and technical aspects. <i>Journal of Crohns and Colitis</i> , 2019 , 13, 273-284 | 1.5 | 132 |
| 171 | Crohn's disease. <i>Nature Reviews Disease Primers</i> , 2020 , 6, 22 | 51.1 | 131 |
| 170 | Modern management of perianal fistulas in Crohn's disease: future directions. <i>Gut</i> , 2018 , 67, 1181-1194 | 19.2 | 79 |
| 169 | Developing a Standard Set of Patient-Centred Outcomes for Inflammatory Bowel Disease-an International, Cross-disciplinary Consensus. <i>Journal of Crohns and Colitis</i> , 2018 , 12, 408-418 | 1.5 | 66 |
| 168 | Progression of Inflammatory Bowel Diseases Throughout Latin America and the Caribbean: A Systematic Review. <i>Clinical Gastroenterology and Hepatology</i> , 2020 , 18, 304-312 | 6.9 | 61 |
| 167 | Risk factors for complications after ileocolonic resection for Crohn's disease with a major focus on the impact of preoperative immunosuppressive and biologic therapy: A retrospective international multicentre study. <i>United European Gastroenterology Journal</i> , 2016 , 4, 784-793 | 5.3 | 52 |
| 166 | Tumor Necrosis Factor Alpha Inhibitors Did Not Influence Postoperative Morbidity After Elective Surgical Resections in Crohn's Disease. <i>Digestive Diseases and Sciences</i> , 2017 , 62, 456-464 | 4 | 46 |
| 165 | Mesenchymal Stem Cells for Perianal Crohn's Disease. <i>Cells</i> , 2019 , 8, | 7.9 | 41 |
| 164 | Results of the Fifth Scientific Workshop of the ECCO [II]: Clinical Aspects of Perianal Fistulising Crohn's Disease-the Unmet Needs. <i>Journal of Crohns and Colitis</i> , 2016 , 10, 758-65 | 1.5 | 40 |
| 163 | Surgery in ulcerative colitis: When? How?. <i>Baillieres Best Practice and Research in Clinical Gastroenterology</i> , 2018 , 32-33, 71-78 | 2.5 | 37 |
| 162 | Role of interventional inflammatory bowel disease in the era of biologic therapy: a position statement from the Global Interventional IBD Group. <i>Gastrointestinal Endoscopy</i> , 2019 , 89, 215-237 | 5.2 | 37 |
| 161 | Real-world clinical, endoscopic and radiographic efficacy of vedolizumab for the treatment of inflammatory bowel disease. <i>Alimentary Pharmacology and Therapeutics</i> , 2018 , 48, 626-637 | 6.1 | 34 |
| 160 | Evolving Role of IBD Surgery. <i>Journal of Crohns and Colitis</i> , 2018 , 12, 1005-1007 | 1.5 | 33 |
| 159 | Practical guidelines on endoscopic treatment for Crohn's disease strictures: a consensus statement from the Global Interventional Inflammatory Bowel Disease Group. <i>The Lancet Gastroenterology and Hepatology</i> , 2020 , 5, 393-405 | 18.8 | 32 |
| 158 | Trends in hospitalisation rates for inflammatory bowel disease in western versus newly industrialised countries: a population-based study of countries in the Organisation for Economic Co-operation and Development. <i>The Lancet Gastroenterology and Hepatology</i> , 2019 , 4, 287-295 | 18.8 | 29 |

| | | | |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|----|
| 157 | Clinical utility of ustekinumab in Crohn's disease. <i>Journal of Inflammation Research</i> , 2018 , 11, 35-47 | 4.8 | 23 |
| 156 | Perianal complete remission with combined therapy (seton placement and anti-TNF agents) in Crohn's disease: a Brazilian multicenter observational study. <i>Arquivos De Gastroenterologia</i> , 2014 , 51, 284-9 | 1.3 | 22 |
| 155 | Combination Therapy Does Not Improve Rate of Clinical or Endoscopic Remission in Patients with Inflammatory Bowel Diseases Treated With Vedolizumab or Ustekinumab. <i>Clinical Gastroenterology and Hepatology</i> , 2021 , 19, 1366-1376.e2 | 6.9 | 22 |
| 154 | Perioperative Dietary Therapy in Inflammatory Bowel Disease. <i>Journal of Crohns and Colitis</i> , 2020 , 14, 431-444 | 1.5 | 22 |
| 153 | Preoperative Ustekinumab Treatment Is Not Associated With Increased Postoperative Complications in Crohn's Disease: A Canadian Multi-Centre Observational Cohort Study. <i>Journal of the Canadian Association of Gastroenterology</i> , 2018 , 1, 115-123 | 0.5 | 21 |
| 152 | Direct retrospective comparison of adalimumab and infliximab in preventing early postoperative endoscopic recurrence after ileocaecal resection for crohn's disease: results from the MULTIPER database. <i>Journal of Crohns and Colitis</i> , 2015 , 9, 541-7 | 1.5 | 19 |
| 151 | Antibodies anti-Saccharomyces cerevisiae (ASCA) do not differentiate Crohn's disease from celiac disease. <i>Arquivos De Gastroenterologia</i> , 2010 , 47, 242-5 | 1.3 | 19 |
| 150 | Optimizing biologic therapy in IBD: how essential is therapeutic drug monitoring?. <i>Nature Reviews Gastroenterology and Hepatology</i> , 2020 , 17, 702-710 | 24.2 | 19 |
| 149 | Recommendations on the use of biosimilars by the Brazilian Society of Rheumatology, Brazilian Society of Dermatology, Brazilian Federation of Gastroenterology and Brazilian Study Group on Inflammatory Bowel Disease--Focus on clinical evaluation of monoclonal antibodies and fusion proteins used in the treatment of autoimmune diseases. <i>Autoimmunity Reviews</i> , 2015 , 14, 769-73 | 13.6 | 18 |
| 148 | Changes in serum levels of lipopolysaccharides and CD26 in patients with Crohn's disease. <i>Intestinal Research</i> , 2017 , 15, 352-357 | 4.1 | 18 |
| 147 | The globalization of inflammatory bowel disease: the incidence and prevalence of inflammatory bowel disease in Brazil. <i>Current Opinion in Gastroenterology</i> , 2019 , 35, 259-264 | 3 | 18 |
| 146 | Factors affecting the incidence of early endoscopic recurrence after ileocolonic resection for Crohn's disease: a multicentre observational study. <i>Colorectal Disease</i> , 2017 , 19, O39-O45 | 2.1 | 16 |
| 145 | Diagnosis and treatment of inflammatory bowel disease: First Latin American Consensus of the Pan American Crohn's and Colitis Organisation. <i>Revista De Gastroenterologia De Mexico</i> , 2017 , 82, 46-84 | 0.7 | 15 |
| 144 | Fluorescence angiography during transanal trans-stomal proctectomy and ileal pouch anal anastomosis: a video vignette. <i>Colorectal Disease</i> , 2017 , 20, 262 | 2.1 | 15 |
| 143 | The impact of biologics in surgical outcomes in ulcerative colitis. <i>Baillieres Best Practice and Research in Clinical Gastroenterology</i> , 2018 , 32-33, 79-87 | 2.5 | 15 |
| 142 | Adalimumab and postoperative complications of elective intestinal resections in Crohn's disease: a propensity score case-matched study. <i>Colorectal Disease</i> , 2017 , 20, 211 | 2.1 | 14 |
| 141 | Fistula-associated anal carcinoma in Crohn's disease. <i>Expert Review of Gastroenterology and Hepatology</i> , 2018 , 12, 917-925 | 4.2 | 14 |
| 140 | Impact of Preoperative Nutritional Status on the Incidence Rate of Surgical Complications in Patients With Inflammatory Bowel Disease With Vs Without Preoperative Biologic Therapy: A Case-Control Study. <i>Clinical and Translational Gastroenterology</i> , 2019 , 10, e00050 | 4.2 | 12 |

| | | | |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|----|
| 139 | Darvadstrocel for the treatment of patients with perianal fistulas in Crohn's disease. <i>Drugs of Today</i> , 2019 , 55, 95-105 | 2.5 | 12 |
| 138 | The impact of surgical therapies for inflammatory bowel disease on female fertility. <i>The Cochrane Library</i> , 2019 , 7, CD012711 | 5.2 | 12 |
| 137 | Concomitant Use of Aminosalicylates Is Not Associated With Improved Outcomes in Patients With Ulcerative Colitis Escalated to Vedolizumab. <i>Clinical Gastroenterology and Hepatology</i> , 2019 , 17, 2374-2378.e2 | 6.9 | 11 |
| 136 | International Organization for the Study of IBD Recommendations for Surgery in Patients With IBD During the Coronavirus Disease 2019 Pandemic. <i>Diseases of the Colon and Rectum</i> , 2020 , 63, 870-873 | 3.1 | 11 |
| 135 | Is there any relation between gastric bypass for morbid obesity and the development of Crohn's disease?. <i>Journal of Crohn's and Colitis</i> , 2014 , 8, 712-3 | 1.5 | 11 |
| 134 | FECAL CALPROTECTIN: levels for the ethiological diagnosis in Brazilian patients with gastrointestinal symptoms. <i>Arquivos De Gastroenterologia</i> , 2015 , 52, 50-4 | 1.3 | 11 |
| 133 | Twenty-first century trends in the global epidemiology of pediatric-onset inflammatory bowel disease: systematic review.. <i>Gastroenterology</i> , 2022 , | 13.3 | 11 |
| 132 | Motor neuropathy with multiple conduction blocks associated with TNF-alpha antagonist. <i>Arquivos De Neuro-Psiquiatria</i> , 2010 , 68, 452-4 | 1.6 | 11 |
| 131 | Consensus recommendations for patient-centered therapy in mild-to-moderate ulcerative colitis: the i Support Therapy-Access to Rapid Treatment (iSTART) approach. <i>Intestinal Research</i> , 2018 , 16, 522-528 | 4.1 | 11 |
| 130 | Ileal pouch-anal anastomosis with fluorescence angiography: a case-matched study. <i>Colorectal Disease</i> , 2019 , 21, 827-832 | 2.1 | 9 |
| 129 | Sarcoidosis during therapy with adalimumab in a Crohn's disease patient: a paradoxical effect. <i>Journal of Crohn's and Colitis</i> , 2013 , 7, e599-600 | 1.5 | 9 |
| 128 | Preoperative use of anti-tumor necrosis factor therapy in Crohn's disease: promises and pitfalls. <i>Intestinal Research</i> , 2017 , 15, 160-165 | 4.1 | 9 |
| 127 | Review of the epidemiology and burden of ulcerative colitis in Latin America. <i>Therapeutic Advances in Gastroenterology</i> , 2020 , 13, 1756284820931739 | 4.7 | 9 |
| 126 | Endoscopic evaluation of surgically altered bowel in inflammatory bowel disease: a consensus guideline from the Global Interventional Inflammatory Bowel Disease Group. <i>The Lancet Gastroenterology and Hepatology</i> , 2021 , 6, 482-497 | 18.8 | 9 |
| 125 | Fistulizing Crohn's disease. <i>Current Problems in Surgery</i> , 2020 , 57, 100808 | 2.8 | 8 |
| 124 | Vedolizumab and early postoperative complications in nonintestinal surgery: a case-matched analysis. <i>Therapeutic Advances in Gastroenterology</i> , 2018 , 11, 1756284818783614 | 4.7 | 8 |
| 123 | Long Time from Diagnosis to Surgery May Increase Postoperative Complication Rates in Elective CD Intestinal Resections: An Observational Study. <i>Gastroenterology Research and Practice</i> , 2018 , 2018, 4703281 | 3.8 | 8 |
| 122 | VISCERAL FAT IS INCREASED IN INDIVIDUALS WITH CROHN'S DISEASE: A COMPARATIVE ANALYSIS WITH HEALTHY CONTROLS. <i>Arquivos De Gastroenterologia</i> , 2018 , 55, 142-147 | 1.3 | 8 |

| | | | |
|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|---|
| 121 | Biological therapy does not increase post operative complications after major abdominal surgery in crohn's disease brazilian patients. <i>Inflammatory Bowel Diseases</i> , 2011 , 17, S43 | 4.5 | 8 |
| 120 | Diagnosis and classification of ileal pouch disorders: consensus guidelines from the International Ileal Pouch Consortium. <i>The Lancet Gastroenterology and Hepatology</i> , 2021 , 6, 826-849 | 18.8 | 8 |
| 119 | Postoperative topical analgesia of hemorrhoidectomy with policresulen and cinchocaine: a prospective and controlled study. <i>Revista Do Colegio Brasileiro De Cirurgioes</i> , 2014 , 41, 92-8 | 0.5 | 7 |
| 118 | Adalimumab for maintenance therapy for one year in Crohn's disease: results of a Latin American single-center observational study. <i>Arquivos De Gastroenterologia</i> , 2014 , 51, 39-45 | 1.3 | 7 |
| 117 | BIOLOGICAL THERAPY PENETRATION FOR INFLAMMATORY BOWEL DISEASE IN LATIN AMERICA: CURRENT STATUS AND FUTURE CHALLENGES. <i>Arquivos De Gastroenterologia</i> , 2019 , 56, 318-322 | 1.3 | 7 |
| 116 | Effects of anti-TNF- α in experimental diversion colitis. <i>Acta Cirurgica Brasileira</i> , 2019 , 34, e201901004 | 1.6 | 7 |
| 115 | Anti-TNF and Postoperative Complications in Abdominal Crohn's Disease Surgery. <i>Current Drug Targets</i> , 2019 , 20, 1339-1348 | 3 | 7 |
| 114 | Biologics and surgical outcomes in Crohn's disease: is there a direct relationship?. <i>Therapeutic Advances in Gastroenterology</i> , 2020 , 13, 1756284820931738 | 4.7 | 7 |
| 113 | Disease duration did not influence the rates of loss of efficacy of the anti-TNF therapy in Latin American Crohn's disease patients. <i>Digestion</i> , 2015 , 91, 158-63 | 3.6 | 6 |
| 112 | T300A genetic polymorphism: a susceptibility factor for Crohn's disease?. <i>Arquivos De Gastroenterologia</i> , 2014 , 51, 97-101 | 1.3 | 6 |
| 111 | Epidemiological profile of 175 patients with Crohn's disease submitted to biological therapy. <i>Journal of Coloproctology</i> , 2012 , 32, 395-401 | 0.5 | 6 |
| 110 | Postoperative Approach for Crohn's Disease: The Right Therapy to the Right Patient. <i>Current Drug Targets</i> , 2018 , 19, 729-739 | 3 | 6 |
| 109 | Biological Therapy for the Prevention and Treatment of Postoperative Endoscopic Recurrence in Crohn's Disease: Time for Acceptance?. <i>Intestinal Research</i> , 2013 , 11, 256 | 4.1 | 6 |
| 108 | Conventional Versus Biological Therapy for Prevention of Postoperative Endoscopic Recurrence in Patients With Crohn's Disease: an International, Multicenter, and Observational Study. <i>Intestinal Research</i> , 2015 , 13, 259-65 | 4.1 | 6 |
| 107 | Comparison of time until elective intestinal resection regarding previous anti-tumor necrosis factor exposure: a Brazilian study on patients with Crohn's disease. <i>Intestinal Research</i> , 2018 , 16, 62-68 | 4.1 | 6 |
| 106 | International consensus on methodological issues in standardization of fecal calprotectin measurement in inflammatory bowel diseases. <i>United European Gastroenterology Journal</i> , 2021 , 9, 451-460 | 5.3 | 6 |
| 105 | Glucose Metabolism Parameters and Post-Prandial GLP-1 and GLP-2 Release Largely Vary in Several Distinct Situations: a Controlled Comparison Among Individuals with Crohn's Disease and Individuals with Obesity Before and After Bariatric Surgery. <i>Obesity Surgery</i> , 2018 , 28, 378-388 | 3.7 | 6 |
| 104 | Up-to-date surgery for ulcerative colitis in the era of biologics. <i>Expert Opinion on Biological Therapy</i> , 2020 , 20, 391-398 | 5.4 | 5 |

| | | | |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|---|
| 103 | The impact of preoperative anti-TNF in surgical and infectious complications of abdominal procedures for Crohn's disease: controversy still persists. <i>American Journal of Gastroenterology</i> , 2014 , 109, 139 | 0.7 | 5 |
| 102 | Is fecal calprotectin useful for monitoring endoscopic disease activity in patients with postoperative Crohn's disease?. <i>Journal of Crohns and Colitis</i> , 2013 , 7, e712 | 1.5 | 5 |
| 101 | Biosimilars in inflammatory bowel diseases: an important moment for Brazilian gastroenterologists. <i>Arquivos De Gastroenterologia</i> , 2015 , 52, 76-80 | 1.3 | 5 |
| 100 | Análise de custo-minimizaçã entre o Infliximabe (IFX) e o Adalimumabe (ADA) no tratamento da doenç de Crohn (DC). <i>Revista Brasileira De Coloproctologia</i> , 2009 , 29, 158-168 | | 5 |
| 99 | Burrill Bernard Crohn (1884-1983): the man behind the disease. <i>Arquivos Brasileiros De Cirurgia Digestiva: ABCD = Brazilian Archives of Digestive Surgery</i> , 2013 , 26, 253-5 | 1.7 | 5 |
| 98 | Pre-operative Exposure to Ustekinumab: A Risk Factor for Postoperative Complications in Crohn's Disease (CD)?. <i>Current Drug Targets</i> , 2019 , 20, 1369-1372 | 3 | 5 |
| 97 | Hypoalbuminemia as a risk factor for thromboembolic events in inflammatory bowel disease inpatients. <i>Intestinal Research</i> , 2019 , 17, 63-69 | 4.1 | 5 |
| 96 | Preoperative Vedolizumab and Postoperative Outcomes in Inflammatory Bowel Disease: Does Smoke Always Mean Fire?. <i>Journal of Crohns and Colitis</i> , 2017 , 11, 643 | 1.5 | 5 |
| 95 | International consensus on the prevention of venous and arterial thrombotic events in patients with inflammatory bowel disease. <i>Nature Reviews Gastroenterology and Hepatology</i> , 2021 , 18, 857-873 | 24.2 | 5 |
| 94 | Reduction in surgical stoma rates in Crohn's disease: a population-based time trend analysis. <i>Colorectal Disease</i> , 2019 , 21, 1279-1287 | 2.1 | 4 |
| 93 | SERUM INFLIXIMAB MEASUREMENT IN INFLAMMATORY BOWEL DISEASE PATIENTS IN REMISSION: A COMPARATIVE ANALYSIS OF TWO DIFFERENT METHODS IN A MULTICENTRIC BRAZILIAN COHORT. <i>Arquivos De Gastroenterologia</i> , 2018 , 55, 192-197 | 1.3 | 4 |
| 92 | Economic impact of expanded use of biologic therapy for the treatment of rheumatoid arthritis and Crohn's disease in Argentina, Brazil, Colombia, and Mexico. <i>Journal of Medical Economics</i> , 2016 , 19, 1187-1199 | 4 | 4 |
| 91 | Extraintestinal manifestations at baseline, and the effect of tofacitinib, in patients with moderate to severe ulcerative colitis. <i>Therapeutic Advances in Gastroenterology</i> , 2021 , 14, 17562848211005708 | 4.7 | 4 |
| 90 | Postoperative mortality in inflammatory bowel disease patients. <i>Journal of Coloproctology</i> , 2017 , 37, 116-122 | 0.5 | 3 |
| 89 | Biological Treatment and the Potential Risk of Adverse Postoperative Outcome in Patients With Inflammatory Bowel Disease: An Open-Source Expert Panel Review of the Current Literature and Future Perspectives. <i>Crohns & Colitis 360</i> , 2019 , 1, | 1.4 | 3 |
| 88 | Complications after intestinal resection in Crohn's disease: laparoscopic versus conventional approach. <i>Journal of Coloproctology</i> , 2013 , 33, 139-144 | 0.5 | 3 |
| 87 | ADALIMUMAB FOR ULCERATIVE COLITIS: RESULTS OF A BRAZILIAN MULTICENTER OBSERVATIONAL STUDY. <i>Arquivos De Gastroenterologia</i> , 2017 , 54, 321-327 | 1.3 | 3 |
| 86 | Effect of anti-TNF- β n peritoneal endometrial implants of rats. <i>Revista Do Colegio Brasileiro De Cirurgioes</i> , 2011 , 38, 266-73 | 0.5 | 3 |

| | | | |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|---|
| 85 | Cell-based Therapy for Perianal Fistulising Crohn's Disease. <i>Current Pharmaceutical Design</i> , 2019 , 25, 41-46 | 3.3 | 3 |
| 84 | VEDOLIZUMAB IN THE MANAGEMENT OF INFLAMMATORY BOWEL DISEASES: A BRAZILIAN OBSERVATIONAL MULTICENTRIC STUDY. <i>Arquivos De Gastroenterologia</i> , 2019 , 56, 312-317 | 1.3 | 3 |
| 83 | Robotic Surgery in Inflammatory Bowel Disease. <i>Current Drug Targets</i> , 2021 , 22, 112-116 | 3 | 3 |
| 82 | Adalimumab in the induction of Crohn's disease remission: results of a Brazilian multicenter case series. <i>Journal of Coloproctology</i> , 2011 , 31, 233-240 | 0.5 | 3 |
| 81 | Biobetters in patients with immune-mediated inflammatory disorders: An international Delphi consensus. <i>Autoimmunity Reviews</i> , 2021 , 20, 102849 | 13.6 | 3 |
| 80 | Exploring the Relationship between Biologics and Postoperative Surgical Morbidity in Ulcerative Colitis: A Review. <i>Journal of Clinical Medicine</i> , 2021 , 10, | 5.1 | 3 |
| 79 | Diagnosis and treatment of inflammatory bowel disease: First Latin American Consensus of the Pan American Crohn's and Colitis Organisation. <i>Revista De Gastroenterología De México (English Edition)</i> , 2017 , 82, 46-84 | 0.2 | 2 |
| 78 | Special situations in inflammatory bowel disease: First Latin American consensus of the Pan American Crohn's and Colitis Organisation (PANCCO) (Second part). <i>Revista De Gastroenterología De México</i> , 2017 , 82, 134-155 | 0.7 | 2 |
| 77 | Impact of anti-TNF agents in postoperative complications in Crohn's disease: a review. <i>Journal of Coloproctology</i> , 2015 , 35, 128-136 | 0.5 | 2 |
| 76 | Letter: thromboembolic and cardiovascular events with tofacitinib in ulcerative colitis-two cases in real world clinical practice. <i>Alimentary Pharmacology and Therapeutics</i> , 2020 , 51, 1208-1209 | 6.1 | 2 |
| 75 | SAFETY PROFILE OF ANTI-TNF THERAPY IN CROHN'S DISEASE MANAGEMENT: A BRAZILIAN SINGLE-CENTER DIRECT RETROSPECTIVE COMPARISON BETWEEN INFlixIMAB AND ADALIMUMAB. <i>Arquivos De Gastroenterologia</i> , 2017 , 54, 328-332 | 1.3 | 2 |
| 74 | TOFACITINIB IN THE MANAGEMENT OF ULCERATIVE COLITIS REFRACTORY TO ANTI-TNF AND ANTI-INTEGRIN THERAPIES. <i>Arquivos De Gastroenterologia</i> , 2018 , 55, 198-200 | 1.3 | 2 |
| 73 | P511 Does the location of an IBD centre impact the rates of early postoperative endoscopic recurrence after ileocecal resection in Crohn's disease? Results from the MULTIPER database. <i>Journal of Crohns and Colitis</i> , 2014 , 8, S281 | 1.5 | 2 |
| 72 | Human fibrinogen and thrombin patch for extraluminal protection of intestinal anastomosis. <i>Journal of Coloproctology</i> , 2013 , 33, 174-178 | 0.5 | 2 |
| 71 | Infliximab versus azathioprine to prevent postoperative recurrence in Crohn's disease: are all controversial issues defined?. <i>Journal of Crohns and Colitis</i> , 2013 , 7, e698 | 1.5 | 2 |
| 70 | Double single-port transanal pouch surgery: a novel technique for rectal excision and ileo-anal pouch anastomosis for ulcerative colitis. <i>Journal of Coloproctology</i> , 2017 , 37, 328-331 | 0.5 | 2 |
| 69 | Adalimumab for perianal fistulizing Crohn's disease: real-world data adds important information for clinical practice. <i>Journal of Clinical Gastroenterology</i> , 2015 , 49, 174-5 | 3 | 2 |
| 68 | Decision tree construction and cost-effectiveness analysis of treatment of ulcerative colitis with pentasa mesalazine 2 g sachet. <i>Arquivos De Gastroenterologia</i> , 2013 , 50, 297-303 | 1.3 | 2 |

| | | | |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|---|
| 67 | A broad panel of autoantibodies in patients with celiac disease and Crohn's disease. <i>Journal of Clinical Gastroenterology</i> , 2010 , 44, 309-10 | 3 | 2 |
| 66 | Obesity and Crohn's disease: what comes first, the egg or the chicken?. <i>Arquivos De Gastroenterologia</i> , 2017 , 54, 268 | 1.3 | 2 |
| 65 | ANVISA APPROVES THE FIRST BIOSIMILAR MONOCLONAL ANTIBODY BASED ON COMPARABILITY IN BRAZIL. <i>Arquivos De Gastroenterologia</i> , 2016 , 53, 60-1 | 1.3 | 2 |
| 64 | Influência da técnica de anestesia no tempo de ocupação de sala cirúrgica nas operações anorretais. <i>Revista Brasileira De Coloproctologia</i> , 2008 , 28, 227-233 | | 2 |
| 63 | Treatment of pouchitis, Crohn's disease, cuffitis, and other inflammatory disorders of the pouch: consensus guidelines from the International Ileal Pouch Consortium. <i>The Lancet Gastroenterology and Hepatology</i> , 2021 , | 18.8 | 2 |
| 62 | Sucralfate enemas reduce the oxidative tissue damage and preserves the contents of E-cadherin and β -catenin in colonic mucosa without fecal stream. <i>Acta Cirurgica Brasileira</i> , 2021 , 36, e361007 | 1.6 | 2 |
| 61 | Endoscopic postoperative recurrence rates in Crohn's disease in Korea: the beginning of a new approach?. <i>Intestinal Research</i> , 2014 , 12, 258-9 | 4.1 | 2 |
| 60 | Letter: is measurement of faecal biomarkers helpful for the early diagnosis and prediction of pouchitis after proctocolectomy for ulcerative colitis?. <i>Alimentary Pharmacology and Therapeutics</i> , 2020 , 51, 189-190 | 6.1 | 2 |
