#	Paper	IF	Citations
65	International physical activity questionnaire: 12-country reliability and validity. <i>Medicine and Science in Sports and Exercise</i> , 2003 , 35, 1381-95	1.2	10155
64	Behavior change interventions delivered by mobile telephone short-message service. <i>American Journal of Preventive Medicine</i> , 2009 , 36, 165-73	6.1	897
63	Reliability and validity of a modified self-administered version of the Active Australia physical activity survey in a sample of mid-age women. <i>Australian and New Zealand Journal of Public Health</i> , 2008 , 32, 535-41	2.3	239
62	Measuring total and domain-specific sitting: a study of reliability and validity. <i>Medicine and Science in Sports and Exercise</i> , 2010 , 42, 1094-102	1.2	236
61	Prospective study of physical activity and depressive symptoms in middle-aged women. <i>American Journal of Preventive Medicine</i> , 2005 , 29, 265-72	6.1	187
60	MobileMums: a randomized controlled trial of an SMS-based physical activity intervention. <i>Annals of Behavioral Medicine</i> , 2010 , 39, 101-11	4.5	182
59	Changes in neighborhood walking are related to changes in perceptions of environmental attributes. <i>Annals of Behavioral Medicine</i> , 2004 , 27, 60-7	4.5	179
58	Print versus website physical activity programs: a randomized trial. <i>American Journal of Preventive Medicine</i> , 2003 , 25, 88-94	6.1	160
57	Screening for physical activity in family practice: evaluation of two brief assessment tools. <i>American Journal of Preventive Medicine</i> , 2005 , 29, 256-64	6.1	150
56	Reliability and validity of a brief physical activity assessment for use by family doctors. <i>British Journal of Sports Medicine</i> , 2005 , 39, 294-7; discussion 294-7	10.3	144
55	Associations of location and perceived environmental attributes with walking in neighborhoods. <i>American Journal of Health Promotion</i> , 2004 , 18, 239-42	2.5	125
54	Engagement and retention of participants in a physical activity website. <i>Preventive Medicine</i> , 2005 , 40, 54-9	4.3	124
53	Preventive Health Behavior Change Text Message Interventions: A Meta-analysis. <i>American Journal of Preventive Medicine</i> , 2017 , 52, 391-402	6.1	100
52	Challenges and opportunities for promoting physical activity in the workplace. <i>Journal of Science and Medicine in Sport</i> , 2004 , 7, 60-6	4.4	100
51	Mediated approaches for influencing physical activity: update of the evidence on mass media, print, telephone and website delivery of interventions. <i>Journal of Science and Medicine in Sport</i> , 2004 , 7, 74-80	4.4	94
50	Perceptions of the physical environment, stage of change for physical activity, and walking among Australian adults. <i>Research Quarterly for Exercise and Sport</i> , 2002 , 73, 146-55	1.9	66
49	Iterative development of MobileMums: a physical activity intervention for women with young children. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2012 , 9, 151	8.4	62

48	Randomized trial of a neighborhood environment-focused physical activity website intervention. <i>Preventive Medicine</i> , 2009 , 48, 144-50	4.3	62
47	Population-based randomized controlled trial of a stage-targeted physical activity intervention. <i>Annals of Behavioral Medicine</i> , 2003 , 25, 194-202	4.5	62
46	Cost-effectiveness of a telephone-delivered intervention for physical activity and diet. <i>PLoS ONE</i> , 2009 , 4, e7135	3.7	59
45	Comparative effects of home- and group-based exercise on balance confidence and balance ability in older adults: cluster randomized trial. <i>Gerontology</i> , 2008 , 54, 272-80	5.5	59
44	Can motivational signs prompt increases in incidental physical activity in an Australian health-care facility?. <i>Health Education Research</i> , 2002 , 17, 743-9	1.8	53
43	Randomized trial of three strategies to promote physical activity in general practice. <i>Preventive Medicine</i> , 2009 , 48, 156-63	4.3	51
42	Reliability and validity of the international physical activity questionnaire for assessing walking. <i>Research Quarterly for Exercise and Sport</i> , 2010 , 81, 97-101	1.9	50
41	Measurement properties of the CHAMPS physical activity questionnaire in a sample of older Australians. <i>Journal of Science and Medicine in Sport</i> , 2006 , 9, 319-26	4.4	50
40	Can skin cancer prevention and early detection be improved via mobile phone text messaging? A randomised, attention control trial. <i>Preventive Medicine</i> , 2015 , 71, 50-6	4.3	46
39	Website physical activity interventions: preferences of potential users. <i>Health Education Research</i> , 2006 , 21, 560-6	1.8	45
38	Measuring Physical Activity Change in Broad-Reach Intervention Trials. <i>Journal of Physical Activity and Health</i> , 2010 , 7, 194-202	2.5	42
37	Living Well with Diabetes: a randomized controlled trial of a telephone-delivered intervention for maintenance of weight loss, physical activity and glycaemic control in adults with type 2 diabetes. <i>BMC Public Health</i> , 2010 , 10, 452	4.1	41
36	Pilot study of an individualised early postpartum intervention to increase physical activity in women with previous gestational diabetes. <i>International Journal of Endocrinology</i> , 2012 , 2012, 892019	2.7	40
35	Retention, adherence and compliance: important considerations for home- and group-based resistance training programs for older adults. <i>Journal of Science and Medicine in Sport</i> , 2006 , 9, 402-12	4.4	40
34	Repeatability and accuracy of CHAMPS as a measure of physical activity in a community sample of older Australian adults. <i>Journal of Physical Activity and Health</i> , 2009 , 6, 221-9	2.5	37
33	Active adults recall their physical activity differently to less active adults: test-retest reliability and validity of a physical activity survey. <i>Health Promotion Journal of Australia</i> , 2013 , 24, 26-31	1.7	36
32	Reaching out to promote physical activity in Australia: a statewide randomized controlled trial of a stage-targeted intervention. <i>American Journal of Health Promotion</i> , 2004 , 18, 283-7	2.5	36
31	Trial of print and telephone delivered interventions to influence walking. <i>Preventive Medicine</i> , 2004 , 39, 635-41	4.3	34

30	Measurement properties of the Australian Women's Activity Survey. <i>Medicine and Science in Sports and Exercise</i> , 2009 , 41, 1020-33	1.2	32
29	Health-enhancing physical activity behaviour and related factors in postpartum women with recent gestational diabetes mellitus. <i>Journal of Science and Medicine in Sport</i> , 2010 , 13, 42-5	4.4	32
28	Comparison of the effects of a home-based and group-based resistance training program on functional ability in older adults. <i>American Journal of Health Promotion</i> , 2008 , 23, 13-7	2.5	31
27	Randomized Controlled Trial of an Improved Version of MobileMums, an Intervention for Increasing Physical Activity in Women with Young Children. <i>Annals of Behavioral Medicine</i> , 2015 , 49, 487-99	4.5	29
26	Perceived barriers and facilitators to increasing physical activity among people with musculoskeletal disorders: a qualitative investigation to inform intervention development. <i>Clinical Interventions in Aging</i> , 2014 , 9, 2113-22	4	26
25	Physical activity promotion in primary care: bridging the gap between research and practice. <i>American Journal of Preventive Medicine</i> , 2004 , 27, 297-303	6.1	26
24	Age, physical inactivity, obesity, health conditions, and health-related quality of life among patients receiving conservative management for musculoskeletal disorders. <i>Clinical Interventions in Aging</i> , 2014 , 9, 1069-80	4	25
23	Social cognitive mediators of the effect of the MobileMums intervention on physical activity. <i>Health Psychology</i> , 2013 , 32, 729-38	5	25
22	Validation of a 24-h physical activity recall in indigenous and non-indigenous Australian adolescents. <i>Journal of Science and Medicine in Sport</i> , 2007 , 10, 428-35	4.4	25
21	Promoting physical activity in Australian general practices: a randomised trial of health promotion advice versus hypertension management. <i>Patient Education and Counseling</i> , 2005 , 56, 283-90	3.1	25
20	Measuring quality of life in older people: Reliability and validity of WHOQOL-OLD. <i>Australasian Journal on Ageing</i> , 2007 , 26, 162-167	1.5	24
19	Measuring physical activity change in broad-reach intervention trials. <i>Journal of Physical Activity and Health</i> , 2010 , 7, 194-202	2.5	22
18	Estimating physical activity level: the role of domestic activities. <i>Journal of Epidemiology and Community Health</i> , 2004 , 58, 466-7	5.1	21
17	Exploring the feasibility and acceptability of using internet technology to promote physical activity within a defined community. <i>Health Promotion Journal of Australia</i> , 2005 , 16, 82-4	1.7	21
16	Exploring the meaning of, the barriers to and potential strategies for promoting physical activity among urban Indigenous Australians. <i>Health Promotion Journal of Australia</i> , 2008 , 19, 102-8	1.7	19
15	Postpartum diet quality in Australian women following a gestational diabetes pregnancy. <i>European Journal of Clinical Nutrition</i> , 2012 , 66, 1160-5	5.2	17
14	Correlates of pedometer use: results from a community-based physical activity intervention trial (10,000 Steps Rockhampton). <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2007 , 4, 31	8.4	15
13	Knowledge of and preferred sources of assistance for physical activity in a sample of urban Indigenous Australians. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2008 , 5, 22	8.4	14

12	Should all steps count when using a pedometer as a measure of physical activity in older adults?. <i>Journal of Physical Activity and Health</i> , 2007 , 4, 305-14	2.5	13
11	Physical activity in women with young children: how can we assess "anything that's not sitting"?. <i>Women and Health</i> , 2007 , 45, 95-116	1.7	12
10	Associations between sitting time and health-related quality of life among older men. <i>Mental Health and Physical Activity</i> , 2013 , 6, 49-54	5	10
9	Prompting health professionals to be activity role models--motivating stair use at the 2001 ACSM scientific meeting. <i>Journal of Physical Activity and Health</i> , 2008 , 5, 607-18	2.5	10
8	Moving MobileMums forward: protocol for a larger randomized controlled trial of an improved physical activity program for women with young children. <i>BMC Public Health</i> , 2013 , 13, 593	4.1	9
7	Personalised electronic messages to improve sun protection in young adults. <i>Journal of Telemedicine and Telecare</i> , 2012 , 18, 247-52	6.8	8
6	Depressive symptoms during pregnancy: Exploring the role of sitting. <i>Mental Health and Physical Activity</i> , 2013 , 6, 36-42	5	6
5	The cost-effectiveness of the MobileMums intervention to increase physical activity among mothers with young children: a Markov model informed by a randomised controlled trial. <i>BMJ Open</i> , 2015 , 5, e007226	3	6
4	Patient Preferences for Receiving Remote Communication Support for Lifestyle Physical Activity Behaviour Change: The Perspective of Patients with Musculoskeletal Disorders from Three Hospital Services. <i>BioMed Research International</i> , 2015 , 2015, 390352	3	5
3	User preferences for text message-delivered skin cancer prevention and early detection. <i>Journal of Telemedicine and Telecare</i> , 2015 , 21, 227-34	6.8	3
2	Mediation of improvements in sun protective and skin self-examination behaviours: results from the healthy text study. <i>Psycho-Oncology</i> , 2016 , 25, 28-35	3.9	3
1	How does MobileMums work? Mediators of a physical activity intervention. <i>Psychology and Health</i> , 2020 , 35, 968-983	2.9	2
