

Peggy M Zoccola

List of Publications by Citations

Source: <https://exaly.com/author-pdf/339277/peggy-m-zoccola-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
37	Rumination predicts longer sleep onset latency after an acute psychosocial stressor. <i>Psychosomatic Medicine</i> , 2009 , 71, 771-5	3.7	122
36	Assessing the relationship between rumination and cortisol: a review. <i>Journal of Psychosomatic Research</i> , 2012 , 73, 1-9	4.1	108
35	Rumination and cortisol responses to laboratory stressors. <i>Psychosomatic Medicine</i> , 2008 , 70, 661-7	3.7	103
34	Salivary cortisol responses to a psychosocial laboratory stressor and later verbal recall of the stressor: The role of trait and state rumination. <i>Stress</i> , 2010 , 13, 435-43	3	54
33	Post-stress rumination predicts HPA axis responses to repeated acute stress. <i>Psychoneuroendocrinology</i> , 2014 , 49, 244-52	5	50
32	Differential effects of poststressor rumination and distraction on cortisol and C-reactive protein. <i>Health Psychology</i> , 2014 , 33, 1606-9	5	49
31	Trait and state perseverative cognition and the cortisol awakening response. <i>Psychoneuroendocrinology</i> , 2011 , 36, 592-5	5	33
30	Eliciting and maintaining ruminative thought: the role of social-evaluative threat. <i>Emotion</i> , 2012 , 12, 673-677	4.1	32
29	Social-evaluative threat, cognitive load, and the cortisol and cardiovascular stress response. <i>Psychoneuroendocrinology</i> , 2018 , 97, 149-155	5	26
28	Communication and Stress: Effects of Hope Evocation and Rumination Messages on Heart Rate, Anxiety, and Emotions After a Stressor. <i>Health Communication</i> , 2016 , 31, 1447-59	3.2	24
27	Understanding the utility of emotional approach coping: evidence from a laboratory stressor and daily life. <i>Anxiety, Stress and Coping</i> , 2015 , 28, 50-70	3.1	21
26	Stress-Induced Parasympathetic Control and Its Association With Inflammatory Reactivity. <i>Psychosomatic Medicine</i> , 2017 , 79, 306-310	3.7	20
25	Extending the recovery window: Effects of trait rumination on subsequent evening cortisol following a laboratory performance stressor. <i>Psychoneuroendocrinology</i> , 2015 , 58, 67-78	5	18
24	Buccal telomere length and its associations with cortisol, heart rate variability, heart rate, and blood pressure responses to an acute social evaluative stressor in college students. <i>Stress</i> , 2017 , 20, 249-257	3	16
23	The embarrassed bystander: Embarrassability and the inhibition of helping. <i>Personality and Individual Differences</i> , 2011 , 51, 925-929	3.3	15
22	Cognitive behavioral therapy, mindfulness, and cortisol habituation: A randomized controlled trial. <i>Psychoneuroendocrinology</i> , 2019 , 104, 276-285	5	13
21	"Having the heart to be evaluated": The differential effects of fears of positive and negative evaluation on emotional and cardiovascular responses to social threat. <i>Journal of Anxiety Disorders</i> , 2015 , 36, 115-26	10.9	13

20	Fears of Positive versus Negative Evaluation: Distinct and Conjoint Neuroendocrine, Emotional, and Cardiovascular Responses to Social Threat. <i>Journal of Experimental Psychopathology</i> , 2016 , 7, 632-654	2.3	10
19	Trait Rumination Predicts Elevated Evening Cortisol in Sexual and Gender Minority Young Adults. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	7
18	Trait mindfulness predicts the presence but not the magnitude of cortisol responses to acute stress. <i>Psychoneuroendocrinology</i> , 2018 , 90, 29-34	5	6
17	Cardiovascular and affective consequences of ruminating on a performance stressor depend on mode of thought. <i>Stress and Health</i> , 2014 , 30, 188-97	3.7	6
16	Trait reflection predicts interleukin-6 response to a social-evaluative stressor. <i>Brain, Behavior, and Immunity</i> , 2016 , 52, 27-31	16.6	5
15	Is Receiving Social Support Costly for Those Higher in Subjective Socioeconomic Status?. <i>International Journal of Behavioral Medicine</i> , 2020 , 27, 325-336	2.6	4
14	A Test of the Association Between Mindfulness Subcomponents and Diurnal Cortisol Patterns. <i>Mindfulness</i> , 2018 , 9, 897-904	2.9	4
13	Sources of Discrimination and Their Associations With Health in Sexual Minority Adults. <i>Journal of Homosexuality</i> , 2016 , 63, 743-63	2.1	4
12	Recovery from stress: an experimental examination of focused attention meditation in novices. <i>Journal of Behavioral Medicine</i> , 2018 , 41, 836-849	3.6	4
11	Testosterone to cortisol ratio and aggression toward one's partner: Evidence for moderation by provocation. <i>Psychoneuroendocrinology</i> , 2019 , 103, 130-136	5	4
10	Daily stressors and diurnal cortisol among sexual and gender minority young adults. <i>Health Psychology</i> , 2021 , 40, 145-154	5	4
9	Standardized stress reduction interventions and blood pressure habituation: Secondary results from a randomized controlled trial. <i>Health Psychology</i> , 2021 , 40, 196-206	5	3
8	Trait rumination moderates the effect of mentation type on heart rate responses to stressor recall. <i>Stress</i> , 2015 , 18, 554-60	3	2
7	Corroborative evidence for an association between initial hypothalamic-pituitary-adrenocortical axis reactivity and subsequent habituation in humans. <i>Psychoneuroendocrinology</i> , 2020 , 121, 104798	5	2
6	Childhood adversity and cortisol habituation to repeated stress in adulthood. <i>Psychoneuroendocrinology</i> , 2021 , 125, 105118	5	2
5	Rumination 2020 , 557-567		1
4	Gender roles are related to cortisol habituation to repeated social evaluative stressors in adults: secondary analyses from a randomized controlled trial. <i>Stress</i> , 2021 , 1-11	3	1
3	Education Is Associated with the Magnitude of Cortisol Responses to Psychosocial Stress in College Students. <i>International Journal of Behavioral Medicine</i> , 2018 , 25, 532-539	2.6	1

- 2 When enhanced awareness threatens: Interactive effects of domain-specific awareness and acceptance manipulations on cardiovascular indices of challenge and threat. *Psychophysiology*, **2021**, 58, e13697 4.1 ○
- 1 New Instructions to Authors Emphasize Open Science, Transparency, Full Reporting of Sociodemographic Characteristics of the Sample, and Avoidance of Piecemeal Publication.. *Annals of Behavioral Medicine*, **2022**, 56, 415-417 4.5 ○
