

# Peggy M Zoccola

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/339277/peggy-m-zoccola-publications-by-year.pdf>

**Version:** 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

37  
papers

787  
citations

#	Paper	IF	Citations
37	New Instructions to Authors Emphasize Open Science, Transparency, Full Reporting of Sociodemographic Characteristics of the Sample, and Avoidance of Piecemeal Publication.. <i>Annals of Behavioral Medicine</i> , <b>2022</b> , 56, 415-417	4.5	0
36	Childhood adversity and cortisol habituation to repeated stress in adulthood. <i>Psychoneuroendocrinology</i> , <b>2021</b> , 125, 105118	5	2
35	Gender roles are related to cortisol habituation to repeated social evaluative stressors in adults: secondary analyses from a randomized controlled trial. <i>Stress</i> , <b>2021</b> , 1-11	3	1
34	When enhanced awareness threatens: Interactive effects of domain-specific awareness and acceptance manipulations on cardiovascular indices of challenge and threat. <i>Psychophysiology</i> , <b>2021</b> , 58, e13697	4.1	0
33	Daily stressors and diurnal cortisol among sexual and gender minority young adults. <i>Health Psychology</i> , <b>2021</b> , 40, 145-154	5	4
32	Standardized stress reduction interventions and blood pressure habituation: Secondary results from a randomized controlled trial. <i>Health Psychology</i> , <b>2021</b> , 40, 196-206	5	3
31	Corroborative evidence for an association between initial hypothalamic-pituitary-adrenocortical axis reactivity and subsequent habituation in humans. <i>Psychoneuroendocrinology</i> , <b>2020</b> , 121, 104798	5	2
30	Is Receiving Social Support Costly for Those Higher in Subjective Socioeconomic Status?. <i>International Journal of Behavioral Medicine</i> , <b>2020</b> , 27, 325-336	2.6	4
29	Rumination <b>2020</b> , 557-567		1
28	Cognitive behavioral therapy, mindfulness, and cortisol habituation: A randomized controlled trial. <i>Psychoneuroendocrinology</i> , <b>2019</b> , 104, 276-285	5	13
27	Testosterone to cortisol ratio and aggression toward one's partner: Evidence for moderation by provocation. <i>Psychoneuroendocrinology</i> , <b>2019</b> , 103, 130-136	5	4
26	Trait mindfulness predicts the presence but not the magnitude of cortisol responses to acute stress. <i>Psychoneuroendocrinology</i> , <b>2018</b> , 90, 29-34	5	6
25	A Test of the Association Between Mindfulness Subcomponents and Diurnal Cortisol Patterns. <i>Mindfulness</i> , <b>2018</b> , 9, 897-904	2.9	4
24	Social-evaluative threat, cognitive load, and the cortisol and cardiovascular stress response. <i>Psychoneuroendocrinology</i> , <b>2018</b> , 97, 149-155	5	26
23	Recovery from stress: an experimental examination of focused attention meditation in novices. <i>Journal of Behavioral Medicine</i> , <b>2018</b> , 41, 836-849	3.6	4
22	Education Is Associated with the Magnitude of Cortisol Responses to Psychosocial Stress in College Students. <i>International Journal of Behavioral Medicine</i> , <b>2018</b> , 25, 532-539	2.6	1
21	Buccal telomere length and its associations with cortisol, heart rate variability, heart rate, and blood pressure responses to an acute social evaluative stressor in college students. <i>Stress</i> , <b>2017</b> , 20, 249-257	3	16

20	Stress-Induced Parasympathetic Control and Its Association With Inflammatory Reactivity. <i>Psychosomatic Medicine</i> , <b>2017</b> , 79, 306-310	3.7	20
19	Trait Rumination Predicts Elevated Evening Cortisol in Sexual and Gender Minority Young Adults. <i>International Journal of Environmental Research and Public Health</i> , <b>2017</b> , 14,	4.6	7
18	Communication and Stress: Effects of Hope Evocation and Rumination Messages on Heart Rate, Anxiety, and Emotions After a Stressor. <i>Health Communication</i> , <b>2016</b> , 31, 1447-59	3.2	24
17	Sources of Discrimination and Their Associations With Health in Sexual Minority Adults. <i>Journal of Homosexuality</i> , <b>2016</b> , 63, 743-63	2.1	4
16	Fears of Positive versus Negative Evaluation: Distinct and Conjoint Neuroendocrine, Emotional, and Cardiovascular Responses to Social Threat. <i>Journal of Experimental Psychopathology</i> , <b>2016</b> , 7, 632-654	2.3	10
15	Trait reflection predicts interleukin-6 response to a social-evaluative stressor. <i>Brain, Behavior, and Immunity</i> , <b>2016</b> , 52, 27-31	16.6	5
14	Extending the recovery window: Effects of trait rumination on subsequent evening cortisol following a laboratory performance stressor. <i>Psychoneuroendocrinology</i> , <b>2015</b> , 58, 67-78	5	18
13	Understanding the utility of emotional approach coping: evidence from a laboratory stressor and daily life. <i>Anxiety, Stress and Coping</i> , <b>2015</b> , 28, 50-70	3.1	21
12	"Having the heart to be evaluated": The differential effects of fears of positive and negative evaluation on emotional and cardiovascular responses to social threat. <i>Journal of Anxiety Disorders</i> , <b>2015</b> , 36, 115-26	10.9	13
11	Trait rumination moderates the effect of mentation type on heart rate responses to stressor recall. <i>Stress</i> , <b>2015</b> , 18, 554-60	3	2
10	Cardiovascular and affective consequences of ruminating on a performance stressor depend on mode of thought. <i>Stress and Health</i> , <b>2014</b> , 30, 188-97	3.7	6
9	Post-stress rumination predicts HPA axis responses to repeated acute stress. <i>Psychoneuroendocrinology</i> , <b>2014</b> , 49, 244-52	5	50
8	Differential effects of poststressor rumination and distraction on cortisol and C-reactive protein. <i>Health Psychology</i> , <b>2014</b> , 33, 1606-9	5	49
7	Eliciting and maintaining ruminative thought: the role of social-evaluative threat. <i>Emotion</i> , <b>2012</b> , 12, 673-677	4.1	32
6	Assessing the relationship between rumination and cortisol: a review. <i>Journal of Psychosomatic Research</i> , <b>2012</b> , 73, 1-9	4.1	108
5	Trait and state perseverative cognition and the cortisol awakening response. <i>Psychoneuroendocrinology</i> , <b>2011</b> , 36, 592-5	5	33
4	The embarrassed bystander: Embarrassability and the inhibition of helping. <i>Personality and Individual Differences</i> , <b>2011</b> , 51, 925-929	3.3	15
3	Salivary cortisol responses to a psychosocial laboratory stressor and later verbal recall of the stressor: The role of trait and state rumination. <i>Stress</i> , <b>2010</b> , 13, 435-43	3	54

- 2 Rumination predicts longer sleep onset latency after an acute psychosocial stressor. *Psychosomatic Medicine*, **2009**, 71, 771-5 3.7 122
- 1 Rumination and cortisol responses to laboratory stressors. *Psychosomatic Medicine*, **2008**, 70, 661-7 3.7 103
