Μλότλ Κόλςνν

#	Article	IF	CITATIONS
1	Patency of nasopharynx and a cephalometric image in the children with orthodontic problems. International Journal of Pediatric Otorhinolaryngology, 2009, 73, 1803-1809.	1.0	15
2	Evaluation of safety and efficacy of radiation-sterilized bone allografts in reconstructive oral surgery. Cell and Tissue Banking, 2013, 14, 367-374.	1.1	11
3	Two-stage closed sinus lift: a new surgical technique for maxillary sinus floor augmentation. Cell and Tissue Banking, 2015, 16, 579-585.	1.1	11
4	Evaluation of treatment outcomes and clinical indications for antibiotic prophylaxis in patients undergoing implantation procedures. Advances in Medical Sciences, 2016, 61, 113-116.	2.1	11
5	Analysis of effect of non-steroidal anti-inflammatory drugs on teeth and oral tissues during orthodontic treatment. Report based on literature review. Acta Poloniae Pharmaceutica, 2013, 70, 573-7.	0.1	10
6	Long-term outcomes of the use of allogeneic, radiation-sterilised bone blocks in reconstruction of the atrophied alveolar ridge in the maxilla and mandible. Cell and Tissue Banking, 2015, 16, 631-638.	1.1	9
7	Allogeneic Bone Block Volume Preservation in Ridge Augmentation for Implants. International Journal of Periodontics and Restorative Dentistry, 2018, 38, 355-360.	1.0	8
8	Clinical Use of Allogeneic Bone Granulates to Reconstruct Maxillary and Mandibular Alveolar Processes. Transplantation Proceedings, 2011, 43, 3142-3144.	0.6	7
9	Relative nasopharyngeal patency index as possible objective indication for adenoidectomy in children with orthodontic problems. International Journal of Pediatric Otorhinolaryngology, 2011, 75, 250-255.	1.0	6
10	Preparation of allogeneic bone for alveolar ridge augmentation. Cell and Tissue Banking, 2017, 18, 313-321.	1.1	6
11	Allogeneic materials in complications associated with pre-implantation restoration of maxillary and mandibular alveolar processes. A four case report. Cell and Tissue Banking, 2014, 15, 381-389.	1.1	5
12	Global maxillary ridge augmentation with frozen radiation-sterilised bone blocks followed by implant placement: a case report. Cell and Tissue Banking, 2015, 16, 35-41.	1.1	4
13	En Bloc Autotransplantation of Retained Canine in the Mandible: A Case Presentation. International Journal of Periodontics and Restorative Dentistry, 2020, 40, 403-407.	1.0	4
14	Alternative Methods of Repositioning Impacted Maxillary Canines in the Dental Arch—En Bloc Autotransplantation of a Tooth. Transplantation Proceedings, 2020, 52, 2236-2238.	0.6	3
15	Morphological predictors of sleep apnoea severity. Folia Morphologica, 2016, 75, 107-111.	0.8	3
16	Long term outcomes of en-block autotransplantation of a tooth. Cell and Tissue Banking, 0, , .	1.1	2
17	Aesthetic and functional restoration of the dental arch continuity in difficult cases of impacted teeth within the frontal segment. Cell and Tissue Banking, 2021, , 1.	1.1	1
18	Location of the narrowest area of the pharynx regarding body mass index and obstructive sleep apnoea severity. Folia Morphologica, 2017, 76, 491-500.	0.8	0
