

Konstantin V Danilenko

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/3399399/konstantin-v-danilenko-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
35	Winter-summer difference in post-awakening salivary α -amylase and sleepiness depending on sleep and melatonin. <i>Physiology and Behavior</i> , 2021 , 240, 113549	3.5	2
34	Effectiveness of Visual vs. Acoustic Closed-Loop Stimulation on EEG Power Density during NREM Sleep in Humans. <i>Clocks & Sleep</i> , 2020 , 2, 172-181	2.9	2
33	Circadian reinforcement therapy in combination with electronic self-monitoring to facilitate a safe post-discharge period of patients with depression by stabilizing sleep: protocol of a randomized controlled trial. <i>BMC Psychiatry</i> , 2019 , 19, 124	4.2	6
32	Summer-winter difference in 24-h melatonin rhythms in subjects on a 5-workdays schedule in Siberia without daylight saving time transitions. <i>Physiology and Behavior</i> , 2019 , 212, 112686	3.5	3
31	A 6-day combined wake and light therapy trial for unipolar depression. <i>Journal of Affective Disorders</i> , 2019 , 259, 355-361	6.6	9
30	787. Xenon in Sub-Anesthetic Doses for Treatment of Major Depression: A Proof-of-Concept Placebo-Controlled Pilot Study. <i>Biological Psychiatry</i> , 2017 , 81, S319-S320	7.9	2
29	Investigation of an Immediate Effect of Bright Light on Oxygen Consumption, Heart Rate, Cortisol, and α -Amylase in Seasonal Affective Disorder Subjects and Healthy Controls. <i>Neuropsychobiology</i> , 2016 , 74, 219-225	4	7
28	Influence of artificial dusk on sleep. <i>Sleep and Biological Rhythms</i> , 2016 , 14, 47-53	1.3	1
27	The hockey-stick method to estimate evening dim light melatonin onset (DLMO) in humans. <i>Chronobiology International</i> , 2014 , 31, 349-55	3.6	39
26	Bright light for weight loss: results of a controlled crossover trial. <i>Obesity Facts</i> , 2013 , 6, 28-38	5.1	32
25	Seasonal affective disorder. <i>Handbook of Clinical Neurology / Edited By P J Vinken and G W Bruyn</i> , 2012 , 106, 279-89	3	10
24	Human cone light sensitivity and melatonin rhythms following 24-hour continuous illumination. <i>Chronobiology International</i> , 2011 , 28, 407-14	3.6	15
23	Menstrual cycles are influenced by sunshine. <i>Gynecological Endocrinology</i> , 2011 , 27, 711-6	2.4	6
22	The physiological period length of the human circadian clock in vivo is directly proportional to period in human fibroblasts. <i>PLoS ONE</i> , 2010 , 5, e13376	3.7	64
21	Impact of oral melatonin on the electroretinogram cone response. <i>Journal of Circadian Rhythms</i> , 2009 , 7, 14	2.5	16
20	Human retinal light sensitivity and melatonin rhythms following four days in near darkness. <i>Chronobiology International</i> , 2009 , 26, 93-107	3.6	18
19	Influence of timed nutrient diet on depression and light sensitivity in seasonal affective disorder. <i>Chronobiology International</i> , 2008 , 25, 51-64	3.6	15

18	Stimulatory effect of morning bright light on reproductive hormones and ovulation: results of a controlled crossover trial. <i>PLOS Clinical Trials</i> , 2007 , 2, e7		11
17	Shortening of the menstrual cycle following light therapy in seasonal affective disorder. <i>Psychiatry Research</i> , 2007 , 153, 93-5	9.9	9
16	Antidepressant effects of light therapy and natural treatments for winter depression. <i>Biological Rhythm Research</i> , 2005 , 36, 423-437	0.8	2
15	Melatonin treatment of winter depression following total sleep deprivation: waking EEG and mood correlates. <i>Neuropsychopharmacology</i> , 2005 , 30, 1345-52	8.7	26
14	Antidepressant effects of combination of sleep deprivation and early evening treatment with melatonin or placebo for winter depression. <i>Biological Rhythm Research</i> , 2005 , 36, 389-403	0.8	4
13	Brightening depression. <i>Science</i> , 2004 , 303, 467-9	33.3	58
12	Evening melatonin and bright light administration induce additive phase shifts in dim light melatonin onset. <i>Journal of Pineal Research</i> , 2004 , 36, 192-4	10.4	41
11	Is sleep per se a zeitgeber in humans?. <i>Journal of Biological Rhythms</i> , 2003 , 18, 170-8	3.2	80
10	Menstrual Phase Response to Nocturnal Light. <i>Biological Rhythm Research</i> , 2002 , 33, 23-38	0.8	4
9	Phase advance after one or three simulated dawns in humans. <i>Chronobiology International</i> , 2000 , 17, 659-68	3.6	26
8	The human circadian pacemaker can see by the dawn's early light. <i>Journal of Biological Rhythms</i> , 2000 , 15, 437-46	3.2	45
7	Phase of melatonin rhythm in winter depression. <i>Advances in Experimental Medicine and Biology</i> , 1999 , 460, 441-58	3.6	16
6	The Sympatho-Adrenal and Energy-Regulating Systems in Winter Depression 1999 , 455-458		1
5	Evening administration of melatonin and bright light: interactions on the EEG during sleep and wakefulness. <i>Journal of Sleep Research</i> , 1998 , 7, 145-57	5.8	91
4	The hypothermic effect of late evening melatonin does not block the phase delay induced by concurrent bright light in human subjects. <i>Neuroscience Letters</i> , 1997 , 232, 57-61	3.3	45
3	The importance of full summer remission as a criterion for the diagnosis of seasonal affective disorder. <i>Psychopathology</i> , 1996 , 29, 230-5	3.4	7
2	Diurnal and seasonal variations in cortisol, prolactin, TSH and thyroid hormones in women with and without seasonal affective disorder. <i>Journal of Interdisciplinary Cycle Research</i> , 1993 , 24, 185-196		9
1	Hemispheric language lateralization in seasonal affective disorder and light treatment. <i>Psychiatry Research</i> , 1993 , 47, 99-108	9.9	11
