#	ARTICLE	IF	CITATIONS
1	Measuring Communicative Participation: A Review of Self-Report Instruments in Speech-Language Pathology. <i>American Journal of Speech-Language Pathology</i> , 2006, 15, 307-320.	0.9	186
2	The Communicative Participation Item Bank (CPIB): Item Bank Calibration and Development of a Disorder-Generic Short Form. <i>Journal of Speech, Language, and Hearing Research</i> , 2013, 56, 1190-1208.	0.7	168
3	The cost and benefits of employment: a qualitative study of experiences of persons with multiple sclerosis. <i>Archives of Physical Medicine and Rehabilitation</i> , 2004, 85, 201-209.	0.5	113
4	Communication and Aging. <i>Physical Medicine and Rehabilitation Clinics of North America</i> , 2010, 21, 309-319.	0.7	111
5	A Qualitative Study of Interference With Communicative Participation Across Communication Disorders in Adults. <i>American Journal of Speech-Language Pathology</i> , 2011, 20, 269-287.	0.9	104
6	Communication in Context: A Qualitative Study of the Experiences of Individuals With Multiple Sclerosis. <i>American Journal of Speech-Language Pathology</i> , 2001, 10, 126-137.	0.9	102
7	The consequences of spasmodic dysphonia on communication-related quality of life: A qualitative study of the insider's experiences. <i>Journal of Communication Disorders</i> , 2005, 38, 395-419.	0.8	89
8	Social support, depression, and physical disability: Age and diagnostic group effects. <i>Disability and Health Journal</i> , 2014, 7, 164-172.	1.6	89
9	Management of oral-pharyngeal dysphagia symptoms in amyotrophic lateral sclerosis. <i>Dysphagia</i> , 1996, 11, 129-139.	1.0	86
10	Do principles of motor learning enhance retention and transfer of speech skills? A systematic review. <i>Aphasiology</i> , 2012, 26, 709-728.	1.4	81
11	An Introduction to Item Response Theory and Rasch Models for Speech-Language Pathologists. <i>American Journal of Speech-Language Pathology</i> , 2011, 20, 243-259.	0.9	75
12	Variables Associated With Communicative Participation in People With Multiple Sclerosis: A Regression Analysis. <i>American Journal of Speech-Language Pathology</i> , 2010, 19, 143-153.	0.9	68
13	Developing the Communicative Participation Item Bank: Rasch Analysis Results From a Spasmodic Dysphonia Sample. <i>Journal of Speech, Language, and Hearing Research</i> , 2009, 52, 1302-1320.	0.7	57
14	Training healthcare providers in patient-provider communication: What speech-language pathology and medical education can learn from one another. <i>Aphasiology</i> , 2012, 26, 673-688.	1.4	56
15	Frequency of Word Occurrence in Communication Samples Produced by Adult Communication Aid Users. <i>The Journal of Speech and Hearing Disorders</i> , 1984, 49, 360-367.	1.3	55
16	Variables associated with communicative participation in Parkinson's disease and its relationship to measures of health-related quality-of-life. <i>International Journal of Speech-Language Pathology</i> , 2017, 19, 407-417.	0.6	55
17	A comparison of standard and user vocabulary lists. <i>AAC: Augmentative and Alternative Communication</i> , 1988, 4, 189-210.	0.8	54
18	Developing a scale of communicative participation: A cognitive interviewing study. <i>Disability and Rehabilitation</i> , 2008, 30, 425-433.	0.9	54

#	ARTICLE	IF	CITATIONS
19	Communicative participation restrictions in multiple sclerosis: Associated variables and correlation with social functioning. <i>Journal of Communication Disorders</i> , 2014, 52, 196-206.	0.8	54
20	Getting the work done: a qualitative study of individuals with multiple sclerosis. <i>Disability and Rehabilitation</i> , 2003, 25, 369-379.	0.9	53
21	Growing Older With a Physical Disability: A Special Application of the Successful Aging Paradigm: Table 1.. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2016, 72, gbw122.	2.4	42
22	The relationship between communicative participation and postlaryngectomy speech outcomes. <i>Head and Neck</i> , 2016, 38, E1955-61.	0.9	41
23	The Psychosocial Consequences of BOTOX Injections for Spasmodic Dysphonia: A Qualitative Study of Patients' Experiences. <i>Journal of Voice</i> , 2007, 21, 231-247.	0.6	38
24	Satisfaction with communicative participation as defined by adults with multiple sclerosis: A qualitative study. <i>Journal of Communication Disorders</i> , 2007, 40, 433-451.	0.8	34
25	Teaching Medical Students Skills for Effective Communication With Patients Who Have Communication Disorders. <i>American Journal of Speech-Language Pathology</i> , 2019, 28, 155-164.	0.9	34
26	Validating the Communicative Participation Item Bank (CPIB) for use with people with aphasia: an analysis of differential item function (DIF). <i>Aphasiology</i> , 2017, 31, 861-878.	1.4	33
27	Communicating about the experience of pain and fatigue in disability. <i>Quality of Life Research</i> , 2010, 19, 243-251.	1.5	32
28	Measuring participation in people living with multiple sclerosis: A comparison of self-reported frequency, importance and self-efficacy. <i>Disability and Rehabilitation</i> , 2008, 30, 88-97.	0.9	31
29	Linguistic and cognitive supplementation strategies as augmentative and alternative communication techniques in huntington's disease: Case report. <i>AAC: Augmentative and Alternative Communication</i> , 2001, 17, 154-160.	0.8	30
30	Pathways of change experienced by people aging with disability: a focus group study. <i>Disability and Rehabilitation</i> , 2010, 32, 1697-1704.	0.9	29
31	Vocabulary selection: a case report. <i>AAC: Augmentative and Alternative Communication</i> , 1989, 5, 101-108.	0.8	28
32	Conversational control in nonimpaired speakers using an augmentative communication system. <i>AAC: Augmentative and Alternative Communication</i> , 1985, 1, 65-73.	0.8	27
33	Satisfaction with participation in multiple sclerosis and spinal cord injury. <i>Disability and Rehabilitation</i> , 2012, 34, 747-753.	0.9	27
34	Variables Associated With Communicative Participation After Head and Neck Cancer. <i>JAMA Otolaryngology - Head and Neck Surgery</i> , 2016, 142, 1145.	1.2	26
35	The Nature of Error Consistency in Individuals With Acquired Apraxia of Speech and Aphasia. <i>American Journal of Speech-Language Pathology</i> , 2017, 26, 611-630.	0.9	25
36	The Degenerative Dysarthrias: A Window into Critical Clinical and Research Issues. <i>Folia Phoniatica Et Logopaedica</i> , 2007, 59, 107-117.	0.5	18

#	ARTICLE	IF	CITATIONS
37	Patient-Reported Outcomes Measures: An Introduction for Clinicians. Perspectives of the ASHA Special Interest Groups, 2019, 4, 8-15.	0.4	18
38	Perspectives on Self-Management in Multiple Sclerosis. International Journal of MS Care, 2011, 13, 146-152.	0.4	18
39	Levels of Speech Usage: A Self-Report Scale for Describing How People Use Speech. Journal of Medical Speech - Language Pathology, 2008, 16, 191-198.	0.2	18
40	Scoping Review of Common Secondary Conditions After Stroke and Their Associations with Age and Time Post Stroke. Topics in Stroke Rehabilitation, 2014, 21, 371-382.	1.0	17
41	Assessing the Believability of Standardized Patients Trained to Portray Communication Disorders. American Journal of Speech-Language Pathology, 2017, 26, 791-805.	0.9	16
42	Factors Associated With Communicative Participation in Amyotrophic Lateral Sclerosis. Journal of Speech, Language, and Hearing Research, 2017, 60, 1791-1797.	0.7	14
43	The Communicative Participation Item Bank: Evaluating, and Reevaluating, Its Use across Communication Disorders in Adults. Seminars in Speech and Language, 2021, 42, 225-239.	0.5	14
44	Predicting Communicative Participation in Adults Across Communication Disorders. American Journal of Speech-Language Pathology, 2021, 30, 1301-1313.	0.9	14
45	Exploring the Relevance of Items in the Communicative Participation Item Bank (CPIB) for Individuals With Hearing Loss. American Journal of Audiology, 2017, 26, 27-37.	0.5	13
46	Relationship between perceived social support and patient-reported communication outcomes across communication disorders: a systematic review. International Journal of Language and Communication Disorders, 2018, 53, 1059-1077.	0.7	13
47	Incorporating the Principles of Self-Management into Treatment of Dysarthria Associated with Parkinson's Disease. Seminars in Speech and Language, 2017, 38, 210-219.	0.5	12
48	Internally Versus Externally Cued Speech in Parkinson's Disease and Cerebellar Disease. American Journal of Speech-Language Pathology, 2017, 26, 583-595.	0.9	12
49	Patient-Provider Communication Training for Dysarthria: Lessons Learned from Student Trainees. Seminars in Speech and Language, 2017, 38, 229-238.	0.5	10
50	Swallowing with Noninvasive Positive-Pressure Ventilation (NPPV) in Individuals with Muscular Dystrophy: A Qualitative Analysis. Dysphagia, 2020, 35, 32-41.	1.0	10
51	The best possible start: A qualitative study on the experiences of parents of young children with or at risk for fetal alcohol spectrum disorders. Research in Developmental Disabilities, 2020, 97, 103558.	1.2	9
52	The Levels of Speech Usage rating scale: comparison of client self-ratings with speech pathologist ratings. International Journal of Language and Communication Disorders, 2012, 47, 333-344.	0.7	8
53	Augmentative and alternative communication application for persons with severe acquired communication disorders: an introduction. AAC: Augmentative and Alternative Communication, 1989, 5, 42-48.	0.8	7
54	Factors associated with disease self-efficacy in individuals aging with a disability. Psychology, Health and Medicine, 2019, 24, 1171-1181.	1.3	7

#	ARTICLE	IF	CITATIONS
55	Experiences of Speaking With Noninvasive Positive Pressure Ventilation: A Qualitative Investigation. <i>American Journal of Speech-Language Pathology</i> , 2019, 28, 784-792.	0.9	7
56	Canon Communication Use by Adults. <i>The Journal of Speech and Hearing Disorders</i> , 1981, 46, 374-378.	1.3	6
57	The Relationship Between Non-Orthographic Language Abilities and Reading Performance in Chronic Aphasia: An Exploration of the Primary Systems Hypothesis. <i>Journal of Speech, Language, and Hearing Research</i> , 2018, 61, 3038-3054.	0.7	6
58	Early intervention in amyotrophic lateral sclerosis: a case presentation. <i>AAC: Augmentative and Alternative Communication</i> , 1989, 5, 67-70.	0.8	5
59	The lack of RCTs on dysarthria intervention does not necessarily indicate there is no evidence to guide practice <sup>1</sup> . <i>Evidence-Based Communication Assessment and Intervention</i> , 2009, 3, 79-82.	0.6	5
60	Describing Speech Usage in Daily Activities in Typical Adults. <i>Journal of Voice</i> , 2016, 30, 42-52.	0.6	4
61	Training students from rehabilitation professions on communicating with patients with communication disorders. <i>PM and R</i> , 2022, 14, 58-67.	0.9	4
62	Sensitivity of the Communicative Participation Item Bank for Measuring Patient-Reported Outcomes After Treatment of Unilateral Vocal Fold Immobility. <i>JAMA Otolaryngology - Head and Neck Surgery</i> , 2021, 147, 933.	1.2	4
63	Communicative Participation in Dysarthria: Perspectives for Management. <i>Brain Sciences</i> , 2022, 12, 420.	1.1	4
64	Exploring the Psychosocial Impact of Botulinum Toxin Type A Injections for Individuals With Oromandibular Dystonia: A Qualitative Study of Patients' Experiences. <i>American Journal of Speech-Language Pathology</i> , 2021, 30, 1314-1328.	0.9	3
65	The Consequences of Oromandibular Dystonia on Communicative Participation: A Qualitative Study of the Insider's Experiences. <i>American Journal of Speech-Language Pathology</i> , 2019, 28, 771-783.	0.9	3
66	Beyond the Patient: A Mixed-Methods Inquiry Into Family Members' Involvement in the Treatment of Parkinson's Disease to Target Third-Party Disability. <i>American Journal of Speech-Language Pathology</i> , 2021, 30, 169-185.	0.9	2
67	Perceptions regarding communicative participation in individuals receiving botulinum toxin injections for laryngeal dystonia. <i>International Journal of Language and Communication Disorders</i> , 2021, 56, 1296-1315.	0.7	1
68	Using Systematic Reviews and Practice Guidelines: A How-To Guide for Clinicians. <i>Perspectives on Neurophysiology and Neurogenic Speech and Language Disorders</i> , 2007, 17, 6-10.	0.4	1
69	Alphabet cues can be degraded in speech supplementation without significant change in speech intelligibility improvement <sup>1</sup> . <i>Evidence-Based Communication Assessment and Intervention</i> , 2007, 1, 117-118.	0.6	0
70	Evidence Supporting Dysarthria Intervention: An Update of Systematic Reviews. <i>Perspectives on Neurophysiology and Neurogenic Speech and Language Disorders</i> , 2013, 23, 105-111.	0.4	0
71	Innovations in Dysarthria Management. <i>Seminars in Speech and Language</i> , 2017, 38, 159-160.	0.5	0
72	Linguistic and cognitive supplementation strategies as augmentative and alternative communication techniques in huntington's disease: Case report. <i>AAC: Augmentative and Alternative Communication</i> , 2001, 17, 154-160.	0.8	0

#	ARTICLE	IF	CITATIONS
73	Lessons for the AAC field: a tribute to Dr. David Beukelman. AAC: Augmentative and Alternative Communication, 0, , 1-5.	0.8	0
