#	ARTICLE	IF	CITATIONS
1	HiTOP Assessment of Externalizing Antagonism and Disinhibition. <i>Assessment</i> , 2022, 29, 34-45.	3.1	8
2	Validity and utility of Hierarchical Taxonomy of Psychopathology (<scp>HiTOP</scp>): <scp>III</scp>. Emotional dysfunction superspectrum. <i>World Psychiatry</i> , 2022, 21, 26-54.	10.4	97
3	Two Filtering Methods of Forecasting Linear and Nonlinear Dynamics of Intensive Longitudinal Data. <i>Psychometrika</i> , 2022, , 1.	2.1	1
4	Comorbidity in borderline personality: understanding dynamics in development. <i>Current Opinion in Psychology</i> , 2021, 37, 104-108.	4.9	15
5	Alternative model of personality disorders traits predict residential addictions treatment completion. <i>Drug and Alcohol Dependence</i> , 2021, 228, 109011.	3.2	5
6	Familial factors and the risk of borderline personality pathology: genetic and environmental transmission. <i>Psychological Medicine</i> , 2020, 50, 1327-1337.	4.5	15
7	Genetic and Environmental Mechanisms in BPD over the Lifespan: Commentary on Assessment of Mechanisms in Personality Disorders. , 2020, , 392-395.		0
8	Appropriate Use of Bifactor Analysis in Psychopathology Research: Appreciating Benefits and Limitations. <i>Biological Psychiatry</i> , 2020, 88, 18-27.	1.3	110
9	Constructs versus measures in personality and other domains: What distinguishes normal and clinical?. <i>Industrial and Organizational Psychology</i> , 2019, 12, 157-162.	0.6	2
10	A Hierarchical Taxonomy of Psychopathology Can Transform Mental Health Research. <i>Perspectives on Psychological Science</i> , 2019, 14, 419-436.	9.0	243
11	Commentary on "The Challenge of Transforming the Diagnostic System of Personality Disorders"; <i>Journal of Personality Disorders</i> , 2019, , 1-4.	1.4	7
12	A test of dopamine hyper- and hyposensitivity in alcohol use. <i>Addictive Behaviors</i> , 2019, 90, 395-401.	3.0	11
13	Categorical and Dimensional Conceptions of Personality Pathology in <i>DSM-5</i>: Toward a Model-Based Synthesis. <i>Journal of Personality Disorders</i> , 2019, 33, 185-213.	1.4	16
14	Genetic and environmental influences on the codevelopment among borderline personality disorder traits, major depression symptoms, and substance use disorder symptoms from adolescence to young adulthood. <i>Development and Psychopathology</i> , 2018, 30, 49-65.	2.3	23
15	More of a Good Thing Is Not Always Better: Validation of a Distress Overtolerance Measure. <i>Assessment</i> , 2018, 25, 446-457.	3.1	9
16	Preliminary evidence that digit length ratio (2D:4D) predicts neural response to delivery of motivational stimuli. <i>Biological Psychology</i> , 2018, 132, 91-95.	2.2	3
17	The time has come for dimensional personality disorder diagnosis. <i>Personality and Mental Health</i> , 2018, 12, 82-86.	1.2	203
18	Progress in achieving quantitative classification of psychopathology. <i>World Psychiatry</i> , 2018, 17, 282-293.	10.4	329

#	ARTICLE	IF	CITATIONS
19	Neural outcome processing of peer-influenced risk-taking behavior in late adolescence: Preliminary evidence for gene × environment interactions.. <i>Experimental and Clinical Psychopharmacology</i> , 2017, 25, 31-40.	1.8	10
20	A psychometric investigation of gender differences and common processes across borderline and antisocial personality disorders.. <i>Journal of Abnormal Psychology</i> , 2017, 126, 76-88.	1.9	7
21	Validity of the alcohol purchase task: a meta-analysis. <i>Addiction</i> , 2016, 111, 806-816.	3.3	51
22	The Nomological Network of Self-Reported Distress Tolerance. <i>Assessment</i> , 2015, 22, 715-729.	3.1	36
23	Elaborating on the construct validity of the Minnesota Borderline Personality Disorder Scale (MBPD): A multi-sample, longitudinal examination.. <i>Psychological Assessment</i> , 2015, 27, 332-339.	1.5	4
24	Psychopathy factor interactions and co-occurring psychopathology: Does measurement approach matter?. <i>Psychological Assessment</i> , 2015, 27, 583-595.	1.5	8
25	Unidirectionality Between Borderline Personality Disorder Traits and Psychopathology in a Residential Addictions Sample: A Short-Term Longitudinal Study. <i>Journal of Personality Disorders</i> , 2015, 29, 755-770.	1.4	1
26	Genetic and environmental overlap between borderline personality disorder traits and psychopathy: evidence for promotive effects of factor 2 and protective effects of factor 1. <i>Psychological Medicine</i> , 2015, 45, 1471-1481.	4.5	24
27	The developmental progression of age 14 behavioral disinhibition, early age of sexual initiation, and subsequent sexual risk-taking behavior. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2014, 55, 784-792.	5.2	12
28	Understanding the relative contributions of direct environmental effects and passive genotype × environment correlations in the association between familial risk factors and child disruptive behavior disorders. <i>Psychological Medicine</i> , 2014, 44, 831-844.	4.5	45
29	A further validation of the Minnesota Borderline Personality Disorder Scale.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2014, 5, 146-153.	1.3	8
30	Stability and change in distress tolerance and its prospective relationship with borderline personality features: A short-term longitudinal study.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2014, 5, 247-256.	1.3	32
31	Behavior Genetic Approaches to BPD. , 2014, , 129-142.		0
32	Time Doesn't Change Everything: The Longitudinal Course of Distress Tolerance and its Relationship with Externalizing and Internalizing Symptoms During Early Adolescence. <i>Journal of Abnormal Child Psychology</i> , 2013, 41, 735-748.	3.5	88
33	Tests of a direct effect of childhood abuse on adult borderline personality disorder traits: A longitudinal discordant twin design.. <i>Journal of Abnormal Psychology</i> , 2013, 122, 180-194.	1.9	112
34	Longitudinal twin study of borderline personality disorder traits and substance use in adolescence: Developmental change, reciprocal effects, and genetic and environmental influences.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2013, 4, 23-32.	1.3	58
35	Ingestion of foreign objects as a means of nonlethal self-injury.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2013, 4, 182-189.	1.3	3
36	Disentangling the relative contribution of parental antisociality and family discord to child disruptive disorders.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2013, 4, 239-246.	1.3	21

#	ARTICLE	IF	CITATIONS
37	Group Exposure Therapy Treatment for Post-Traumatic Stress Disorder in Female Veterans. <i>Military Medicine</i> , 2012, 177, 1486-1491.	0.8	12
38	The Influence of Depression on the Progression of HIV. <i>Behavior Modification</i> , 2012, 36, 123-145.	1.6	89
39	Identifying the necessary and sufficient number of risk factors for predicting academic failure.. <i>Developmental Psychology</i> , 2012, 48, 422-428.	1.6	55
40	Facets of impulsivity in the relationship between antisocial personality and abstinence. <i>Addictive Behaviors</i> , 2012, 37, 293-298.	3.0	28
41	Initial RCT of a distress tolerance treatment for individuals with substance use disorders. <i>Drug and Alcohol Dependence</i> , 2012, 122, 70-76.	3.2	170
42	Distress tolerance moderates the relationship between negative affect intensity with borderline personality disorder levels. <i>Comprehensive Psychiatry</i> , 2011, 52, 744-753.	3.1	30
43	Biological mechanisms underlying the relationship between stress and smoking: State of the science and directions for future work. <i>Biological Psychology</i> , 2011, 88, 1-12.	2.2	98
44	Extending models of deliberate self-harm and suicide attempts to substance users: Exploring the roles of childhood abuse, posttraumatic stress, and difficulties controlling impulsive behavior when distressed.. <i>Psychological Trauma: Theory, Research, Practice, and Policy</i> , 2011, 3, 349-359.	2.1	41
45	Testing the relations between impulsivity-related traits, suicidality, and nonsuicidal self-injury: A test of the incremental validity of the UPPS model.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2011, 2, 151-160.	1.3	133
46	Testing the Role of Adolescent Sexual Initiation in Later-Life Sexual Risk Behavior. <i>Psychological Science</i> , 2011, 22, 924-933.	3.3	26
47	Development and Validation of the Minnesota Borderline Personality Disorder Scale. <i>Assessment</i> , 2011, 18, 234-252.	3.1	32
48	Understanding the heterogeneity of BPD symptoms through latent class analysis: Initial results and clinical correlates among inner-city substance users.. <i>Psychological Assessment</i> , 2010, 22, 233-245.	1.5	47
49	Application of the social action theory to understand factors associated with risky sexual behavior among individuals in residential substance abuse treatment.. <i>Psychology of Addictive Behaviors</i> , 2010, 24, 311-321.	2.1	20
50	Motivations for Sexual Risk Behavior Across Commercial and Casual Partners Among Male Urban Drug Users: Contextual Features and Clinical Correlates. <i>Behavior Modification</i> , 2010, 34, 219-246.	1.6	8
51	Familial Transmission and Heritability of Childhood Disruptive Disorders. <i>American Journal of Psychiatry</i> , 2010, 167, 1066-1074.	7.2	96
52	Stability, change, and heritability of borderline personality disorder traits from adolescence to adulthood: A longitudinal twin study. <i>Development and Psychopathology</i> , 2009, 21, 1335-1353.	2.3	181
53	Risk taking differences on a behavioral task as a function of potential reward/loss magnitude and individual differences in impulsivity and sensation seeking. <i>Pharmacology Biochemistry and Behavior</i> , 2009, 93, 258-262.	2.9	112
54	Testing gender effects on the mechanisms explaining the association between post-traumatic stress symptoms and substance use frequency. <i>Addictive Behaviors</i> , 2009, 34, 685-692.	3.0	39

#	ARTICLE	IF	CITATIONS
55	Sensation seeking and risk-taking propensity as mediators in the relationship between childhood abuse and HIV-related risk behavior. <i>Child Abuse and Neglect</i> , 2008, 32, 99-109.	2.6	86
56	A multimodal assessment of the relationship between emotion dysregulation and borderline personality disorder among inner-city substance users in residential treatment. <i>Journal of Psychiatric Research</i> , 2008, 42, 717-726.	3.1	121
57	Borderline personality disorder in the context of self-regulation: Understanding symptoms and hallmark features as deficits in locomotion and assessment. <i>Personality and Individual Differences</i> , 2008, 44, 22-31.	2.9	28
58	The interactive effects of antisocial personality disorder and court-mandated status on substance abuse treatment dropout. <i>Journal of Substance Abuse Treatment</i> , 2008, 34, 157-164.	2.8	34
59	Anxiety sensitivity: A unique predictor of dropout among inner-city heroin and crack/cocaine users in residential substance use treatment. <i>Behaviour Research and Therapy</i> , 2008, 46, 811-818.	3.1	97
60	Factors associated with co-occurring borderline personality disorder among inner-city substance users: the roles of childhood maltreatment, negative affect intensity/reactivity, and emotion dysregulation. <i>Comprehensive Psychiatry</i> , 2008, 49, 603-615.	3.1	116
61	The Relationship Between Distress Tolerance and Antisocial Personality Disorder Among Male Inner-City Treatment Seeking Substance Users. <i>Journal of Personality Disorders</i> , 2008, 22, 509-524.	1.4	68
62	Risk factors in the relationship between gender and crack/cocaine.. <i>Experimental and Clinical Psychopharmacology</i> , 2007, 15, 165-175.	1.8	116
63	How does Dialectical Behavior Therapy facilitate treatment retention among individuals with comorbid borderline personality disorder and substance use disorders?. <i>Clinical Psychology Review</i> , 2007, 27, 923-943.	11.4	51
64	Generalized expectancies for negative mood regulation predict change in anxiety and depression among college students. <i>Behaviour Research and Therapy</i> , 2007, 45, 939-950.	3.1	88
65	A Laboratory-Based Study of the Relationship Between Childhood Abuse and Experiential Avoidance Among Inner-City Substance Users: The Role of Emotional Nonacceptance. <i>Behavior Therapy</i> , 2007, 38, 256-268.	2.4	192
66	The association between heroin use and anxiety sensitivity among inner-city individuals in residential drug use treatment. <i>Behaviour Research and Therapy</i> , 2006, 44, 667-677.	3.1	103
67	Temperamental and Environmental Risk Factors for Borderline Personality Disorder Among Inner-City Substance Users in Residential Treatment. <i>Journal of Personality Disorders</i> , 2006, 20, 218-231.	1.4	63
68	Differences in impulsivity and risk-taking propensity between primary users of crack cocaine and primary users of heroin in a residential substance-use program.. <i>Experimental and Clinical Psychopharmacology</i> , 2005, 13, 311-318.	1.8	169
69	Distress Tolerance as a Predictor of Early Treatment Dropout in a Residential Substance Abuse Treatment Facility.. <i>Journal of Abnormal Psychology</i> , 2005, 114, 729-734.	1.9	275
70	Conditioned taste aversion and amygdala lesions in the rat: A critical review. <i>Neuroscience and Biobehavioral Reviews</i> , 2005, 29, 1067-1088.	6.1	158
71	Differences in risk-taking propensity across inner-city adolescent ever- and never-smokers. <i>Nicotine and Tobacco Research</i> , 2005, 7, 71-79.	2.6	110
72	Impulsivity as a common process across borderline personality and substance use disorders. <i>Clinical Psychology Review</i> , 2005, 25, 790-812.	11.4	213

#	ARTICLE	IF	CITATIONS
73	Differences in impulsivity and sexual risk behavior among inner-city crack/cocaine users and heroin users. <i>Drug and Alcohol Dependence</i> , 2005, 77, 169-175.	3.2	101
74	Excitotoxic Lesions of the Gustatory Thalamus Spare Simultaneous Contrast Effects but Eliminate Anticipatory Negative Contrast: Evidence Against a Memory Deficit.. <i>Behavioral Neuroscience</i> , 2004, 118, 365-376.	1.2	26
75	Effects of excitotoxic lesions of the gustatory thalamus on latent inhibition and blocking of conditioned taste aversion in rats. <i>Brain Research Bulletin</i> , 2003, 62, 117-128.	3.0	17
