#	ARTICLE	IF	CITATIONS
1	Vascularity and Thickness Changes in Immature Hypertrophic Scars Treated With a Pulsed Dye Laser. <i>Lasers in Surgery and Medicine</i> , 2021, 53, 914-921.	1.1	10
2	A finite element model of the 3D-printed transparent facemask for applying pressure therapy. <i>Clinical Biomechanics</i> , 2021, 87, 105414.	0.5	1
3	Development and psychometric evaluation of the Chinese version of the Participation and Environment Measure for Children and Youth. <i>Disability and Rehabilitation</i> , 2020, 42, 2204-2214.	0.9	14
4	Measuring vascularity of hypertrophic scars by dermoscopy: Construct validity and predictive ability of scar thickness change. <i>Skin Research and Technology</i> , 2020, 26, 369-375.	0.8	6
5	Smart Scar Care Pad: An Innovated Silicone-Based Insert That Improved Severe Hypertrophic Scar by Integrating Optimal Pressure and Occlusion Effects. <i>Advances in Wound Care</i> , 2020, 9, 564-575.	2.6	4
6	Computerised Handwriting Speed Test System (<scp>CHSTS</scp>): Validation of a handwriting assessment for Chinese secondary students. <i>Australian Occupational Therapy Journal</i> , 2019, 66, 91-99.	0.6	4
7	Assessment of early handwriting skill in kindergarten children using a Chinese name writing test. <i>Reading and Writing</i> , 2019, 32, 265-284.	1.0	5
8	Measuring the tilt and slant of Chinese handwriting in primary school students: A computerized approach. <i>PLoS ONE</i> , 2019, 14, e0223485.	1.1	4
9	Measurement of vascularity in the scar: A systematic review. <i>Burns</i> , 2019, 45, 1253-1265.	1.1	21
10	Developmental skills between kindergarten children with handwriting difficulties in Chinese and/or English. <i>Australian Occupational Therapy Journal</i> , 2019, 66, 292-303.	0.6	9
11	The Relationship Between Sensorimotor and Handwriting Performance in Chinese Adolescents with Autism Spectrum Disorder. <i>Journal of Autism and Developmental Disorders</i> , 2018, 48, 3093-3100.	1.7	12
12	The application of 3D-printed transparent facemask for facial scar management and its biomechanical rationale. <i>Burns</i> , 2018, 44, 453-461.	1.1	26
13	Screening Out Chineseâ€“English Biliterate Kindergarten Children with Handwriting Difficulties. <i>Journal of Occupational Therapy, Schools, and Early Intervention</i> , 2018, 11, 426-439.	0.4	1
14	Handwriting assessment to distinguish comorbid learning difficulties from attention deficit hyperactivity disorder in <scp>C</scp>hinese adolescents: A caseâ€“control study. <i>International Journal of Methods in Psychiatric Research</i> , 2018, 27, e1718.	1.1	11
15	The recovery of post-burn hypertrophic scar in a monitored pressure therapy intervention programme and the timing of intervention. <i>Burns</i> , 2018, 44, 1451-1467.	1.1	18
16	A Systematic Review on the Effect of Mechanical Stretch on Hypertrophic Scars after Burn Injuries. <i>Hong Kong Journal of Occupational Therapy</i> , 2017, 29, 1-9.	0.2	14
17	Effects of repetitive transcranial magnetic stimulation combined with sensory cueing on unilateral neglect in subacute patients with right hemispheric stroke: a randomized controlled study. <i>Clinical Rehabilitation</i> , 2017, 31, 1154-1163.	1.0	32
18	Development of Chinese handwriting skills among kindergarten children: Copying of the composition in Chinese characters and name writing. <i>Journal of Occupational Therapy, Schools, and Early Intervention</i> , 2017, 10, 40-51.	0.4	4

#	ARTICLE	IF	CITATIONS
19	Robotic approaches for the rehabilitation of upper limb recovery after stroke: a systematic review and meta-analysis. <i>International Journal of Rehabilitation Research</i> , 2017, 40, 19-28.	0.7	47
20	3D-printed transparent facemasks in the treatment of facial hypertrophic scars of young children with burns. <i>Burns</i> , 2017, 43, e19-e26.	1.1	37
21	Performance on the Developmental Test of Visual-Motor Integration and its supplementary tests: Comparing Chinese and U.S. kindergarten children. <i>Journal of Occupational Therapy, Schools, and Early Intervention</i> , 2017, 10, 408-419.	0.4	3
22	Predictors of functional independence, quality of life, and return to work in patients with burn injuries in mainland China. <i>Burns and Trauma</i> , 2016, 4, 32.	2.3	11
23	The Effect of a Self-management Program on the Quality-of-Life of Community-dwelling Older Adults with Chronic Musculoskeletal Knee Pain: A Pilot Randomized Controlled Trial. <i>Clinical Gerontologist</i> , 2016, 39, 428-448.	1.2	8
24	Effects of mobility training on severe burn patients in the BICU: A retrospective cohort study. <i>Burns</i> , 2016, 42, 1404-1412.	1.1	29
25	“Scarless world or scar-less world” expedition on new perspectives on management of post-burn hypertrophic scar. <i>Burns and Trauma</i> , 2016, 4, 22.	2.3	4
26	Guidelines for burn rehabilitation in China. <i>Burns and Trauma</i> , 2015, 3, 20.	2.3	24
27	Rehabilitation needs of the survivors of the 2013 YaÃ¢â¬âan earthquake in China. <i>Journal of Rehabilitation Medicine</i> , 2015, 47, 586-592.	0.8	4
28	Functional Outcomes of Burn Patients with or without Rehabilitation in Mainland China. <i>Hong Kong Journal of Occupational Therapy</i> , 2015, 26, 15-23.	0.2	23
29	A validation study of scar vascularity and pigmentation assessment using dermoscopy. <i>Burns</i> , 2015, 41, 1717-1723.	1.1	14
30	A histological study on the effect of pressure therapy on the activities of myofibroblasts and keratinocytes in hypertrophic scar tissues after burn. <i>Burns</i> , 2015, 41, 1008-1016.	1.1	45
31	Effect of a Social Emotional Learning Programme for Primary School Students. <i>Hong Kong Journal of Occupational Therapy</i> , 2014, 24, 56-63.	0.2	17
32	Visual profile of children with handwriting difficulties in Hong Kong Chinese. <i>Research in Developmental Disabilities</i> , 2014, 35, 144-152.	1.2	2
33	Are “Smart Pressure Monitored Suits” Smarter than Conventional Garments in Clinical Applications?*. <i>Hong Kong Journal of Occupational Therapy</i> , 2013, 23, 82-88.	0.2	5
34	Writing to dictation and handwriting performance among Chinese children with dyslexia: Relationships with orthographic knowledge and perceptual-motor skills. <i>Research in Developmental Disabilities</i> , 2013, 34, 3372-3383.	1.2	35
35	Validation of the Chinese Handwriting Analysis System (CHAS) for primary school students in Hong Kong. <i>Research in Developmental Disabilities</i> , 2013, 34, 2872-2883.	1.2	27
36	A survey on the current status of burn rehabilitation services in China. <i>Burns</i> , 2013, 39, 269-278.	1.1	37

#	ARTICLE	IF	CITATIONS
37	Prevalence and risk factors of work-related musculoskeletal disorders in the catering industry: A systematic review[1]. <i>Work</i> , 2013, 44, 107-116.	0.6	34
38	Rehabilitation Interventions for Unilateral Neglect after Stroke: A Systematic Review from 1997 through 2012. <i>Frontiers in Human Neuroscience</i> , 2013, 7, 187.	1.0	78
39	An investigation of visual contour integration ability in relation to writing performance in primary school students. <i>Research in Developmental Disabilities</i> , 2012, 33, 2271-2278.	1.2	7
40	Handwriting characteristics among secondary students with and without physical disabilities: A study with a computerized tool. <i>Research in Developmental Disabilities</i> , 2011, 32, 207-216.	1.2	22
41	Chinese handwriting performance of primary school children with dyslexia. <i>Research in Developmental Disabilities</i> , 2011, 32, 1745-1756.	1.2	72
42	Sensory Processing Measure-HK Chinese version: Psychometric properties and pattern of response across environments. <i>Research in Developmental Disabilities</i> , 2011, 32, 2636-2643.	1.2	21
43	A Randomized Clinical Trial to Study the Effect of Silicone Gel Dressing and Pressure Therapy on Posttraumatic Hypertrophic Scars. <i>Journal of Burn Care and Research</i> , 2010, 31, 448-457.	0.2	86
44	Sports Related Hand Injuries in Hong Kong. <i>Hong Kong Journal of Occupational Therapy</i> , 2010, 20, 13-18.	0.2	0
45	Development of Hand Rehabilitation in Mainland China. <i>Hong Kong Journal of Occupational Therapy</i> , 2010, 20, 19-24.	0.2	2
46	Effect of different pressure magnitudes on hypertrophic scar in a Chinese population. <i>Burns</i> , 2010, 36, 1234-1241.	1.1	81
47	The effect of a computerized visual perception and visual-motor integration training program on improving Chinese handwriting of children with handwriting difficulties. <i>Research in Developmental Disabilities</i> , 2010, 31, 1552-1560.	1.2	53
48	Sports Related Hand Injuries in Hong Kong. <i>Hong Kong Journal of Occupational Therapy</i> , 2010, 20, 13-18.	0.2	1
49	Development of Hand Rehabilitation in Mainland China. <i>Hong Kong Journal of Occupational Therapy</i> , 2010, 20, 19-24.	0.2	3
50	Validation of the Pliance X System in measuring interface pressure generated by pressure garment. <i>Burns</i> , 2009, 35, 845-851.	1.1	60
51	Competence of people with intellectual disabilities on using human-computer interface. <i>Research in Developmental Disabilities</i> , 2009, 30, 107-123.	1.2	57
52	Enhancing visual search abilities of people with intellectual disabilities. <i>Research in Developmental Disabilities</i> , 2009, 30, 124-135.	1.2	0
53	An Explorative Study of an Emerging Practice Clinical Education Programme for Occupational Therapy Students. <i>Hong Kong Journal of Occupational Therapy</i> , 2009, 19, 44-49.	0.2	1
54	A 6-month follow-up of the effects of an information and communication technology (ICT) training programme on people with intellectual disabilities. <i>Research in Developmental Disabilities</i> , 2007, 28, 559-566.	1.2	23

#	ARTICLE	IF	CITATIONS
55	Computer-Assisted Instruction (CAI) for Typing Skill Training for People with Mild Mental Handicap: A Pilot Study. Hong Kong Journal of Occupational Therapy, 2007, 17, 54-59.	0.2	0
56	Psychosocial Aspects of Injured Workersâ€™ Returning to Work (RTW) in Hong Kong. Journal of Occupational Rehabilitation, 2007, 17, 279-288.	1.2	17
57	Rehabilitation of Injured Workers with Chronic Pain: A Stage of Change Phenomenon. Journal of Occupational Rehabilitation, 2007, 17, 727-742.	1.2	21
58	Survey on the Employment Profile of Occupational Therapy Graduates in Hong Kong. Hong Kong Journal of Occupational Therapy, 2006, 16, 1-8.	0.2	3
59	A prospective randomized clinical trial to investigate the effect of silicone gel sheeting (Cica-Care) on post-traumatic hypertrophic scar among the Chinese population. Burns, 2006, 32, 678-683.	1.1	106
60	The effect of a â€œtraining on work readinessâ€•program for workers with musculoskeletal injuries: A randomized control trial (RCT) study. Journal of Occupational Rehabilitation, 2006, 16, 529-541.	1.2	38
61	Validation of Lam assessment of employment readiness (C-LASER) for Chinese injured workers. Journal of Occupational Rehabilitation, 2006, 16, 697-705.	1.2	16
62	Survey of Occupational Therapy Practice in Hong Kong in 2004. Hong Kong Journal of Occupational Therapy, 2005, 15, 16-26.	0.2	4
63	Application of tissue ultrasound palpation system (TUPS) in objective scar evaluation. Burns, 2005, 31, 445-452.	1.1	73
64	Prevalence of hypertrophic scar formation and its characteristics among the Chinese population. Burns, 2005, 31, 610-616.	1.1	97
65	Using a driving simulator to identify older drivers at inflated risk of motor vehicle crashes. Journal of Safety Research, 2003, 34, 453-459.	1.7	147
66	Validation of an objective scar pigmentation measurement by using a spectrophotometer. Burns, 2003, 29, 779-784.	1.1	56
67	APPLICATION OF SPLINTING IN HAND REHABILITATION: A REFLECTION OF LOCAL PRACTICE. Hand Surgery, 2002, 07, 207-208.	0.6	1
68	EVIDENCE-BASED PRACTICE IN SPLINTING THE INJURED HAND. Hand Surgery, 2002, 07, 215-218.	0.6	3
69	The effect of corrective splinting on flexion contracture of rheumatoid fingers. Journal of Hand Therapy, 2002, 15, 185-191.	0.7	23
