#	ARTICLE	IF	CITATIONS
1	A1C Underperforms as a Diagnostic Test in Africans Even in the Absence of Nutritional Deficiencies, Anemia and Hemoglobinopathies: Insight From the Africans in America Study. <i>Frontiers in Endocrinology</i> , 2019, 10, 533.	1.5	22
2	Foreign-Born Blacks Experience Lower Odds of Obesity but Higher Odds of Diabetes than US-Born Blacks in New York City. <i>Journal of Immigrant and Minority Health</i> , 2019, 21, 47-55.	0.8	20
3	HbA <sub>1c</sub> Performance in African Descent Populations in the United States With Normal Glucose Tolerance, Prediabetes, or Diabetes: A Scoping Review. <i>Preventing Chronic Disease</i> , 2021, 18, E22.	1.7	19
4	Black Immigrants from Africa and the Caribbean Have Similar Rates of Diabetes but Africans Are Less Obese: the New York City Community Health Survey 2009-2013. <i>Journal of Racial and Ethnic Health Disparities</i> , 2019, 6, 635-645.	1.8	17
5	Stress Measured by Allostatic Load Varies by Reason for Immigration, Age at Immigration, and Number of Children: The Africans in America Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4533.	1.2	12
6	A Review of Diabetes Prediction Equations in African Descent Populations. <i>Frontiers in Endocrinology</i> , 2019, 10, 663.	1.5	7
7	Africans Who Arrive in the United States before 20 Years of Age Maintain Both Cardiometabolic Health and Cultural Identity: Insight from the Africans in America Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 9405.	1.2	4
8	Intergenerational differences in dietary acculturation among Ghanaian immigrants living in New York City: a qualitative study. <i>Journal of Nutritional Science</i> , 2021, 10, e80.	0.7	3
9	Immigrants from Sub-Saharan Africa and the Caribbean Experience Different Rates of Obesity but Similar Rates of Diabetes- The New York City Community Health Survey. <i>Diabetes</i> , 2018, 67, 1639-P.	0.3	3
10	Sleep and Economic Status Are Linked to Daily Life Stress in African-Born Blacks Living in America. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 2562.	1.2	3
11	Identifying Africans with undiagnosed diabetes: Fasting plasma glucose is similar to the hemoglobin A1C updated Atherosclerosis Risk in Communities diabetes prediction equation. <i>Primary Care Diabetes</i> , 2020, 14, 501-507.	0.9	2
12	Increasing obesity odds among foreign-born New Yorkers are not explained by eating out, age at arrival, or duration of residence: results from NYC HANES 2004 and 2013/2014. <i>BMC Public Health</i> , 2021, 21, 1453.	1.2	2
13	Treating T2DM by ensuring insulin access is a global challenge. <i>Nature Reviews Endocrinology</i> , 2019, 15, 135-137.	4.3	1
14	Generational Differences in Food Perception and the Risk of Chronic Disease Among Jamaican Immigrant Families Living in New York City. <i>Current Developments in Nutrition</i> , 2020, 4, nzaa043_113.	0.1	0
15	Abstract P063: Afro Caribbeans With Type 2 Diabetes Have Lower Body Mass Index And Lower Waist Circumference Than African Americans: New York City Health And Nutrition Examination Survey 2013/14. <i>Circulation</i> , 2021, 143, .	1.6	0
16	984-P: African Women Have Lower Cardiometabolic Risk at Higher BMI than Men: The Africans in America Study. <i>Diabetes</i> , 2021, 70, .	0.3	0
17	1003-P: FINDRISC Identifies Diabetes Due to Insulin Resistance but Not $\beta$ -Cell Failure. <i>Diabetes</i> , 2021, 70, .	0.3	0
18	985-P: Black New Yorkers with Type 2 Diabetes: Afro-Caribbean Immigrants Have Better Cardiometabolic Health than African Americans. <i>Diabetes</i> , 2021, 70, .	0.3	0

#	ARTICLE	IF	CITATIONS
19	Abstract P115: Prevalence of Undiagnosed Diabetes Decreases by Eighty Percent When A1C Replaces the OGTT: The Africans in America Study. Circulation, 2019, 139, .	1.6	0
20	Abstract P116: The Oral Glucose Tolerance Test is Highly Reproducible for the Diagnosis of Diabetes in Africans: The Africans in America Study. Circulation, 2019, 139, .	1.6	0
21	Abstract P117: Prediction of Undiagnosed Diabetes in Africans is Optimized by Using Fasting Plasma Glucose at a Threshold of 100 mg/dL: The Africans in America Study. Circulation, 2019, 139, .	1.6	0
22	1600-P: Duplicate Oral Glucose Tolerance Tests Reveal Excellent Reproducibility for Detection of Diabetes but Inconsistent Results for Prediabetes: A Study of Africans. Diabetes, 2019, 68, 1600-P.	0.3	0
23	1533-P: Detecting Diabetes in Africans Is Improved by Both Modifying the A1C Threshold and Adding Glycated Albumin. Diabetes, 2019, 68, .	0.3	0
24	1510-P: A1C-Modified Atherosclerosis Risk in Communities Prediction Equation for Diabetes Can Be Replaced in Africans by Fasting Glucose. Diabetes, 2019, 68, 1510-P.	0.3	0
25	1493-P: Sickle Cell Trait, Hemoglobin C Trait, and Glucose-6-Phosphate Dehydrogenase Deficiency Contribute to Decreased Detection of Hyperglycemia by A1C. Diabetes, 2019, 68, 1493-P.	0.3	0
26	1494-P: Glycated Albumin May Be an Effective Alternative to A1C in the Presence of Hemoglobin C Trait. Diabetes, 2019, 68, .	0.3	0
27	1662-P: Comparison of Anthropometric and Metabolic Parameters among Africans Living in America. Diabetes, 2019, 68, .	0.3	0
28	1599-P: Glycated Albumin Identifies Dysglycemia Not Detected by A1C: The Case for Combining Glycated Albumin and A1C in Africans. Diabetes, 2019, 68, 1599-P.	0.3	0
29	1470-P: Among Black New Yorkers with Type 2 Diabetes Afro-Caribbeans Are Younger and Have Lower BMI than African Americans: NYC HANES 2013/14. Diabetes, 2020, 69, .	0.3	0
30	1447-P: Random Glucose May Be an Effective Tool to Screen for Undiagnosed Diabetes: The Africans in America Study. Diabetes, 2020, 69, 1447-P.	0.3	0
31	Abstract P302: Adverse Health Behaviors Identified in Africans Living With Undiagnosed Diabetes in America. Circulation, 2020, 141, .	1.6	0
32	Abstract P156: Achieving Diabetes Remission Through Lifestyle Intervention: Preliminary Results From A Scoping Review Of The Literature And Implications For Africa. Circulation, 2022, 145, .	1.6	0
33	Abstract MP03: Sleep And Economic Status Are Linked To Daily Life Stress In African-born Blacks Living In America. Circulation, 2022, 145, .	1.6	0
34	Abstract P160: Perceived Stress May Influence Allostatic Load When The Etiology Of Abnormal Glucose Tolerance Is $\beta$ -cell Failure: The Africans In America Study. Circulation, 2022, 145, .	1.6	0
35	Abstract P164: Most Non-invasive Diabetes Risk Scores Identify Type 2 Diabetes Due To Insulin Resistance But Not $\beta$ -cell Failure: The Africans In America Study. Circulation, 2022, 145, .	1.6	0
