

Richard C Harrington

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/3448731/richard-c-harrington-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
15	Phylogenomic resolution of the monotypic and enigmatic Amarsipus, the Bagless Glassfish (Teleostei, Amarsipidae). <i>Zoologica Scripta</i> , 2021 , 50, 411-422	2.5	0
14	Accelerated Diversification Explains the Exceptional Species Richness of Tropical Characoid Fishes. <i>Systematic Biology</i> , 2021 ,	8.4	11
13	A phylogenomic framework for pelagiarian fishes (Acanthomorpha: Percomorpha) highlights mosaic radiation in the open ocean. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2019 , 286, 20191502	4.4	13
12	Explosive diversification of marine fishes at the Cretaceous-Palaeogene boundary. <i>Nature Ecology and Evolution</i> , 2018 , 2, 688-696	12.3	89
11	A New Species of Logperch Endemic to Tennessee (Percidae: Etheostomatinae:Percina). <i>Bulletin of the Peabody Museum of Natural History</i> , 2017 , 58, 287-309	0.8	7
10	Mosaicism in a new Eocene pufferfish highlights rapid morphological innovation near the origin of crown tetraodontiforms. <i>Palaeontology</i> , 2016 , 59, 499-514	2.9	10
9	Phylogenomic analysis of carangimorph fishes reveals flatfish asymmetry arose in a blink of the evolutionary eye. <i>BMC Evolutionary Biology</i> , 2016 , 16, 224	3	61
8	Systematics and Taxonomy of the Snubnose Darter, Etheostoma simoterum (Cope). <i>Bulletin of the Peabody Museum of Natural History</i> , 2016 , 57, 127-145	0.8	2
7	Molecular phylogeny of Percomorpha resolves Trichonotus as the sister lineage to Gobioidi (Teleostei: Gobiiformes) and confirms the polyphyly of Trachinoidei. <i>Molecular Phylogenetics and Evolution</i> , 2015 , 93, 172-9	4.1	28
6	Phylogenetic relationships of Goniaeoperca and the evolution of parental care in darters (Teleostei: Percidae). <i>Molecular Phylogenetics and Evolution</i> , 2015 , 84, 158-65	4.1	6
5	On fossils, phylogenies and sequences of evolutionary change. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2014 , 281, 20140115	4.4	2
4	Phylogenetic inference of nuptial trait evolution in the context of asymmetrical introgression in North American darters (teleostei). <i>Evolution; International Journal of Organic Evolution</i> , 2013 , 67, 388-402	3.8	16
3	An early fossil remora (Echeneoidea) reveals the evolutionary assembly of the adhesion disc. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2013 , 280, 20131200	4.4	19
2	Phylogenetic and coalescent strategies of species delimitation in snubnose darters (Percidae: Etheostoma). <i>Systematic Biology</i> , 2012 , 61, 63-79	8.4	65
1	Phylogeny and temporal diversification of darters (Percidae: Etheostomatinae). <i>Systematic Biology</i> , 2011 , 60, 565-95	8.4	128
