#	ARTICLE	IF	CITATIONS
1	Psychosocial issues in spinal cord injury: a review. <i>Spinal Cord</i> , 2012, 50, 382-389.	0.9	296
2	Definitions of Quality of Life: What Has Happened and How to Move On. <i>Topics in Spinal Cord Injury Rehabilitation</i> , 2014, 20, 167-180.	0.8	291
3	Predictors of health status and life satisfaction in spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 1998, 79, 395-401.	0.5	223
4	High prevalence of incontinence among young adults with spina bifida: description, prediction and problem perception. <i>Spinal Cord</i> , 2005, 43, 331-340.	0.9	179
5	Validity of the Utrecht Scale for Evaluation of Rehabilitation-Participation. <i>Disability and Rehabilitation</i> , 2012, 34, 478-485.	0.9	174
6	Intervention studies for caregivers of stroke survivors: a critical review. <i>Patient Education and Counseling</i> , 2005, 56, 257-267.	1.0	160
7	Rehabilitation of stroke patients needs a family-centred approach. <i>Disability and Rehabilitation</i> , 2006, 28, 1557-1561.	0.9	160
8	Long-Term Health-Related Quality of Life After Aneurysmal Subarachnoid Hemorrhage. <i>Stroke</i> , 2009, 40, 1526-1529.	1.0	157
9	Measures used to assess burden among caregivers of stroke patients: a review. <i>Clinical Rehabilitation</i> , 2004, 18, 601-623.	1.0	150
10	Development and validation of a self-report version of the Spinal Cord Independence Measure (SCIM) Tj ETQq0 0 0 rgBT /Overlock 10 Tf	0.9	135
11	Spouses' Quality of Life 1 Year after Stroke: Prediction at the Start of Clinical Rehabilitation. <i>Cerebrovascular Diseases</i> , 2005, 20, 443-448.	0.8	131
12	Spinal Cord Injury Pain: The Influence of Psychologic Factors and Impact on Quality of Life. <i>Clinical Journal of Pain</i> , 2007, 23, 383-391.	0.8	130
13	Secondary health conditions and quality of life in persons living with spinal cord injury for at least ten years. <i>Journal of Rehabilitation Medicine</i> , 2016, 48, 853-860.	0.8	130
14	International Spinal Cord Injury Core Data Set (version 2.0) including standardization of reporting. <i>Spinal Cord</i> , 2017, 55, 759-764.	0.9	130
15	Complications following spinal cord injury: Occurrence and risk factors in a longitudinal study during and after inpatient rehabilitation. <i>Acta Dermato-Venereologica</i> , 2007, 39, 393-398.	0.6	129
16	Associations between psychological factors and quality of life ratings in persons with spinal cord injury: a systematic review. <i>Spinal Cord</i> , 2012, 50, 174-187.	0.9	128
17	Design of the Swiss Spinal Cord Injury Cohort Study. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2011, 90, S5-S16.	0.7	124
18	Quality of Life After Spinal Cord Injury. <i>Journal of Neurologic Physical Therapy</i> , 2005, 29, 139-146.	0.7	122

#	ARTICLE	IF	CITATIONS
19	Sex Education, Relationships, and Sexuality in Young Adults With Spina Bifida. Archives of Physical Medicine and Rehabilitation, 2005, 86, 979-987.	0.5	120
20	Upper extremity musculoskeletal pain during and after rehabilitation in wheelchair-using persons with a spinal cord injury. Spinal Cord, 2006, 44, 152-159.	0.9	116
21	Predicting Functional Outcome after Stroke: The Influence of Neglect on Basic Activities in Daily Living. Frontiers in Human Neuroscience, 2013, 7, 182.	1.0	115
22	Return to work after spinal cord injury. Spinal Cord, 2000, 38, 51-55.	0.9	114
23	Psychosocial Functioning of Spouses of Patients With Stroke From Initial Inpatient Rehabilitation to 3 Years Poststroke. Stroke, 2009, 40, 1399-1404.	1.0	114
24	Quality of life and the ICIDH: towards an integrated conceptual model for rehabilitation outcomes research. Clinical Rehabilitation, 1999, 13, 5-15.	1.0	113
25	Secondary impairments in young adults with spina bifida. Developmental Medicine and Child Neurology, 2004, 46, 420-427.	1.1	113
26	Life Satisfaction and Return to Work After Aneurysmal Subarachnoid Hemorrhage. Journal of Stroke and Cerebrovascular Diseases, 2011, 20, 324-329.	0.7	111
27	Caregiver burden and emotional problems in partners of stroke patients at two months and one year post-stroke: Determinants and prediction. Patient Education and Counseling, 2016, 99, 1632-1640.	1.0	104
28	Burden of support for partners of persons with spinal cord injuries. Spinal Cord, 2005, 43, 311-319.	0.9	103
29	Predicting Long-Term Independency in Activities of Daily Living After Middle Cerebral Artery Stroke. Stroke, 2006, 37, 1050-1054.	1.0	101
30	Secondary health conditions in persons with spinal cord injury: A longitudinal study from one to five years post-discharge. Journal of Rehabilitation Medicine, 2013, 45, 1016-1022.	0.8	101
31	Developing core sets for persons with spinal cord injuries based on the International Classification of Functioning, Disability and Health as a way to specify functioning. Spinal Cord, 2006, 44, 541-546.	0.9	99
32	Reproducibility of three self-report participation measures: The ICF Measure of Participation and Activities Screener, the Participation Scale, and the Utrecht Scale for Evaluation of Rehabilitation-Participation. Journal of Rehabilitation Medicine, 2010, 42, 752-757.	0.8	99
33	Prevalence and Determinants of Cognitive Complaints after Aneurysmal Subarachnoid Hemorrhage. Cerebrovascular Diseases, 2010, 29, 557-563.	0.8	99
34	Health problems of persons with spinal cord injury living in the Netherlands. Disability and Rehabilitation, 2005, 27, 1381-1389.	0.9	96
35	An epidemiological description of spinal cord injuries in The Netherlands in 1994. Spinal Cord, 2000, 38, 420-424.	0.9	95
36	Participation after Spinal Cord Injury. Journal of Neurologic Physical Therapy, 2005, 29, 147-156.	0.7	95

#	ARTICLE	IF	CITATIONS
37	The foot function index with verbal rating scales (FFI-5pt): A clinimetric evaluation and comparison with the original FFI. <i>Journal of Rheumatology</i> , 2002, 29, 1023-8.	1.0	95
38	Functional independence among young adults with spina bifida, in relation to hydrocephalus and level of lesion. <i>Developmental Medicine and Child Neurology</i> , 2006, 48, 114-119.	1.1	93
39	CARE FOR CARERS OF STROKE PATIENTS: EVIDENCE-BASED CLINICAL PRACTICE GUIDELINES. <i>Journal of Rehabilitation Medicine</i> , 2006, 38, 153-158.	0.8	93
40	Development and validation of IMPACT-S, an ICF-based questionnaire to measure activities and participation.. <i>Journal of Rehabilitation Medicine</i> , 2008, 40, 620-627.	0.8	93
41	A Comparative Review of Contemporary Participation Measures' Psychometric Properties and Content Coverage. <i>Archives of Physical Medicine and Rehabilitation</i> , 2010, 91, S17-S28.	0.5	93
42	The CONECISI trial: Results of a randomized controlled trial of a multidisciplinary cognitive behavioral program for coping with chronic neuropathic pain after spinal cord injury. <i>Pain</i> , 2012, 153, 120-128.	2.0	93
43	Validity of the Life Satisfaction Questions, the Life Satisfaction Questionnaire, and the Satisfaction With Life Scale in Persons With Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 1832-1837.	0.5	89
44	Quality of life and the ICDH: towards an integrated conceptual model for rehabilitation outcomes research. <i>Clinical Rehabilitation</i> , 1999, 13, 5-15.	1.0	86
45	Wheelchair skills tests: a systematic review. <i>Clinical Rehabilitation</i> , 2003, 17, 418-430.	1.0	85
46	Predictive Value of Ischemic Lesion Volume Assessed With Magnetic Resonance Imaging for Neurological Deficits and Functional Outcome Poststroke: A Critical Review of the Literature. <i>Neurorehabilitation and Neural Repair</i> , 2006, 20, 492-502.	1.4	85
47	Life satisfaction in people with spinal cord injury during the first five years after discharge from inpatient rehabilitation. <i>Disability and Rehabilitation</i> , 2012, 34, 76-83.	0.9	85
48	Associations between social support and stroke survivors' health-related quality of life—A systematic review. <i>Patient Education and Counseling</i> , 2013, 93, 169-176.	1.0	82
49	Development and validation of a short version of the Stroke Specific Quality of Life Scale. <i>Journal of Neurology, Neurosurgery and Psychiatry</i> , 2011, 82, 283-286.	0.9	80
50	Cross-cultural validity of four quality of life scales in persons with spinal cord injury. <i>Health and Quality of Life Outcomes</i> , 2010, 8, 94.	1.0	79
51	Recommendations for translation and reliability testing of international spinal cord injury data sets. <i>Spinal Cord</i> , 2011, 49, 357-360.	0.9	79
52	Services for spinal cord injured: availability and satisfaction. <i>Spinal Cord</i> , 1997, 35, 109-115.	0.9	78
53	Occurrence and predictors of pressure ulcers during primary in-patient spinal cord injury rehabilitation. <i>Spinal Cord</i> , 2011, 49, 106-112.	0.9	78
54	Swiss national community survey on functioning after spinal cord injury: Protocol, characteristics of participants and determinants of non-response. <i>Journal of Rehabilitation Medicine</i> , 2016, 48, 120-130.	0.8	78

#	ARTICLE	IF	CITATIONS
55	The SIP68: A measure of health-related functional status in rehabilitation medicine. Archives of Physical Medicine and Rehabilitation, 1996, 77, 440-445.	0.5	77
56	Participation in the Chronic Phase of Stroke. Topics in Stroke Rehabilitation, 2013, 20, 52-61.	1.0	77
57	Epidemiology of traumatic spinal cord injuries in the Netherlands in 2010. Spinal Cord, 2014, 52, 258-263.	0.9	77
58	What to Do With "Moderate" Reliability and Validity Coefficients?. Archives of Physical Medicine and Rehabilitation, 2016, 97, 1051-1052.	0.5	77
59	Quality of life in patients with spinal cord injury--basic issues, assessment, and recommendations. Restorative Neurology and Neuroscience, 2002, 20, 135-49.	0.4	74
60	Effects of Hand Cycle Training on Physical Capacity in Individuals With Tetraplegia: A Clinical Trial. Physical Therapy, 2009, 89, 1051-1060.	1.1	73
61	Care needs of persons with long-term spinal cord injury living at home in the Netherlands. Spinal Cord, 2010, 48, 423-428.	0.9	73
62	The wheelchair circuit: construct validity and responsiveness of a test to assess manual wheelchair mobility in persons with spinal cord injury. Archives of Physical Medicine and Rehabilitation, 2004, 85, 424-431.	0.5	72
63	Demographics of the Dutch multicenter prospective cohort study "Restoration of mobility in spinal cord injury rehabilitation". Spinal Cord, 2006, 44, 668-675.	0.9	72
64	Relationships Between Activities, Participation, Personal Factors, Mental Health, and Life Satisfaction in Persons With Spinal Cord Injury. Archives of Physical Medicine and Rehabilitation, 2012, 93, 82-89.	0.5	72
65	Return to work after major trauma. Clinical Rehabilitation, 2007, 21, 373-383.	1.0	71
66	Changes and Determinants of Life Satisfaction After Spinal Cord Injury: A Cohort Study in The Netherlands. Archives of Physical Medicine and Rehabilitation, 2008, 89, 1733-1740.	0.5	68
67	Relationship between manual wheelchair skill performance and participation of persons with spinal cord injuries 1 year after discharge from inpatient rehabilitation. Journal of Rehabilitation Research and Development, 2004, 42, 65.	1.6	67
68	Study Protocol of the International Spinal Cord Injury (InSCI) Community Survey. American Journal of Physical Medicine and Rehabilitation, 2017, 96, S23-S34.	0.7	67
69	Life satisfaction of young adults with spina bifida. Developmental Medicine and Child Neurology, 2007, 49, 458-463.	1.1	65
70	Quality of life after spinal cord injury: a comparison across six countries. Spinal Cord, 2013, 51, 322-326.	0.9	65
71	Quality of Life during the First Two Years Post Stroke: The Restore4Stroke Cohort Study. Cerebrovascular Diseases, 2016, 41, 19-26.	0.8	65
72	Characteristics, length of stay and functional outcome of patients with spinal cord injury in Dutch and Flemish rehabilitation centres. Spinal Cord, 2009, 47, 339-344.	0.9	63

#	ARTICLE	IF	CITATIONS
73	Evaluation of the physical activity scale for individuals with physical disabilities in people with spinal cord injury. <i>Spinal Cord</i> , 2010, 48, 542-547.	0.9	63
74	Chronic spinal cord injury pain: pharmacological and non-pharmacological treatments and treatment effectiveness. <i>Disability and Rehabilitation</i> , 2011, 33, 433-440.	0.9	63
75	The wheelchair circuit: Reliability of a test to assess mobility in persons with spinal cord injuries. <i>Archives of Physical Medicine and Rehabilitation</i> , 2002, 83, 1783-1788.	0.5	62
76	Measuring resilience with the Connorâ€“Davidson Resilience Scale (CD-RISC): which version to choose?. <i>Spinal Cord</i> , 2019, 57, 360-366.	0.9	62
77	Psychosocial functioning of spouses in the chronic phase after stroke: Improvement or deterioration between 1 and 3 years after stroke?. <i>Patient Education and Counseling</i> , 2008, 73, 153-158.	1.0	61
78	The Influence of Psychological Factors on Health-Related Quality of Life after Stroke: A Systematic Review. <i>International Journal of Stroke</i> , 2014, 9, 341-348.	2.9	61
79	Duration and functional outcome of spinal cord injury rehabilitation in the Netherlands. <i>Journal of Rehabilitation Research and Development</i> , 2004, 42, 75.	1.6	60
80	It takes two to tango: the integration of people with disabilities into society. <i>Disability and Society</i> , 2005, 20, 311-329.	1.4	60
81	Long-term restrictions in participation in stroke survivors under and over 70 years of age. <i>Disability and Rehabilitation</i> , 2018, 40, 637-645.	0.9	60
82	Trajectories in the Course of Life Satisfaction After Spinal Cord Injury: Identification and Predictors. <i>Archives of Physical Medicine and Rehabilitation</i> , 2011, 92, 207-213.	0.5	57
83	Responsiveness of four participation measures to changes during and after outpatient rehabilitation. <i>Journal of Rehabilitation Medicine</i> , 2011, 43, 1003-1009.	0.8	56
84	Predicting fatigue 1Âˆyear after aneurysmal subarachnoid hemorrhage. <i>Journal of Neurology</i> , 2011, 258, 1091-1097.	1.8	56
85	Prosthetic management of children in the Netherlands with upper limb deficiencies. <i>Prosthetics and Orthotics International</i> , 2001, 25, 228-234.	0.5	54
86	Trajectories of health-related quality of life after stroke: results from a one-year prospective cohort study. <i>Disability and Rehabilitation</i> , 2018, 40, 997-1006.	0.9	54
87	Capturing the Psychologic-Personal Perspective in Spinal Cord Injury. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2011, 90, S79-S96.	0.7	53
88	The Longitudinal Relation Between Physical Capacity and Wheelchair Skill Performance During Inpatient Rehabilitation of People With Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2005, 86, 1575-1581.	0.5	52
89	Restrictions in social participation of young adults with spina bifida. <i>Disability and Rehabilitation</i> , 2009, 31, 921-927.	0.9	52
90	Measurement properties of the short version of the Van Lieshout test for arm/hand function of persons with tetraplegia after spinal cord injury. <i>Spinal Cord</i> , 2006, 44, 763-771.	0.9	51

#	ARTICLE	IF	CITATIONS
91	Validity of the mental health subscale of the SF-36 in persons with spinal cord injury. <i>Spinal Cord</i> , 2012, 50, 707-710.	0.9	51
92	Bladder-emptying methods, neurogenic lower urinary tract dysfunction and impact on quality of life in people with long-term spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , 2017, 40, 43-53.	0.7	51
93	Productive activities, mental health and quality of life in disability: exploring the role enhancement and the role strain hypotheses. <i>BMC Psychology</i> , 2019, 7, 1.	0.9	51
94	What makes the dyspeptic patient feel ill? A cross sectional survey of functional health status, <i>Helicobacter pylori</i> infection, and psychological distress in dyspeptic patients in general practice. <i>Gut</i> , 1999, 45, 15-19.	6.1	50
95	Good inter-rater reliability of the Frenchay Activities Index in stroke patients. <i>Clinical Rehabilitation</i> , 2003, 17, 548-552.	1.0	50
96	When a Parent Has a Stroke. <i>Stroke</i> , 2005, 36, 2436-2440.	1.0	50
97	Sexological Competence of Different Rehabilitation Disciplines and Effects of a Discipline-specific Sexological Training. <i>Sexuality and Disability</i> , 2008, 26, 3-14.	0.4	50
98	Outcome parameters in spinal cord injury research: a systematic review using the International Classification of Functioning, Disability and Health (ICF) as a reference. <i>Spinal Cord</i> , 2010, 48, 522-528.	0.9	50
99	Secondary health conditions in persons with a spinal cord injury for at least 10 years: design of a comprehensive long-term cross-sectional study. <i>Disability and Rehabilitation</i> , 2013, 35, 1104-1110.	0.9	50
100	Relationship between Ischemic Lesion Volume and Functional Status in the 2nd Week after Middle Cerebral Artery Stroke. <i>Neurorehabilitation and Neural Repair</i> , 2005, 19, 133-138.	1.4	49
101	Health behaviour of persons with spinal cord injury. <i>Spinal Cord</i> , 2007, 45, 243-249.	0.9	49
102	Determinants of health-related quality of life after aneurysmal subarachnoid hemorrhage: a systematic review. <i>Quality of Life Research</i> , 2013, 22, 1027-1043.	1.5	49
103	Reproducibility of the Caregiver Strain Index and the Caregiver Reaction Assessment in partners of stroke patients living in the Dutch community. <i>Clinical Rehabilitation</i> , 2007, 21, 1050-1055.	1.0	48
104	Return to Work After Spinal Cord Injury. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2009, 88, 47-56.	0.7	48
105	Social activity contributes independently to life satisfaction three years post stroke. <i>Clinical Rehabilitation</i> , 2011, 25, 460-467.	1.0	47
106	A Longitudinal Cohort Study on Quality of Life in Stroke Patients and Their Partners: Restore4Stroke Cohort. <i>International Journal of Stroke</i> , 2014, 9, 148-154.	2.9	47
107	Temporal Evolution of Poststroke Cognitive Impairment Using the Montreal Cognitive Assessment. <i>Stroke</i> , 2017, 48, 98-104.	1.0	47
108	Cohort Profile of the International Spinal Cord Injury Community Survey Implemented in 22 Countries. <i>Archives of Physical Medicine and Rehabilitation</i> , 2020, 101, 2103-2111.	0.5	47

#	ARTICLE	IF	CITATIONS
109	Social support, coping and subjective well-being in patients with rheumatic diseases. <i>Patient Education and Counseling</i> , 2000, 39, 205-218.	1.0	46
110	Follow-up care for persons with spinal cord injury living in the community: a systematic review of interventions and their evaluation. <i>Spinal Cord</i> , 2005, 43, 462-475.	0.9	46
111	Influence of Hand Cycling on Physical Capacity in the Rehabilitation of Persons With a Spinal Cord Injury: A Longitudinal Cohort Study. <i>Archives of Physical Medicine and Rehabilitation</i> , 2008, 89, 1016-1022.	0.5	46
112	Development and validation of the Utrecht Scale for Evaluation of Clinical Rehabilitation (USER). <i>Clinical Rehabilitation</i> , 2009, 23, 909-917.	1.0	45
