#	ARTICLE	IF	CITATIONS
1	Levator Trauma After Vaginal Delivery. <i>Obstetrics and Gynecology</i> , 2005, 106, 707-712.	1.2	474
2	Levator trauma is associated with pelvic organ prolapse. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2008, 115, 979-984.	1.1	429
3	Biometry of the pubovisceral muscle and levator hiatus by three-dimensional pelvic floor ultrasound. <i>Ultrasound in Obstetrics and Gynecology</i> , 2005, 25, 580-585.	0.9	427
4	Ultrasound imaging of the pelvic floor. Part II: three-dimensional or volume imaging. <i>Ultrasound in Obstetrics and Gynecology</i> , 2004, 23, 615-625.	0.9	333
5	Intrapartum risk factors for levator trauma. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2010, 117, 1485-1492.	1.1	295
6	Minimal criteria for the diagnosis of avulsion of the puborectalis muscle by tomographic ultrasound. <i>International Urogynecology Journal</i> , 2011, 22, 699-704.	0.7	285
7	Ultrasound imaging of the pelvic floor. Part I: two-dimensional aspects. <i>Ultrasound in Obstetrics and Gynecology</i> , 2004, 23, 80-92.	0.9	284
8	Ballooning of the levator hiatus. <i>Ultrasound in Obstetrics and Gynecology</i> , 2008, 31, 676-680.	0.9	268
9	Quantification of major morphological abnormalities of the levator ani. <i>Ultrasound in Obstetrics and Gynecology</i> , 2007, 29, 329-334.	0.9	246
10	The prevalence of major abnormalities of the levator ani in urogynaecological patients. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2006, 113, 225-230.	1.1	233
11	Pelvic floor ultrasound: a review. <i>American Journal of Obstetrics and Gynecology</i> , 2010, 202, 321-334.	0.7	227
12	Ultrasound in the quantification of female pelvic organ prolapse. <i>Ultrasound in Obstetrics and Gynecology</i> , 2001, 18, 511-514.	0.9	198
13	Measuring engagement of the fetal head: validity and reproducibility of a new ultrasound technique. <i>Ultrasound in Obstetrics and Gynecology</i> , 2005, 25, 165-168.	0.9	177
14	Levator avulsion is a risk factor for cystocele recurrence. <i>Ultrasound in Obstetrics and Gynecology</i> , 2010, 36, 76-80.	0.9	163
15	Posterior compartment prolapse on two-dimensional and three-dimensional pelvic floor ultrasound: the distinction between true rectocele, perineal hypermobility and enterocele. <i>Ultrasound in Obstetrics and Gynecology</i> , 2005, 26, 73-77.	0.9	158
16	Levator coactivation is a significant confounder of pelvic organ descent on Valsalva maneuver. <i>Ultrasound in Obstetrics and Gynecology</i> , 2007, 30, 346-350.	0.9	152
17	Levator avulsion and grading of pelvic floor muscle strength. <i>International Urogynecology Journal</i> , 2008, 19, 633-636.	0.7	148
18	The Use of Perineal Ultrasound to Quantify Levator Activity and Teach Pelvic Floor Muscle Exercises. <i>International Urogynecology Journal</i> , 2001, 12, 166-169.	0.7	138

#	ARTICLE	IF	CITATIONS
19	Testâ€“retest and intra-observer repeatability of two-, three- and four-dimensional perineal ultrasound of pelvic floor muscle anatomy and function. International Urogynecology Journal, 2008, 19, 227-235.	0.7	138
20	The effect of levator avulsion on hiatal dimension and function. American Journal of Obstetrics and Gynecology, 2009, 201, 89.e1-89.e5.	0.7	138
21	Risk factors for prolapse recurrence: systematic review and meta-analysis. International Urogynecology Journal, 2018, 29, 13-21.	0.7	135
22	Avulsion injury and levator hiatal ballooning: two independent risk factors for prolapse? An observational study. Acta Obstetrica Et Gynecologica Scandinavica, 2012, 91, 211-214.	1.3	126
23	The levatorâ€™urethra gap measurement: a more objective means of determining levator avulsion?. Ultrasound in Obstetrics and Gynecology, 2008, 32, 941-945.	0.9	123
24	Avulsion of the pubovisceral muscle associated with large vaginal tear after normal vaginal delivery at term. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2007, 47, 341-344.	0.4	122
25	Validity and reproducibility of the digital detection of levator trauma. International Urogynecology Journal, 2008, 19, 1097-1101.	0.7	119
26	The â€“iris effectâ€™™: how two-dimensional and three-dimensional ultrasound can help us understand anti-incontinence procedures. Ultrasound in Obstetrics and Gynecology, 2004, 23, 267-271.	0.9	116
27	Mechanical properties of urogynecologic implant materials. International Urogynecology Journal, 2003, 14, 239-243.	0.7	112
28	How much does the levator hiatus have to stretch during childbirth?. BJOG: an International Journal of Obstetrics and Gynaecology, 2009, 116, 1657-1662.	1.1	112
29	Defecation proctography and translabial ultrasound in the investigation of defecatory disorders. Ultrasound in Obstetrics and Gynecology, 2008, 31, 567-571.	0.9	110
30	Pelvic floor trauma in childbirth. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2013, 53, 220-230.	0.4	106
31	The assessment of levator muscle strength: a validation of three ultrasound techniques. International Urogynecology Journal, 2002, 13, 156-159.	0.7	104
32	Pelvic Floor Function in Nulliparous Women Using Three-Dimensional Ultrasound and Magnetic Resonance Imaging. Obstetrics and Gynecology, 2008, 111, 631-638.	1.2	104
33	Tomographic ultrasound imaging of the pelvic floor: which levels matter most?. Ultrasound in Obstetrics and Gynecology, 2009, 33, 698-703.	0.9	100
34	Prevalence of anal sphincter injury in primiparous women. Ultrasound in Obstetrics and Gynecology, 2013, 42, 461-466.	0.9	98
35	Ultrasound assessment of pelvic organ prolapse: the relationship between prolapse severity and symptoms. Ultrasound in Obstetrics and Gynecology, 2007, 29, 688-691.	0.9	96
36	Pelvic Floor Ultrasound: A Review. Clinical Obstetrics and Gynecology, 2017, 60, 58-81.	0.6	95

#	ARTICLE	IF	CITATIONS
37	The time factor in the assessment of prolapse and levator ballooning. International Urogynecology Journal, 2012, 23, 175-178.	0.7	91
38	Pelvic floor ultrasound in incontinence: whatâ€™s in it for the surgeon?. International Urogynecology Journal, 2011, 22, 1085-1097.	0.7	90
39	Female Pelvic Organ Prolapse and Voiding Function. International Urogynecology Journal, 2002, 13, 284-288.	0.7	85
40	The aetiology of prolapse. International Urogynecology Journal, 2008, 19, 1323-1329.	0.7	85
41	Pelvic organ descent in young nulligravid women. American Journal of Obstetrics and Gynecology, 2004, 191, 95-99.	0.7	84
42	How important is TVT location?. Acta Obstetrica Et Gynecologica Scandinavica, 2004, 83, 904-908.	1.3	83
43	Which bowel symptoms are most strongly associated with a s rectocele?. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2005, 45, 505-508.	0.4	82
44	Sonographic appearance of transobturator slings: implications for function and dysfunction. International Urogynecology Journal, 2011, 22, 493-498.	0.7	82
45	Bladder Neck Mobility and Urethral Closure Pressure as Predictors of Genuine Stress Incontinence. International Urogynecology Journal, 2002, 13, 289-293.	0.7	80
46	Pelvic floor trauma following vaginal delivery. Current Opinion in Obstetrics and Gynecology, 2006, 18, 528-537.	0.9	80
47	What is clinically relevant prolapse? An attempt at defining cutoffs for the clinical assessment of pelvic organ descent. International Urogynecology Journal, 2014, 25, 451-455.	0.7	78
48	Does the tension-free vaginal tape stay where you put it?. American Journal of Obstetrics and Gynecology, 2003, 188, 950-953.	0.7	77
49	The effect of childbirth on pelvic organ mobility. Obstetrics and Gynecology, 2003, 102, 223-228.	1.2	77
50	Urethral mobility and urinary incontinence. Ultrasound in Obstetrics and Gynecology, 2010, 36, 507-511.	0.9	76
51	Pelvic floor ultrasound in prolapse: whatâ€™s in it for the surgeon?. International Urogynecology Journal, 2011, 22, 1221-1232.	0.7	76
52	Does avulsion of the puborectalis muscle affect bladder function?. International Urogynecology Journal, 2009, 20, 967-972.	0.7	75
53	Childbirth and pelvic floor trauma. Best Practice and Research in Clinical Obstetrics and Gynaecology, 2005, 19, 913-924.	1.4	74
54	The assessment of levator trauma: A comparison between palpation and 4D pelvic floor ultrasound. Neurourology and Urodynamics, 2006, 25, 424-427.	0.8	73

#	ARTICLE	IF	CITATIONS
55	Predicting operative delivery. <i>Ultrasound in Obstetrics and Gynecology</i> , 2006, 27, 409-415.	0.9	71
56	The effect of pregnancy on hiatal dimensions and urethral mobility: an observational study. <i>International Urogynecology Journal</i> , 2012, 23, 1561-1567.	0.7	71
57	The use of 3-dimensional ultrasound of the pelvic floor to predict recurrence risk after pelvic reconstructive surgery. <i>Australian and New Zealand Journal of Obstetrics and Gynaecology</i> , 2014, 54, 206-211.	0.4	71
58	Can levator avulsion be predicted antenatally?. <i>American Journal of Obstetrics and Gynecology</i> , 2010, 202, 586.e1-586.e6.	0.7	69
59	Levator function before and after childbirth. <i>Australian and New Zealand Journal of Obstetrics and Gynaecology</i> , 2004, 44, 19-23.	0.4	68
60	Diagnosis of levator avulsion injury: a comparison of three methods. <i>Ultrasound in Obstetrics and Gynecology</i> , 2012, 40, 693-698.	0.9	68
61	Ultrasound in the assessment of pelvic organ prolapse. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2019, 54, 12-30.	1.4	68
62	Two-dimensional and three-dimensional ultrasound imaging of suburethral slings. <i>Ultrasound in Obstetrics and Gynecology</i> , 2005, 26, 175-179.	0.9	67
63	Levator defects can be detected by 2D translabial ultrasound. <i>International Urogynecology Journal</i> , 2009, 20, 807-811.	0.7	66
64	Three-dimensional ultrasound imaging of the pelvic floor: the effect of parturition on paravaginal support structures. <i>Ultrasound in Obstetrics and Gynecology</i> , 2003, 21, 589-595.	0.9	64
65	TVT vs Monarc: a comparative study. <i>International Urogynecology Journal</i> , 2006, 17, 566-569.	0.7	63
66	Does levator ani injury affect cystocele type?. <i>Ultrasound in Obstetrics and Gynecology</i> , 2010, 36, 618-623.	0.9	61
67	Can ballooning of the levator hiatus be determined clinically?. <i>American Journal of Obstetrics and Gynecology</i> , 2012, 206, 246.e1-246.e4.	0.7	61
68	Exoanal Imaging of the Anal Sphincters. <i>Journal of Ultrasound in Medicine</i> , 2018, 37, 263-280.	0.8	59
69	Three-dimensional ultrasound imaging of the levator hiatus in late pregnancy and associations with delivery outcomes. <i>Australian and New Zealand Journal of Obstetrics and Gynaecology</i> , 2007, 47, 176-180.	0.4	58
70	New imaging method for assessing pelvic floor biomechanics. <i>Ultrasound in Obstetrics and Gynecology</i> , 2008, 31, 201-205.	0.9	58
71	Delivery mode and the risk of levator muscle avulsion: a meta-analysis. <i>International Urogynecology Journal</i> , 2019, 30, 901-907.	0.7	58
72	The Influence of Posture on Perineal Ultrasound Imaging Parameters. <i>International Urogynecology Journal</i> , 2001, 12, 104-106.	0.7	57

#	ARTICLE	IF	CITATIONS
73	The Urethral Pressure Profile and Ultrasound Imaging of the Lower Urinary Tract. <i>International Urogynecology Journal</i> , 2001, 12, 38-41.	0.7	57
74	Anal sphincter trauma and anal incontinence in urogynecological patients. <i>Ultrasound in Obstetrics and Gynecology</i> , 2015, 46, 363-366.	0.9	57
75	Does the Epi-No® birth trainer prevent vaginal birth-related pelvic floor trauma? A multicentre prospective randomised controlled trial. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2016, 123, 995-1003.	1.1	56
76	The quantification of levator muscle resting tone by digital assessment. <i>International Urogynecology Journal</i> , 2008, 19, 1489-1493.	0.7	55
77	Does the Epi-No® Birth Trainer reduce levator trauma? A randomised controlled trial. <i>International Urogynecology Journal</i> , 2011, 22, 1521-1528.	0.7	55
78	The role of childbirth in the aetiology of rectocele. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2006, 113, 264-267.	1.1	54
79	Rectal intussusception is associated with abnormal levator ani muscle structure and morphometry. <i>Techniques in Coloproctology</i> , 2011, 15, 39-43.	0.8	54
80	Vaginal childbirth and bladder neck mobility. <i>Australian and New Zealand Journal of Obstetrics and Gynaecology</i> , 2002, 42, 522-525.	0.4	53
81	What is abnormal uterine descent on translabial ultrasound?. <i>International Urogynecology Journal</i> , 2015, 26, 1783-1787.	0.7	53
82	The association between vaginal parity and hiatal dimensions: a retrospective observational study in a tertiary urogynaecological centre. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2015, 122, 867-872.	1.1	51
83	Pelvic organ prolapse as a function of levator ani avulsion, hiatus size, and strength. <i>American Journal of Obstetrics and Gynecology</i> , 2019, 221, 41.e1-41.e7.	0.7	51
84	Which women are most affected by delivery-related changes in pelvic organ mobility?. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2003, 111, 15-18.	0.5	50
85	TVT and Sparc suburethral slings: a case-control series. <i>International Urogynecology Journal</i> , 2004, 15, 129-131.	0.7	50
86	Forceps: towards obsolescence or revival?. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2015, 94, 347-351.	1.3	50
87	Use of a visual analog scale for evaluation of bother from pelvic organ prolapse. <i>Ultrasound in Obstetrics and Gynecology</i> , 2014, 43, 693-697.	0.9	49
88	The prevalence of abnormal posterior compartment anatomy and its association with obstructed defecation symptoms in urogynecological patients. <i>International Urogynecology Journal</i> , 2016, 27, 939-944.	0.7	49
89	Ultrasound in the investigation of posterior compartment vaginal prolapse and obstructed defecation. <i>Ultrasound in Obstetrics and Gynecology</i> , 2012, 40, 14-27.	0.9	48
90	Residual defects of the external anal sphincter following primary repair: an observational study using transperineal ultrasound. <i>Ultrasound in Obstetrics and Gynecology</i> , 2014, 44, 704-709.	0.9	48

#	ARTICLE	IF	CITATIONS
91	Toward normal birthâ€“but at what cost?. American Journal of Obstetrics and Gynecology, 2016, 215, 439-444.	0.7	48
92	Pelvic floor trauma in childbirth - Myth or reality?. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2005, 45, 3-11.	0.4	47
93	Is levator avulsion a predictor of cystocele recurrence following anterior vaginal mesh placement?. Ultrasound in Obstetrics and Gynecology, 2013, 42, 230-234.	0.9	47
94	Do Asian women have less pelvic organ mobility than Caucasians?. International Urogynecology Journal, 2003, 14, 250-253.	0.7	46
95	Does pregnancy affect pelvic organ mobility?. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2004, 44, 517-520.	0.4	46
96	The urethral motion profile: A novel method to evaluate urethral support and mobility. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2008, 48, 337-342.	0.4	45
97	Assessment of pelvic organ prolapse: a review. Ultrasound in Obstetrics and Gynecology, 2016, 48, 681-692.	0.9	45
98	Do women notice the impact of childbirth-related levator trauma on pelvic floor and sexual function? Results of an observational ultrasound study. International Urogynecology Journal, 2014, 25, 1389-1398.	0.7	44
99	Status of the pelvic floor in young primiparous women. Ultrasound in Obstetrics and Gynecology, 2015, 46, 356-362.	0.9	44
100	The repeatability of sonographic measures of functional pelvic floor anatomy. International Urogynecology Journal, 2015, 26, 1667-1672.	0.7	44
101	Vaginal laxity: what does this symptom mean?. International Urogynecology Journal, 2018, 29, 723-728.	0.7	43
102	Impact of levator trauma on pelvic floor muscle function. International Urogynecology Journal, 2014, 25, 375-380.	0.7	42
103	Pelvic Floor Disorders After Obstetric Avulsion of the Levator Ani Muscle. Female Pelvic Medicine and Reconstructive Surgery, 2019, 25, 3-7.	0.6	42
104	Mesh contraction: myth or reality?. American Journal of Obstetrics and Gynecology, 2011, 204, 173.e1-173.e4.	0.7	41
105	Does levator trauma â€“healâ€™?. Ultrasound in Obstetrics and Gynecology, 2012, 40, 570-575.	0.9	41
106	Pelvic floor muscle biometry and pelvic organ mobility in East Asian and Caucasian nulliparae. Ultrasound in Obstetrics and Gynecology, 2015, 45, 599-604.	0.9	41
107	Perineal and vaginal tears are clinical markers for occult levator ani trauma: a retrospective observational study. Ultrasound in Obstetrics and Gynecology, 2016, 47, 224-227.	0.9	41
108	How best to measure the levator hiatus: evidence for the nonâ€“Euclidean nature of the â€“plane of minimal dimensionsâ€™. Ultrasound in Obstetrics and Gynecology, 2010, 36, 755-758.	0.9	40

#	ARTICLE	IF	CITATIONS
109	Cystocele recurrence after anterior colporrhaphy with and without mesh use. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2014, 172, 131-135.	0.5	39
110	The Urethral Motion Profile Before and After Suburethral Sling Placement. <i>Journal of Urology</i> , 2010, 183, 1450-1454.	0.2	38
111	Diagnosis of cystocele type by clinical examination and pelvic floor ultrasound. <i>Ultrasound in Obstetrics and Gynecology</i> , 2012, 39, 710-714.	0.9	38
112	Levator function in nulliparous women. <i>International Urogynecology Journal</i> , 2003, 14, 24-26.	0.7	37
113	Paravaginal defects: a comparison of clinical examination and 2D/3D ultrasound imaging. <i>Australian and New Zealand Journal of Obstetrics and Gynaecology</i> , 2005, 45, 187-190.	0.4	37
114	Association between ICS POP-Q coordinates and translabial ultrasound findings: implications for definition of "normal pelvic organ support". <i>Ultrasound in Obstetrics and Gynecology</i> , 2016, 47, 363-368.	0.9	36
115	Symptoms of voiding dysfunction: what do they really mean?. <i>International Urogynecology Journal</i> , 2005, 16, 52-55.	0.7	35
116	Is it necessary to diagnose levator avulsion on pelvic floor muscle contraction?. <i>Ultrasound in Obstetrics and Gynecology</i> , 2017, 49, 252-256.	0.9	35
117	The Effect of Childbirth on Pelvic Organ Mobility. <i>Obstetrics and Gynecology</i> , 2003, 102, 223-228.	1.2	34
118	Can levator avulsion be repaired surgically? A prospective surgical pilot study. <i>International Urogynecology Journal</i> , 2013, 24, 1011-1015.	0.7	34
119	What is normal bladder neck anatomy?. <i>International Urogynecology Journal</i> , 2016, 27, 945-950.	0.7	34
120	Pregnancy, labour and delivery as risk factors for pelvic organ prolapse: a systematic review. <i>International Urogynecology Journal</i> , 2021, 32, 1623-1631.	0.7	33
121	The Effect of Childbirth on Pelvic Organ Mobility. <i>Obstetrics and Gynecology</i> , 2003, 102, 1415.	1.2	32
