#	ARTICLE	IF	CITATIONS
1	Knee and ankle disorders during functional gait in mucopolysaccharidosis type VI. <i>Fisioterapia E Pesquisa</i> , 2021, 28, 117-123.	0.1	0
2	Evidence-based Physiotherapy and Functionality in Adult and Pediatric patients with COVID-19. <i>Journal of Human Growth and Development</i> , 2020, 30, 148-155.	0.6	27
3	Positive pressure ventilation in the weaning of preterm newborns. <i>Minerva Pediatrics</i> , 2020, , .	0.4	0
4	Is transcutaneous electrical muscle stimulation an alternative for preventing acquired muscle weakness in the pediatric intensive care unit? A scoping review. <i>Pediatric Pulmonology</i> , 2019, 54, 1108-1116.	2.0	6
5	Correlation of diaphragm mobility and thickness with anthropometric variables in mucopolysaccharidosis VI. , 2019, , .		0
6	Predictive equations overestimate the inspiratory muscle strength in children with mucopolysaccharidosis VI. , 2019, , .		0
7	Effects of pressure support ventilation on ventilator-induced lung injury in mild acute respiratory distress syndrome depend on level of positive end-expiratory pressure. <i>European Journal of Anaesthesiology</i> , 2018, 35, 298-306.	1.7	23
8	Weaning failure and respiratory muscle function: What has been done and what can be improved?. <i>Respiratory Medicine</i> , 2018, 134, 54-61.	2.9	26
9	Comparison of mobility, shortening velocity and diaphragmatic thickness between pre-term and term infant: a pilot study. , 2018, , .		0
10	Mobility, shortening velocity and diaphragmatic thickness between infants born at term lower than and above 6 months of age: a pilot study. , 2018, , .		0
11	Assessment of respiratory muscle strength with two different methods in individuals with Mucopolysaccharidosis type VI: a pilot study. , 2017, , .		0
12	Effects of spontaneous breathing with different PEEP levels on ventilator-induced lung injury in mild ARDS. , 2017, , .		0
13	Electrical stimulation therapy in children with muscle dysfunction: a systematic review. , 2017, , .		0
14	Bundles for the prevention of ventilator-associated pneumonia in a Brazilian hospital. , 2015, , .		0
15	Mucopolysaccharidosis type VI: Assessment of functionality, functional capacity and respiratory muscle strength. , 2015, , .		0
16	Factors associated with prolonged mechanical ventilation in children undergoing cardiac surgery. , 2015, , .		0
