#	ARTICLE	IF	CITATIONS
1	The bioarchaeology of urbanization: The biological, demographic, and social consequences of living in cities. By TracyK. Betsinger and Sharon N.Dewitte. New York, NY: Springer. 2020. 538 pp. \$139.00/\$179.99 (eBook/hardback) Laure Spake. American Journal of Biological Anthropology, 2022, 177, 365-366.	0.6	0
2	Biological mortality bias in diaphyseal growth of contemporary children: Implications for paleoanthology. American Journal of Biological Anthropology, 2022, 178, 89-107.	0.6	4
3	Fertility and faith: insights from human behavioral ecology, evolutionary psychology, and life history theory. Religion, Brain and Behavior, 2022, 12, 406-413.	0.4	2
4	Interpolation of the Maresh diaphyseal length data for use in quantitative analyses of growth. International Journal of Osteoarchaeology, 2021, 31, 232-242.	0.6	5
5	Testing the cross-applicability of juvenile sex estimation from diaphyseal dimensions. Forensic Science International, 2021, 321, 110739.	1.3	1
6	Mother's Partnership Status and Allomothering Networks in the United Kingdom and United States. Social Sciences, 2021, 10, 182.	0.7	5
7	Lack of biological mortality bias in the timing of dental formation in contemporary children: Implications for the study of past populations. American Journal of Physical Anthropology, 2021, 174, 646-660.	2.1	9
8	Population variation in diaphyseal growth and age estimation of juvenile skeletal remains. , 2021, , 99-138.		1
9	Severe skeletal lesions, osteopenia and growth deficit in a child with pulmonary tuberculosis (mid-20th century, Portugal). International Journal of Paleopathology, 2020, 30, 47-56.	0.8	9
10	A simple and software-independent protocol for the measurement of post-cranial bones in anthropological contexts using thin slab maximum intensity projection. Forensic Imaging, 2020, 20, 200354.	0.4	6
11	The digital lives of Ancestors. , 2020, , 205-218.		0
12	Indirect evidence for biological mortality bias in growth from two temporo-spatially distant samples of children. Anthropologischer Anzeiger, 2019, 76, 379-390.	0.2	7
13	The impact of social experiences of physical and structural violence on the growth of African enslaved children recovered from Lagos, Portugal (15th-17th centuries). American Journal of Physical Anthropology, 2019, 168, 209-221.	2.1	14
14	Are we using the appropriate reference samples to develop juvenile age estimation methods based on bone size? An exploration of growth differences between average children and those who become victims of homicide. Forensic Science International, 2018, 282, 1-12.	1.3	11
15	Age estimation of immature human skeletal remains from the dimensions of the girdle bones in the postnatal period. American Journal of Physical Anthropology, 2017, 163, 772-783.	2.1	14
16	A Reappraisal of Developing Permanent Tooth Length as an Estimate of Age in Human Immature Skeletal Remains. Journal of Forensic Sciences, 2016, 61, 1180-1189.	0.9	7
17	Growth during times of fear and emotional stress. Human Biology and Public Health, 0, 2, .	0.0	3
18	Faith and fertility in evolutionary perspective. Religion, Brain and Behavior, 0, , 1-9.	0.4	1
