|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 1  | Multilevel governance of sustainable energy policies: The role of regions and provinces to support the participation of small local authorities in the Covenant of Mayors. <i>Sustainable Cities and Society</i> , 2018, 39, 729-739.  | 10.4 | 92        |
| 2  | Covenant of mayors signatories leading the way towards 1.5 degree global warming pathway. <i>Sustainable Cities and Society</i> , 2018, 41, 568-575.                                                                                   | 10.4 | 76        |
| 3  | Assessment of climate change mitigation policies in 315 cities in the Covenant of Mayors initiative. <i>Sustainable Cities and Society</i> , 2020, 60, 102258.                                                                         | 10.4 | 68        |
| 4  | Towards a global comprehensive and transparent framework for cities and local governments enabling an effective contribution to the Paris climate agreement. <i>Current Opinion in Environmental Sustainability</i> , 2018, 30, 67-74. | 6.3  | 43        |
| 5  | Reduction of primary energy needs in urban areas through optimal planning of district heating and heat pump installations. <i>Energy</i> , 2012, 48, 40-46.                                                                            | 8.8  | 40        |
| 6  | Covenant of Mayors: Local Energy Generation, Methodology, Policies and Good Practice Examples. <i>Energies</i> , 2019, 12, 985.                                                                                                        | 3.1  | 35        |
| 7  | Global Covenant of Mayors, a dataset of greenhouse gas emissions for 6200 cities in Europe and the Southern Mediterranean countries. <i>Earth System Science Data</i> , 2021, 13, 3551-3564.                                           | 9.9  | 25        |
| 8  | The impact on air quality of energy saving measures in the major cities signatories of the Covenant of Mayors initiative. <i>Environment International</i> , 2018, 118, 222-234.                                                       | 10.0 | 24        |
| 9  | Thermoeconomic cost assessment in future district heating networks. <i>Energy</i> , 2016, 117, 485-491.                                                                                                                                | 8.8  | 15        |
| 10 | Impacts of a climate change initiative on air pollutant emissions: Insights from the Covenant of Mayors. <i>Environment International</i> , 2020, 145, 106029.                                                                         | 10.0 | 12        |
| 11 | Thermoeconomics as a tool for the design and analysis of energy savings initiatives in buildings connected to district heating networks. <i>International Journal of Thermodynamics</i> , 2012, 15, .                                  | 1.0  | 6         |
| 12 | Data on mitigation policies at local level within the Covenant of Mayorsâ€™ monitoring emission inventories. <i>Data in Brief</i> , 2020, 32, 106217.                                                                                  | 1.0  | 4         |
