#	Paper	IF	Citations
53	Systematic Reviews are Rarely Used to Inform Study Design - a Systematic Review and Meta-analysis.. <i>Journal of Clinical Epidemiology</i> , 2022 ,	5.7	3
52	Quality of life and complications after nephron-sparing treatment of renal cell carcinoma stage T1-a systematic review.. <i>Systematic Reviews</i> , 2022 , 11, 4	3	0
51	Impact of Open Dialogue about Complementary Alternative Medicine-A Phase II Randomized Controlled Trial.. <i>Cancers</i> , 2022 , 14,	6.6	1
50	Efficacy of open dialogue about complementary and alternative medicine compared with standard care in improving quality of life in patients undergoing conventional oncology treatment (CAMONCO 2): protocol for a randomised controlled trial.. <i>BMJ Open</i> , 2022 , 12, e059960	3	
49	Shared decision-making in general practice from a patient perspective. A cross-sectional survey.. <i>Scandinavian Journal of Primary Health Care</i> , 2022 , 1-6	2.7	
48	Rehabilitation for life: the effect on physical function of rehabilitation and care in older adults after hip fracture-study protocol for a cluster-randomised stepped-wedge trial.. <i>Trials</i> , 2022 , 23, 375	2.8	
47	Dementia-friendliness - Inclusion or exclusion: A critical discourse analysis.. <i>Dementia</i> , 2022 , 1471301222	3	101240
46	Patients' perspectives on everyday life after hip fracture: A longitudinal interview study.. <i>International Journal of Orthopaedic and Trauma Nursing</i> , 2021 , 44, 100918	1.1	
45	Dementia-Friendliness in Danish and international contexts: A critical discourse analysis. <i>Gerontologist</i> , 2021 ,	5	2
44	Elderly patients' perspectives on treatment, care and rehabilitation after hip fracture: A qualitative systematic review. <i>International Journal of Orthopaedic and Trauma Nursing</i> , 2021 , 41, 100811	1.1	4
43	Evidence-Based Research Series-Paper 2 : Using an Evidence-Based Research approach before a new study is conducted to ensure value. <i>Journal of Clinical Epidemiology</i> , 2021 , 129, 158-166	5.7	10
42	Evidence-Based Research Series-Paper 3: Using an Evidence-Based Research approach to place your results into context after the study is performed to ensure usefulness of the conclusion. <i>Journal of Clinical Epidemiology</i> , 2021 , 129, 167-171	5.7	5
41	General practitioners' perceptions of treatment of chronically ill patients managed in general practice: An interview study. <i>European Journal of General Practice</i> , 2021 , 27, 103-110	2.8	1
40	Effect of family nursing therapeutic conversations on patients with heart failure and their family members: Secondary outcomes of a randomised multicentre trial. <i>Journal of Clinical Nursing</i> , 2021 , 30, 742-756	3.2	1
39	Dementia-friendliness - A matter of knowledge, responsibility, dignity, and illusion. <i>Journal of Aging Studies</i> , 2021 , 59, 100970	2.2	3
38	Do We Listen to Children's Voices in Physical and Occupational Therapy? A Scoping Review.. <i>Physical and Occupational Therapy in Pediatrics</i> , 2021 , 1-22	2.1	2
37	Improved patient-reported outcomes after interprofessional training in mental health: a nonrandomized intervention study. <i>BMC Psychiatry</i> , 2020 , 20, 236	4.2	3

36	Open dialogue about complementary and alternative medicine (CAM) integrated in conventional oncology care, characteristics and impact. A systematic review. <i>Patient Education and Counseling</i> , 2020 , 103, 2224-2234	3.1	4
35	National clinical guidelines in municipality-based rehabilitation: A cross-sectional survey of knowledge, use, and implementation. <i>Physiotherapy Theory and Practice</i> , 2020 , 1-10	1.5	1
34	The effect of systematic functional assessment and immediate rehabilitation on physical performance in acutely admitted older adults with reduced functional performance: a randomised clinical trial. <i>Disability and Rehabilitation</i> , 2020 , 42, 53-62	2.4	3
33	Interprofessional clinical training in mental health improves students' readiness for interprofessional collaboration: a non-randomized intervention study. <i>BMC Medical Education</i> , 2019 , 19, 27	3.3	13
32	Information is a key prerequisite for perceived relevance of patient reported outcome data (PRO data): A multicenter questionnaire study. <i>Journal of Nursing Education and Practice</i> , 2019 , 9, 107	0.3	
31	The Effects of Interprofessional Education in Mental Health Practice: Findings from a Systematic Review. <i>Academic Psychiatry</i> , 2019 , 43, 200-208	1.1	16
30	The impact of an orthogeriatric intervention in patients with fragility fractures: a cohort study. <i>BMC Geriatrics</i> , 2019 , 19, 268	4.1	7
29	Validity and Responsiveness to Change of the 30-Second Chair-Stand Test in Older Adults Admitted to an Emergency Department. <i>Journal of Geriatric Physical Therapy</i> , 2019 , 42, 265-274	3.2	13
28	Using eHealth to Increase Autonomy Supportive Care: A Multicenter Intervention Study in Antenatal Care. <i>CIN - Computers Informatics Nursing</i> , 2018 , 36, 77-83	1.4	5
27	Translation and field testing of the family functioning, family health and social support questionnaire in Danish outpatients with heart failure. <i>Scandinavian Journal of Caring Sciences</i> , 2018 , 32, 554-566	2.3	5
26	Interprofessional collaboration: An exploration of possible prerequisites for successful implementation. <i>Journal of Interprofessional Care</i> , 2018 , 32, 185-195	2.7	25
25	Quality of life and level of post-traumatic stress disorder among trauma patients: A comparative study between a regional and a university hospital. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2018 , 26, 44	3.6	10
24	Health care professionals' readiness for an interprofessional orthogeriatric unit: A cross-sectional survey. <i>International Journal of Orthopaedic and Trauma Nursing</i> , 2017 , 26, 18-23	1.1	5
23	A prediction model to identify hospitalised, older adults with reduced physical performance. <i>BMC Geriatrics</i> , 2017 , 17, 281	4.1	4
22	Reflections on two years after establishing an orthogeriatric unit: a focus group study of healthcare professionals' expectations and experiences. <i>BMC Health Services Research</i> , 2017 , 17, 602	2.9	5
21	Inappropriate admissions or inadequate discharges of frail elderly: Competing program theories and implementation challenges in an intermediate care intervention. <i>Journal of Nursing Education and Practice</i> , 2017 , 7, 72	0.3	
20	Characteristics of patients receiving district-nursing assistance for anticoagulant therapy: A descriptive cohort study. <i>European Geriatric Medicine</i> , 2017 , 8, 256-259	3	
19	High satisfaction ratings in an orthogeriatric ward: A cross-sectional survey. <i>Journal of Nursing Education and Practice</i> , 2017 , 7, 13	0.3	

18	Development of a Web-Based Health Care Intervention for Patients With Heart Disease: Lessons Learned From a Participatory Design Study. <i>JMIR Research Protocols</i> , 2017 , 6, e75	2	16
17	Adaptation and reliability of the Readiness for Inter professional Learning Scale in a Danish student and health professional setting. <i>BMC Medical Education</i> , 2016 , 16, 60	3.3	14
16	Diagnostic packages can be assigned accurately in emergency departments. A multi-centre cohort study. <i>Danish Medical Journal</i> , 2016 , 63,	3.8	5
15	Mental health and quality of life in shoulder pain patients and hip pain patients assessed by patient reported outcome. <i>International Journal of Orthopaedic and Trauma Nursing</i> , 2014 , 18, 81-88	1.1	1
14	Patient delay is the main cause of treatment delay in acute limb ischemia: an investigation of pre- and in-hospital time delay. <i>World Journal of Emergency Surgery</i> , 2014 , 9, 56	9.2	15
13	Test-retest reliability of Common Mental Disorders Questionnaire (CMDQ) in patients with total hip replacement (THR). <i>BMC Psychology</i> , 2014 , 2, 32	2.8	0
12	The effect on physical performance of a functional assessment and immediate rehabilitation of acutely admitted elderly patients with reduced functional performance: the design of a randomised clinical trial. <i>BMJ Open</i> , 2014 , 4, e005252	3	4
11	Interprofessional clinical training improves self-efficacy of health care students. <i>Medical Teacher</i> , 2013 , 35, e1235-42	3	33
10	Occupational therapy and physiotherapy benefit the acute patient pathway: A mixed-methods study. <i>Journal of Nursing Education and Practice</i> , 2013 , 4,	0.3	2
9	Long term follow-up on health care professionals' self-efficacy after communication skills training. <i>Journal of Nursing Education and Practice</i> , 2013 , 3,	0.3	1
8	Training improves inter-collegial communication. <i>Clinical Teacher</i> , 2012 , 9, 173-7	1.1	4
7	Communication skills training for health care professionals improves the adult orthopaedic patient's experience of quality of care. <i>Scandinavian Journal of Caring Sciences</i> , 2012 , 26, 698-704	2.3	22
6	Patient anxiety and concern as predictors for the perceived quality of treatment and patient reported outcome (PRO) in orthopaedic surgery. <i>BMC Health Services Research</i> , 2012 , 12, 244	2.9	7
5	Blood sample tube transporting system versus point of care technology in an emergency department; effect on time from collection to reporting? A randomised trial. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2012 , 20, 71	3.6	10
4	Communication skills training increases self-efficacy of health care professionals. <i>Journal of Continuing Education in the Health Professions</i> , 2012 , 32, 90-7	2.1	79
3	Organizational evaluation of an interprofessional study unit--results from a Danish case study. <i>Journal of Interprofessional Care</i> , 2012 , 26, 497-504	2.7	8
2	Health care professionals' experience of participating in a communication course in an orthopaedic department. <i>International Journal of Orthopaedic and Trauma Nursing</i> , 2011 , 15, 202-211	1.1	3
1	The answer depends on pragmatic norms, semantic context-sensitivity, and epistemic reflection. A linguistic and epistemological analysis of the Danish Short Form 36 Health Survey (SF-36). <i>Health Services and Outcomes Research Methodology</i> , 1	1.6	0
