

Kevin D O brien

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/3493682/kevin-d-obrien-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
137	Kidney Tubular Injury Biomarkers and Secretory Function in Acute Decompensated Heart Failure.. <i>Kidney Medicine</i> , 2022 , 4, 100418	2.8	
136	Comparison between genetic and pharmaceutical disruption of LDLR expression for the development of atherosclerosis.. <i>Journal of Lipid Research</i> , 2022 , 100174	6.3	
135	A scoping review of new implementations of interprofessional bedside rounding models to improve teamwork, care, and outcomes in hospitals. <i>Journal of Interprofessional Care</i> , 2021 , 1-16	2.7	1
134	Chronic hindbrain administration of oxytocin elicits weight loss in male diet-induced obese mice. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2021 , 320, R471-R487	3.2	4
133	Sexually Dimorphic Relationships Among Saa3 (Serum Amyloid A3), Inflammation, and Cholesterol Metabolism Modulate Atherosclerosis in Mice. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2021 , 41, e299-e313	9.4	2
132	Niacin Increases Atherogenic Proteins in High-Density Lipoprotein of Statin-Treated Subjects. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2021 , 41, 2330-2341	9.4	1
131	Boosting mitochondrial metabolism with dietary supplements in heart failure. <i>Nature Reviews Cardiology</i> , 2021 , 18, 685-686	14.8	1
130	Effects of Combined Oxytocin and Beta-3 Receptor Agonist (CL 316243) Treatment on Body Weight and Adiposity in Male Diet-Induced Obese Rats. <i>Frontiers in Physiology</i> , 2021 , 12, 725912	4.6	4
129	Boosting NAD level suppresses inflammatory activation of PBMCs in heart failure. <i>Journal of Clinical Investigation</i> , 2020 , 130, 6054-6063	15.9	37
128	Hematopoietic Cell-Expressed Endothelial Nitric Oxide Protects the Liver From Insulin Resistance. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2020 , 40, 670-681	9.4	1
127	Accuracy of Doppler blood pressure measurement in HeartMate 3 ventricular assist device patients. <i>ESC Heart Failure</i> , 2020 , 7, 4241	3.7	2
126	Unlocking the Secrets of Mitochondria in the Cardiovascular System: Path to a Cure in Heart Failure A Report from the 2018 National Heart, Lung, and Blood Institute Workshop. <i>Circulation</i> , 2019 , 140, 1205-1216	16.7	43
125	Accuracy of Doppler blood pressure measurement in continuous-flow left ventricular assist device patients. <i>ESC Heart Failure</i> , 2019 , 6, 793-798	3.7	8
124	The role of vasodilator-stimulated phosphoprotein (VASP) in the control of hepatic gluconeogenic gene expression. <i>PLoS ONE</i> , 2019 , 14, e0215601	3.7	1
123	Purposeful interprofessional team intervention improves relational coordination among advanced heart failure care teams. <i>Journal of Interprofessional Care</i> , 2019 , 33, 481-489	2.7	21
122	An interprofessional collaborative practice approach to transform heart failure care: An overview. <i>Journal of Interprofessional Care</i> , 2018 , 32, 378-381	2.7	13
121	Lp(a) (Lipoprotein(a)) Levels Predict Progression of Carotid Atherosclerosis in Subjects With Atherosclerotic Cardiovascular Disease on Intensive Lipid Therapy: An Analysis of the AIM-HIGH (Atherothrombosis Intervention in Metabolic Syndrome With Low HDL/High Triglycerides: Impact on Global Health Outcomes) Carotid Magnetic Resonance Imaging Substudy Brief Report. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2018 , 38, 673-678	9.4	25

120	Deficiency of Invariant Natural Killer T Cells Does Not Protect Against Obesity but Exacerbates Atherosclerosis in Ldlr Mice. <i>International Journal of Molecular Sciences</i> , 2018 , 19,	6.3	4
119	Chronic oral rapamycin decreases adiposity, hepatic triglycerides and insulin resistance in male mice fed a diet high in sucrose and saturated fat. <i>Experimental Physiology</i> , 2018 , 103, 1469-1480	2.4	15
118	10,12 Conjugated Linoleic Acid-Driven Weight Loss Is Protective against Atherosclerosis in Mice and Is Associated with Alternative Macrophage Enrichment in Perivascular Adipose Tissue. <i>Nutrients</i> , 2018 , 10,	6.7	10
117	Diaporthe soft tissue infection in a heart transplant patient. <i>Transplant Infectious Disease</i> , 2017 , 19, e12689	6.9	5
116	Carotid Plaque Lipid Content and Fibrous Cap Status Predict Systemic CV Outcomes: The MRI Substudy in AIM-HIGH. <i>JACC: Cardiovascular Imaging</i> , 2017 , 10, 241-249	8.4	59
115	Adipocyte-Specific Deficiency of NADPH Oxidase 4 Delays the Onset of Insulin Resistance and Attenuates Adipose Tissue Inflammation in Obesity. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2017 , 37, 466-475	9.4	62
114	Metabolically distinct weight loss by 10,12 CLA and caloric restriction highlight the importance of subcutaneous white adipose tissue for glucose homeostasis in mice. <i>PLoS ONE</i> , 2017 , 12, e0172912	3.7	21
113	An open-label, non-randomized study of the pharmacokinetics of the nutritional supplement nicotinamide riboside (NR) and its effects on blood NAD+ levels in healthy volunteers. <i>PLoS ONE</i> , 2017 , 12, e0186459	3.7	123
112	Relationship of baseline HDL subclasses, small dense LDL and LDL triglyceride to cardiovascular events in the AIM-HIGH clinical trial. <i>Atherosclerosis</i> , 2016 , 251, 454-459	3.1	49
111	Summary of clinical and laboratory data of study subjects with and without DCE-MRI plaque measurements in the AIM-HIGH clinical trial. <i>Data in Brief</i> , 2016 , 6, 476-81	1.2	1
110	Longer duration of statin therapy is associated with decreased carotid plaque vascularity by magnetic resonance imaging. <i>Atherosclerosis</i> , 2016 , 245, 74-81	3.1	17
109	Systematic donor selection review process improves cardiac transplant volumes and outcomes. <i>Journal of Thoracic and Cardiovascular Surgery</i> , 2016 , 151, 238-43	1.5	21
108	Serum amyloid A impairs the antiinflammatory properties of HDL. <i>Journal of Clinical Investigation</i> , 2016 , 126, 266-81	15.9	88
107	Effects of Murine Norovirus on Chlamydia pneumoniae-Accelerated Atherosclerosis in ApoE(-/-) Mice. <i>Comparative Medicine</i> , 2016 , 66, 188-96	1.6	3
106	Response to Comment on the FLAT-SUGAR Trial Investigators. Glucose Variability in a 26-Week Randomized Comparison of Mealtime Treatment With Rapid-Acting Insulin Versus GLP-1 Agonist in Participants With Type 2 Diabetes at High Cardiovascular Risk. <i>Diabetes Care</i> 2016;39:973-981. <i>Diabetes Care</i> , 2016 , 39, e188	14.6	1
105	Effects of murine norovirus on atherosclerosis in ldlr(-/-) mice depends on the timing of infection. <i>Comparative Medicine</i> , 2015 , 65, 114-22	1.6	6
104	Murine Norovirus Infection Variably Alters Atherosclerosis in Mice Lacking Apolipoprotein E. <i>Comparative Medicine</i> , 2015 , 65, 369-81	1.6	5
103	Clinical factors associated with high-risk carotid plaque features as assessed by magnetic resonance imaging in patients with established vascular disease (from the AIM-HIGH Study). <i>American Journal of Cardiology</i> , 2014 , 114, 1412-9	3	25

102	Scan-rescan reproducibility of quantitative assessment of inflammatory carotid atherosclerotic plaque using dynamic contrast-enhanced 3T CMR in a multi-center study. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2014 , 16, 51	6.9	22
101	Effects of CP-900691, a novel peroxisome proliferator-activated receptor β agonist on diabetic nephropathy in the BTBR ob/ob mouse. <i>Laboratory Investigation</i> , 2014 , 94, 851-62	5.9	8
100	Testing the role of myeloid cell glucose flux in inflammation and atherosclerosis. <i>Cell Reports</i> , 2014 , 7, 356-365	10.6	55
99	Serum phosphate is associated with aortic valve calcification in the Multi-ethnic Study of Atherosclerosis (MESA). <i>Atherosclerosis</i> , 2014 , 233, 331-337	3.1	29
98	Deletion of serum amyloid A3 improves high fat high sucrose diet-induced adipose tissue inflammation and hyperlipidemia in female mice. <i>PLoS ONE</i> , 2014 , 9, e108564	3.7	45
97	Relationship of apolipoproteins A-1 and B, and lipoprotein(a) to cardiovascular outcomes: the AIM-HIGH trial (Atherothrombosis Intervention in Metabolic Syndrome with Low HDL/High Triglyceride and Impact on Global Health Outcomes). <i>Journal of the American College of Cardiology</i> , 2013 , 62, 1577-86	15.1	199
96	Associations between aspirin and other non-steroidal anti-inflammatory drugs and aortic valve or coronary artery calcification: the Multi-Ethnic Study of Atherosclerosis and the Heinz Nixdorf Recall Study. <i>Atherosclerosis</i> , 2013 , 229, 310-6	3.1	7
95	Apolipoprotein AI and high-density lipoprotein have anti-inflammatory effects on adipocytes via cholesterol transporters: ATP-binding cassette A-1, ATP-binding cassette G-1, and scavenger receptor B-1. <i>Circulation Research</i> , 2013 , 112, 1345-54	15.7	80
94	Relationship of lipoproteins to cardiovascular events: the AIM-HIGH Trial (Atherothrombosis Intervention in Metabolic Syndrome With Low HDL/High Triglycerides and Impact on Global Health Outcomes). <i>Journal of the American College of Cardiology</i> , 2013 , 62, 1580-4	15.1	131
93	Risk factors associated with the incidence and progression of mitral annulus calcification: the multi-ethnic study of atherosclerosis. <i>American Heart Journal</i> , 2013 , 166, 904-12	4.9	57
92	Smad2-dependent glycosaminoglycan elongation in aortic valve interstitial cells enhances binding of LDL to proteoglycans. <i>Cardiovascular Pathology</i> , 2013 , 22, 146-55	3.8	19
91	Reversibility of structural and functional damage in a model of advanced diabetic nephropathy. <i>Journal of the American Society of Nephrology: JASN</i> , 2013 , 24, 1088-102	12.7	125
90	Genetic associations with valvular calcification and aortic stenosis. <i>New England Journal of Medicine</i> , 2013 , 368, 503-12	59.2	556
89	Increased levels of invariant natural killer T lymphocytes worsen metabolic abnormalities and atherosclerosis in obese mice. <i>Journal of Lipid Research</i> , 2013 , 54, 2831-41	6.3	26
88	T cell activation inhibitors reduce CD8+ T cell and pro-inflammatory macrophage accumulation in adipose tissue of obese mice. <i>PLoS ONE</i> , 2013 , 8, e67709	3.7	27
87	The neuroimmune guidance cue netrin-1 promotes atherosclerosis by inhibiting the emigration of macrophages from plaques. <i>Nature Immunology</i> , 2012 , 13, 136-43	19.1	231
86	How to best manage glycemia and non-glycemia during the time of acute myocardial infarction. <i>Diabetes Technology and Therapeutics</i> , 2012 , 14 Suppl 1, S22-32	8.1	8
85	Aortic valve calcium independently predicts coronary and cardiovascular events in a primary prevention population. <i>JACC: Cardiovascular Imaging</i> , 2012 , 5, 619-25	8.4	88

84	Associations of LV hypertrophy with prevalent and incident valve calcification: Multi-Ethnic Study of Atherosclerosis. <i>JACC: Cardiovascular Imaging</i> , 2012 , 5, 781-8	8.4	21
83	Inhibition of intestinal cholesterol absorption decreases atherosclerosis but not adipose tissue inflammation. <i>Journal of Lipid Research</i> , 2012 , 53, 2380-9	6.3	19
82	Age modification of the association of lipoprotein, lipid, and lipoprotein ratio with carotid intima-media thickness (from the Multi-Ethnic Study of Atherosclerosis [MESA]). <i>American Journal of Cardiology</i> , 2012 , 109, 658-64	3	1
81	Monocyte-to-macrophage differentiation: synthesis and secretion of a complex extracellular matrix. <i>Journal of Biological Chemistry</i> , 2012 , 287, 14122-35	5.4	71
80	Toll-like receptor 4 deficiency decreases atherosclerosis but does not protect against inflammation in obese low-density lipoprotein receptor-deficient mice. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2012 , 32, 1596-604	9.4	77
79	Association of serum phosphate levels with aortic valve sclerosis and annular calcification: the cardiovascular health study. <i>Journal of the American College of Cardiology</i> , 2011 , 58, 291-7	15.1	89
78	Calcific aortic valve disease: not simply a degenerative process: A review and agenda for research from the National Heart and Lung and Blood Institute Aortic Stenosis Working Group. Executive summary: Calcific aortic valve disease-2011 update. <i>Circulation</i> , 2011 , 124, 1783-91	16.7	554
77	Stages of systemic hypertension and blood pressure as correlates of computed tomography-assessed aortic valve calcium (from the Multi-Ethnic Study of Atherosclerosis). <i>American Journal of Cardiology</i> , 2011 , 107, 47-51	3	7
76	Dietary cholesterol exacerbates hepatic steatosis and inflammation in obese LDL receptor-deficient mice. <i>Journal of Lipid Research</i> , 2011 , 52, 1626-35	6.3	160
75	Reduced vascular nitric oxide-cGMP signaling contributes to adipose tissue inflammation during high-fat feeding. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2011 , 31, 2827-35	9.4	66
74	CREB downregulation in vascular disease: a common response to cardiovascular risk. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2010 , 30, 733-41	9.4	62
73	Differential effect of saturated and unsaturated free fatty acids on the generation of monocyte adhesion and chemotactic factors by adipocytes: dissociation of adipocyte hypertrophy from inflammation. <i>Diabetes</i> , 2010 , 59, 386-96	0.9	190
72	Bisphosphonate Use and Prevalence of Valvular and Vascular Calcification in Women MESA (The Multi-Ethnic Study of Atherosclerosis). <i>Journal of the American College of Cardiology</i> , 2010 , 56, 1752-9	15.1	90
71	Relationship of aortic valve calcification with coronary artery calcium severity: the Multi-Ethnic Study of Atherosclerosis (MESA). <i>Journal of Cardiovascular Computed Tomography</i> , 2010 , 4, 41-6	2.8	41
70	Relationship between common carotid intima-media thickness and thoracic aortic calcification: the Multi-Ethnic Study of Atherosclerosis. <i>Atherosclerosis</i> , 2010 , 209, 142-6	3.1	20
69	Age-modification of lipoprotein, lipid, and lipoprotein ratio-associated risk for coronary artery calcium (from the Multi-Ethnic Study of Atherosclerosis [MESA]). <i>American Journal of Cardiology</i> , 2010 , 105, 352-8	3	14
68	Progression of cardiovascular damage: the role of renin-angiotensin system blockade. <i>American Journal of Cardiology</i> , 2010 , 105, 10A-20A	3	68
67	Incidence and progression of aortic valve calcium in the Multi-ethnic Study of Atherosclerosis (MESA). <i>American Journal of Cardiology</i> , 2010 , 105, 701-8	3	103

66	Relationship of metabolic syndrome with incident aortic valve calcium and aortic valve calcium progression: the Multi-Ethnic Study of Atherosclerosis (MESA). <i>Diabetes</i> , 2009 , 58, 813-9	0.9	70
65	Serum amyloid A3 does not contribute to circulating SAA levels. <i>Journal of Lipid Research</i> , 2009 , 50, 1353-62	6.2	64
64	Reduced EGFR causes abnormal valvular differentiation leading to calcific aortic stenosis and left ventricular hypertrophy in C57BL/6J but not 129S1/SvImJ mice. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2009 , 297, H65-75	5.2	37
63	Relationship between coronary artery and descending thoracic aortic calcification as detected by computed tomography: the Multi-Ethnic Study of Atherosclerosis. <i>Atherosclerosis</i> , 2009 , 204, 440-6	3.1	57
62	Plasma glycosylphosphatidylinositol-specific phospholipase D predicts the change in insulin sensitivity in response to a low-fat but not a low-carbohydrate diet in obese women. <i>Metabolism: Clinical and Experimental</i> , 2008 , 57, 473-8	12.7	9
61	Retrovirally mediated overexpression of glycosaminoglycan-deficient biglycan in arterial smooth muscle cells induces tropoelastin synthesis and elastic fiber formation in vitro and in neointimae after vascular injury. <i>American Journal of Pathology</i> , 2008 , 173, 1919-28	5.8	33
60	Ethnic differences between extra-coronary measures on cardiac computed tomography: multi-ethnic study of atherosclerosis (MESA). <i>Atherosclerosis</i> , 2008 , 198, 104-14	3.1	63
59	Inflammation and descending thoracic aortic calcification as detected by computed tomography: the Multi-Ethnic Study of Atherosclerosis. <i>Atherosclerosis</i> , 2008 , 199, 201-6	3.1	26
58	Dietary cholesterol worsens adipose tissue macrophage accumulation and atherosclerosis in obese LDL receptor-deficient mice. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2008 , 28, 685-91	9.4	133
57	Monocyte chemoattractant protein deficiency fails to restrain macrophage infiltration into adipose tissue [corrected]. <i>Diabetes</i> , 2008 , 57, 1254-61	0.9	116
56	Interaction of age with lipoproteins as predictors of aortic valve calcification in the multi-ethnic study of atherosclerosis. <i>Archives of Internal Medicine</i> , 2008 , 168, 1200-7		23
55	Hyperelongated biglycan: the surreptitious initiator of atherosclerosis. <i>Current Opinion in Lipidology</i> , 2008 , 19, 448-54	4.4	71
54	Effect of scanner type on the reproducibility of extracoronary measures of calcification: the multi-ethnic study of atherosclerosis. <i>Academic Radiology</i> , 2007 , 14, 1043-9	4.3	42
53	Inflammatory proteins on HDL: what are we measuring?. <i>Translational Research</i> , 2007 , 150, 150-2	11	2
52	Kidney function and aortic valve and mitral annular calcification in the Multi-Ethnic Study of Atherosclerosis (MESA). <i>American Journal of Kidney Diseases</i> , 2007 , 50, 412-20	7.4	75
51	Do bioprosthetic aortic valves deteriorate more rapidly in patients with the metabolic syndrome?. <i>Nature Clinical Practice Cardiovascular Medicine</i> , 2007 , 4, 192-3		4
50	Diabetes and arterial extracellular matrix changes in a porcine model of atherosclerosis. <i>Journal of Histochemistry and Cytochemistry</i> , 2007 , 55, 1149-57	3.4	49
49	Serum amyloid P colocalizes with apolipoproteins in human atheroma: functional implications. <i>Journal of Lipid Research</i> , 2007 , 48, 2162-71	6.3	45

48	Epidemiology and genetics of calcific aortic valve disease. <i>Journal of Investigative Medicine</i> , 2007 , 55, 284-91	2.9	25
47	Tesaglitazar, a dual peroxisome proliferator-activated receptor alpha/gamma agonist, reduces atherosclerosis in female low density lipoprotein receptor deficient mice. <i>Atherosclerosis</i> , 2007 , 195, 100-9	3.1	43
46	Serum amyloid A: the "other" inflammatory protein. <i>Current Atherosclerosis Reports</i> , 2006 , 8, 62-8	6	79
45	Inflammation in carotid atherosclerotic plaque: a dynamic contrast-enhanced MR imaging study. <i>Radiology</i> , 2006 , 241, 459-68	20.5	242
44	Features of the metabolic syndrome and diabetes mellitus as predictors of aortic valve calcification in the Multi-Ethnic Study of Atherosclerosis. <i>Circulation</i> , 2006 , 113, 2113-9	16.7	193
43	Pathogenesis of calcific aortic valve disease: a disease process comes of age (and a good deal more). <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2006 , 26, 1721-8	9.4	318
42	Reproducibility of CT measurements of aortic valve calcification, mitral annulus calcification, and aortic wall calcification in the multi-ethnic study of atherosclerosis. <i>Academic Radiology</i> , 2006 , 13, 166-72	4.3	96
41	Phospholipid transfer protein activity is associated with inflammatory markers in patients with cardiovascular disease. <i>Biochimica Et Biophysica Acta - Molecular Basis of Disease</i> , 2006 , 1762, 131-7	6.9	50
40	Validation of the severity index by cardiac catheterization and Doppler echocardiography in patients with aortic sclerosis and stenosis. <i>Cardiovascular Ultrasound</i> , 2006 , 4, 12	2.4	4
39	Diet-induced weight loss is associated with decreases in plasma serum amyloid a and C-reactive protein independent of dietary macronutrient composition in obese subjects. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2005 , 90, 2244-9	5.6	92
38	Cholesterol feeding increases C-reactive protein and serum amyloid A levels in lean insulin-sensitive subjects. <i>Circulation</i> , 2005 , 111, 3058-62	16.7	80
37	Association between progression of aortic valve calcification and coronary calcification: assessment by electron beam tomography. <i>Academic Radiology</i> , 2005 , 12, 298-304	4.3	13
36	Angiotensin-converting enzyme inhibitors and change in aortic valve calcium. <i>Archives of Internal Medicine</i> , 2005 , 165, 858-62		125
35	Vascular (humoral) cardiac allograft rejection manifesting as inducible myocardial ischemia on nuclear perfusion imaging. <i>Journal of Nuclear Cardiology</i> , 2005 , 12, 123-4	2.1	1
34	Acrolein modifies apolipoprotein A-I in the human artery wall. <i>Annals of the New York Academy of Sciences</i> , 2005 , 1043, 396-403	6.5	42
33	Statin use and risks of death or fatal rejection in the Heart Transplant Lipid Registry. <i>American Journal of Cardiology</i> , 2005 , 95, 367-72	3	36
32	Acrolein impairs ATP binding cassette transporter A1-dependent cholesterol export from cells through site-specific modification of apolipoprotein A-I. <i>Journal of Biological Chemistry</i> , 2005 , 280, 36386-96	5.4	93
31	Serum amyloid A and lipoprotein retention in murine models of atherosclerosis. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2005 , 25, 785-90	9.4	96

30	Advanced glycation end product precursors impair ABCA1-dependent cholesterol removal from cells. <i>Diabetes</i> , 2005 , 54, 2198-205	0.9	108
29	Fibrillar amyloid protein present in atheroma activates CD36 signal transduction. <i>Journal of Biological Chemistry</i> , 2004 , 279, 10643-8	5.4	116
28	The myeloperoxidase product hypochlorous acid oxidizes HDL in the human artery wall and impairs ABCA1-dependent cholesterol transport. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2004 , 101, 13032-7	11.5	360
27	Human atherosclerotic intima and blood of patients with established coronary artery disease contain high density lipoprotein damaged by reactive nitrogen species. <i>Journal of Biological Chemistry</i> , 2004 , 279, 42977-83	5.4	223
26	Increase in serum amyloid a evoked by dietary cholesterol is associated with increased atherosclerosis in mice. <i>Circulation</i> , 2004 , 110, 540-5	16.7	140
25	Hemorrhage in the atherosclerotic carotid plaque: a high-resolution MRI study. <i>Stroke</i> , 2004 , 35, 1079-84	6.7	345
24	Nutrition and inflammation: role of dietary cholesterol. <i>International Congress Series</i> , 2004 , 1262, 313-316		
23	Smooth muscle cell biglycan overexpression results in increased lipoprotein retention on extracellular matrix: implications for the retention of lipoproteins in atherosclerosis. <i>Atherosclerosis</i> , 2004 , 177, 29-35	3.1	41
22	Hemodynamic effects of the angiotensin-converting enzyme inhibitor, ramipril, in patients with mild to moderate aortic stenosis and preserved left ventricular function. <i>Journal of Investigative Medicine</i> , 2004 , 52, 185-91	2.9	46
21	Cell-associated and extracellular phospholipid transfer protein in human coronary atherosclerosis. <i>Circulation</i> , 2003 , 108, 270-4	16.7	70
20	Usefulness of aortic valve calcium scores by electron beam computed tomography as a marker for aortic stenosis. <i>American Journal of Cardiology</i> , 2003 , 92, 349-53	3	50
19	Aortic valve sclerosis as a marker of active atherosclerosis. <i>Current Cardiology Reports</i> , 2002 , 4, 111-7	4.2	29
18	Accumulation of biglycan and perlecan, but not versican, in lesions of murine models of atherosclerosis. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2002 , 22, 462-8	9.4	102
17	Association of angiotensin-converting enzyme with low-density lipoprotein in aortic valvular lesions and in human plasma. <i>Circulation</i> , 2002 , 106, 2224-30	16.7	223
16	HMG CoA reductase inhibitor (statin) and aortic valve calcium. <i>Lancet, The</i> , 2002 , 359, 1125-6	40	216
15	Genetic variants of the hemostatic system and development of transplant coronary artery disease. <i>Journal of Heart and Lung Transplantation</i> , 2002 , 21, 629-36	5.8	8
14	Reproducibility of electron-beam CT measures of aortic valve calcification. <i>Academic Radiology</i> , 2002 , 9, 1122-7	4.3	38
13	Glycosylphosphatidylinositol-specific phospholipase D is expressed by macrophages in human atherosclerosis and colocalizes with oxidation epitopes. <i>Circulation</i> , 1999 , 99, 2876-82	16.7	44

12	Murine phospholipid hydroperoxide glutathione peroxidase: cDNA sequence, tissue expression, and mapping. <i>Mammalian Genome</i> , 1999 , 10, 601-5	3.2	51
11	Comparison of apolipoprotein and proteoglycan deposits in human coronary atherosclerotic plaques: colocalization of biglycan with apolipoproteins. <i>Circulation</i> , 1998 , 98, 519-27	16.7	247
10	Differences in the distribution of versican, decorin, and biglycan in atherosclerotic human coronary arteries. <i>Cardiovascular Pathology</i> , 1997 , 6, 271-8	3.8	58
9	High-density lipoprotein-binding protein (HBP)/vigilin is expressed in human atherosclerotic lesions and colocalizes with apolipoprotein E. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1997 , 17, 2350-8	9.4	29
8	In vitro and in situ magnetic resonance imaging signal features of atherosclerotic plaque-associated lipids. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1997 , 17, 1496-503	9.4	48
7	Apolipoproteins B, (a), and E accumulate in the morphologically early lesion of regenerative valvular aortic stenosis. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1996 , 16, 523-32	9.4	361
6	Neovascular expression of E-selectin, intercellular adhesion molecule-1, and vascular cell adhesion molecule-1 in human atherosclerosis and their relation to intimal leukocyte content. <i>Circulation</i> , 1996 , 93, 672-82	16.7	374
5	Oxidation-specific epitopes in human coronary atherosclerosis are not limited to oxidized low-density lipoprotein. <i>Circulation</i> , 1996 , 94, 1216-25	16.7	53
4	Acute Myocardial Infarctions. <i>Physical Medicine and Rehabilitation Clinics of North America</i> , 1995 , 6, 69-95	2.3	
3	Interstitial collagenase (MMP-1) expression in human carotid atherosclerosis. <i>Circulation</i> , 1995 , 92, 1393-8	16.7	258
2	Osteopontin is expressed in human aortic valvular lesions. <i>Circulation</i> , 1995 , 92, 2163-8	16.7	287
1	The biology of the artery wall in atherogenesis. <i>Medical Clinics of North America</i> , 1994 , 78, 41-67	7	30
