| #  | ARTICLE                                                                                                                                                                                                                                            | IF  | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | CRP Albumin Ratio May Predict No Reflow in Patients Undergoing Percutaneous Coronary Intervention for Saphenous Vein Graft Stenosis. <i>Angiology</i> , 2023, 74, 55-61.                                                                           | 1.8 | 3         |
| 2  | Predictive Value of Resting Fractional Flow Reserve and Atherogenic Index of Plasma for Evaluation of Physiologically Significant Coronary Artery Lesions. <i>Angiology</i> , 2022, , 000331972210982.                                             | 1.8 | 1         |
| 3  | Evaluation of Acquired Thrombocytopenia According to the Balloon-Expandable Versus Self-Expandable Valves in Patients Undergoing Transcatheter Aortic Valve Replacement. <i>Angiology</i> , 2021, 72, 290-294.                                     | 1.8 | 5         |
| 4  | Association of CHA2DS2-VASc score with thrombus burden in patients with acute myocardial infarction undergoing SVG-PCI. <i>Herz</i> , 2021, , 1.                                                                                                   | 1.1 | 2         |
| 5  | Lower rates of vitamin-K-antagonists usage are also related to physiciansâ€™ and patientsâ€™ comfort with novel oral anticoagulants. <i>Acta Cardiologica</i> , 2020, 75, 95-95.                                                                   | 0.9 | 0         |
| 6  | Mood disorders, survival and medical compliance. <i>Acta Cardiologica</i> , 2020, 75, 809-809.                                                                                                                                                     | 0.9 | 0         |
| 7  | Atrial fibrillation and health-related quality of life. <i>PACE - Pacing and Clinical Electrophysiology</i> , 2020, 43, 156-156.                                                                                                                   | 1.2 | 0         |
| 8  | Egg Consumption and Cardiovascular Health: How Many Eggs a Day Keep the Doctor Away?. <i>Angiology</i> , 2020, 71, 667-667.                                                                                                                        | 1.8 | 1         |
| 9  | Arrhythmia Risk and Laboratory Markers. <i>Angiology</i> , 2019, 70, 782-782.                                                                                                                                                                      | 1.8 | 0         |
| 10 | Comparison of the predictive accuracy of four different ECG algorithms in identification of true ablation site for the idiopathic right ventricular outflow tract tachycardias. <i>Annals of Noninvasive Electrocardiology</i> , 2018, 23, e12529. | 1.1 | 3         |
| 11 | The impact of admission cystatin C levels on in-hospital and three-year mortality rates in acute decompensated heart failure. <i>Cardiovascular Journal of Africa</i> , 2018, 29, 305-309.                                                         | 0.4 | 3         |
| 12 | Echogenicity and the Echocardiographic Guidance. <i>Anatolian Journal of Cardiology</i> , 2018, 21, 177-178.                                                                                                                                       | 0.9 | 0         |
| 13 | Predictors of Neurologically Favourable Survival Among Patients With Out-of-hospital Cardiac Arrest: A Tertiary Referral Hospital Experience. <i>Turk Kardiyoloji Dernegi Arsivi</i> , 2017, 45, 254-260.                                          | 0.5 | 6         |
| 14 | Authors' reply. <i>Turk Kardiyoloji Dernegi Arsivi</i> , 2017, 45, 490.                                                                                                                                                                            | 0.2 | 0         |
| 15 | Authors' reply. <i>Turk Kardiyoloji Dernegi Arsivi</i> , 2017, 45, 493.                                                                                                                                                                            | 0.2 | 0         |
| 16 | Relation Between End-Procedural Activated Clotting Time Values and Radial Artery Occlusion Rate With Standard Fixed-Dose Heparin After Transradial Cardiac Catheterization. <i>American Journal of Cardiology</i> , 2016, 118, 1455-1459.          | 1.6 | 11        |
| 17 | The association between mean platelet volume and spontaneous echocardiographic contrast or left atrial thrombus in patients with mitral stenosis. <i>Anatolian Journal of Cardiology</i> , 2016, 16, 863-867.                                      | 0.9 | 4         |
| 18 | Author's Reply. <i>Anatolian Journal of Cardiology</i> , 2016, 16, 364-5.                                                                                                                                                                          | 0.9 | 0         |

| #  | ARTICLE                                                                                                                                                                                                                | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Perceived Benefits of Implantable Cardioverter Defibrillator Implantation among Heart Failure Patients and Its Relation to Quality of Life: A Cross-Sectional Study. <i>Cardiology and Therapy</i> , 2015, 4, 155-165. | 2.6 | 4         |
| 20 | Comparison of health-related quality of life among patients using novel oral anticoagulants or warfarin for non-valvular atrial fibrillation. <i>Anatolian Journal of Cardiology</i> , 2015, 16, 474-481.              | 0.9 | 19        |
| 21 | Usefulness of notched duration to predict response to cardiac resynchronization therapy. <i>Scandinavian Cardiovascular Journal</i> , 2015, 49, 200-206.                                                               | 1.2 | 4         |
| 22 | Comparison of the accuracy of three algorithms in predicting accessory pathways among adult Wolff-Parkinson-White syndrome patients. <i>Journal of Interventional Cardiac Electrophysiology</i> , 2015, 44, 213-219.   | 1.3 | 16        |
